The district now reviews and ensures that all minutes are complete, accurate, and signed by the Board Secretary. These are kept in paper copy form in the Business Office Manager's files and a digital copy is kept on the district computer. All closed meeting minutes will be kept in entirety with votes documented and a signature page for all Board members present.

6. Passwords

Employees share passwords to access computer systems and are not required to keep passwords confidential, which increases the risk of unauthorized access. District personnel record passwords in a password book kept in the district safe. Three employees have access to the safe and password book. District staff indicated the number of passwords they use makes it difficult to retain the information without writing the passwords down and sharing them. District officials indicated they were not aware of the importance of keeping passwords confidential.

Passwords are required to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not kept confidential, there is less assurance access to computers and data files is limited to only those individuals who need access to perform their job responsibilities. Unique and confidential passwords that contain a minimum number of characters and are changed periodically are necessary to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

Recommendation

The Board of Directors require confidential passwords to prevent unauthorized access to district computers and data.

Auditee's Response

Each employee has their distinct password to the computer system. General staff do not have access to any administrative computer software. The Director does not have access to the accounting system. When information is needed, the Business Office Manager prints out the accounting information needed, and it is reviewed by the Director.

7. Electronic Communication Policy

The district has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo,

provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[11]

Development of written policies to address the use of electronic communications is necessary to ensure all documentation of official business of the district is retained as required by state law. The Board indicated it was unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The Board of Directors develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The district will work with our legal consultant to ensure a policy is in place that is in alignment with state guidance. Currently, the Director does not discuss any business matters with any board members over the phone. These are discussed in an email to the Director's district email address.

8. Capital Assets

The district does not maintain current, complete, and detailed records of capital assets. The district has not updated its capital asset list to include capital assets purchases since at least 2018. The district also does not tag or otherwise identify capital assets as property of the district, or perform an annual physical inventory of district property.

Adequate capital asset records and procedures are necessary to provide controls over district property, to safeguard district assets that are susceptible to loss, theft, or misuse; and to provide a basis for proper financial reporting and insurance coverage. District officials indicated they were not aware of the importance of maintaining capital asset records or performing annual physical inventories.

Recommendation

The Board of Directors ensure complete and detailed capital asset records are maintained, assets are properly tagged for identification, and annual physical inventories are performed and compared to detailed records.

Auditee's Response

The district has 95 percent completed an asset list and inventory. The district will continue to maintain this list at minimum annually. The district will incorporate a number identification system for all assets then assign them a district serial number. The district will complete an internal inventory of all assets annually in November of each year. All district assets will be labeled with a unique identification number associated with the inventory list.

[11] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed July 29, 2022.

Carroll County Ambulance District
Organization and Statistical Information

The Carroll County Ambulance District was established in June 1987 pursuant to Chapter 190, RSMo. The district covers 701 square miles, has one building, and serves approximately 8,500 district residents. The district is comprised of six sub-districts of equal population with one taxpayer from each district comprising the Board of Directors of which a Chairman, Vice Chairman, and Treasurer are appointed from the group. Board members receive no compensation. As of March 31, 2021, the Board consisted of the following members:

Board of Directors

Name and Title	Term Expires
Caren Bittiker, President (1)	April 2022
Carolyn Maberry, Member (2)	April 2022
Karen Miller, Member (3)	April 2023
Janice Miller, Member (4)	April 2021
Margaret Wheeler, Member (5)	April 2023
Dottie Standley, Member (6)	April 2021

(1) Greg Stafford was elected in April 2022 to a 3 year term expiring April 2025.
(2) Carolyn Maberry resigned from her position in November 2021 and was replaced by James Maberry for the remainder of the term. James Maberry was elected in April 2022 to a 3 year term expiring April 2025.
(3) Karen Miller became Board President in May 2021.
(4) Stacia Cowherd was elected in April 2021 to a 3 year term expiring April 2024.
(5) Margaret Wheeler resigned from her position in January 2022 and was replaced by Phillip Henderson for the remainder of the term.
(6) Sherry McCoy was elected in April 2021 to a 3 year term expiring April 2024.

Director

Mario DeFelice served as the Director[12] from June 2020 to March 2021. The Board established the annual compensation of the Director at $75,000. Mario DeFelice was replaced by Interim Director, Daryl Noll, in March 2021, who served until May 2021, when the position was filled permanently by the current Director, Joseph Campbell. The current Director's compensation was established by written contract by the Board of Directors.

Financial Activity

A summary of the district's financial activity obtained from the district's audited financial statement report for the year ended December 31, 2020, follows:

[12] The Director position is also called the Chief of EMS or Administrator.

			Total Payments		$ 117,163.50	62,634.00	35,149.50	4,380.00	15,000.00	54,529.50	1,945.00	56,474.50

(1) According to the former Business Office Manager, the former Director changed the pay period from bi-monthly to bi-weekly in November 2020 to make it easier to review when comparing employee schedules to time records.

(2) Purpose as shown on time records. For some days, the purpose was indicated and for other days no purpose was indicated, and was unknown.

(3) Hours worked as shown on time summaries.

(4) Supported payments include regular hours paid at $36.50 per hour; overtime hours paid at $54.75 per hour when the former Director was either scheduled to work as the sole paramedic for an ambulance and/or performed an ambulance run as the sole paramedic; and 8 hours each for Thanksgiving, Christmas, and New Year's Day paid at $36.50 per hour.

(5) Overpayments of overtime pay occurred when the Director claimed time but either was not scheduled to work on an ambulance or did not make an ambulance run as the only available paramedic as authorized by the Board. Overpayments are calculated by multiplying unsupported overtime hours claimed by the Director's time and one-half hourly rate of $54.75.

(6) The Director was neither scheduled to work on an ambulance or made an ambulance run on any of these holidays. Therefore, he was only allowed 8 hours of holiday pay at his hourly rate of $36.50 in accordance with district policy. Overpayments include additional holiday hours claimed in excess of the 8 hours allowed and paid at the Director's time and one-half hourly rate of $54.75. In addition, for the 8 holiday hours allowed by policy, the difference between the time and one-half hourly rate paid and the allowed hourly rate ($54.75 - $36.50 = $18.25) multiplied by the 8 hours is included as an overpayment.

(7) According to the former Business Office Manager, the former Director did not turn in his time record for this pay period until July 31, 2020, delaying the processing of the direct deposit.

(8) According to the former Business Office Manager, when the pay period was bi-monthly, payroll was processed on the 15th and the final day of the month, unless this day fell on a weekend or holiday. In these instances payroll was processed before the end of the pay period and adjustments would be made on the next payroll for any differences in actual employee time worked.

(9) "Retension [sic] Pay" was noted on the check stub.

(10) Deductions were made for reimbursement of medical plan expenses from these checks.

(11) The last day of work noted on the former Director's time record was March 3, 2021.

				Total	$ 100,188.55	70,628.83	1,199.70	9,722.50	9,917.52	8,720.00	29,559.72

(1) To keep employee names and positions confidential we have given each employee a unique number. Numbers may be repeated because overpayments were noted for the same employee in multiple bi-weekly pay periods. Other Staff positions include Administration, Emergency Medical Technician, Registered Nurse, and/or Paramedic.

(2) Hours worked as shown on time summaries.

(3) Overpayments of regular pay reflect regular hours improperly reported and paid at the employee's hourly rate.

(4) Overpayments for overtime pay reflect unsupported overtime hours reported and paid at the employee's time and one-half rate of pay.

(5) Overpayments of holiday pay reflect unsupported holiday hours reported and improperly paid at the employee's time and one-half pay rate.

(6) The overpayments of other pay include improper double time hours reported and improperly paid at the employee's double time pay rate.

(7) The employee used a personal day (8 hours) and was improperly paid at their time and one-half hourly rate of $22.50 instead of their hourly rate of $15. The difference, $7.50, multiplied by the 8 hours, is shown as an overpayment.

(8) The employee was not paid at their time and one-half rate for 8 hours of overtime earned, instead they were improperly paid at their hourly rate of pay.

(9) The employee worked the 8 hour holiday, but the holiday hours were over reported as 16 hours and improperly paid at the employee's hourly pay rate (16 x $15.00 = $240); however, the employee should have been paid for 8 holiday hours at the employee's time and one-half hourly rate (8 x $22.50 = $180), and the difference is shown as an overpayment.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Clay County Collector and Property Tax System

Property Tax System Controls and Procedures	The County Clerk did not prepare the back tax, land and personal tax, or railroad and utility tax aggregate abstracts for 2020 or 2021. The County Clerk did not maintain an account book or other records summarizing property tax charges, transactions, and changes and no other review or reconciliation process was in place to verify this information.
Tax Billing and Collection Services	The County Collector does not have current written contracts with all cities and villages for tax billing and collection services.
Liabilities	The County Collector does not prepare a monthly list of liabilities for the tax sales account, and consequently, liabilities are not agreed to the reconciled bank balance.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
County Collector
Clay County, Missouri

We have audited the County Collector and Property Tax System of Clay County. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. On July 28, 2021, a vacancy occurred in the office of the County Collector of Clay County. A successor was appointed and sworn into office effective July 29, 2021. The scope of our audit included, but was not necessarily limited to, the period of March 1, 2021, to July 28, 2021, and the year ended February 28, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant property tax functions.

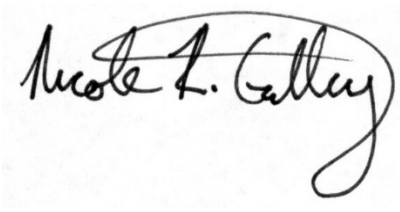
2. Evaluate the county's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using judgmental selection. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and county management and was not subjected to the procedures applied in our audit of the County Collector and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any funds owed to the county or the former County Collector. For the areas audited, we identified (1) deficiencies in internal controls and (2) noncompliance with legal provisions. The accompanying Management Advisory Report presents our findings arising from our audit of the County Collector and Property Tax System of Clay County.



Nicole R. Galloway, CPA
State Auditor

Clay County Collector and Property Tax System Management Advisory Report State Auditor's Findings

1. Property Tax System Controls and Procedures

Controls and procedures over the property tax system need improvement. The County Collector's office collected approximately $460.5 million in property taxes and other miscellaneous receipts during the year ended February 28, 2021.

1.1 Aggregate abstracts

The County Clerk did not prepare the back tax, land and personal tax, or railroad and utility tax aggregate abstracts for 2020 or 2021. The County Clerk indicated that she missed completing these aggregate abstracts and thought the Department of Revenue would send a notice if they were not completed.

Section 137.295, RSMo, requires the County Clerk to prepare these reports and forward them to the Department of Revenue and State Tax Commission upon completion of current and delinquent tax books.

1.2 Review of property taxes

The County Clerk did not maintain an account book or other records summarizing property tax charges, transactions, and changes and no other review or reconciliation process was in place to verify this information. As a result, there is an increased risk of loss, theft, or misuse of property tax money going undetected, and less assurance the annual settlements are complete and accurate. The County Clerk indicated she was unaware of the need for an account book.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with money payable into the county treasury. An account book or other records summarizing all taxes charged to the County Collector, monthly collections, delinquent credits, additions and abatements, and protested amounts would help ensure taxes charged and credited to the County Collector are complete and accurate and could also be used by the County Clerk, and the County Commission to verify the accuracy and completeness of the County Collector's annual settlements and delinquent tax books. Such procedures are intended to establish checks and balances related to the collection of property taxes.

Recommendations

1.1 The County Clerk prepare the back tax, land and personal tax, and railroad and utility tax aggregate abstracts and timely file them with the Department of Revenue and State Tax Commission.

1.2 The County Clerk maintain an account book with the County Collector for use in reviewing County Collector records.

Auditee's Response

1.1 The County Clerk currently prepares tax books for back tax, land and personal tax, and railroad and utility tax. The County Clerk will make sure to file the corresponding aggregate abstracts timely.

1.2 The County Auditor currently audits all Collector disbursements and accounting. The County Clerk will add account book procedures for collections as an additional check and balance.

2. Tax Billing and Collection Services

The County Collector does not have current written contracts with all cities and villages for tax billing and collection services. The County Collector indicated new contracts were sent to all 25 cities and villages in 2021. The new contracts included certain increased commission percentages; however, not all cities and villages agreed to the increased commissions and did not sign the new contracts. The County Collector indicated that it is expensive and cumbersome to have more than 1 commission percentage in the property tax system for the municipalities. As a result, although 12 cities and villages had signed new contracts, the County Collector continued to collect commission percentages at the 2012 contract rates. The County Collector indicated, that based on discussion with the County Commission, the County Counselor is reviewing the contract wording before any further updated contracts will be issued. The office collected approximately $64 million in property taxes and other miscellaneous receipts for cities and villages during the year ended February 28, 2021.

Section 432.070, RSMo, requires all contracts to be in writing. Current, clear, and detailed written contracts are necessary to ensure all parties are aware of the services to be performed and the compensation to be paid for the services.

A similar condition was noted in our prior audit report, *Clay County Collector*, Report No. 2020-114, issued in December 2020.

Recommendation

The County Collector work with the County Commission to obtain current written contracts with all cities and villages for tax billing and collection services.

Auditee's Response

The county is working to obtain written contracts with all cities and villages for tax billing and collection services.

3. Liabilities

The County Collector does not prepare a monthly list of liabilities for the tax sales account, and consequently, liabilities are not agreed to the reconciled bank balance. At our request, the County Collector prepared a list of liabilities as of June 30, 2021. The reconciled bank balance as of June 30, 2021, was $56,155 while the list of liabilities totaled $57,862, resulting in a shortage of $1,707. The County Collector indicated the difference between liabilities and the reconciled bank balance was due to an accounting error before 2020.

Preparing monthly lists of liabilities and reconciling them to the available cash balances is an important control to ensure sufficient cash is available for the payment of amounts due and all money in the bank accounts can be

identified. Prompt follow up on discrepancies is necessary to resolve errors and ensure money is properly disbursed.

Recommendation

The County Collector prepare monthly lists of liabilities and reconcile the lists to the available cash balances. Any differences should be promptly investigated and resolved. Any unidentified money should be disposed of in accordance with state law.

Auditee's Response

The County Collector has implemented procedures to balance the tax sale account after each transaction is processed. The liabilities report, along with the monthly bank reconciliation, is provided to the County Auditor.

Clay County Collector and Property Tax System
Organization and Statistical Information

The County Collector bills and collects property taxes for the county and most local governments in the county. Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

Lydia McEvoy served as County Collector until July 28, 2021. In addition, she continued working for the county to assist with the transition until August 27, 2021. Barbara O'Riley was appointed the Clay County Collector and sworn into office on July 29, 2021.

The County Collector received compensation of $33,396 for the period March 1, 2021, through July 28, 2021. The County Collector also received an additional $4,554 in compensation for work performed after her resignation to assist with the transition. During the year ended February 28, 2021, the County Collector received compensation of $78,937. Compensation was in accordance with statutory provisions.

The former County Collector provided the following comments by email in response to the overall report.

I cannot speak to the Clerk fulfilling her duties or the Commission fulfilling its duties. Throughout my entire 10 years in office, the Clerk had our software installed on a computer in the office so the Clerk or Clerk's employees could dig as deeply as needed at any time to generate the reports needed to document and track collections.

The excessive amount of manual manipulation, and the inherent risks that come with that, are issues that every elected Auditor and Collector in Clay County have noted for decades. During my time in office, the Assessor and I formed a historic bond to work for 3 years trying to find a software product that would allow data to flow from her office to mine, reducing manual manipulation by the Collector, correctly calculate and bill taxes, and contain a bank reconciliation module that pulled data from the system. After countless hours of work and hundreds of thousands of dollars from our respective budgets, we determined that the 2 largest technology companies in the world were unable to create a product that could do everything we needed with the robust functionality necessary for Clay County tax collection and distribution. Software that may serve our needs was in development at the time, but it was not ready for us.

Because the manual processes in the Collector's office do carry such inherent risk, we strictly followed a complex set of checks and balances, and maintained mountains of paperwork, documenting our work, and protecting the taxpayers and taxing jurisdictions of Clay County from errors or fraud. I stand behind that documentation to this day, and I am certain that an audit of transactions rather than an audit of processes would have revealed an extraordinarily high level of accuracy for such manual work.

I trust that this audit report will keep the issue of software front of mind for future Collectors, Assessors, and Commissions. Under the new form of Clay County government, the Collector will need full support of other offices in order to find and implement the appropriate integrated software. I warn future Commissions and appointed Collectors that they should have no illusions that this process is simple. Two very knowledgeable and highly cooperative elected officials made a sincere effort to get this done, and were completely unable to do so. It is a complex problem that requires a sophisticated approach. However, I am confident that future governments will continue to work the problem until a better solution can be found.

I appreciate the audit found that the Collector owes no money to the county, and I have full confidence that same level of accuracy and honesty will continue with subsequent Collectors.

Following the state audit finding in 2020, that the County Collector's office did not have signed city contracts with every city in Clay County, I sought new contracts and appropriate approvals. That update process was ongoing when I left office.

During my tenure all books and accounts were reconciled to the day and to the month, and all reports were reviewed by the County Auditor. Once an accounting error occurs, it is a better practice to carry that error on the books for the purposes of transparency then to write it off the books. Therefore, carrying forward an error for several years is reflective of a best practice more than anything else. When collecting and distributing $400 million, errors will occur. The best way to assure the taxpayers of Clay County that they are protected is to keep accurate records of all transactions, even errors.

City of Polo

Report No. 2022-106

November 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Polo

Property Transfer	The Board of Aldermen approved the transfer of city property to an individual without properly evaluating the transaction, including not seeking a legal opinion regarding the transfer or obtaining an appraisal of the property.
Accounting Controls and Procedures	The Board has not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions is performed. The city's procedures for receipting money need improvement, and the Board's review and approval process for disbursements is not adequate. The City Clerk does not prepare a monthly list of liabilities for water meter deposits held on behalf of utility customers to compare to the balance of the water meter account.
Utility System Controls and Procedures	Controls over non-monetary adjustments posted to customer utility accounts need improvement. City personnel do not perform monthly reconciliations of utility records.
Sunshine Law	The Board did not always comply with the Sunshine Law requirements for closed meetings and has not adopted a written policy regarding public access to city records as required by state law. The city does not maintain a log of records requests.
Compensation Ordinances and Payroll Procedures	The city does not have ordinances establishing the compensation of city officials, other than for the Mayor and Board of Aldermen, or the city's part-time employees. Employees are not required to sign timesheets and timesheets are not reviewed and approved by supervisors.
Electronic Data Security	The city has not established adequate user identification and password controls for access to city computers and data and does not store data backup files at an off-site location.
Electronic Communication Policy	The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Polo, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Polo. We have audited certain operations of the city in fulfillment of our duties. The city engaged Kenney D. Hales, Certified Public Accountant (CPA), PC, to audit the city's financial statements for the year ended December 31, 2021. To minimize duplication of effort, we reviewed the report of the CPA firm. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

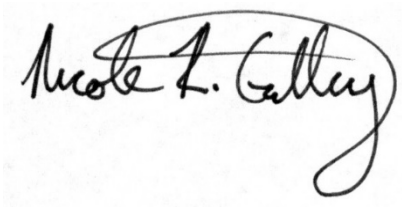
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city; and performing sample testing using judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Polo.



Nicole R. Galloway, CPA
State Auditor

1. Property Transfer

The Board of Aldermen approved the transfer of city property to an individual without properly evaluating the transaction, including not seeking a legal opinion regarding the transfer or obtaining an appraisal of the property. In a December 2018 meeting, the Board approved a motion to transfer city-owned property to an individual who owned an adjacent property. This individual, who offered to purchase the property, indicated he thought the property, which included a road and an alley, was part of the property he purchased 20 years prior. A motion was made and approved to allow the individual "to have the property that is in question since he has maintained it for 20 years." The minutes do not make clear what property the Board was approving to convey.

The city provided a quit claim deed to the property owner in January 2019, in exchange for $1, but the deed was not evaluated by the Board for accuracy or reviewed by an attorney for the city to ensure the legal description of the property in question was correct and represented what the Board intended to convey. As such, the parcel of land that transferred ownership was not what the city intended to transfer. In addition, the city did not obtain an appraisal of the property, which also may have clarified the piece of property being transferred. After questions were raised regarding the transfer of this property, the city hired a law firm to provide legal advice. At the time of this report, no formal action has been taken by either party.

Properly evaluating the purchase, sale, or transfer of property helps ensure the transaction is reasonable, properly documented, and in the best interests of the city. Good business practice requires real estate transactions be formally and independently appraised to ensure a reasonable price is paid.

Recommendation

The Board of Aldermen ensure all future transactions involving the purchase, sale, or transfer of city property are properly evaluated before being finalized and appraisals are obtained prior to the purchase or sale of real estate.

Auditee's Response

The city has retained an attorney to help with any future issues that may arise and will properly evaluate any future real estate transactions, including having legal counsel ensure the city is abiding by all laws and regulations and obtaining an appraisal if necessary.

2. Accounting Controls and Procedures

Accounting controls and procedures need improvement. Bank records indicate the city received approximately $550,000 in tax, utility, and other receipts during the year ended December 31, 2021.

2.1 Segregation and oversight

The Board has not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions is performed.

The City Clerk is responsible for most financial duties of the city including receipting money, preparing deposits, posting transactions to the accounting system, preparing invoices for payment, making disbursements, preparing monthly bank reconciliations, transferring money between bank accounts, and preparing financial reports for Board meetings. The City Clerk is also responsible for preparing and adjusting utility bills, monitoring accounts receivable, and preparing payroll. The City Clerk indicated she was the only employee in City Hall until May 2022 and the Board had not established procedures to review her work.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records are needed.

2.2 Receipting

The city's procedures for receipting money need improvement.

- The City Clerk does not issue prenumbered receipt slips for all money received. Instead, she only issues receipt slips upon request. The City Clerk indicated she had not considered the need for the city to have a sequential record of each payment received.

- The City Clerk does not restrictively endorse checks and money orders upon receipt and only endorses them when deposits are prepared. None of the 15 checks on hand during our June 7, 2022, cash count were endorsed. The City Clerk indicated she was trained to endorse checks and money orders when preparing deposits and had not considered the need to endorse them when received.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of money will occur and increases the likelihood that errors will go undetected.

2.3 Disbursements

The Board's review and approval process for disbursements is not adequate. The City Clerk prepares checks for payment of invoices and presents a list of disbursements to the Board at each meeting. Although meeting minutes may document discussion of specific purchases and a vote of the Board to approve all bills, the Board generally does not review invoices or any other documentation supporting the disbursements. In addition, the Board does not sign the disbursement lists to document approval and does not reconcile disbursement lists to payments issued. Board members indicated they believed documenting the approval in the minutes was sufficient.

A detailed list of disbursements, signed or initialed by Board members to denote their approval, and retained with official minutes, helps ensure adequate documentation of disbursements. Failure to properly review all

invoices and supporting documentation and document authorizations increases the possibility of inappropriate disbursements.

2.4 Liabilities

The City Clerk does not prepare a monthly list of liabilities for water meter deposits held on behalf of utility customers, and consequently, liabilities are not compared to the balance of the water meter account. Water meter deposits are recorded in a manual ledger maintained in city hall. The City Clerk indicated she has never totaled the ledger and was unaware of the need to compare the total from the ledger to the account balance. Based on the amounts shown as being held in the ledger as of December 31, 2021, the water deposit liability totaled $35,750, although the balance of the account was $36,917, resulting in an unidentified balance (overage) of $1,167. At least some of this difference is due to accumulated interest maintained in the account.

Regular identification and comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, money is available to satisfy all liabilities, and any differences are adequately investigated and resolved. Various statutory provisions provide for the disposition of unidentified money.

Recommendations

The Board of Aldermen:

2.1 Segregate the accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

2.2 Ensure prenumbered receipt slips are issued for all money received. In addition, ensure checks and money orders are restrictively endorsed upon receipt.

2.3 Review and document approval of all disbursement lists and retain with Board minutes. In addition, ensure an independent review of supporting documentation is performed before payment is made and reconcile approved disbursements to payments issued.

2.4 Ensure monthly lists of liabilities are prepared and reconciled timely to the bank account. Any differences between accounting records and reconciliations should be promptly investigated and resolved. In addition, any unidentified money should be disbursed in accordance with state law.

Auditee's Response

2.1 Duties have now been segregated to the extent possible. The City Clerk handles bank reconciliations and payroll, while the Assistant City Clerk handles account payables and utility payments. In addition to these employees reviewing each other's work, the Board

will periodically come in to perform random checks to ensure proper oversight of accounting functions.

2.2 We are now issuing prenumbered receipt slips for all payments received and all checks and money orders are endorsed upon receipt.

2.3 The Board of Aldermen and Mayor have been provided disbursement lists of all payments in the past, but the Board will ensure its review and approval of the listing, as well as supporting documentation for disbursements, is documented in the future. In addition, the disbursement lists will be retained with the meeting minutes in the future.

2.4 Lists and liabilities will be reconciled to the bank account at the beginning of every month when statements are received and bank reconciliations are performed. The Board will attempt to identify and resolve the cause of the difference.

3. Utility System Controls and Procedures

Utility system controls and procedures need improvement. According to the city's accounting records, the city collected approximately $273,000 for water, sewer, and trash services and utility deposits during the year ended December 31, 2021.

3.1 Non-monetary adjustments

Controls over non-monetary adjustments posted to customer utility accounts need improvement. Non-monetary adjustments are any transactions for which no money is received; however, the amount due in the accounting system is changed. The City Clerk posts non-monetary adjustments in the utility system to adjust usage for inaccurate meter readings or reduce a balance due to water leaks without any review or approval by an independent person. The City Clerk also collects money and posts receipts to the accounting system.

In addition, the City Clerk does not create a listing of all adjustments posted to the system to compare to known adjustments. As a result, there is an increased risk of theft and misuse occurring without being detected. The City Clerk indicated that often adjustments were discussed with the Mayor, but no documentation was retained. She indicated she was unaware of the need to retain documentation of approved adjustments to allow for a comparison to adjustments actually made in the system.

Approving all non-monetary adjustments prior to their posting in the computer system and later comparing a list of the completed adjustments to the list of approved adjustments, by an independent person, is necessary to ensure adjustments made are proper.

3.2 Utility reconciliations

City personnel do not perform monthly reconciliations of utility records.

- The City Clerk does not perform monthly reconciliations of total billings, payments received, and amounts remaining unpaid for utility services. The City Clerk indicated she was unaware of a specific report in the system designed to perform this reconciliation or the need to do it.

- City personnel do not perform monthly reconciliations of total gallons of water billed to gallons of water purchased. The City Clerk indicated this reconciliation had been performed in the past, either by herself or the water department personnel, but it has not been completed in recent years. She believes this reconciliation process stopped occurring when various personnel left employment.

Monthly reconciliations are necessary to ensure that all accounting records balance, transactions have been properly recorded, and any errors or discrepancies are detected timely. A periodic review by the board of a listing of all delinquent amounts will help ensure adequate follow-up procedures are performed. Monthly reconciliations of gallons of water billed to gallons of water pumped are necessary to help detect significant water loss or other problems and ensure all water usage is properly billed.

Recommendations

The Board of Aldermen:

3.1 Ensure all utility account adjustments are properly approved and compared to actual changes posted to the computer system, and documentation of the adjustments is retained.

3.2 Ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and of gallons of water billed to gallons pumped, and investigate significant differences.

Auditee's Response

3.1 A list of adjustments is now given at the board meeting for approval. Documentation of the resident's account history will be attached to ensure that the adjustment was given, for how much, and reason why. The Board will ensure all adjustments made are correct and were properly approved.

3.2 The Board will ensure these reconciliations are performed monthly in the future. The water loss reconciliation was done in the past, and we will ensure it is done moving forward.

4. Sunshine Law

The Board did not always ensure compliance with the Sunshine Law.

4.1 Closed meetings

The Board did not always comply with the Sunshine Law requirements for closed meetings.

Reasons for closed meetings

Open meeting minutes did not document the specific reasons or section of law allowing the meeting to be closed for any of the 6 closed meetings held between January 1, 2020, and July 31, 2022. The City Clerk indicated that she was not aware this needed to be listed in the open minutes.

Section 610.022, RSMo, requires public bodies announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason into the minutes.

Allowable topics

Some topics discussed in closed meetings were not allowable under the Sunshine Law. For example, the Board opened and awarded a bid for mowing the city park in a closed meeting. The City Clerk indicated the Board believed that this reason was covered under Section 610.021, RSMo.

Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings should be limited to only those specifically allowed by law.

4.2 Public access policy

The Board has not adopted a written policy regarding public access to city records as required by state law. A written policy regarding public access to city records would establish guidelines for the city to make records available to the public. Such policies typically identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records. Board members indicated they were unaware a written policy was required.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the city to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law.

4.3 Records requests

The city does not maintain a log of records requests and could not produce a record of dates requests were made, when records were provided, or communications related to these requests. The City Clerk indicated that requests are infrequent and she typically responds to requests within a few days.

Section 610.023, RSMo, provides that each request for access to public records shall be acted upon as soon as possible, but in no event later than the end of the third business day following the date the request was received by the custodian of records. To ensure compliance with this law, a log tracking key information supporting the fulfillment process for the request is important. Such information includes, but is not limited to, the date of request, a brief description of the request, the date the request is completed or reason why the request cannot be completed, and any associated costs of filling the request.

Recommendations

The Board of Aldermen:

4.1 Ensure specific reasons for closing a meeting are documented in the open minutes, and only topics allowed by state law are discussed in closed meetings.

4.2 Develop a written public access policy for city records.

4.3 Maintain a public request log or other documentation to help ensure compliance with state law.

Auditee's Response

4.1 We are now documenting specific reasons for closing meetings in open session minutes. The Board will also ensure that only topics that are allowed by law are discussed in closed sessions.

4.2 The City Clerk had a document in place for the public to access city records, but it had not been adopted by the Board. We are currently in the process of drafting a policy for Board approval.

4.3 The City Clerk has made a request log for all record requests, which contains the date, time, person requesting, and date completed.

5. Compensation Ordinances and Payroll Procedures

City compensation ordinances and payroll procedures need improvement.

5.1 Compensation ordinances

The city does not have ordinances establishing the compensation of city officials, other than for the Mayor and Board of Aldermen, or the city's part-time employees. City officials were unaware of the need for additional salary ordinances.

Ordinances documenting approved salary amounts help ensure equitable treatment and prevent any misunderstandings. Section 79.270, RSMo, authorizes the Board to fix the compensation of all city officials and employees by ordinance.

5.2 Timesheets

Employees are not required to sign timesheets and timesheets are not reviewed and approved by supervisors. We noted 3 of 5 employees did not sign their timesheets during the pay period ending July 7, 2021, and none of these timesheets were reviewed and approved by supervisors. City Officials indicated that supervisors were ensuring employees were working the required hours and most employees worked an established number of hours each pay period.

Signed, approved timesheets are necessary to ensure the accuracy of the hours worked. In addition, the Fair Labor Standards Act (FLSA) under 29 CFR Section 516.2(a) requires employers to maintain accurate records of actual time worked by employees.

Recommendations

The Board of Aldermen:

5.1 The Board of Aldermen establish, by ordinance, the compensation of city officials and employees.

5.2 Ensure timesheets are properly completed, signed, and approved.

Auditee's Response

5.1 The Board will establish, by ordinance, the compensation of city officials and employees.

5.2 Time sheets are now properly completed, signed, and approved.

6. Electronic Data Security

Controls over the city computers are not sufficient. As a result, city records are not adequately protected and are susceptible to unauthorized access or loss of data.

6.1 User identification and passwords

The city has not established adequate user identification and password controls to reduce the risk of unauthorized access to city computers and data. The City Clerk and Assistant City Clerk share a user identification and password for the accounting and utility system. As a result, there is no assurance that the user listed in the system for posting a transaction is the person who did it. In addition, officials are not required to change passwords periodically.

User identifications and passwords that are unique, sufficiently complex, confidential, and changed periodically help reduce the risk of a compromised password and unauthorized access to and use of the city computers and data.

6.2 Data backup

The city does not store data backup files at an off-site location. Instead, the city maintains backup files in City Hall. The City Clerk indicated that city officials believed this was enough. Off-site storage would provide reasonable assurance data could be recovered even if city hall files were lost.

Recommendations

The Board of Aldermen:

6.1 Require employees to have unique user identifications and passwords and change passwords periodically.

6.2 Ensure backup files are stored at a secure, off-site location.

Auditee's Response

6.1 Employees have now established unique user identifications and passwords for computers and the accounting system, and the Board will determine how often passwords will be changed.

6.2 Backup files will be stored off-site at a secure location in the future.

7. Electronic Communication Policy

The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law. The Board members indicated they were unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The Board of Aldermen work with other city officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The Board will work with other city officials to develop an electronic communications management and retention policy that complies with the Secretary of State's guidelines.

City of Polo
Organization and Statistical Information

The City of Polo is located in Caldwell County. The city was incorporated in 1953 and is a fourth-class city. The city employed two full-time employees and five part-time employees on December 31, 2021.

City operations include utility services (water, sewer, and trash), police, maintenance of streets, and parks.

Mayor and Board of Aldermen

The city government consists of a mayor and four-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor is paid $35 per meeting and Board of Aldermen members $25 per meeting. The compensation of these officials is established by ordinance. The Mayor and Board of Aldermen at December 31, 2021, are identified below.

Tracy M. Allen, Mayor
Tanya Allen, Alderwoman (1)
Constance Cook, Alderwoman (2)
Ryan Jenkins, Alderman (3)
Joslynn C. Marco, Alderwoman

(1) Ashley Ledbetter was appointed to fill this vacancy in May 2022 because no one filed for this seat in the April 2022 election.
(2) Resigned her position in December 2021. Emma Witterveen was appointed to complete the unexpired term. Emma Tormey was elected in April 2022.
(3) Replaced by Steven Jordan, who was elected in April 2022.

Financial Activity

A summary of the city's financial activity for the year ended December 31, 2021, obtained from the city's audited financial statements follows.

Financial Status 3

NICOLE GALLOWAY, CPA
Missouri State Auditor

Cale Haddock, Executive Director
and
Board of Directors
US Highway 65 and Truman Dam Access Road Transportation Development District
Warsaw, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On June 24, 2022, the Board of Directors of the US Highway 65 and Truman Dam Access Road Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

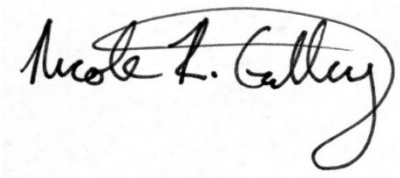
The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021, and the period from January 1 through June 30, 2022. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing financial records and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The audit determined the district's Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the US Highway 65 and Truman Dam Access Road Transportation Development District.



Nicole R. Galloway, CPA
State Auditor

US Highway 65 and Truman Dam Access Road Transportation Development District
Management Advisory Report - State Auditor's Findings

Financial Status

Our audit of the US Highway 65 and Truman Dam Access Road Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The US Highway 65 and Truman Dam Access Road TDD is located in Benton County, in the City of Warsaw. The district was organized in March 2003 by petition of the property owner/developer within the proposed TDD. The district consisted of 1 property owner at the time of formation with another entity becoming a property owner within the district's boundaries subsequent to the establishment of the district. The members of the Board of Directors and officers consist of 1 City of Warsaw employee and 4 representatives of a property owner/developer. The district has a fiscal year end of December 31.

The US Highway 65 and Truman Dam Access Road TDD was formed for the purpose of improving the roadways with construction of Commercial Street, Polk Street, storm drainage, and northbound and southbound highway ramps. The City of Warsaw is the public entity with jurisdiction over the local portion of the project and serves as the Local Transportation Authority. The Missouri Highways and Transportation Commission (MHTC) serves as the entity with jurisdiction over the state portion of the project. The project was completed in 2005, and the City of Warsaw and the MHTC subsequently accepted ownership of the project. The US Highway 65 and Truman Dam Access Road TDD's portion of the project costs was $1,905,534.

In October 2003, the qualified voters of the district approved a 1/2-cent (0.5 percent) sales tax on all taxable transactions within the boundaries of the district. The Board of Directors subsequently passed a resolution formally establishing that sales tax rate to be effective October 31, 2003, for 40 years unless terminated sooner.

In September 2004, the US Highway 65 and Truman Dam Access Road TDD Board entered into a reimbursement agreement with the property owner/developer to pay for the project costs with a 6 percent interest rate. The US Highway 65 and Truman Dam Access Road TDD satisfied this debt in January 2020.

The Board waited approximately 2.5 years, until June 2022, to approve rescinding the sales tax and notifying the Department of Revenue to stop collecting the district's tax. Legal counsel for the district indicated the delay was caused by the Board not meeting between 2012 and June 2022. This delay by the district Board resulted in significant over taxation of the public. From the time the district paid the debt to the district board's approval of rescinding the sales tax, approximately $627,000 in sales taxes were collected by the district. None of these taxes were needed to pay for project costs.

From the TDD's inception in 2003 through June 30, 2022, the US Highway 65 and Truman Dam Access Road TDD received $3,723,178 in sales tax revenues, and paid the initial property owner/developer $1,905,534 in project costs and $1,079,268 in interest costs. See the table below for district financial activity from 2003 through 2020, the year ended December 31, 2021, and the period January 1, 2022, through June 30, 2022.

In June 2022, the US Highway 65 and Truman Dam Access Road TDD Board formalized its intent to dissolve the district. The district subsequently advised the State Auditor's Office (SAO) of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo. That statute requires the State Auditor to audit the district to determine its financial status, and determine whether it may be abolished pursuant to law. It also states the board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the district is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following table presents the financial activity and cash balances from March 2003 through December 2020, the year ended December 31, 2021, and the period from January 1, 2022, through June 30, 2022.

	January 1, 2022, through June 30, 2022	Year Ended December 31, 2021	March 2003 through December 31, 2020
RECEIPTS			
Sales Tax	$ 129,764	264,566	3,328,848
Interest	142	518	9,622
Total Receipts	129,906	265,084	3,338,470
DISBURSEMENTS			
Project	0	0	1,905,534
Interest	0	0	1,079,268
Legal	7,071	5,507	62,979
Accounting	877	1,553	37,519
Bank Fees	21	42	383
Total Disbursements	7,969	7,102	3,085,683
RECEIPTS OVER (UNDER) DISBURSEMENTS	121,937	257,982	252,787
BEGINNING CASH	510,769	252,787	0
ENDING CASH	$ 632,706	510,769	252,787

Source: Compiled by the SAO using the district's bank statements and financial statements

Based on our audit, the cash balance of the US Highway 65 and Truman Dam Access Road TDD as of June 30, 2022, was $632,706. As of September 30, 2022, the cash balance increased to $709,646. As of July 6, 2022, the fees for legal services are estimated at $10,000 before abolishment and $5,000 in accounting fees. There are no pending, threatened, or unasserted claims or assessments against the district according to district legal counsel. District officials confirmed the district is not insolvent, in receivership, or under the jurisdiction of a bankruptcy court. Based on these representations, district assets are sufficient to pay any remaining costs and obligations. Therefore, the district meets the abolishment criteria established in Section 238.275.3, RSMo. After the district's final costs and professional fees are paid, the remaining balance will be distributed to the City of Warsaw in accordance with Section 238.275.5(1), RSMo.

Based on our audit, the Board of Directors may proceed with the abolishment of the US Highway 65 and Truman Dam Access Road Transportation Development District in accordance with Section 238.275, RSMo.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Barry County, Missouri

The Office of the State Auditor contracted for an audit of Barry County's financial statements for the year ended December 31, 2021, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, CPAs and Business Advisors, is attached.

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Barry County

2021-001	The county periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget and also to prevent deficit fund balances. An amended budget should be prepared and approved as necessary to comply with statutes.
2021-002	The Treasurer's office implement the necessary accounting procedures to perform reconciliation of all bank accounts and county funds on a timely basis.
2021-003	The Sheriff implement the necessary procedures to ensure that the commissary account bank balance reconciles to the book balance on a monthly basis.

Independent Auditor's Report

To the County Commission and
Officeholders of Barry County, Missouri

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of Barry County, Missouri, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Barry County, Missouri's basic financial statements as listed in the table of contents.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the cash balances of each fund of Barry County, Missouri as of December 31, 2021, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Barry County, Missouri as of December 31, 2021, or the changes in financial position and cash flows thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Barry County, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Barry County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Barry County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Barry County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Barry County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated October 19, 2022 on our consideration of Barry County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Barry County, Missouri's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

Organized in 1835, the county of Barry was named after William T. Barry, a U.S. Postmaster General. It is a third-class county, and the county seat is Cassville. The County's government is composed of a three-member board of commissioners and the following separately elected Constitutional Officers: Assessor, Circuit Clerk, County Clerk, Collector, Coroner, Treasurer, Recorder of Deeds, Sheriff, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Barry County, Missouri, the Barry County Senate Bill 40 Board, and the Barry County Senior Citizens Service Board.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services..

The financial statements referred to above include only the primary government of Barry County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. The Senate Bill 40 Board and Senior Citizens Service Board are controlled by separate boards and are also included under the control of the County.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Custodial Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Barry County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo., Barry County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following fund had actual expenditures which exceeded budgeted expenditures: Senior Citizens Service Board Fund. The following fund was budgeted to have a negative ending fund balance: Deputy Sheriff Salary Supplementation Fund.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year for the purposes of taxation was as follows:

	Total County	Liberty Common Road Fund
Real Estate	$ 402,749,266	$ 485,790
Personal Property	154,973,097	132,787
Railroad and Utilities	21,610,015	201,990
	$ 579,332,378	$ 820,567

The tax levy per $100 assessed valuation of tangible taxable property for the calendar year for the purpose of County taxation, was as follows:

Liberty Common Road	$ 0.1271
Senate Bill 40 Board	0.0300
Senior Citizens Service Board	0.0483

The property tax revenues in the General Revenue Fund are from a surtax on commercial real estate and private car tax collections. The Special Road and Bridge Fund receives one-fifth of the basic taxes levied and collected by each Road District in the County.

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Barry County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2021, as follows:

	Carrying Value	Bank Balances
Deposits	$ 31,729,114	$ 29,433,339
Investments	650,000	650,000
Total Deposits and Investments as of December 31, 2021	$ 32,379,114	$ 30,083,339
Total Cash and Equivalents - Governmental Funds	$ 13,050,436	
Total Cash and Equivalents - Custodial Funds	19,328,678	
	$ 32,379,114	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2021; all deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Investments (continued)

All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	Balance	% of Portfolio
Freedom Bank of So. Missouri	Cert. of Deposit	$ 650,000	100%

Note 3 - Interfund Transfers

Transfers between funds for the year ended December 31, 2021 are as follows:

Fund	Transfers In	Transfers Out
General Revenue	$ 20,000	$ 1,000,000
Emergency Reserve	1,000,000	-
Collector's Tax Maintenance	-	20,000
	$ 1,020,000	$ 1,020,000

Note 4 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840 RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997 RSMo., and certain personnel not defined as an employee per Section 50.1000(8) RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

Note 4 - County Employees' Retirement Fund (CERF) (continued)

Plan Description (continued)

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2021, the County collected and remitted to CERF, employee contributions of $112,660 for the year ended.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchants' and manufacturers' license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of $335,676 for the year ended December 31, 2021.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 5 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo., the County contributes annually to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $11,628 for the year ended December 31, 2021.

Note 6 - Other Retirement Plans

Barry County has 457 and 401(a) plans administered by Empower Retirement which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2021 for the 457 plan were $40,464, and employee contributions collected and remitted by the County for the year ended December 31, 2021 for the 401(a) plan were $14,889.

Note 7 - Post-Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 8 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

The County provides full-time employees with up to 90 days of sick time, to accrue at one day per complete calendar month of employment. Upon retirement, employees are compensated for up to 15 days of accrued sick time. Accrued sick leave will be forfeited upon termination other than retirement. Vacation time is accrued for every full-time employee, and accrues at the rate of zero days per year up to fifteen days per year depending on length of employment. Employees may not carry over any unused vacation beyond the year earned. Unused vacation will be forfeited at the end of the calendar year. Employees are compensated for unused vacation time at retirement. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 9 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.620 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make specific assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 10 - Property Tax Abatements

Under the Missouri TIF Act, localities may adopt redevelopment plans for certain designated areas for the purpose of promoting economic development. Under the tax increment financing (TIF) agreement, each parcel's assessed valuation is frozen at the current base level prior to any construction or improvements for a period of 23 years. Payments in lieu of taxes (PILOTS) are made into a special allocation fund in the amount of taxes that are not assessed on the incremental increase in appraised valuation subject to abatement. In addition, 50 percent of incremental sales and utility tax revenue generated by the TIF are transferred by localities into the special allocation fund, which may be used to pay directly for redevelopment project costs or to retire bonds or other indebtedness issued to pay such costs. The County established TIF #2 in 2005 which will expire in 2028. In 2021, real property with an appraised valuation of $6,608,295 was subject to abatement under TIF #2, and sales tax collections of $87,333 were remitted to the special allocation fund.

Enhanced Enterprise Zones (EEZs) are established in conjunction with the Missouri Department of Economic Development for the purposes of job creation in areas of low income and high unemployment. Qualifying businesses located in the EEZ are entitled to receive local real property tax abatements of up to 75 percent of new investment, excluding land and personal property, for a period of 10 years. In 2021, real property with an appraised valuation of $1,799,475 was not assessed for tax purposes under an EEZ agreement ending in 2024.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2021 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through October 19, 2022, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

Note 12 - Prior Period Adjustments

Beginning fund balance has been restated to exclude certain funds that were held in a custodial capacity and include certain funds over which the County holds discretion over expenditures. This change will have no impact on operations of the County.

Beginning fund balance, as originally stated on December 31, 2020	$ 8,058,207
Prior Period Adjustment - Exclude Drug Court Fund	(183,679)
Prior Period Adjustment - Include Shelter Home Fund	2,229
Beginning fund balance, as restated on December 31, 2020	$ 7,876,757

Creve Coeur, MO 63141

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Barry County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Barry County, Missouri as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Barry County, Missouri's basic financial statements, and have issued our report thereon dated October 19, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Barry County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Barry County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Barry County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2021-002 and 2021-003 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Barry County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions

was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards,* and which is described in the accompanying schedule of findings and responses as item 2021-001.

Barry County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Barry County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and responses. Barry County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Creve Coeur, Missouri
October 19, 2022

The County of Barry
Cassville, Missouri
Schedule of Findings and Responses
For the year ended December 31, 2021

Financial Statement Findings

2021-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget, and the ending results of annual fund activity may not result in a deficit fund balance.

Condition: During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following fund had actual expenditures which exceeded budgeted expenditures: Senior Citizens Service Board Fund. The following fund was budgeted to have a negative ending fund balance: Deputy Sheriff Salary Supplementation Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds and budgeting expenditures in excess of total available fund balance in a certain fund.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget and also to prevent deficit fund balances. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: Barry County will do monthly reviews of actual expenditures as compared to budgeted amounts to prevent deficit fund balances. Should budgets go over budget, amendments will be filed with the State Auditor.

2021-002 **Criteria:** Per the County's internal control procedures, the Treasurer is responsible for reconciling all bank accounts and all funds to bank statements. Strong internal controls over financial statement reporting require that cash and fund balances be tracked for all funds.

Condition: The previous Treasurer failed to reconcile all bank accounts and all funds to bank statements in a timely manner. As a result, we were originally unable to determine the accuracy of the County's year-end fund balances. The County's current Treasurer was able to assist in completion of the year-end bank reconciliation prior to the issuance of the financial statements.

Cause: Oversight**.**

Effect: Because cash and fund balances are not adequately being tracked within the accounting system or by the Treasurer, it is possible that cash and fund balances could be materially misstated due to error or fraud.

Recommendation: We recommend that the Treasurer's office implement the necessary accounting procedures to perform reconciliation of all bank accounts and County funds on a timely basis.

Management's Response: The Barry County Treasurer is currently working to balance and correct errors from the previous Treasurer’s oversight due to illness. She is consulting with the accountant, auditor, and other county officials to identify and correct errors. The Treasurer is currently doing daily reconciliations. The County is also doing appropriate software updates to help with reconciliation matters.

Financial Statement Findings (continued)

2021-003 **Criteria:** The Sheriff is charged with maintaining accountability over funds in a trustee capacity as an agent of an individual, taxing units, or other government. A proper system of internal controls dictates that bank reconciliations be performed on a timely basis for all bank accounts to ensure that cash balances per the accounting records agree to the cash balances held in the bank. Additionally, the Sheriff's office should prepare a list of all outstanding liabilities for each account.

Condition: For the year ended December 31, 2021, the Sheriff's office failed to perform timely and accurate bank reconciliations or prepare a list of outstanding liabilities for the commissary account held by the Sheriff's office.

Cause: The reconciled bank balance, including all outstanding liabilities, is not being compared to the balances of the commissary funds on hand per the Sheriff's records due to lack of internal controls and procedures in the Sheriff's office.

Effect: Without timely, accurate bank reconciliations, the risk of material misstatement of the Sheriff's cash balances due to error or misappropriation is heightened. Additionally, there is a risk that the Sheriff's office cannot account for all outstanding liabilities which may result in account overdrafts.

Recommendation: We recommend that the Sheriff implement the necessary procedures to ensure that the commissary account bank balance reconciles to the book balance on a monthly basis.

Management's Response: The Barry County Sheriff's Office will immediately turn over all monies in the commissary account to the treasurer to deposit to the inmate security fund. Only monies identified as current inmate funds will be kept in the account, and a monthly reconciliation will be done at the end of every month for the inmate monies in the account.

The County of Barry
Cassville, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2021

In accordance with *Government Auditing Standards,* this section reports the auditor's follow-up on action taken by Barry County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2020.

Prior Year Financial Statement Findings

2020-001 **Internal Controls over Property Tax Levies**

Criteria: Property tax levy rates are established by political subdivisions and certified with the State Auditor by the County Clerk pursuant to state statute. A proper system of internal control requires review of levy rates certified with the State Auditor and input into the Collector's property tax system to ensure levy rates applied to property tax bills are the same rates established by political subdivisions.

Condition: In 2021, the Senate Bill 40 Board and Barry-Lawrence Ambulance District notified Barry County of incorrect levy rates applied to 2020 property tax bills. The County billed and collected rates of $0.0648 and $0.1236 per $100 of assessed valuation for the Senate Bill 40 Board and Barry-Lawrence Ambulance District, respectively, whereas the correct rates certified by those Boards were $0.03 and $0.00, respectively.

Cause: Barry County has not implemented adequate internal control to ensure the property tax rates certified with the State Auditor and applied to property tax bills are the same rates established by political subdivisions.

The County Clerk uses a standardized pro forma summary form to certify with the State Auditor property tax rates established by political subdivisions. The pro forma certification signed by the Senate Bill 40 Board indicates a proposed rate of $0.03 per $100 of assessed valuation, which is derived from the computation section of the pro forma. The computation section was not properly completed to show a voluntary reduction taken from the tax rate ceiling, resulting in the tax rate ceiling of $0.0648 being certified with the State Auditor, as opposed to the proposed rate of $0.03.

After certification with the State Auditor, the County Clerk provides levy rates for the Collector to input into the property tax system used to generate tax bills. Although the correct rate of $0.00 established by the Barry-Lawrence Ambulance District was certified with the State Auditor, the tax rate tables provided to the Collector by the County Clerk indicated a rate of $0.1236, which was the tax rate ceiling.

Effect: Levies applied to property tax bills were higher than levies established by the Senate Bill 40 Board and Barry-Lawrence Ambulance District, resulting in excess 2020 collections of $178,025 and $229,251, respectively, through February 28, 2021. Excess collections were remitted back to the Collector in April and May 2021, and the Collector has printed refund checks to be mailed to taxpayers.

Recommendation: We recommend the County Clerk review levy rates certified with the State Auditor to ensure agreement with levy rates certified by political subdivisions, and we recommend the Collector review levy rates provided by the County Clerk for accuracy prior to input into the property tax system.

Management's Response: The County Clerk and Deputy Clerk will review levy rates certified with the State Auditor to ensure agreement with levy rates certified by political subdivisions. The Collector will review levy rates provided by the County Clerk for accuracy prior to and after input into the property tax system.

Auditor Evaluation: The response is appropriate to correct the concern.

Status: Management has corrected this finding, therefore, this finding will not be repeated.

Prior Year Financial Statement Findings (continued)

2020-002 **Internal Control over Schedule of Expenditures of Federal Awards**

Criteria: 2 CFR 200.51 0(b) requires auditees to prepare a schedule of expenditures of federal awards which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program. The County has not implemented proper internal controls to ensure the completeness and accuracy of the SEFA.

Condition: The schedule of expenditures of federal awards (SEFA) reported by the County in the annual budget documents contained errors in amounts of federal expenditures reported. Total federal award expenditures by the county were understated by $634,835 in 2020.

Discrepancies in amounts reported on the SEFA and amounts supported by underlying accounting records are summarized as follows:

Federal Agency	CFDA Number	Federal Program	Original SEFA	Supported	Difference
USDA	10.665	Schools and Roads - Grants to States	$ 165,650	$ 151,149	$ 14,501
Interior	15.226	Payment in Lieu of Taxes	-	131,385	(131,385)
DOJ	16.575	Crime Victim Assistance	-	36,390	(36,390)
DOT	20.205	Highway Planning and Construction	63,491	712,400	(648,909)
Treasury	21.019	COVID-19 Coronavirus Relief Fund	4,198,764	4,021,345	177,419
DHS	97.042	Emergency Management Performance Grant	1,768	11,520	(9,752)
DHS	97.067	Homeland Security Grant Program	14,490	14,809	(319)
					$ (634,835)

The 2020 SEFA also incorrectly noted an additional $62,951 expended under CFDA 10.665 - Schools and Roads - Grants to States. However, supporting documentation indicates these were expenditures of CFDA 12.112, Department of Defense - Payment to States in Lieu of Real Estate Taxes.

Furthermore, the SEFA prepared by the County does not indicate the amount of awards passed through to subrecipients.

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEF A for clerical accuracy after it has been prepared. Reasons for discrepancies varied.

The County reported the total allotment of $165,650 received under CFDA 10.665. However, $14,501 of this amount was receipted into the Forest Reserve Fund and remained unexpended as of December 31, 2020. The remaining $151,149 was disbursed to school and road districts but not noted as a passthrough award on the SEFA.

Federal Forest PILT expenditures of $131,385 under CFDA 15.226 were omitted. This appears to have been an oversight due to lack of internal control over SEFA preparation.

Prior Year Financial Statement Findings (continued)

2020-002 (cont.) **Internal Control over Schedule of Expenditures of Federal Awards (continued)**

Crime Victim Assistance expenditures of $36,390 for the Prosecuting Attorney's victim advocate program under CFDA 16.575 were also omitted. The Treasurer was not informed reimbursements from the Missouri Association of Prosecuting Attorneys consisted of federal funds.

Amounts reported under CFDA 20.205 of $54,226 and $9,226 for projects BRO-B005(18) and BROB005(19), respectively, were the same amounts reported on the 2019 SEFA.

Likewise, expenditures of $1,768 and $14,490 reported under CFDA 97.042 and 97.067, respectively, were also copied from the 2019 SEFA and not updated to reflect actual 2020 expenditures.

Expenditures of the Coronavirus Relief Fund, CFDA 21.019, were overstated by $177,419 due to the County reporting its full allotment of CARES Act funding, as opposed to actual expenditures through December 31, 2020.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2020.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year, such as performing a reconciliation between the SEFA and underlying accounting records. Federal reimbursement grants should be reported on the SEFA based on reimbursable expenditures made during the year.

Management's Response: The County will implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year, such as performing a reconciliation between the SEFA and underlying accounting records. Federal reimbursement grants should be reported on the SEFA based on reimbursable expenditures made during the year.

Auditor Evaluation: The response is appropriate to correct the concern.

Status: This finding is not applicable to the current audit. The status of this finding will be updated with the County's next required Single Audit.

2020-003 **Sheriff's Internal Control Procedures**

Criteria: A proper system of internal control requires effective segregation of duties between recordkeeping, custodial and reconciliatory functions. Additionally, a proper system of internal control requires reconciliations between bank statements and underlying accounting records. Furthermore, Section 50.370, RSMo, states, "every county officer who receives any fees or other remuneration for official services which is payable to the county shall at the end of each month ... pay over to the county treasurer all fees and other moneys collected by him which belong to the county."

Prior Year Financial Statement Findings (continued)

2020-003 (cont.) **Sheriff's Internal Control Procedures (continued)**

Condition: The Sheriff's office maintains three separate bank accounts for civil fees, bonds and the inmate commissary. Duties have not been effectively segregated, as the same administrative assistant responsible for making deposits and issuing checks also maintains accounting ledgers and reconciles the bond and civil fees accounts. Bank reconciliations are not being performed for the inmate commissary account. Additionally, the Sheriff's office remitted estimated quarterly commissary commissions of $5,000 three times in 2020, as opposed to turning over actual commissary commissions on a monthly basis.

There were eight instances of the Sheriff's office not turning over civil fees collected to the Treasurer in a timely manner. The month the funds were collected for, the amount of fees collected, and the date the fees were paid over to the Treasurer are detailed as follows:

Month Collected	Account	Amount	Month Paid
Dec-19	Civil Fees	$ 3,406	Apr-20
Jan-20	Civil Fees	5,054	Apr-20
Feb-20	Civil Fees	5,084	Apr-20
Mar-20	Civil Fees	5,655	Jun-20
Apr-20	Civil Fees	673	Jun-20
May-20	Civil Fees	5,794	Jul-20
Jul-20	Civil Fees	4,700	Sep-20
Sep-20	Civil Fees	4,102	Nov-20

Cause: Per the Sheriff's office, the funds were turned over late due to a lack of staffing. Inadequate segregation of duties was also attributed to a lack of staffing. The lack of commissary account reconciliations and practice of turning over estimated commissary commissions quarterly, as opposed to turning over actual commissions on a monthly basis, was attributed to migration between commissary accounting systems.

Effect: The inadequate segregation of duties, lack of commissary account reconciliations, absence of supervisory review and approval, practice of estimated commissary commissions instead of actual commissions, and delays in paying over fees at the end of each month increase the likelihood that accounting errors or a misappropriation of funds would not be detected in a timely manner.

Recommendation: We recommend the Sheriff's office segregate custodial, recordkeeping and reconciliatory functions to the greatest extent possible. To the extent that segregating duties is not possible, we recommend that the Sheriff oversee the duties of the administrative assistant. We further recommend the Sheriff perform documented reviews of monthly turnovers and bank reconciliations and ensure turnovers are made on a monthly basis in compliance with RSMo 50.370.

Prior Year Financial Statement Findings (continued)

2020-003 (cont.) **Sheriff's Internal Control Procedures (continued)**

Management's Response: The Barry County Sheriff's Office has taken measures to ensure that a checks and balances system is being put into place for the three accounts maintained by the Sheriff's Office. One person will no longer be responsible for the deposits, verification of receipts and the balancing of accounts at the end of every month. To ensure that the accounts are maintained in an efficient and timely manner, the daily deposits and verification of receipts will be done by two other staff members and initialed by the administrator. At the end of every month the administrator will balance the accounts and tum over the monies to the treasurer. It will be the responsibility of the Sheriff or Chief Deputy to review the accounts and sign off in acknowledgment. Sheriff Danny Boyd and Administrator Kathy Emo have discussed this new plan and have started implementing the new procedures to ensure compliance with future audits.

Auditor Evaluation: The response is appropriate to correct the concern.

Status: The Sheriff's department has partially implemented corrective actions to address this finding. Bank reconciliations are not performed for the commissary account, therefore, a finding has been reported for the current year as finding 2021-003.

2020-004 **Senate Bill 40 Board Internal Control Procedures**

Criteria: An effective system of internal control includes proper documentation and reconciliatory controls, including a complete accounting record and periodic reconciliations between bank statements and the underlying accounting record.

Condition: The Senate Bill 40 Board does not maintain a complete accounting record that provides the current balance of cash, and bank reconciliations were not prepared.

There was a difference of $22,611 between the December 31, 2019 Senate Bill 40 Board fund balances of $1,094,541 and $1,117,152 noted in the 2021 and 2020 budgets, respectively. Actual bank deposits at December 31, 2019 totaled $1,102,310, and unreconciled outstanding checks written prior to December 31, 2019 totaled $2,137. There were no outstanding deposits.

The Board reported bank balances totaling $979,638 at December 31, 2020 and did not account for unreconciled outstanding checks totaling $1,727 written prior to December 31, 2020 in the 2020 actual expenditures noted in the 2021 budget.

Cause: Accounting records were incomplete and consisted of a manually written payment stub corresponding to each check number, a manual running total of bank interest and Microsoft Excel spreadsheet used to track property tax collections received from the County Treasurer. A record displaying the running total of cash after each receipt or disbursement is not maintained.

The Board Secretary-Treasurer, who was appointed in 2020, stated she was unaware how the December 31, 2019 fund balance of $1,117,152 noted in the 2020 budget was determined. The 2021 budget also erroneously reported the December 31, 2018 ending fund balance fund balance of $1,094,541 noted in the 2020 budget as the ending fund balance at December 31, 2019. However, this amount more closely approximated the bank balance of $1,102,310 at December 31, 2019, less outstanding checks totaling $2,137 which cleared the bank in January 2020.

Prior Year Financial Statement Findings (continued)

2020-004 (cont.) **Senate Bill 40 Board Internal Control Procedures (continued)**

Effect: The lack of a complete accounting record and proper bank reconciliations resulted in discrepancies in the December 31, 2019 fund balances noted in the 2020 and 2021 County budgets which could not be readily explained.

Additionally, the lack of a complete accounting record and proper bank reconciliations increases the likelihood that accounting errors or a misappropriation of funds would not be detected in a timely manner.

Recommendation: We recommend the Board maintain a complete accounting record of all receipts and disbursements, including a running total of the Board's cash balances. Additionally, we recommend the Board perform monthly reconciliations between bank statements and underlying account records that identify individual reconciling items.

Management's Response: I have already taken care of your recommendation in regards to the reconciliation of bank statements. The reconciliation takes place on the back of the statement.

Considering the budget, each year I used the 12-31 's balance but subtracted outstanding checks and statements for services sent to me in January of the following year. This could be statements for one month up to three months. In the future I will use the bank's balance less outstanding checks as of the 31st.

I trust this is the answer to the recommendations stated in the audit. If additional information is needed, please -let me know. Thank you for your service to Barry County.

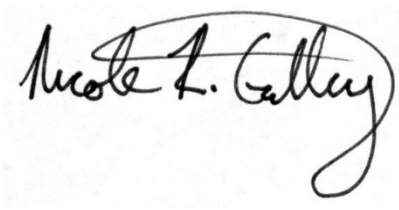
Auditor Evaluation: The response is appropriate to correct the concern.

Status: Management has corrected this finding, therefore, this finding will not be repeated.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Dallas County, Missouri

The Office of the State Auditor contracted for an audit of Dallas County's financial statements for the year ended December 31, 2021, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, CPAs and Business Advisors, is attached.



Nicole R. Galloway, CPA
State Auditor

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Dallas County

2021-001	The county periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget. An amended budget should be prepared and approved as necessary to comply with statutes.
2021-002	The Treasurer complete the required semi-annual settlements as required by RSMo. Section 54.150 and file them with the County Commission. Additionally, internal control procedures should be designed and implemented to ascertain timely filings in the future.
2021-003	The Treasurer's office implement the necessary accounting procedures to perform reconciliation of all bank accounts and county funds on a timely basis.
2021-004	The county review the internal control procedures manual with all officeholders and/or department heads to ensure that procedures for submitting invoices to the County Clerk's office are effectively communicated. Additionally, the County Clerk's office should review all submitted invoices for documented approval by officeholders and/or department heads. In the event documented approval is not received, the County Clerk's office is tasked with obtaining documented approval to ensure goods or services have been satisfactorily received prior to disbursing payment.
2021-005	Management develop internal controls over reporting and consult with outside accountants, if possible, to ensure an accurate Schedule of Expenditures of Federal Awards (SEFA) is prepared.

Independent Auditor's Report

To the County Commission and
Officeholders of Dallas County, Missouri

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of Dallas County, Missouri, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Dallas County, Missouri's basic financial statements as listed in the table of contents.

Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the effects, if any, of the matter described in the *Basis for Qualified Opinion on Regulatory Basis of Accounting* paragraph, the accompanying financial statements present fairly, in all material respects, the cash balances of each fund of Dallas County, Missouri as of December 31, 2021, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Dallas County, Missouri as of December 31, 2021, or the changes in financial position and cash flows thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Dallas County, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinion on Regulatory Basis of Accounting

Dallas County, Missouri has not adequately tracked cash and fund balances for all funds of the County for the year ended December 31, 2021. We were unable to verify that the ending bank balances reconcile to cash and fund balances on the fund level. The amounts by which cash and fund balances are misstated, although not reasonably determinable, are presumed to be material.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Dallas County, Missouri on the basis of accounting practices prescribed or permitted by the State of Missouri to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by the State of Missouri to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Dallas County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Dallas County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Dallas County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Douglas County, Missouri's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 *U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated September 21, 2022 on our consideration of Dallas County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Dallas County, Missouri's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

Organized in 1841, the county of Dallas was named after George M. Dallas, diplomat and later vice president. It is a third-class county, and the county seat is Buffalo. The County's government is composed of a three-member board of commissioners and the following separately elected Constitutional Officers: Assessor, Circuit Clerk, County Clerk, Collector, Coroner, Treasurer, Recorder of Deeds, Sheriff, Surveyor, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Dallas County, Missouri and the Dallas County Senior Citizens Board.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Dallas County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise Dallas County's legal entity. The Senior Citizens Services Board is controlled by a separate board and also included under the control of the County.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of an individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Custodial Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Dallas County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo., Dallas County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures which exceeded budgeted expenditures: Capital Improvement and CARES Act.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year for the purposes of taxation was as follows:

	2021
Real Estate	$ 133,832,370
Personal Property	46,965,789
Railroad and Utilities	18,879,117
	$ 199,677,276

The tax levy per $100 assessed valuation of tangible taxable property for the calendar year for the purpose of County taxation was as follows:

General Revenue	$ 0.1792
Special Road and Bridge	0.2607
Senior Citizens Service Board	0.0500

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Dallas County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2021, as follows:

	Carrying Value	Bank Balances
Deposits	$ 11,095,764	$ 10,134,077
Investments	-	-
Total Deposits and Investments as of December 31, 2021	$ 11,095,764	$ 10,134,077
Total Cash and Equivalents - Governmental Funds	$ 3,890,467	
Total Cash and Equivalents - Custodial Funds	7,205,297	
	$ 11,095,764	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2021; all deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Note 2 - Deposits and Investments (continued)

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

Note 3 - Long-Term Debt

In November 2016, the County entered into a 15-year equipment lease purchase agreement with FS Leasing, LLC, for a new HVAC system for the jail in the amount of $235,887. The lease is to be paid in annual payments of $20,157, which includes interest of 3.124%, with the final payment scheduled on February 1, 2032. The County made an additional $50,000 principal payment during the year ended December 31, 2021 as well as an additional $50,000 principal payment in February of 2022.

The following is the change in long-term debt for the year ended December 31, 2021:

	Balance at 1/1/21	Amount Borrowed	Amount Repaid	Balance at 12/31/21	Interest Paid During Year
HVAC System	$ 198,594	$ -	$ (63,884)	$ 134,710	$ 6,273

The following is the future minimum payments for all lease obligations as of December 31, 2021:

Year Ending December 31,	Principal	Interest	Total
2022	$ 65,887	$ 4,280	$ 70,167
2023	17,968	2,189	20,157
2024	18,538	1,619	20,157
2025	32,317	1,183	33,500
	$ 134,710	$ 9,271	$ 143,981

Note 4 - Operating Lease

In March 2018, the County entered into a non-cancelable five-year lease agreement with John Deere Financial for six 2018 John Deere 672G motor graders, under which the County could purchase the motor graders at the end of the lease term for $175,000 each. The lease requires annual payments of $165,088, with the final payment scheduled on March 20, 2023.

Note 5 - Interfund Transfers

Transfers between funds for the year ended December 31, 2021 are as follows:

Fund	Transfers In	Transfers Out
General Revenue	$ 464,121	$ 795,921
Special Road and Bridge	-	60,000
Assessment	113,000	-
Capital Improvement	364,121	404,121
Law Enforcement	360,968	-
Jury	3,800	-
CARES Act	-	45,968
	$ 1,306,010	$ 1,306,010

Note 6 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840 RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997 RSMo., and certain personnel not defined as an employee per Section 50.1000(8) RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Note 6 - County Employees' Retirement Fund (CERF) (continued)

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2021, the County collected and remitted to CERF, employee contributions of $107,235 for the year ended.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchants' and manufacturers' license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of $155,438 for the year ended December 31, 2021.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 7 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo., the County contributes annually to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $11,628 for the year ended December 31, 2021.

Note 8 - Other Retirement Plans

Dallas County has 457 and 401(a) plans administered by Empower Retirement which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2021 for the 457 plan were $29,977, and employee contributions collected and remitted by the County for the year ended December 31, 2021 for the 401(a) plan were $13,589.

Note 9 - Post-Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 10 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

Full-time employees accrue sick leave at one day per complete calendar month of employment, up to 60 hours. Part-time employees earn four hours of sick leave per complete calendar month of employment, up to 60 hours. Upon termination, employees are not compensated for accrued sick time. Full-time employees begin to accrue vacation after one year of service at a rate of 12 days per year of employment. Employees who have completed seven years of service accrue vacation at a rate of 15 days per year of employment, and employees who have completed 14 years of service accrue vacation leave at a rate of 21 days per year of employment. Vacation leave for part-time employees is credited at half the rate shown for full-time employees. Vacation days must be used in the calendar year they are earned. Any unused vacation days accrued at year-end are forfeited. Employees are compensated for unused vacation time at the date of termination. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 11 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

Note 12 - Subsequent Events

The County has evaluated events subsequent to December 31, 2021 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through September 21, 2022, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

Note 13 - Prior Period Adjustment

Beginning fund balance has been restated to include the Domestic Violence Fund. This change will have no impact on operations of the County.

Note 13 - Prior Period Adjustment (continued)

Beginning fund balance, as originally stated on December 31, 2020	$	2,805,171
Prior Period Adjustment - Domestic Violence Fund		25
Beginning fund balance, as restated on December 31, 2020	$	2,805,196

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Dallas County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Dallas County, Missouri as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Dallas County, Missouri's basic financial statements, and have issued our report thereon dated September 21, 2022. Our report modifies an opinion on such financial statements due to inadequate reconciliation of cash and ending bank balances.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Dallas County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Dallas County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Dallas County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2021-003 and 2021-004 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Dallas County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material

effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards,* and which are described in the accompanying schedule of findings and questioned costs as items 2021-001 and 2021-002.

Dallas County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Dallas County, Missouri's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Dallas County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Independent Auditor's Report

To the County Commission and
Officeholders of Dallas County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Dallas County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Dallas County, Missouri's major federal programs for the year ended December 31, 2021. Dallas County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Dallas County, Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Dallas County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Dallas County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Dallas County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Dallas County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Dallas County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Dallas County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Dallas County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Dallas County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2021-005. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Dallas County, Missouri's response to the noncompliance finding identified in our audit described in the accompanying schedule of findings and questioned costs. Dallas County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all

deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2021-005, to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Dallas County, Missouri's response to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. Dallas County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See Notes to the Schedule of Expenditures of Federal Awards

The County of Dallas
Buffalo, Missouri
Notes to the Schedule of Expenditures of Federal Awards
For the year ended December 31, 2021

Note 1 - Summary of Significant Accounting Policies

Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). This Uniform Guidance requires a schedule that provides total federal awards expended for each federal program and the Assistance Listing Number or other identifying number when the Assistance Listing Number is not available.

This schedule includes all federal awards administered by Dallas County, Missouri.

Basis of Presentation

The *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Because the Schedule presents only a selected portion of the operations of Dallas County, Missouri, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Dallas County, Missouri.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, whereas certain types of expenditures are not allowed or are limited to as to reimbursements.

Federal expenditures are considered to have occurred when cash is disbursed for allowable expenditures.

Dallas County, Missouri has not elected to use the 10% de minimis indirect cost rate.

Note 2 - Donated Personal Protective Equipment

Dallas County received no donated personal protective equipment which had been purchased with federal funds. This footnote is unaudited.

Auditee qualified as low-risk auditee?		Yes	X	No

The County of Dallas
Buffalo, Missouri
Schedule of Findings and Questioned Costs
For the year ended December 31, 2021

Section 2 - Financial Statement Findings

2021-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Actual expenditures are not to exceed the budgeted expenditures.

Condition: During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures which exceeded budgeted expenditures: Capital Improvement and CARES Act.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will make sure they do a better review before the end of each year to keep this from happening.

2021-002 **Criteria:** RSMo. Section 54.150 requires that the County Treasurer settle his or her accounts with the County Commission semiannually, in June and December each year.

Condition: During the audit, it was noted that the County failed to comply with RSMo. Section 54.150. The Treasurer did not complete the semi-annual settlements for the periods ended June 30, 2021 or December 31, 2021, as required by Missouri law.

Cause: Oversight

Effect: The County Treasurer's office is in violation of Missouri Revised Statutes due to failure to prepare semi-annual settlements and failure to file such settlements with the County Commission on a timely basis.

Recommendation: We recommend that the Treasurer complete the required semi-annual settlements as required by RSMo. Section 54.150 and file them with the County Commission. Additionally, internal control procedures should be designed and implemented to ascertain timely filings in the future.

Management's Response: The Treasurer is in the process of completing the settlement; this was not done due to medical issues.

Section 2 - Financial Statement Findings (continued)

2021-003 **Criteria:** Per the County's internal control procedures manual, the Treasurer is responsible for reconciling all bank accounts and all funds to bank statements. Strong internal controls over financial statement reporting require that cash and fund balances be tracked for all funds.

Condition: The Treasurer failed to reconcile all bank accounts and all funds to bank statements. As a result, we were unable to determine the accuracy of the County's year-end fund balances, resulting in a qualified audit opinion. Ending cash balances per the Treasurer's records did not reconcile to ending fund balances reported in the County's budget document by $139,620.

Cause: Oversight**.**

Effect: Because cash and fund balances are not adequately being tracked within the accounting system or by the Treasurer, it is possible that cash and fund balances are materially misstated due to error or fraud.

Recommendation: We recommend that the Treasurer's office implement the necessary accounting procedures to perform reconciliation of all bank accounts and County funds on a timely basis.

Management's Response: The Treasurer is in the process of reconciling all accounts before the end of the year; this had not been done due to medical issues.

2021-004 **Criteria:** Per the County's internal control procedures manual, any officeholder and/or department head seeking to have an expenditure paid by a Fund which is under the supervision of the County Commission will submit invoices to the County Clerk for payment. Additionally, the responsible officeholder and/or department head will sign the invoices which will ensure that all goods and services have been satisfactorily received.

Condition: We randomly selected 60 disbursements made by the County Clerk's office to determine if the responsible officeholder and/or department head signed the supporting invoices to ensure that all goods and services had been satisfactorily received. 15 out of the 60 disbursements did not contain the responsible officeholder or department head's documented signature of approval.

Cause: Oversight.

Effect: Without documented officeholder and/or department head approval, the County Clerk's office could process disbursements for goods or services which may or may not have been received.

Recommendation: We recommend the County review the internal control procedures manual with all officeholders and/or department heads to ensure that procedures for submitting invoices to the County Clerk's office are effectively communicated. Additionally, the County Clerk's office should review all submitted invoices for documented approval by officeholders and/or department heads. In the event documented approval is not received, the County Clerk's office is tasked with obtaining documented approval to ensure goods or services have been satisfactorily received prior to disbursing payment.

Management's Response: This is not normal for the County and the County Clerk will take this into consideration and take action to correct it.

Section 3 - Federal Award Findings

2021-005 Federal Grantor: U.S. Department of Transportation

Pass-Through Grantor: Missouri Department of Transportation
University of Central Missouri - Missouri Safety Center

Federal Assistance Listing Numbers and Program Titles:

20.205	Highway Planning and Construction
20.607	Alcohol Open Container Requirements
20.616	National Priority Safety Programs

Criteria: Title 2 *U.S. Code of Federal Regulations* Part 200 requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended, assistance listing title and number, award number, name of the Federal awarding agency, name of pass-through entity, and awards paid to subrecipients.

Condition: The Schedule of Expenditures of Federal Awards (SEFA) contained errors. The County's current internal controls over SEFA reporting are not sufficient enough to ensure correct SEFA reporting. This finding is a repeat finding and was reported in the most recent audit for the year ended December 31, 2020.

Assistance Listing Number	As Reported On Original County SEFA	As Corrected	$ Difference
20.205	$ 479,056	$ 385,297	$ (93,759)
20.607	-	4,025	4,025
20.616	-	1,000	1,000

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Effect: Federal expenditures reported in the SEFA were incorrect. Additionally, several programs reported were missing the correct assistance listing title and number, name of Federal awarding agency, and name of pass-through entity.

Recommendation: We recommend management develop internal controls over reporting and consult with outside accountants, if possible, to ensure an accurate SEFA is prepared.

Management's Response: We will take action to correct this. It would be helpful if you could find this information somewhere. I have never seen the 20.607 or the 20.616.

The County of Dallas
Buffalo, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2021

In accordance with *Government Auditing Standards,* this section reports the auditor's follow-up on action taken by Dallas County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2020.

Prior Year Financial Statement Findings

2020-001 **Criteria:** Management is responsible for establishing and maintaining an adequate system of internal control over financial reporting, which includes safeguarding of assets against unauthorized acquisition, use or disposition. A proper system of internal control over fuel transfer tanks and pumps requires adequate preventative and detective controls to safeguard against misappropriation.

Condition: The County purchases bulk unleaded and diesel fuel for use by the Road & Bridge Department. Two unmetered bulk fuel tanks are located behind the Road & Bridge building on North Ash Street. The breaker box which powers the pumps is padlocked overnight by a Road & Bridge supervisor but is sometimes left unlocked during the day in order for Road & Bridge crews to refuel. Additionally, there is no gate restricting access to the pump during the day, although the pump is cordoned off overnight with a cable.

Employees are required to log the date, time, vehicle, quantity of fuel and type of fuel each time they fill up. This information is recorded in a log maintained in a mailbox located near the pump. However, these fuel logs are not reviewed and compared to the quantity of fuel purchased.

The Special Road & Bridge fund includes fuel expenditures of $98,788 for the year ended December 31, 2020.

Cause: The auditors were told the County is unable to reconcile the exact quantity of fuel purchased to quantity of fuel dispensed from the pump due to the lack of pump meter and an evaporation rate of up to 10%. The Commissioners told the auditors they looked into price quotations for a pump meter several years ago and determined purchasing one would cost upwards of $20,000. Although there are security cameras overlooking the fuel pump and driveway leading to the fuel pump which record up to 30 days of footage, these cameras are not reviewed in the absence of a known or suspected fraud.

Effect: Preventative controls against misappropriation are not consistently operating during the day. At times, the fuel pump remains unlocked and unattended during the day, which would allow unauthorized access. Due to the lack of detective controls which would identify irregularities, unauthorized access could go unnoticed.

Recommendation: We recommend that the County implement procedures to prevent and/or detect the unauthorized use of the Road & Bridge fuel tanks, such as reconciling the quantity of fuel logged by Road & Bridge crews to the quantity of fuel dispensed from the pump. In the absence of a metered pump, we recommend reconciling the quantity of fuel delivered to the quantity of fuel logged between delivery dates and investigating fuel loss in excess of what would be expected due to evaporation.

Management's Response: The County did not provide a response.

Status: This finding is no longer considered to be a significant deficiency, and therefore, will not be repeated.

Prior Year Financial Statement Findings (continued)

2020-002 **Criteria:** 2 CFR 200.510(b) requires auditees to prepare a schedule of expenditures of federal awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include the following: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program. The County has not implemented proper internal controls to ensure the completeness and accuracy of the SEFA.

Condition: The schedule of expenditures of federal awards reported by the County in the annual budget documents contained errors in amounts of federal expenditures reported. Total federal award expenditures by the county were understated by $72,470 in 2020.

Discrepancies in amounts reported on the SEFA and amounts supported by underlying accounting records are summarized as follows:

Federal Agency	CFDA Number	Federal Program	Original SEFA	Supported	Difference
DOT	20.205	Highway Planning and Construction	$ 9,644	$ 18,320	$ (8,676)
Treasury	21.019	COVID-19 - Coronavirus Relief Fund	1,315,971	1,315,971	-
EAC	90.404	COVID-19 - HAVA Election Security Grants	13,866	15,247	(1,381)
DHS	97.036	Disaster Grants - Public Assistance	-	62,413	(62,413)
			$ 1,339,481	$ 1,411,951	$ (72,470)

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared. Reasons for discrepancies varied.

The County did not report expenditures of the FEMA program, CFDA 97.036. The Highway Planning and Construction off-system bridge program (BRO), CFDA 20.205, omitted two out of three federally reimbursed payments which were issued to the project engineer in 2020. The County Clerk's office discovered there were additional allowable expenditures under the Help America Vote Act (HAVA) Election Security Grant, CFDA 90.404 after the 2020 SEFA had been prepared.

Effect: The SEFA presented for audit in the County's 2021 budget did not accurately reflect the County's actual expenditures of federal awards for the year ended December 31, 2020.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year, such as performing a reconciliation between the SEFA and underlying accounting records. Federal reimbursement grants should be reported on the SEFA based on reimbursable expenditures made during the year.

Management's Response: The County did not provide a response.

Status: This finding has not been corrected, and therefore, will be repeated in the current year as finding 2021-005.

Prior Year Financial Statement Findings (continued)

2020-003 **Criteria:** Section 50.660, RSMo, states, "All contracts and purchases shall be let to the lowest and best bidder after due opportunity for competition" involving any purchase of $6,000 or greater in a 90-day period. This amount has been revised to $12,000, effective August 2021.

Condition: We identified one instance of the County Commission awarding a contract to a non-bidder after bids had already been awarded. A bid for concrete work was awarded to Ewing Concrete on February 24, 2020, whereas Lebanon Ready Mix was paid $9,386 for concrete work in August 2020.

On December 18, 2020, the County paid $58,000 to Chicago Motors, Inc., to purchase three used vehicles for the Sheriff's Department. Bids were not solicited, and the auditors were not provided documentation of competitive price quotations or documentation showing these vehicles were purchased off a state bid or otherwise in compliance with state procurement statutes.

Additionally, we noted on February 16, 2021, the County Commission voted to accept all bids presented for aggregates, concrete, chip and seal mix, culverts, grader blades, fuel, and tires, without consideration given to which bids were the lowest and best. For the year ended December 31, 2020, purchases of such materials and supplies totaled $329,113 in the Capital Improvement Fund and $178,475 in the Special Road & Bridge Fund.

Cause: Bids have not been consistently awarded to the lowest and best bidder. The County did not solicit sealed bids for the purchase of Sheriff vehicles or otherwise document compliance with state procurement statutes. The Sheriff's Department asserted that the Sheriff researched multiple price quotations prior to requesting the purchase of vehicles but did not retain documentation of price quotations the Sheriff compared.

Effect: The purpose of soliciting sealed bids is to promote fair and open market competition. The County Commission's practice of accepting all bids and not awarding to the lowest and best bidder is contrary to the provisions of, and intent behind, Section 50.660, RSMo.

Recommendation: We recommend the County Commission solicit sealed bids for all purchases subject to the provisions of Section 50.660, RSMo.

We further recommend the County Commission award bids to the lowest and best bidder, in accordance with the provisions of Section 50.660, RSMo, and discontinue the practice of accepting all blanket bids received for Road & Bridge materials and supplies. In the case of certain items, such as aggregates and culverts, a split award may be appropriate, such as determined by quarry proximity to the job site or the gauge and diameter of culverts.

In cases in which bidding is not performed but would normally be required by state statute, the rationale should be documented in the Commission minutes.

Management's Response: The County did not provide a response.

Status: This finding is no longer considered to be a significant deficiency, and therefore, will not be repeated.

Prior Year Federal Award Findings

None reported.

Independent Auditor's Report

To the County Commission and
Officeholders of Osage County, Missouri

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of Osage County, Missouri, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Osage County, Missouri's basic financial statements as listed in the table of contents.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the cash balances of each fund of Osage County, Missouri as of December 31, 2021, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Osage County, Missouri as of December 31, 2021, or the changes in financial position and cash flows thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Osage County, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Osage County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Osage County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Osage County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Osage County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Osage County, Missouri's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 *U.S. Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated September 8, 2022 on our consideration of Osage County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Osage County, Missouri's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

Organized in 1841, the county of Osage was named after the Osage River. It is a third-class county, and the county seat is Linn. The County's government is composed of a three-member board of commissioners and the following separately elected Constitutional Officers: Assessor, Circuit Clerk, County Clerk, Collector, Coroner, Treasurer, Recorder of Deeds, Sheriff, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Osage County, Missouri.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Osage County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise Osage County's legal entity.

The financial statements do not include financial data for the County’s legally separate component unit, which accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting, require to be reported with the financial data of the County. In accordance with accounting principles generally accepted in the United States of America, as applicable to the regulatory basis of accounting, the Osage County Senate Bill 40 Board has issued separate reporting entity financial statements. For information on this component unit, please contact the Senate Bill 40 Board by calling (573) 897-3095 (or write to 205 E. Main St., Linn, Missouri 65051).

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Custodial Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Osage County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases), and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo., Osage County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures which exceeded budgeted expenditures: Special Road and Bridge, Emergency Management, Building and Grounds, Capital Infrastructure, Conceal and Carry, Prosecuting Attorney Training, Jail Renovation, Inmate Security, and Tax Maintenance.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year for the purposes of taxation was as follows:

	General Revenue	Special Road and Bridge
Real Estate	$ 145,388,050	$ 125,495,090
Personal Property	61,422,961	54,221,360
Railroad and Utilities	32,170,723	26,999,423
	$ 238,981,734	$ 206,715,873

The tax levy per $100 assessed valuation of tangible taxable property for the calendar year for the purpose of County taxation, was as follows:

General Revenue	$ 0.0251
Special Road and Bridge	0.2163

The County also receives sales tax collected by the State and remitted based on the County’s sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

Note 1 - Summary of Significant Accounting Policies (continued)

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Osage County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2021, as follows:

	Carrying Value	Bank Balances
Deposits	$ 12,396,612	$ 12,487,515
Investments	525,462	525,462
Total Deposits and Investments as of December 31, 2021	$ 12,922,074	$ 13,012,977
Total Cash and Equivalents - Governmental Funds	$ 5,406,699	
Total Cash and Equivalents - Custodial Funds	7,515,375	
	$ 12,922,074	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2021; all deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Note 2 - Deposits and Investments (continued)

Custodial Credit Risk - Investments (continued)

All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer, or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	Balance	% of Portfolio
Mid America Bank	Cert. of Deposit	$ 225,462	42.91%
Legends Bank	Cert. of Deposit	300,000	57.09%

Note 3 - Long-Term Debt

On January 1, 2015, the County entered into a lease purchase agreement for the purpose of refunding the previously issued Series 2009 Certificates of Participation. The project completed included installing a geothermal heating and cooling system in the County's courthouse building, renovating and improving the existing jail facilities located in the basement of the courthouse, and making various other improvements and renovations to the courthouse building. The lease purchase is for $1,587,800 with a maturity date of October 1, 2027. The lease purchase agreement calls for 26 semi-annual payments of unequal amounts, which includes interest of 3.25%.

The following is the changes in long-term debt for the year ended December 31, 2021:

	Balance at 1/1/2021	Amount Borrowed	Amount Repaid	Balance at 12/31/2021	Interest Paid During Year
Lease Purchase - Improvements	$ 927,900	$ -	$ (122,000)	$ 805,900	$ 28,915

Note 3 - Long-Term Debt (continued)

The following is the future minimum payments for all lease obligations as of December 31, 2021:

Year Ending December 31,	Principal	Interest	Total
2022	$ 121,100	$ 25,209	$ 146,309
2023	129,600	21,203	150,803
2024	132,500	16,967	149,467
2025	135,200	12,639	147,839
2026	142,600	8,185	150,785
2027	144,900	3,533	148,433
	$ 805,900	$ 87,736	$ 893,636

Note 4 - Operating Leases

On January 11, 2017, the County entered into an operating lease agreement with Caterpillar Financial for a motor grader. The lease agreement requires five annual payments of $26,350 beginning January 2017 and ending January 2022. At the end of the lease term, the County will have the option to purchase the motor grader for $175,140. The County has satisfied all required payments on this lease as of December 31, 2021.

On January 11, 2017, the County entered into an operating lease agreement with Caterpillar Financial for a motor grader. The lease agreement requires five annual payments of $26,350 beginning January 2017 and ending January 2022. At the end of the lease term, the County will have the option to purchase the motor grader for $160,755. The County has satisfied all required payments on this lease as of December 31, 2021.

On August 14, 2018, the County entered into an operating lease agreement with Caterpillar Financial for a motor grader. The lease agreement requires five annual payments of $29,015 beginning August 2018 and ending August 2023. At the end of the lease term, the County will have the option to purchase the motor grader for $160,860.

Note 5 - Interfund Transfers

Transfers between funds for the year ended December 31, 2021 are as follows:

Fund	Transfers In	Transfers Out
General Revenue	$ 739,297	$ 6,600
Special Road and Bridge	225,000	-
Assessment	6,600	-
911	41,800	77,000
Emergency Management	-	47,800
Capital Infrastructure	-	225,000
Jail Renovation	-	425,000
Rollback Reserve	25,000	-
Special Election	-	1,335
CARES Act Grant	-	7,462
Use Tax	-	247,500
	$ 1,037,697	$ 1,037,697

Note 6 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840 RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997 RSMo., and certain personnel not defined as an employee per Section 50.1000(8) RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2021, the County collected and remitted to CERF, employee contributions of $115,400 for the year ended.

Note 6 - County Employees' Retirement Fund (CERF)(continued)

Contributions (continued)

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchants' and manufacturers' license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of $86,110 for the year ended December 31, 2021.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 7 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo., the County contributes annually to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $3,366 for the year ended December 31, 2021.

Note 8 - Other Retirement Plans

Osage County has 457 and 401(a) plans administered by Empower Retirement which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2021 for the 457 plan were $23,499, and employee contributions collected and remitted by the County for the year ended December 31, 2021 for the 401(a) plan were $14,402.

Note 9 - Post-Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 10 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Note 10 - Claims, Commitments, and Contingencies (continued)

Compensated Absences

The County provides employees with up to 24 days of paid vacation based upon the number of years of continuous service. Vacation days do carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue eight hours of sick leave per month for a total of twelve days for the year. The County allows employees to carry forward any and all unused sick leave up to 720 hours. However, upon termination, employees do not get reimbursed for sick leave. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 11 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make specific assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 12 - Subsequent Events

The County has evaluated events subsequent to December 31, 2021 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through September 8, 2022, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

Note 13 - Prior Period Adjustment

Beginning fund balance has been restated to exclude certain funds that were held in a custodial capacity and include certain funds over which the County holds discretion over expenditures. This change will have no impact on operations of the County.

Note 13 - Prior Period Adjustment (continued)

Beginning fund balance, as originally stated on December 31, 2020	$	3,679,756
Prior Period Adjustment - Exclude Circuit Clerk Interest Fund		(28,203)
Prior Period Adjustment - Exclude County Clerk MDC Fund		(35)
Prior Period Adjustment - Exclude Family Court Fund		(24,495)
Prior Period Adjustment - Exclude Law Library Fund		(11,259)
Prior Period Adjustment - Include Domestic Violence Fund		1,047
Beginning fund balance, as restated on December 31, 2020	$	3,616,811

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commissioners and
Officeholders of Osage County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Osage County, Missouri as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Osage County, Missouri's basic financial statements, and have issued our report thereon dated September 8, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Osage County, Missouri's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Osage County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Osage County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Osage County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under

Government Auditing Standards, and which is described in the schedule of findings and questioned costs as item 2021-001.

Osage County, Missouri's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Osage County, Missouri's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Osage County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Independent Auditor's Report

To the County Commission and
Officeholders of Osage County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Osage County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Osage County, Missouri's major federal programs for the year ended December 31, 2021. Osage County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Osage County, Missouri complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Osage County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Osage County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Osage County, Missouri's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Osage County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Osage County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Osage County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Osage County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Osage County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2021-002. Our opinion on each major federal program is not modified with respect to these matters.

Government Auditing Standards requires the auditor to perform limited procedures on Osage County, Missouri's response to the noncompliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. Osage County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all

deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2021-002, to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Osage County, Missouri's response to the internal control over compliance findings identified in our audit described in the accompanying schedule of findings and questioned costs. Osage County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

See Notes to the Schedule of Expenditures of Federal Awards

The County of Osage
Linn, Missouri
Notes to the Schedule of Expenditures of Federal Awards
For the year ended December 31, 2021

Note 1 - Summary of Significant Accounting Policies

Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). This Uniform Guidance requires a schedule that provides total federal awards expended for each federal program and the Assistance Listing Number or other identifying number when the Assistance Listing Number is not available.

This schedule includes all federal awards administered by Osage County, Missouri.

Basis of Presentation

The *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Because the Schedule presents only a selected portion of the operations of Osage County, Missouri, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Osage County, Missouri.

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, whereas certain types of expenditures are not allowed or are limited to as to reimbursements.

Federal expenditures are considered to have occurred when cash is disbursed for allowable expenditures.

Osage County, Missouri has elected to use the 10% de minimis indirect cost rate.

Note 2 - Donated Personal Protective Equipment

Osage County received no donated personal protective equipment which had been purchased with federal funds. This footnote is unaudited.

Assistance Listing Number	Name of Federal Program or Cluster
20.205	Highway Planning and Construction Cluster
21.027	COVID-19 Coronavirus State and Local Fiscal Recovery Funds

Dollar threshold used to distinguish between type A and type B programs:	$750,000			
Auditee qualified as low-risk auditee?		Yes	X	No

The County of Osage
Linn, Missouri
Schedule of Findings and Questioned Costs
For the year ended December 31, 2021

Section 2 - Financial Statement Findings

2021-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Actual expenditures are not to exceed the budgeted expenditures.

Condition: During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures which exceeded budgeted expenditures: Special Road and Bridge, Emergency Management, Building and Grounds, Capital Infrastructure, Conceal and Carry, Prosecuting Attorney Training, Jail Renovation, Inmate Security, and Tax Maintenance.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2022.

Section 3 - Federal Award Findings

2021-002

Federal Grantor:	U.S. Department of Agriculture
	U.S. Department of Interior
	U.S. Department of Justice
	U.S. Department of Transportation
	U.S. Department of Health and Human Services
	U.S. Department of Homeland Security
Pass-Through Grantor:	Missouri Department of Health and Senior Services
	Missouri Department of Public Safety
	Missouri Department of Transportation
	University of Central Missouri - Missouri Safety Center

Federal Assistance Listing Numbers and Program Titles:

10.557	WIC Special Supplemental Nutrition Program for Women, Infants, and Children
15.226	Payments in Lieu of Taxes
16.738	Edward Byrne Memorial Justice Assistance Grant Program
20.205	Highway Planning and Construction
20.600	State and Community Highway Safety
20.607	Alcohol Open Container Requirements
20.616	National Priority Safety Programs
93.268	Immunization Cooperative Agreements
93.323	Epidemiology and Laboratory Capacity of Infection Diseases (ELC)

Section 3 - Federal Award Findings (continued)

2021-002 (cont.) Federal Assistance Listing Numbers and Program Titles (continued):

93.354	Public Health Emergency Response: Cooperative Agreement for Emergency Response: Public Health Crisis Response
93.767	Children's Health Insurance Program
93.994	Maternal and Child Health Services Block Grant to the States
97.042	Emergency Management Performance Grant
97.067	Homeland Security Grant Program

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200 requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended, assistance listing title and number, award number, name of the Federal awarding agency, name of pass-through entity, and awards paid to subrecipients.

Condition: The Schedule of Expenditures of Federal Awards (SEFA) contained errors. The County's current internal controls over SEFA reporting are not sufficient enough to ensure correct SEFA reporting.

Assistance Listing Number	As Reported On Original County SEFA	As Corrected	$ Difference
10.557	$ 20,260	$ 21,303	$ 1,043
15.226	-	834	834
16.738	-	9,999	9,999
20.205	305,552	321,086	15,534
20.600	-	9,461	9,461
20.607	-	2,235	2,235
20.616	-	922	922
93.268	-	54,125	54,125
93.323	-	123,956	123,956
93.354	-	17,021	17,021
93.767	-	33,962	33,962
93.994	146,507	20,780	(125,727)
97.042	35,453	34,698	(755)
97.067	19,483	4,410	(15,073)

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Effect: Federal expenditures reported in the SEFA were incorrect. Additionally, several programs reported were missing the correct assistance listing title and number, name of Federal awarding agency, and name of pass-through entity.

Recommendation: We recommend management develop internal controls over reporting and consult with outside accountants, if possible, to ensure an accurate SEFA is prepared.

Section 3 - Federal Award Findings

2021-002 (cont.) **Management's Response:** County officers and employees have diligently tried to maintain sufficient records so that the SEFA can be accurately completed. Title 2 *U.S. Code of Federal Regulations* Part 200 is being reviewed and training sessions will be initiated by the County Clerk's office. The County Clerk is working towards capturing grant transactions in a manner sufficient to readily report the necessary information required on the SEFA by the next audit period. The County is also going to consider retaining an expert/consultant to assist in completing the next SEFA. The expected completion date is December 31, 2022.

The County of Osage
Linn, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2021

In accordance with *Government Auditing Standards,* this section reports the auditor's follow-up on action taken by Osage County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2020.

Prior Year Federal Award Findings

2020-001 **U.S. Department of Treasury**
Coronavirus Relief Fund (Federal Assistance Listing Number - 21.019)
Period of Performance

Statement of Condition: The purpose of the Coronavirus Relief Fund (the Fund) is to provide direct payments to state, territorial, tribal, and certain local governments to cover necessary expenditures incurred due to the public health emergency with respect to the Coronavirus Disease (COVID-19). The Treasury Department issued a federal register with additional guidance on the requirements and allowable costs of the Fund.

Criteria: In accordance with the federal register noted above, the period of performance of the grant ends on December 31, 2021. The guidance notes it is necessary that the performance or delivery of a good or a service take place during the covered period (the period of performance).

Effect of Condition: We identified costs charged to the grant for which the performance of a service will not take place until after the covered period (the period of performance).

Cause of Condition: The County originally had a different interpretation of the guidance.

Questioned Costs: We identified $25,091 of costs charged to the grant for which the performance of a service will not take place until after the covered period (the period of performance).

Recommendation: We recommend the County review the federal register noted above to ensure future costs charged to the grant meet the requirements and allowable costs of the Fund.

Management's Response: The County originally had a different interpretation of the guidance, but subsequently agreed with the auditors' interpretation.

Status: Management has implemented proper controls to ensure compliance with period of performance compliance requirements, therefore, this finding will not be repeated in the current year.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Iron, Missouri

Adverse and Unmodified Opinions

We have audited the financial statements of the County of Iron ("County"), Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash Balances - Governmental Funds - Regulatory Basis and the Statements of Assets and Liabilities Arising From Cash Transactions - Fiduciary Funds-Regulatory Basis as of December 31, 2021, and the related Statements of Receipts, Disbursements and Changes in Cash Balances - Budget and Actual - Governmental Funds - Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of the presented funds of the County as of December 31, 2021, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse and Unmodified Opinions section of our report, the accompanying financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2021, or changes in net position and cash flows thereof for the year then ended.

Adverse Opinion on SB 40 Fund

In our opinion, because of the significance of the matter discussed in the Basis for Adverse and Unmodified Opinions section of our report, the financial statements referred to above do not present fairly the Statement of Receipts, Disbursements and Changes in Cash Balances as of December 31, 2021 of the SB 40 Fund in accordance with the financial reporting provisions prescribed or permitted by Missouri law as described in Note I.

Basis for Adverse and Unmodified Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We

are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified and adverse audit opinions.

Matter Giving Rise to Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Matter Giving Rise to Adverse Opinion on SB40 Fund

Management has elected to exclude the financial statements of the SB 40 Fund due to records not available from the SB40 at time of report, which, if included would be reported separately in the Statement of Receipts, Disbursements and Changes in Cash Balances. Accounting principles generally accepted in the United States of America, as applied to the County's regulatory basis of accounting, require all funds to be included and reported on. The amount by which this departure would affect receipts, disbursements and cash balances of the County because of the omitted fund has not been determined.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Iron's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by *Title 2* U.S. Code of Federal Regulations *Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole on the basis of accounting described in Note I.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2022, on our consideration of the County of Iron's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Iron's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Iron, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1857 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: County Clerk, Collector, Treasurer, Sheriff, Assessor, Coroner, Circuit Clerk, Recorder of Deeds, Public Administrator, and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statement referred to above include only the County of Iron, Missouri, which consist of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. For the year ended December 31, 2021, the financial statements omit the Statements of Receipts and Disbursements and Budgetary Comparison Information for the SB 40 fund.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances– Governmental Funds, a Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Fiduciary Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Custodial funds are accounted for and reported similarly to the governmental funds. Custodial funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2021, for purposes of taxation, was:

	2021
Real Estate	$ 139,494,670
Personal Property	48,422,800
Railroad and Utilities	42,562,968
	$ 230,480,438

During 2021, the County Commission approved a $0.6137 tax levy per $100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2021
General Revenue Fund	$ 0.2393
Special Road and Bridge Fund	0.2811
Senate Bill 40 Fund	0.0933
	$ 0.6137

F. Cash and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of 90 days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting. Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. CASH AND CASH EQUIVALENTS

The County maintains a cash investment pool that is available for all funds. Each fund type's portion of this pool is displayed as "Cash and Cash Equivalents" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash is separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2021, the carrying amounts of the County's deposits were $2,750,139.83, and the bank balances were $10,206,667.58. The total bank balances as of December 31, 2021, were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits and cash equivalents shown above are included in the financial statements at December 31, 2021, as follows:

Statements of Receipts, Disbursements and Changes in Cash Balances	
Deposits and cash equivalents	$ 2,750,139.83
Total Governmental Funds	2,750,139.83
Statement of Assets and Liabilities Arising from Cash Transactions – Fiduciary Funds:	
Deposits	7,799,874.00
Total Custodial Funds	7,799,874.00
Total Deposits and Investments as of December 31, 2021	$ 10,550,013.83

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2021.

II. CASH AND CASH EQUIVALENTS (concluded)

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the year ended December 31, 2021.

III. LONG-TERM DEBT

On June 21, 2019, the County entered into a lease purchase agreement with First State Community Bank for an F-150 Truck for $99,480. The lease requires five annual payments of $22,224.45 and matures on June 1, 2024. The lease carries an interest rate of 3.75%.

On September 26, 2019, the County entered into a lease purchase agreement with Southern Bank for motor graders for $304,500. The lease requires six annual payments of $58,112.38 and matures on November 1, 2025. This lease carries an interest rate of 3.90%.

The following is a summary of changes in long-term debt for the year ended December 31, 2021:

	Balance at December 31, 2020	Amount Borrowed	Amount Repaid	Balance at December 31, 2021	Interest Paid During Year
F-150 Truck	$ 81,048.22	$ -	$ 39,753.14	$ 41,295.08	$ 2,055.59
Motor Graders	211,439.96	-	49,866.22	161,573.74	8,246.16
Totals	$ 292,488.18	$ -	$ 89,619.36	$ 202,868.82	$ 10,301.75

III. LONG-TERM DEBT (concluded)

The future payments for the Lease Purchase Agreements as of December 31, 2021, are as follows:

Year Ending December 31,	Interest	Principal	Total
2022	$ 1,570.07	$ 13,255.17	$ 14,825.24
2023	7,367.48	65,570.14	72,937.62
2024	4,825.22	68,112.40	72,937.62
2025	2,181.31	55,931.11	58,112.42
	$ 15,944.08	$ 202,868.82	$ 218,812.90

On July 26, 2016, the Recorder's office entered into an operating lease agreement with RiteGroup for copiers. The lease requires a monthly payment of $149 and has a term of 63 months which expired in 2021. Payments on this lease totaled $1,490 during 2021.

IV. INTERFUND TRANSFERS

The following transfers were made during the year ended December 31, 2021.

	2021	
	Transfers In	**Transfers Out**
General Revenue Fund	$ -	$ 12,400.00
Assessment Fund	12,400.00	-
	$ 12,400.00	**$ 12,400.00**

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. LOCAL GOVERNMENT EMPLOYEES' RETIREMENT SYSTEM (LAGERS)

Plan Description

The Iron County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Iron County participates in the Missouri Local Government Employees' Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

	2021 Valuation
Benefit Multiplier:	1.50%
Final Average Salary:	5 Years
Member Contributions:	4%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered By Benefit Terms

At June 30, 2021, the following employees were covered by the benefit terms:

	General	Police
Inactive employees or beneficiaries currently receiving benefits	24	8
Inactive employees entitled to but not yet receiving benefits	7	8
Active employees	33	2
	64	18

V. LOCAL GOVERNMENT EMPLOYEES' RETIREMENT SYSTEM (LAGERS) (continued)

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer contribute 4% of their gross pay to the pension plan. Employer contribution rates are 0.3% (General) and 2.1% (Police) of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2021.

Actuarial Assumptions

The total pension liability in the February 28, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75% wage inflation; 2.25% price inflation
Salary Increase	2.75% to 6.75% including wage inflation
Investment rate of return	7.00%, net of investment expenses

The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2021 valuation were based on the results of an actuarial experience study for the period March 1, 2010 through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

V. LOCAL GOVERNMENT EMPLOYEES' RETIREMENT SYSTEM (LAGERS) (continued)

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Alpha	15.00%	3.67%
Equity	35.00%	4.78%
Fixed Income	31.00%	1.41%
Real Assets	36.00%	3.29%
Strategic Assets	8.00%	5.25%
Cash/Leverage	-25.00%	-0.29%

Discount Rate

The discount rate used to measure the total pension liability is 7.00%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

V. LOCAL GOVERNMENT EMPLOYEES' RETIREMENT SYSTEM (LAGERS) (continued)

Changes in the Net Pension Liability

Schedule of Changes in Net Pension Liability and Related Ratios

	General Division	Police Division
A. Total Pension Liability		
1 Service Cost	$ 119,604	$ 25,410

9 Plan fiduciary net position - ending	$ 7,143,690	$ 1,212,736
C. Net Pension Liability / (Asset)	$ (2,661,600)	$ (538,247)
D. Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	159.38%	179.80%
E. Covered-Employee Payroll	$ 1,155,096	$ 71,245
F. Net Pension Liability as a Percentage of Covered Employee Payroll	-230.42%	755.49%

V. LOCAL GOVERNMENT EMPLOYEES' RETIREMENT SYSTEM (LAGERS) (continued)

Sensitivity of the Net Position Liability to Changes in the Discount Rate

The following presents the Net Pension Liability of the employer, calculated using the discount rate of 7.00%, as well as what the employer's Net Pension Liability would be using a discount rate that is 1% lower (6.00%) or 1% higher (8.00%) than the current rate.

Sensitivity of Net Pension Liability to the Single Discount Rate

	1% Decrease 6.00%	Current Single Discount Rate Assumption 7.00%	1% Increase 8.00%
General Division:			
Total Pension Liability (TPL)	$ 5,033,180	$ 4,482,090	$ 4,018,162
Plan Fiduciary Net Position	7,143,690	7,143,690	7,143,690
Net Pension Liability / (Asset) (NPL)	$ (2,110,510)	$ (2,661,600)	$ (3,125,528)
Police Division:			
Total Pension Liability (TPL)	$ 763,515	$ 674,489	$ 602,267
Plan Fiduciary Net Position	1,212,736	1,212,736	1,212,736
Net Pension Liability / (Asset) (NPL)	$ (449,221)	$ (538,247)	$ (610,469)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021, the employer recognized pension expense of $(221,578) for the General and $(65,551) for Police. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	General		Police	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 120,893	$ (114,745)	$ 5,577	$ (100,206)
Changes in assumptions	-	(95,684)	-	(12,703)
Net difference between projected and actual earnings on pension plan investments	-	(766,115)	-	(141,191)
Employer contributions subsequent to the measurement date	-	-	-	-
Total	$ 120,893	$ (976,544)	$ 5,577	$ (254,100)

V. LOCAL GOVERNMENT EMPLOYEES' RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending December 31, 2021.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2022	$ (222,534)	$ (68,524)
2023	(164,903)	(60,599)
2024	(184,743)	(61,283)
2025	(283,011)	(58,117)
2026	(460)	-
Thereafter	-	-
Total	$ (855,651)	$ (248,523)

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee or retiree participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government.

CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

VI. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service and who terminated employment after December 31, 1999, may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system. The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions (other than those made by the county) are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the year ended December 31, 2021, was $51,552.28.

VII. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had one participant in COBRA with approximate premium payments of $16,827.71 as of December 31, 2021.

VIII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $11,628 for the year ended December 31, 2021.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

Various suits and claims against the County are presently pending. It is management's opinion that any liability resulting from pending suits in excess of insurance coverage will not have a material effect on the basic financial statements of the County at December 31, 2021.

B. Compensated Absences

The County provides regular full-time employees with vacation time after they have completed their introductory period. Full-time employees are entitled to one week of vacation. After two years and through the fifth year, each full-time employee shall have two weeks of vacation and three weeks for six through ten years and four weeks from the eleventh year on. Employees may accrue vacation leave to a maximum of 30 days. An employee terminating employment with the County shall be reimbursed for any unused accumulated vacation leave. Regular full-time employees shall earn one and one-quarter days of sick leave for each complete calendar month of employment and be allowed to accumulate up to 60 days. Sick leave is not paid out upon termination of employment with Iron County.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in refunding of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.70 RSMo. 1986). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees.

Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Insured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

There were no subsequent events to report as of the audit report date.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

Actual expenditures exceed budget expenditures in the Law Enforcement Restitution Fund in the amount of $21,399.97.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission
The County of Iron, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Iron ("County") which comprise the Statement of Receipts, Disbursements and Changes in Cash Balances - Governmental Funds - Regulatory Basis and the Statements of Assets and Liabilities Arising From Cash Transactions - Fiduciary Funds - Regulatory Basis as of December 31, 2021, and the related Statements of Receipts, Disbursements and Changes in Cash Balances - Budget and Actual - Governmental Funds - Regulatory Basis as of and for the year ended December 31, 2021 and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated September 22, 2022.

In our report, because the County prepared its financial statements using financial reporting provisions prescribed or permitted by Missouri law, our opinion stated that the financial statements were not presented fairly in conformity with accounting principles generally accepted in the United States of America. However, the presented financial statements were found to be fairly stated in accordance with the financial reporting provisions prescribed or permitted by Missouri law, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. In addition, in our report, because management has elected to exclude the financial statements of the SB40 Fund, our opinion is that the financial statements, do not present fairly the Statement of Receipts Disbursements and Changes in Cash Balances of the SB40 Fund in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis, A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as item 2021-003 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs as items 2021-001 and 2021-002 to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Findings and Questioned Costs as items 2021-001, 2021-002 and 2021-003.

County's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the County's response to the findings identified in our audit and described in the accompanying Schedule of Findings and Questioned Costs. The County's response was not subjected to the other auditing procedures applied in the audit of the financial statements and accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission
The County of Iron, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited County of Iron's ("County") compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2021. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

Responsibility of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards,* and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards,* and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.

- Obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

TOTAL EXPENDITURES OF FEDERAL AWARDS			**$ 180,457.49**	**$ 1,170,146.86**

The notes to the schedule of expenditures of federal awards are an integral part of this schedule.

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the County of Iron under programs of the federal government for the year ended December 31, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Iron, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the County of Iron.

NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3-INDIRECT COST RATE

The County has not elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 4 – SUBRECIPIENTS

During the year ended December 31, 2021, the County provided $107,121.19 in federal awards to sub-recipients for the Schools and Roads – Grants to States under Federal Assistance Listing Number 10.665 and $73,336.30 in federal awards to sub-recipients for the National Forest Acquired Lands under Federal Assistance Listing Number 15.438.

NOTE 5 – DONATED PERSONAL PROTECTIVE EQUIPMENT (PPE) (Unaudited)

The County did not receive any donated personal protective equipment during the year ended December 31, 2021.

THE COUNTY OF IRON
IRONTON, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED DECEMBER 31, 2021

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Qualified and adverse - Regulatory Basis

2. Internal control over financial reporting:

   a. Material weakness(es) identified? X Yes ___ No

   b. Significant deficiency(ies) identified? X Yes ___ None Reported

3. Noncompliance material to financial statements noted? X Yes ___ No

B. Federal Awards

1. Internal control over major federal programs:

   a. Material weakness(es) identified? ___ Yes X No

   b. Significant deficiency(ies) identified? ___ Yes X None Reported

2. Type of auditor's report issued on compliance for major federal programs: Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with section 2 CFR 200.516(a)? ___ Yes X No

4. Identification of major federal programs:

Federal Assistance Listing Number	Name of Federal Program or Cluster
21.019	COVID-19: Coronavirus Relief Fund
21.027	COVID-19: American Rescue Plan Funds

5. Dollar threshold used to distinguish between type A and type B programs: $ 750,000

6. Auditee qualified as low-risk auditee? ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

2021-001

Criteria: A bank reconciliation is used to compare records to those of the bank to see if there are any differences between these two sets of records for cash transactions. Fraud detection, bank and accounting errors are the reasons for completing a bank reconciliation.

Condition: During our audit, we were informed that the Sheriff's office has not prepared bank reconciliations for the audit period. According to the Sheriff's office, the previous administration did not have records of reconciliations performed for all accounts as of December 31, 2021.

Cause: Lack of oversight by management.

Effect: By not preparing monthly bank reconciliations, fraud detection, bank and accounting errors could go undetected, causing the financial statements to be improperly reported.

Recommendation: We recommend that the Sheriff's office prepare accurate and timely bank reconciliations for all accounts.

Views of Responsible Officials: This has been discussed with the Sheriff's office. A new administrator has been hired in the Sheriff's office and has begun doing bank reconciliations monthly as well as keeping accurate records of those reconciliations. The Sheriff's office phone number is (573) 546-7051.

2021-002

Criteria: A bank reconciliation is used to compare records to those of the bank to see if there are any differences between these two sets of records for cash transactions. Fraud detection, bank and accounting errors are the reasons for completing a bank reconciliation.

Condition: During our audit, we were informed that the Collector's office has not prepared bank reconciliations for the audit period. According to the Collector's office, the previous administration did not have records of reconciliations performed for all accounts as of December 31, 2021.

Cause: Lack of oversight by management.

Effect: By not preparing monthly bank reconciliations, fraud detection, bank and accounting errors could go undetected, causing the financial statements to be improperly reported.

Recommendation: We recommend that the Collector's office prepare accurate and timely bank reconciliations for all accounts.

Views of Responsible Officials: This has been discussed with the Collector's office. The Collector has begun doing bank reconciliations monthly as well as keeping accurate records of those reconciliations starting in March of 2022. The Collector's office phone number is (573) 546-2911.

II. FINANCIAL STATEMENT FINDINGS (concluded)

2021-003 Criteria: Accounting principles generally accepted in the United States of America, as applied to the County's regulatory basis of accounting, require all funds to be included and reported on in its audited financial statements.

Condition: Management has elected to exclude the financial statements of the SB 40 Fund, which, if included would be reported separately in the Statement of Receipts and Disbursements and Changes in Cash Balances and the Budget and Actual statements.

Cause: There are no procedures in place that require management to include all funds of the County in the audited financial statements.

Effect: Because of the failure to require inclusion of all funds in the financial statements, the County does not comply with accounting principles generally accepted in the United States of America, as applied to the County's regulatory basis of accounting.

Recommendation: Procedures should be implemented requiring management to include all funds of the County in the audited financial statements.

Views of Responsible Officials: Management has discussed with the SB40 Board and the SB40 Board has hired an outside accounting firm to provide accurate and complete records going forward.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There were no Federal Award Findings and Questioned Costs for the year ended December 31, 2021.

THE COUNTY OF IRON
IRONTON, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2021

I. FINANCIAL STATEMENT FINDINGS – PRIOR YEAR

2020-001 Criteria: A bank reconciliation is used to compare records to those of the bank to see if there are any differences between these two sets of records for cash transactions. Fraud detection, bank and accounting errors are the reasons for completing a bank reconciliation.

Condition: During our audit, we were informed that the Sheriff's office has not prepared bank reconciliations for the audit period. According to the Sheriff's office, the previous administration did not have records of reconciliations performed for all accounts as of December 31, 2020.

Cause: During the year, the County Sheriff's office turned over to a new Sheriff.

Effect: By not preparing monthly bank reconciliations, fraud detection, bank and accounting errors could go undetected, causing the financial statements to be improperly reported.

Recommendation: We recommend that the Sheriff's office prepare accurate and timely bank reconciliations for all accounts.

Views of Responsible Officials: The Sheriff's office has begun reconciling all bank accounts on a monthly basis as well as keeping accurate records of those reconciliations. The Sheriff's office phone number is (573) 546-7051.

Status: This finding is repeated in the current year as 2021-001.

II. FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS – PRIOR YEAR

There were no federal award findings or questioned costs noted for the year ended December 31, 2020.

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

September 22, 2022

To the Board of Commissioners
Iron County

In planning and performing our audit of the regulatory based financial statements of the County of Iron (County) as of and for the year ended December 31, 2021, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency that we consider to be a material weakness and certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider 2021-003 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in internal control to be significant deficiencies

Our comments concerning internal control and other significant matters are presented as follows:

I. Deficiencies Considered to be Significant and Material
II. Information Required by Professional Standards

The County's management has provided written responses to the findings in this report that were identified in our audit. These responses have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This communication is intended solely for the information and use of the County Commission, County Officeholders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

DANIEL JONES & ASSOCIATES, P.C.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT AND MATERIAL

2021-001 Criteria: A bank reconciliation is used to compare records to those of the bank to see if there are any differences between these two sets of records for cash transactions. Fraud detection, bank and accounting errors are the reasons for completing a bank reconciliation.

Condition: During our audit, we were informed that the Sheriff's office has not prepared bank reconciliations for the audit period. According to the Sheriff's office, the previous administration did not have records of reconciliations performed for all accounts as of December 31, 2021.

Cause: Lack of oversight by management.

Effect: By not preparing monthly bank reconciliations, fraud detection, bank and accounting errors could go undetected, causing the financial statements to be improperly reported.

Recommendation: We recommend that the Sheriff's office prepare accurate and timely bank reconciliations for all accounts.

Views of Responsible Officials: This has been discussed with the Sheriff's office. A new administrator has been hired in the Sheriff's office and has begun doing bank reconciliations monthly as well as keeping accurate records of those reconciliations. The Sheriff's office phone number is (573) 546-7051.

2021-002 Criteria: A bank reconciliation is used to compare records to those of the bank to see if there are any differences between these two sets of records for cash transactions. Fraud detection, bank and accounting errors are the reasons for completing a bank reconciliation.

Condition: During our audit, we were informed that the Collector's office has not prepared bank reconciliations for the audit period. According to the Collector's office, the previous administration did not have records of reconciliations performed for all accounts as of December 31, 2021.

Cause: Lack of oversight by management.

Effect: By not preparing monthly bank reconciliations, fraud detection, bank and accounting errors could go undetected, causing the financial statements to be improperly reported.

Recommendation: We recommend that the Collector's office prepare accurate and timely bank reconciliations for all accounts.

Views of Responsible Officials: This has been discussed with the Collector's office. The Collector has begun doing bank reconciliations monthly as well as keeping accurate records of those reconciliations starting in March of 2022. The Collector's office phone number is (573) 546-2911.

I. DEFICIENCIES CONSIDERED TO BE SIGNIFICANT AND MATERIAL (concluded)

2021-003 Criteria: Accounting principles generally accepted in the United States of America, as applied to the County's regulatory basis of accounting, require all funds to be included and reported on in its audited financial statements.

Condition: Management has elected to exclude the financial statements of the SB 40 Fund, which, if included would be reported separately in the Statement of Receipts and Disbursements and Changes in Cash Balances and the Budget and Actual statements.

Cause: There are no procedures in place that require management to include all funds of the County in the audited financial statements.

Effect: Because of the failure to require inclusion of all funds in the financial statements, the County does not comply with accounting principles generally accepted in the United States of America, as applied to the County's regulatory basis of accounting.

Recommendation: Procedures should be implemented requiring management to include all funds of the County in the audited financial statements.

Views of Responsible Officials: Management has discussed with the SB40 Board and the SB40 Board has hired an outside accounting firm to provide accurate and complete records going forward.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards, *Government Auditing Standards* and the Uniform Guidance

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 12, 2022. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during fiscal year 2021. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 22, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Officeholders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

Missouri State Auditor

City of Rockville

Report No. 2022-100

November 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Rockville

Oversight and Segregation of Duties	The Board of Aldermen has not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions is performed.
Accounting Controls and Procedures	The city's procedures for receipting, recording, and depositing money need improvement. The City Treasurer does not prepare adequate or timely bank reconciliations for the city's 8 bank accounts, maintain a checkbook register for all accounts, or maintain running book balances. The City Treasurer could not provide adequate supporting documentation for some disbursements and the Board's review of disbursements is not adequate. In addition, the disbursement lists are not retained with the meeting minutes.
Utility Controls and Procedures	The city does not have an ordinance or written policies authorizing partial payments, and does not follow established service shutoff procedures for customers who make partial payments. Someone independent of the utility's accounting functions does not approve partial payments and there are no written partial payment agreements. Refundable customer utility deposits held in the Meter Fund bank account and the Water Meter certificate of deposit are not accounted for properly. The City Treasurer did not have adequate controls and procedures to ensure sales taxes collected and related returns associated with water services were properly remitted to the Department of Revenue as required by state law. City officials do not perform monthly reconciliations of total gallons of water billed to gallons of water pumped. The city has not obtained annual audits of its sewer system as required by state law.
Billings	The Board has not established policies and procedures to ensure the timely preparation and mailing of annual property tax statements and monthly utility billings.
Delinquent Property Taxes	The City Treasurer does not prepare and submit for approval to the Board a monthly list of delinquent tax collections or an annual delinquent tax listing, and the city does not have procedures to pursue collection of delinquent taxes.
Ordinances	City ordinances are not complete or up to date.
Election Procedures	The city did not follow state law during an election for an Alderman seat that ended in a tie vote.
Budgets and Financial Reporting	The city did not prepare annual budgets, file adequate financial reports, and publish semiannual financial statements in compliance with state law.
User Identification and Passwords	The city has not established adequate user identification and password controls to reduce the risk of unauthorized access to the city computer and data.

Electronic Communication Policy	The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 20

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Rockville, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Rockville. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

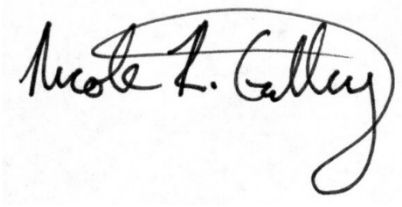
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Rockville.



Nicole R. Galloway, CPA
State Auditor

1. Oversight and Segregation of Duties

The Board of Aldermen has not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions is performed.

The City Treasurer is responsible for most financial duties of the city, including recording payments received, preparing deposits, preparing tax bills, issuing disbursement checks from warrants issued by the City Clerk and Mayor, and preparing monthly bank reconciliations and financial reports. The City Clerk is responsible for preparing and mailing utility bills, recording payments received, and preparing disbursement warrants for payment of invoices. The City Treasurer performs the duties of the City Clerk when the position is vacant, and performed these duties for approximately 1 year prior to February 2021 and has performed these duties since December 2021. The City Clerk and the City Collector positions were combined by ordinance in October 2012.

Combining financial positions diminishes the effectiveness of segregation of duties and increases the importance of thorough, independent reviews of work performed. The Mayor and City Treasurer indicated the Board reviews some financial records, such as disbursement warrants, disbursement lists, and lists of delinquent utility accounts, but does not perform significant reviews of depositing and disbursement functions. In addition, the City Treasurer is the wife of an alderman and this alderman is the Mayor's first cousin. The Board has not established an ordinance to address the employment and supervision of a related employee (see Management Advisory Report (MAR) finding number 6). As a result, the objectivity and effectiveness of Board reviews of financial records may be compromised.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. Attorney General's Opinion 24-1955 (June 10, 1955) to Dodds, concluded that in a fourth-class city, the holding of the positions of City Clerk, City Treasurer, and City Collector, or any two of these offices, by the same person at the same time would be incompatible. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the Board.

Recommendation

The Board of Aldermen segregate accounting duties to the extent possible and implement appropriate independent reviews and monitoring procedures.

Auditee's Response

The City of Rockville (COR) has already begun another search (our fourth in the past 6 years) to secure a long-term City Clerk. We have placed advertisements in local papers as well as on the internet. The COR decided that we would continue with the interview and hiring process once the lengthy process of the state audit was completed. Our belief is that hiring a City Clerk,

once properly trained, will resolve many of the audit recommendations, including the segregation of duties. So doing would provide multiple "eyes" on the processes involved for more accountability, as well as create more time for the City Treasurer (and City Clerk) to handle their individual responsibilities. In addition, the Board will implement appropriate independent reviews and monitoring procedures when it is not possible to segregate duties due to vacancies.

The COR has also already discussed and voted on turning over collection of taxes to the County Collector. This has also been accepted and is in the process of immediately being implemented. This will allow for more time for the City Treasurer (and City Clerk) to focus on individual responsibilities.

The COR is also in the process of creating and discussing policies and procedures, and ordinances, where necessary, to address on-going issues (more discussion in MAR finding number 6 response). One such discussion addresses a policy regarding relationships of aldermen and city positions.

2. Accounting Controls and Procedures

Accounting controls and procedures need improvement. Bank records indicate the city received approximately $166,000 and disbursed approximately $157,000, including transfers between funds, during the year ended December 31, 2021.

2.1 Receipting, recording, and depositing

The city's procedures for receipting, recording, and depositing money need improvement.

- City personnel do not issue receipt slips for all money received or maintain a comprehensive log of receipts. Receipt slips for utility and miscellaneous payments are typically only issued for cash receipts. In addition, the City Treasurer indicated some receipt slips are handwritten on blank paper with no copies retained for the city's records. City personnel record property tax receipts in the tax book and utility receipts in Excel spreadsheets. However, these records are not maintained in a manner to readily determine the receipts by date. City bank deposits reviewed from September 3, 2021, to October 15, 2021, identified $22,374 in unrecorded receipts out of the $46,853 deposited during this period (48 percent). These unrecorded receipts related to miscellaneous payments and included a receipt of $14,183 from a federal grant that was electronically deposited on September 17, 2021.

- City personnel do not issue receipt slips in numerical sequence, do not account for the numerical sequence of receipt slips, and do not reconcile receipt slips issued to the utility spreadsheets.

- The composition of property tax receipts is not reconciled to the composition of deposits.

- Receipts are not always kept in a secure location until they are deposited. The City Treasurer sometimes takes receipts to her personal residence prior to being deposited. She indicated she believed receipts were more secure at her personal residence.

- The City Treasurer does not deposit receipts timely or intact.

  A property tax deposit on September 3, 2021, totaling $5,939, included receipts from August 12, 2020, to July 28, 2021. A property tax deposit on September 30, 2021, totaling $10,495, included receipts from December 24, 2020, to July 16, 2021. We also identified 3 property tax receipts, totaling $69, from April 5, 2021, to August 30, 2021, that were not deposited until March 28, 2022. The City Treasurer indicated the receipts were not deposited timely due to time constraints. In addition, the 3 receipts deposited in March 2022 were placed in the tax book and overlooked when property tax receipts were deposited in September 2021.

  A utility receipts deposit prepared on December 31, 2021, totaling $1,827 did not clear the bank until January 26, 2022. In addition, 38 checks totaling $2,933 and dated between February 23, 2022, and March 16, 2022, were still on hand during our cash count on March 23, 2022. The City Treasurer indicated that the bank has limited hours and deposits are made as time permits.

- The City Treasurer does not properly deposit water, sewer, and trash receipts into the appropriate bank accounts. Utility payments are deposited into the General Fund, Water Revenue Fund, and Sewer Fund bank accounts based on utility billings rather than actual utility collections. The City Treasurer typically deposits amounts equal to the monthly billings for sewer and trash services into the General and Sewer Fund bank accounts, respectively, and deposits the remaining receipts into the Water Revenue Fund bank account. As a result, the General and Sewer Funds receive more money than they should from actual collections, and the Water Revenue Fund receives less than it should.

- Checks and money orders received are not always restrictively endorsed upon receipt. None of the 45 checks, totaling $3,160, on hand during our March 23, 2022, cash count were endorsed. The City Treasurer indicated she typically endorses them when she prepares the deposits.

The Mayor indicated the City Treasurer provided reports to the Board and they trusted her completely, but failed to provide oversight to ensure procedures were adequate and duties were properly performed.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of money will occur and increases the likelihood that errors will go undetected.

2.2 Bank reconciliations

The City Treasurer does not prepare adequate or timely bank reconciliations for the city's 8 bank accounts, maintain a checkbook register for all accounts, or maintain running book balances. Auditors began requesting the bank reconciliations on March 30, 2022. While some bank reconciliations were provided on April 19, 2022, the December 2021 bank reconciliations were not provided until May 2022, after multiple requests. Our review of the December 2021 bank reconciliations identified the following concerns:

- The City Treasurer does not maintain checkbook registers for the Sewer Bond Reserve Fund or American Rescue Plan Act Fund bank accounts or running book balances for any accounts. Instead, the City Treasurer takes the bank statement balance, deducts outstanding checks, and adds deposits in transit to determine the reconciled bank balance. She records this balance in the checkbook register at month-end. Because running book balances are not maintained, it is not possible to compare the reconciled bank balances to the book balances.

- We determined the City Treasurer did not accurately record the December interest earned amount and the amount for check number 10862 in the checkbook register for the General Fund account. These errors were not detected because a running book balance is not maintained and compared to the reconciled bank balance.

- The City Treasurer erroneously recorded $57,059.93 as the bank statement balance on the reconciliation for the Water Revenue Fund account instead of the $56,209.70 balance shown on the bank statement.

Performing timely and adequate monthly bank reconciliations is necessary to ensure accounting records are accurate and to identify errors timely. Maintaining an accurate book balance for each account would also aid in preparing the monthly bank reconciliations and monitoring the bank balances. The City Treasurer indicated that bank reconciliations were not performed timely and running book balances were not maintained due to time constraints from outside employment. In addition, she believed it was sufficient to add the book balances when she performed the bank reconciliations and that activity on some accounts was minimal.

2.3 Disbursements

The City Treasurer could not provide adequate supporting documentation for some disbursements and the Board's review of disbursements is not adequate. The Board does not review invoices and other supporting documentation, and does not sign or initial the monthly disbursement lists. In addition, the disbursement lists are not retained with the meeting minutes.

Our review of 25 disbursements chosen judgmentally during the year ended December 31, 2021, noted adequate supporting documentation was not maintained for 3 disbursements totaling $2,204, including a $160 payment to the City Treasurer for reimbursement of items purchased. The City Treasurer did not attach the original store receipt slips to the handwritten invoice and was not able to provide them. The Board indicated it did not see the need to review all invoices and supporting documentation, but would question any unusual items.

To ensure obligations were actually incurred and amounts are appropriate, all disbursements need to be supported by paid receipt slips, itemized vendor invoices, or other detailed documentation with payment information clearly indicated. To adequately document the Board's review and approval of all disbursements, the disbursement lists need to be signed or initialed by the Board members and retained with the official minutes. Failure to properly review all invoices and supporting documentation, and to document authorizations, increases the risk of inappropriate disbursements occurring.

Recommendations

The Board of Aldermen:

2.1 Ensure prenumbered receipt slips are issued in numerical sequence for all money received, the numerical sequence of receipt slips is accounted for, the composition of receipts is reconciled to the composition of deposits, and money is kept in a secure location until deposited. Also, ensure deposits are made timely and intact; receipts are deposited into the appropriate bank accounts based on collections for water, sewer, and trash; and checks and money orders are restrictively endorsed upon receipt.

2.2 Ensure monthly bank reconciliations are prepared timely, and checkbook registers and running book balances are maintained for all bank accounts.

2.3 Maintain adequate supporting documentation for all disbursements, and perform a documented review and approval of invoices and disbursement lists prior to payment.

Auditee's Response

2.1 The City Treasurer has already begun to utilize a prenumbered receipt slip book so receipt slips are now issued in numerical sequence for all money received, and not just cash (or upon request)

as done before. Multiple receipt slip books are also used to track the variety of money received (ACH payments, water bills, etc.). Increased security measures have also been implemented regarding maintaining funds until deposited. The City Treasurer will not remove funds until the time of deposit as recommended, and will begin to restrictively endorse checks and money orders upon receipt. Procedures will also be implemented to account for the numerical sequence of receipt slips and reconcile the composition of receipts to the composition of deposits. Deposits will be made more timely and intact, and utility receipts will be deposited into the appropriate bank accounts based on collections.

2.2 The COR believes that the hiring of a new City Clerk (discussed in MAR finding number 1 response) will address the issue of monthly bank reconciliations being prepared, as well as overall maintenance for checkbook registers and running book balances. Additionally, the City Treasurer will update the running book balance in a timely manner.

2.3 The COR will begin adding supplemental information to meeting minutes, as well as providing invoices and supporting documentation for the Board to perform a documented review and approval prior to making payments. Adequate supporting documentation will be maintained for all disbursements.

3. Utility Controls and Procedures

Utility controls and procedures need improvement. According to the city's financial statements, the city collected approximately $73,000 for water, sewer, and trash services during the year ended December 31, 2021.

3.1 Partial payments and shut off procedures

The city does not have an ordinance or written policies authorizing partial payments, and does not follow established service shutoff procedures for customers who make partial payments. In addition, someone independent of the utility's accounting functions does not approve partial payments and there are no written payment agreements for partial payments. Instead, the Board reviews a monthly list of delinquent utility accounts and the City Treasurer presents an update on delinquent accounts at Board meetings. It is not clear if these customers should be subject to shutoff procedures. In addition, city ordinance No. 17-001 section 7 gives the City Clerk authority to delay suspension of services for any account if prior payment timing indicates that it is likely the account will be brought current before the past due balance exceeds the deposit holding. However, because the City Clerk is responsible for billing, she should not have the authority to delay suspension of services. Furthermore, the city does not charge interest or penalties for late payments, which reduces the incentive for customers to pay timely.

City ordinance No. 17-001 section 2 states any account still delinquent on the 10th of the following month is subject to suspension of service. Good business practices require adequate collection procedures be established to ensure accounts are collected timely and bad debts are kept to a minimum. City officials indicated the city had verbal payment plans set up with customers that allowed them to pay the current billing amount plus an additional amount for the past due balance. The Board accepted and approved these partial payments in an effort to help struggling customers, but did not recognize the need to obtain written payment plans.

3.2 Utility deposits

Refundable customer utility deposits held in the Meter Fund bank account and the Water Meter certificate of deposit are not accounted for properly. City personnel do not have a complete listing of deposits held and are not reconciling deposit balances to the bank account and certificate of deposit balances.

Customer account records are not adequate to determine the amount of deposits held. Meeting minutes indicate the water meter deposits are $90 for homeowner properties and $180 for rental properties. These rates have been in place since 2010. Prior to 2010, the City Treasurer indicated deposit amounts were $90 (2006), $75 (1992), $25 (1979), and $15 (1970). Utility records indicate the city had 147 active utility accounts as of December 31, 2021. The Meter Fund bank account had a balance of $12,838 and the Water Meter certificate of deposit had a balance of $1,920, for a total of $14,758, as of December 31, 2021. However, it is unknown if this is the correct amount of deposits that the city should be holding.

Refundable utility deposits are restricted funds held for customers. Procedures to review utility deposit records are necessary to ensure all customer deposits are accounted for properly. In addition, maintaining an accurate list of utility deposits held is necessary to reconcile the list monthly to money held in the Meter Fund bank account and Water Meter certificate of deposit. The City Treasurer indicated a former City Clerk started a list in 2019, but it is not complete, the totals are not accurate, and she cannot find city records for older accounts.

3.3 Sales tax

The City Treasurer did not have adequate controls and procedures to ensure sales taxes collected and related returns associated with water services provided for the third and fourth quarters of 2017 and the annual periods of 2019 and 2020 were properly remitted to the Department of Revenue (DOR) as required by state law. As a result, the city incurred interest and penalties totaling $636.

Our review determined checks issued from 2017 to 2021 for these taxes had not cleared the bank as of March 31, 2022. The City Treasurer indicated she believes the checks and related returns were lost in the mail. The City

Treasurer further indicated she did not realize the various returns and taxes were delinquent until the DOR notified the city in June 2021. The City Treasurer was aware these checks had not cleared the bank, but stated she did not have time to investigate and resolve them. The City Treasurer filed those returns and remitted payments totaling $2,844 in November 2021 for taxes ($2,208) and interest and penalties ($636).

Section 144.080, RSMo, requires sales tax collections be reported and remitted to the DOR on a monthly, quarterly, or annual basis, depending on the amounts collected.

3.4 Water reconciliations

City officials do not perform monthly reconciliations of total gallons of water billed to gallons of water pumped. The City Treasurer indicated she does not have time to complete these reconciliations and had gotten behind on them while the City Clerk's position was vacant.

Monthly reconciliations of gallons of water billed to gallons of water pumped are necessary to help detect significant water loss or other problems and ensure all water usage is properly billed.

3.5 Annual audit

The city has not obtained annual audits of its sewer system as required by state law.

Section 250.150, RSMo, requires the city obtain annual audits of the sewer system and the cost be paid from revenues received from the system. The City Treasurer indicated she was unaware of this requirement.

Recommendations

The Board of Aldermen:

3.1 Establish an ordinance for partial payments and create policies and procedures governing the process that should include at least (1) each customer having a written payment plan, and (2) approval of each plan by someone independent of the utility's accounting functions.

3.2 Ensure a list of utility deposits is prepared and reconciled to the balance of deposits held monthly and promptly investigate any differences.

3.3 Ensure sales taxes collected are reported and remitted timely.

3.4 Ensure monthly reconciliations are performed of gallons of water billed to gallons pumped, and investigate any significant differences.

3.5 Obtain annual audits of the sewer system as required by state law.

Auditee's Response

3.1 The COR is in the process of discussion and adoption of a written policy and ordinance (including updating verbiage regarding a recently passed ordinance) relating to partial payments with utilities, specifically water/sewer bills. The COR will update the verbiage as necessary, including a formalized process of providing a written payment plan, signed and agreed upon by the customer, and subsequently approved (or disapproved) by the Board.

3.2 The COR is working to address this issue, including the lengthy time needed for the City Treasurer to do so. Hiring a City Clerk will help this issue (discussed in MAR finding number 1 response), but it will likely take several months to fully separate out the individual deposits. This was an issue that the COR and City Treasurer had been working on accumulating and addressing as able over the past several months.

3.3 The COR will implement procedures to ensure sales taxes collected are reported and remitted timely to the DOR.

3.4 The COR believes this is an issue that will be resolved upon the hiring of a City Clerk (discussed in MAR finding number 1 response). In July 2022, the City Treasurer performed all the monthly reconciliations from January 2021 through June 2022, and will ensure these are completed monthly going forward. The City Clerk will do this upon hire.

3.5 The COR has made arrangements for the audit of 2021 and will obtain necessary annual audits of the sewer system going forward.

4. Billings

The Board has not established policies and procedures to ensure the timely preparation and mailing of annual property tax statements and monthly utility billings. The city had 147 utility accounts and approximately 140 property tax statements for the year ended December 31, 2021.

The City Treasurer indicated she did not mail property tax statements for tax years 2020 and 2021 until late March 2021 and March 2022, respectively; almost 3 months past the delinquent dates. The property tax statements indicate taxes are due September 1 each year and become delinquent on January 1 of the following year. In addition, our review of utility billings showed the February 2022 billings (service month ending January 28, 2022) were not sent until April 6, 2022. The March 2022 billings (service month ending February 28, 2022) were not sent until June 30, 2022.

Failure to prepare and mail property tax statements and monthly utility billings timely increases the likelihood that city revenues will go uncollected

and citizens will not be treated equitably in the collection of tax and utility bills.

Section 94.310, RSMo, states the enforcement of taxes shall be in the same manner for the collection of county taxes. Section 52.230, RSMo, requires county collectors to mail a statement of all real and personal property taxes due to all resident taxpayers at least 30 days prior to the delinquent date. Section 94.300, RSMo, states upon the first day of January of each year all unpaid city taxes shall become delinquent, and a perpetual lien is placed on the real property. The City Treasurer indicated the delays were due to the amount of work required to prepare the manual billings, and obligations related to outside employment.

Recommendation

The Board of Aldermen implement policies and procedures to ensure property tax statements and monthly utility billings are prepared and mailed timely.

Auditee's Response

In July 2022, the COR turned over the billing and collection of property taxes to the county and this will address this situation going forward regarding taxes (discussed in MAR finding number 1 response). Additionally, hiring a City Clerk to help segregate the necessary duties will also free time up for both the City Treasurer and the City Clerk to get items done in a timely fashion (discussed in MAR finding number 1 response). City officials are considering options to ensure the monthly utility billings are prepared timely while the City Clerk's position is vacant.

5. Delinquent Property Taxes

The City Treasurer does not prepare and submit for approval to the Board a monthly list of delinquent tax collections or an annual delinquent tax listing, and the city does not have procedures to pursue collection of delinquent taxes. The city billed approximately $17,600 in property taxes during 2021 for the 2020 tax year. The 2021 property tax billings had not been prepared and mailed when we started our audit in March 2022 (see MAR finding number 4).

The City Treasurer could not readily determine total delinquent taxes and the city has no procedures to pursue collection of delinquent taxes. In addition, the City Treasurer does not mail delinquent tax bills for prior years when sending current tax bills. While reviewing the tax books, we determined delinquent taxes for 2020 totaled approximately $4,100, or 23 percent of property taxes billed as of March 30, 2022. As discussed at MAR finding number 1, the City Clerk position is combined with the City Collector position; however, the City Treasurer is currently responsible for performing these duties.

Section 94.330, RSMo, requires the City Collector to prepare and submit to the Board monthly reports of taxes collected on delinquent accounts. In addition, Sections 79.310 and 94.320, RSMo, require the City Collector to

provide the Board annual lists of delinquent taxes for the Board to examine and approve and charge the City Collector with the amount of taxes due. The City Treasurer indicated that she did not prepare listings of delinquent taxes or pursue collections of delinquent taxes due to time constraints.

Recommendation

The Board of Aldermen require the City Treasurer to submit monthly lists of delinquent tax collections and an annual list of all taxes remaining due and uncollected as required by law. In addition, the Board should establish procedures to pursue collection of delinquent taxes.

Auditee's Response

In July 2022, the COR turned over the billing and collection of property taxes to the county and this will address this situation going forward (discussed in MAR finding number 1 response). Our expectation is that we will receive required reports from the county (as well as taxes paid) and thus be able to address this as the Board needs to do so each month.

6. Ordinances

City ordinances are not complete or up to date.

- City ordinance No. 127, establishing the compensation of Board members, the City Clerk, and the City Treasurer, has not been updated since 1974 and does not agree to amounts currently paid.
- The city does not have an ordinance establishing a conflicts of interest policy and personnel policy addressing the supervision of related employees.
- The city has not adopted an ordinance establishing trash rates and water meter deposits.

Because ordinances passed by the Board to govern the city and its residents have the force and effect of law, it is important they are current, complete, and followed. In addition, ordinances documenting approved compensation, conflicts of interest and personnel policies, trash rates, and water meter deposits help ensure equitable treatment and prevent misunderstandings. Section 79.270, RSMo, authorizes the Board to fix the compensation of all city officials and employees by ordinance. City officials indicated they were not aware that updating or establishing these ordinances was necessary. They believed approving the compensation, trash rates, and water meter deposits in the Board meetings was sufficient.

Recommendation

The Board of Aldermen update the compensation ordinance and ensure ordinances are maintained in a complete and up-to-date manner. The Board should establish, by ordinance, a conflicts of interest policy and personnel policy addressing the supervision of related employees, trash rates, and water meter deposits.

Auditee's Response

The COR has already taken numerous steps to improve and resolve the on-going issue with city ordinances and plans to fully implement the recommendation. The COR has recently done extensive research and filing to organize and coordinate the current ordinances. Additionally, the COR has found that numerous ordinances need to have language or policies updated. During this auditing process, we have already begun to update the language as needed, as well as update, re-write, and create new ordinances, or if needed, policies and procedures. In so doing, we will have all necessary ordinances both updated and filed for easy future finding. One of the ordinances relates to individuals that are related serving on the Board or in a city position (discussed in MAR finding number 1 response). In August 2022, the COR updated the compensation ordinance and established an ordinance for the trash rates.

7. Election Procedures

The city did not follow state law during an election for an Alderman seat that ended in a tie vote.

The April 6, 2021, election resulted in 3 write-in candidates tied for one Alderman seat. The city swore in one of the write-in candidates on April 21, 2021, to be the Alderman. City officials indicated the Board picked the first candidate on the list because the other 2 candidates resigned their positions previously and showed no interest in open positions. Subsequently, after receiving complaints about how this was handled, the city obtained legal advice and sent letters to the 3 write-in candidates on August 5, 2021, asking if they wanted a special election to be held or if they wanted to decline the position. The candidate initially sworn in to be the Alderman returned the letter on August 13, 2021, and requested a special election. The 2nd write-in candidate returned the letter on August 22, 2021, and stated the letter was illegal, but did not request a special election or decline the position. The 3rd write-in candidate did not return the letter. The person initially sworn in retained the seat based on responses received.

Section 115.517.3, RSMo, indicates that if two or more persons receive an equal number of votes, a special election should be immediately ordered. Section 115.517.4, RSMo, indicates political subdivisions may determine the winner of the election by lot if all candidates with an equal number of votes agree to the procedure. City officials indicated they were unaware of the state law requirements for how to handle a tie vote in an election. Once the election was contested, they sought legal advice, reached out to the candidates, and attempted to rectify the situation as soon as possible.

Recommendation

The Board of Aldermen perform due diligence to ensure election procedures are in compliance with state law.

Auditee's Response

The COR will ensure election procedures are in compliance with state law going forward.

8. Budgets and Financial Reporting

Budgeting and financial reporting procedures need improvement. The city did not prepare annual budgets and publish semiannual financial statements, and the annual financial reports filed were not adequate.

8.1 Budgets

City officials did not prepare a budget for the years ended December 31, 2021, 2020, and 2019.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in setting utility rates and tax levies and informing the public about city operations and current finances. Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. In addition, Section 67.080, RSMo, provides that no expenditures of public money should be made unless it is authorized in the budget. Proper monitoring of budgeted amounts to actual results is necessary for the budget to be an effective management tool. City officials indicated they were not aware of these requirements. However, the Board does review the financial records and reports as needed, including a year-end summary of the previous year.

8.2 Financial reporting

City officials did not file adequate financial reports with the State Auditor's Office (SAO) for the years ended December 31, 2019, 2020, and 2021, as required by state law. The financial reports submitted consisted of receipts and disbursements for only 3 of the city's 8 bank accounts. In addition, the reports did not include the city's property tax levy, and statement of indebtedness as required by state regulations.

Section 105.145, RSMo, requires each political subdivision to file annual reports of its financial transactions with the SAO. Rule 15 Code of State Regulations (CSR) 40-3.030 details the elements needed, including beginning and ending balances, a summary of receipts and disbursements, a statement of indebtedness at the beginning and ending, and the property tax rate levied for each fund for the reporting period. City officials indicated they were not aware of these requirements and thought they had filed all the necessary financial information with the SAO.

8.3 Published financial statements

City officials do not publish semiannual financial statements as required by state law. As a result, information regarding the city's financial activity and condition is not available to all citizens.

Section 79.160, RSMo, requires the Board to prepare and publish financial statements semiannually that include a full and detailed account of the receipts, disbursements, and indebtedness of the city. City officials indicated

they were unaware of this requirement and financial statements are posted at the local post office, bank, and city hall. City officials further indicated they have made financial statements available to the public in this manner for several years.

Recommendations

The Board of Aldermen:

8.1 Prepare annual budgets as required by state law, and ensure the budgets are adequately monitored.

8.2 Submit adequate annual financial reports to the State Auditor's Office as required by state law.

8.3 Publish semiannual financial statements as required by state law.

Auditee's Response

8.1 Upon initially hearing about the need to prepare an annual budget, the COR immediately formulated a current budget based on the previous fiscal year's numbers, and will prepare budgets annually going forward. In addition, the COR will ensure annual budgets are monitored monthly by comparing budgeted amounts to actual amounts.

8.2 The COR has taken measures to ensure adequate financial reports are sent into the State Auditor's Office as required.

8.3 Going forward, the COR will publish semiannual financial statements as required by state law.

9. User Identification and Passwords

The city has not established adequate user identification and password controls to reduce the risk of unauthorized access to the city computer and data. The City Treasurer and former City Clerk shared the computer using the same user identification and password during the former City Clerk's employment (February 2021 to November 2021). As a result, there is no assurance that the user listed in the system for posting a transaction is the person who did it. In addition, these officials are not required to change passwords periodically. As a result, former employees could continue to have access to critical or sensitive information or have opportunities to sabotage or otherwise impair city operations or assets.

While a user identification and password are required to authenticate access, the security of these logon credentials is dependent on keeping them confidential and requiring users to enter their unique user identification and password when switching users. Allowing certain users to share computers without logging off and back on with their unique user identification and password, and not requiring passwords to be periodically changed, increases the risk of unauthorized access and/or changes to the system and records, and

reduces assurance that access is limited to only those individuals who need access to perform their job responsibilities. Passwords should be unique and confidential and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of the city computers and data. City officials indicated they were not aware of the importance of computer access controls.

Recommendation

The Board of Aldermen require all authorized users have unique identifications and confidential passwords that are periodically changed.

Auditee's Response

The COR has already taken measures to resolve this issue. We hired a computer consultant to address all issues necessary with our computer system, including creating specific and confidential passwords for those that use the computer. At this time, the City Treasurer is the only one with computer access. Upon hiring a City Clerk, the same process will be implemented for said position.

10. Electronic Communication Policy

The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law. City officials indicated they were unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The Board of Aldermen develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed August 9, 2022.

Auditee's Response

The COR has discussed possible items to include in an electronic communications management policy and will continue to consider options for development of a policy that meets the needs of the city and complies with the state guidelines.

City of Rockville
Organization and Statistical Information

The City of Rockville is located in Bates County. The city was incorporated in 1884 and is currently a fourth-class city. The city employed 5 part-time employees on December 31, 2021.

City operations include utilities (water, sewer, trash), street maintenance, and recreational facilities.

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at December 31, 2021, are identified below. The Mayor and Board of Aldermen receive $25 per meeting attended.

James Williamson, Mayor
Amanda Damon, Alderwoman
James Damon, Alderman
James (Pete) Shouse, Alderman
Jerry Adams, Alderman

Other Principal Officials

The City Clerk and City Treasurer are appointed by the Board of Aldermen. The city's principal officials at December 31, 2021, are identified below:

Rhonda Shouse, City Treasurer
Sheila Fischer, City Clerk (1)

(1) Began extended leave in December 2021 and resigned in February 2022. This position remains vacant.

Financial Activity

A summary of the city's financial activity, prepared using the city's bank statements, for the year ended December 31, 2021, follows:

City of Rockville
Schedule of Receipts, Disbursements, and Changes in Cash
Year Ended December 31, 2021

	General Fund	Water Revenue Fund	Sewer Fund	Meter (Deposits) Fund	Tax Account Fund	Sewer Bond Reserve Fund	Park Fund	American Rescue Plan Act Fund	Certificate of Deposit - Sewer Bond Reserve Fund	Certificate of Deposit - Water Meter (Deposits) Fund	Total

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Fairview

Overpayments, Improper Use of City Funds, and Conflicts of Interest	The former City Clerk was overpaid $3,351, and the Board improperly spent $120,252 of restricted funds from a city trust fund. The city paid $17,325 to a business that a former Mayor managed and owned in violation of city code related to conflicts of interest, and some of the checks issued to the former Mayor's business were dated prior to the date of the related invoice.
Payroll Controls and Procedures	Timecards were not always signed by the employee or supervisor to document approval and review of time worked, and leave records maintained did not always adequately track the hours of vacation leave earned and used, and any remaining balances. The former City Clerk did not always follow city code regarding vacation leave, compensation, and related employees. The Board also does not have ordinances establishing the amount of compensation of any city officials and employees. The city had no documentation to justify the allocation of the City Clerk's compensation to the various city funds.
Accounting Controls and Procedures	The Board has not established adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the City Clerk. The former City Clerk and former City Treasurer did not always deposit receipts intact and timely, and rental deposits for the John Q. Hammons Community Center were not always receipted or deposited. The city maintains an excessive number of bank accounts.
Disbursements	City officials did not always solicit bids or proposals as required by city code, and did not always enter into written contracts. The former Mayor entered into a contract for asphalt services after work had already began, and the contract amount was altered without Board approval. The city does not monitor credit card limits, adequate supporting documentation was not retained for some credit card purchases, and some disbursements made were not a necessary and prudent use of public funds. The former City Clerk and former City Treasurer signed their own payroll checks, and former Mayor Oliver signed checks issued to a company he managed and owned on numerous occasions, and the former City Clerk typically signed the payroll checks of the Meter Reader (her grandson). In addition, several instances were noted in which the former City Clerk was the only signer on other city checks, when two signatures are required.
Utility System Controls and Procedures	City personnel do not prepare proper reconciliations related to utility services. The former City Clerk made adjustments to customer accounts, including writing off charges caused by water leaks or incorrect meter readings, without obtaining independent approval or maintaining adequate documentation to support the reason for the adjustment, and the Board does not review and approve all adjustments. Late penalties are not always charged and utility services are not shut off in accordance with city ordinances. The City Clerk does not reconcile the list of customer utility deposits held to the related money held in the Water/Sewer Fund bank account. The city does not have an ordinance or written policies authorizing partial payments, partial payments were not approved by someone independent of the utility's accounting functions, and written payment agreements for partial payments did not exist.

Budgeting, Planning, and Financial Reporting	City officials did not include all the statutorily required elements in the budgets prepared for the years ending December 31, 2021, and 2020. The Board does not adequately monitor budget-to-actual receipts and disbursements. City officials have not developed a formal annual maintenance plan for city streets. City officials did not file an accurate financial report with the State Auditor's Office, and did not publish semiannual financial statements for the year ended December 31, 2020, as required by state law.
Sunshine Law	The Board did not comply with the Sunshine Law for 7 out of 8 closed meetings held during the year ended December 31, 2020, and the Board did not always comply with the Sunshine Law regarding open meetings.
Electronic Communication Policy	The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Capital Assets	City officials do not maintain records of all capital assets owned by the city and do not tag, number, or otherwise identify assets as property of the city, or perform an annual physical inventory of city property.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Fairview, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Fairview. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2020. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

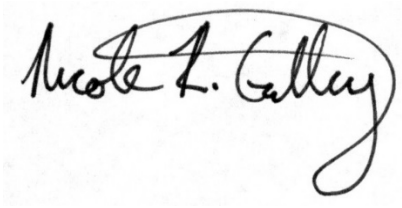
4. Determine the extent of improper use and/or misappropriation of money from the city.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) $3,351 of money misappropriated from the city. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Fairview.



Nicole R. Galloway, CPA
State Auditor

1. Overpayments, Improper Use of City Funds, and Conflicts of Interest

Former City Clerk, Lorie Heatley, was overpaid $3,351,[1] the Board improperly spent $120,252 of restricted funds from a city trust fund, and the city paid $17,325 to a business that former Mayor Sid Oliver managed and owned in violation of city code related to conflicts of interest.

On September 28, 2022, State Auditor's Office (SAO) auditors recorded an interview with the former City Clerk. The SAO issued a subpoena to the former City Clerk (see Appendix A) to compel her to produce records and documents related to her testimony. Appendix A includes redactions. These redactions are of information of a personal, privileged, or sensitive nature, and/or of information that is not directly related to the information requested in the subpoena.

1.1 Overpayments to former City Clerk

Former City Clerk, Lorie Heatley, was overpaid $3,351 from January 2020 through March 2021 (see Appendix B). A comparison of hours worked recorded on the former City Clerk's timecards to amounts reported in the payroll system and checks written to the former City Clerk identified these overpayments. The former City Clerk was paid $11 per hour during 2020 and $12 per hour during 2021.

The former City Clerk recorded more hours worked in the payroll system than she reported on her weekly timecards for 54 of the 65 weeks worked from January 2020 through March 2021, resulting in $3,521 in overpayments. For example, on May 21, 2020, the former City Clerk overpaid herself $132 for 12 hours not worked. She paid herself for 40 hours worked when her timecard reported only 28 hours worked that pay period.

In addition, the former City Clerk sometimes underpaid herself for overtime worked. In these instances, she paid herself for overtime at her normal hourly rate instead of at time and a half for hours exceeding 40 hours per week, in violation of the Fair Labor Standards Act (FLSA), resulting in underpayments of $169.

The former City Clerk also did not sign her weekly timecards for 62 of 65 weekly pay periods reviewed and her supervisor (the former Mayor) did not sign any of the 65 timecards from January 2020 through March 2021. The former Mayor indicated he did not sign the timecards, but he reviewed them and her paystubs and she was paid for the hours she reported on her timecards. The former Mayor also indicated the Board reviewed employee timecards and paystubs at the monthly Board meetings; however, a former Board member indicated the Board was not provided employee timecards or paystubs at the Board meetings. The former City Clerk indicated in a recorded interview that

[1] Amounts presented in the report findings are rounded to the nearest dollar, whereas amounts presented in Appendixes B and C are not rounded.

she recorded her time worked on her timecards and tried to always work 40 hours a week. She also indicated she typically paid herself for 40 hours a week at her hourly rate of pay even though her timecards did not indicate she worked that many hours, and that meeting minutes only documented the Board approved her hourly rate of pay.

The former City Clerk signed 30 of the 65 payroll checks issued to herself, including 24 of the 54 checks issued with overpayments from January 2020 through March 2021 (see Management Advisory Report (MAR) finding number 4.3). The former City Clerk also paid herself on a weekly basis instead of a bi-monthly basis in violation of city code (see MAR finding number 2.2). A Board member indicated the Board was unaware of the importance of ensuring employees and supervisors sign timecards and supervisors review and agree hours reported on timecards to the hours recorded on the paystubs for accuracy.

1.2 Revocable Trust of John Q. Hammons

The Board improperly spent $120,252 of restricted funds from the Revocable Trust of John Q. Hammons (the Trust), including $86,000 for building purchases, $33,951 for well pump repairs (that was subsequently repaid), and $301 for election costs.

The city was a beneficiary of the Trust under a Trust Agreement dated December 28, 1989. On May 2, 2014, the city received $500,000 from the Trust, and the former Mayor signed the Receipt of Distribution From Trust form that acknowledged the terms of the Trust, which among other things, required the city to establish "an endowment fund to be used solely for the operation and maintenance of the John Q. Hammons Community Center," and stated, "this distribution is conditioned upon the City of Fairview's agreement not to spend more than Fifty Thousand ($50,000.00) per year for the first ten years from the receipt of this distribution."

Building purchases

The Board improperly spent $86,000 of the Trust to purchase two local buildings. In March 2018, the city spent $60,000 to purchase the local post office building, and in January 2019, the city spent $26,000 to purchase a local grocery store building. City officials indicated the building purchases were an investment of the Trust funds with expected rental revenues. The Board also did not obtain appraisals to ensure the city paid a reasonable and approximate fair market value for the buildings. In addition, the city did not enter into adequately detailed rental agreements for the apartments located in the buildings.

The building purchases violated the terms of the trust that provided for the Trust funds to be solely used for the operation and maintenance of the John Q. Hammons Community Center, and the purchase of the post office building also exceeded the $50,000 per year spending restriction. In addition, Section 67.085, RSMo, allows cities to invest funds not immediately needed for their

purpose in insured deposit accounts in certain financial institutions. Sections 95.355 and 110.010, RSMo, also allow city funds to be invested in the same manner as the state treasurer is allowed to invest state funds as long as the investments are authorized by an investment policy adopted by the city. However, investments in rental properties are not permitted investments for public funds under these statutes, and the city has not adopted an investment policy.

The post office building includes the Fairview Post Office, a two bedroom apartment, and two garage areas. The city leases the post office building and apartment and uses the garage areas for maintenance and storage of city vehicles and equipment.

The grocery building includes the grocery area and 2 apartments. The city leases the apartments, and the grocery area remains vacant and is not used by the city.

The revenues from these leases were deposited into the Trust bank account, and the city's financial statements indicated $14,005 was received during 2021, $12,870 was received during 2020, $15,700 was received during 2019, and $7,700 was received during 2018.

The rental agreements for the apartments were not always signed by city officials, and did not contain provisions for a security deposit, late payments and fees, landlords right to enter rental property, repairs and maintenance, early termination, subletting, move-out notices, and any required landlord disclosures. Clear and detailed written agreements are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. Section 432.070, RSMo, requires agreements for political subdivisions to be in writing and signed by both parties of the agreement.

Well pump repairs

The city improperly spent $33,951 in May 2020 from the Trust to pay for repairs of the well pump for damages caused by lightning in violation of the terms of the Trust. Board meeting minutes indicate, "Discussed the damages the lightning did to the well house and pump. At this time the estimate of damages is $36,450.73." The meeting minutes did not specify how the repairs were to be paid. The check for these repairs was signed by the former Mayor and former City Clerk. Insurance proceeds of $33,951 were subsequently deposited into the Trust bank account to repay the account for use of the restricted funds.

Election costs

The city improperly spent $189 in March 2018 and $112 in June 2020 from the Trust to pay for municipal election costs in violation of the terms of the Trust.

A Board member and the former Mayor indicated the Board was unaware these purchases and expenses were violations of the Trust Agreement.

1.3 Conflicts of interest

The city paid $17,325 to a company owned and managed by former Mayor Sid Oliver from January 1, 2019, to June 9, 2020 (see Appendix C), in violation of city code related to conflicts of interest, and the Board did not adequately monitor city activities for conflicts of interest. Former Mayor Oliver managed and owned R-Shop, LLC, which performed general maintenance for the city. He served on the Board or as Mayor from August 2004 to June 9, 2020. A Board member indicated the Board was unaware of the importance of following city code regarding avoiding conflicts of interest.

City Code Section 25.040 - Conflicts of Interest states, "No officer or employee of the city shall transact any business in his official capacity with any business entity of which he is an officer, agent or member or in which he owns a substantial interest."

Former Mayor Oliver signed 17 of the 51 checks issued to R-Shop, LLC while he was Mayor (see MAR finding number 4.3). In addition, 11 of the checks were issued prior to the date of the related invoice. Additional payments were made by the city to R-Shop, LLC during 2010 through 2018, when former Mayor Oliver served on the Board that would have also violated city code.

As noted in MAR finding number 4.1, the Board did not solicit bids for these services or enter into a written contract with R-Shop, LLC, and the hourly rate charged by the company increased from $9 per hour to $9.45 per hour in February 2020 without documented Board approval.

Conclusion

The lack of segregation of duties and the absence of proper oversight by the Board noted throughout the remainder of the report resulted in the overpayments, improper use of the Trust funds, and conflicts of interest going undetected for a significant period of time.

Recommendations

The Board of Aldermen:

1.1 Work with law enforcement officials regarding possible criminal prosecution of the overpayments and take the necessary actions to obtain restitution.

1.2 Ensure trust funds are used in compliance with the terms of the trust, appraisals are performed for any property considered to be purchased in the future, and detailed written rental agreements are prepared and signed for all rental properties.

1.3 Closely examine city transactions to identify conflicts of interest, and ensure disbursements are not made until after the invoices are received and properly approved.

Auditee's Response

1.1 We will work with law enforcement officials regarding possible criminal prosecution of the overpayments and take the necessary actions to obtain restitution.

1.2 We will ensure trust funds are used in compliance with the terms of the trust, appraisals are performed for any property considered to be purchased in the future, and detailed written rental agreements will be prepared and signed for all rental properties.

1.3 We will closely examine city transactions to identify conflicts of interest and ensure disbursements are not made until after invoices are received and properly approved.

2. Payroll Controls and Procedures

Significant improvement over payroll controls and procedures is needed. During the year ended December 31, 2020, city payroll disbursements totaled approximately $49,000.

2.1 Timecards and leave records

Timecards were not always signed by the employee or supervisor to document approval and review of time worked, and leave records maintained did not always adequately track the hours of vacation leave earned and used, and any remaining balances. A Board member indicated the Board was unaware of the importance of timecards being signed by the employee and supervisor and of maintaining accurate leave records.

As noted in MAR finding number 1.1, weekly timecards of the former City Clerk were not always signed by the former City Clerk and her supervisor to document approval and review of time worked, allowing overpayments to occur and not be detected. In addition, the former Meter Reader and his supervisor did not sign any of the 13 monthly timecards for the months he was paid from January 2020 through March 2021. Also, the former City Treasurer and her supervisor did not sign weekly timecards for any of the 65 weekly pay periods we reviewed from January 2020 to March 2021.

Additionally, the available vacation balance for the former City Clerk was not reported on her paystubs from August 2020 through December 2020. Because her vacation leave was not adequately tracked during this time, it is unclear whether the leave balances reported in January 2021 were accurate.

Without adequate timecards or a record of leave taken, the city cannot ensure hours worked and leave earned and taken by employees are properly documented. To ensure the accuracy of the hours worked and leave taken, timecards need to be signed by the employees and reviewed and approved by

a supervisor. Leave records also aid in determining final compensation for employees leaving city employment. In addition, the FLSA requires employers maintain accurate records of actual time worked by employees.

2.2 City code

The former City Clerk did not always follow city code regarding vacation leave, compensation, and related employees. The Board also does not have ordinances establishing the amount of compensation of any city officials and employees. A Board member indicated the Board was unaware of the importance of compliance with ordinances and establishing the compensation amounts in ordinances.

- The city issued the former City Clerk a $1,632 check for 136 hours of accumulated vacation hours upon her resignation when city code did not indicate accrued vacation hours would be paid upon resignation or termination. The former City Clerk provided a letter of resignation to the Board on March 25, 2021, that indicated she was owed 136 hours for accrued vacation hours and Board meeting minutes indicated the Board accepted her resignation.

- The former City Clerk issued payroll checks to herself on a weekly basis during the year ended December 31, 2020, in violation of city code, Section 21.430, that provides for the City Clerk to be paid bi-monthly.

- The former Meter Reader, who was the grandson of the former City Clerk, was employed in violation of city code prohibiting 2 members of an immediate family (which is defined in the code to include grandchildren) be employed under the same supervisor. The former Mayor indicated he supervised both the former City Clerk and former Meter Reader. In addition, the former City Clerk may have also acted as the former Meter Reader's supervisor in violation of city code (see below).

  The payroll system maintained by the former City Clerk indicated the former Meter Reader was hired in October 2019 and terminated employment in March 2021. Board meeting minutes from January 2019 to December 2019 did not document any discussion regarding the hiring of a meter reader or an hourly rate of pay. As a result, it is unclear who hired the former Meter Reader and determined his hourly rate. The former Mayor indicated the former Meter Reader's hiring was discussed with the Board; however, another Board member indicated she recalled discussing the former Meter Reader's hiring with the former Mayor, but was unsure whether the discussion took place at a Board meeting. The former City Clerk indicated in a recorded interview that the former Mayor and herself may have discussed the former Meter Reader's pay rate in her office and not at a Board meeting.

The former Meter Reader's timecards were prepared in the scripted handwriting of the former City Clerk and indicated the former Meter Reader worked 9 1/2 hours each month. The former Mayor indicated that he reviewed the former Meter Reader's timecards and paystubs; however, these reviews were not documented. The former City Clerk indicated in a recorded interview that she prepared the former Meter Reader's timecards and that she was his legal guardian.

The former City Clerk prepared all payroll checks issued to the former Meter Reader, and was one of the two signatures for 11 of the 13 payroll checks issued to him for the period January 2020 through March 2021. The former Meter Reader was not paid for August and September 2020.

Because the former City Clerk prepared her grandson's timecards showing the hours of work, entered payroll information into the payroll system, and prepared and signed his payroll checks, it created apparent conflicts of interest and demonstrated that she was acting as his supervisor.

In addition, the former Meter Reader's hourly rate was $17 an hour or $6 an hour higher than the next highest paid employee. During 2020, the former City Clerk was paid $11 per hour and the former City Treasurer was paid $9.45 an hour. When the city hired a part-time meter reader in July 2021, the Board approved paying the Meter Reader $10.30 per hour.

City Code Section 23.080 - Relatives in the city service states, "Two members of an immediate family shall not be employed under the same supervisor; neither shall two members of an immediate family be employed at the same time, regardless of the administrative department, if such employment will result in an employee supervising a member of his immediate family. Immediate family is defined as wife, husband, mother, father, brother, sister, son, daughter, mother-in-law, father-in-law, son-in-law, daughter-in-law, grandparents, grandchildren, stepmother, stepfather, brother-in-law, sister-in-law, uncle, and aunt."

Article VII, Section 6, Missouri Constitution, provides that "any public officer or employee in this state who by virtue of his office or employment names or appoints to public office or employment any relative within the fourth degree, by consanguinity or affinity, shall thereby forfeit his office or employment."

In addition, business relationships that impair independence reduce the effectiveness of controls and decision-making and harm public confidence. If a relative is selected as an employee, documenting why that person was selected could help reduce apparent conflicts of interest. The supervision of related employees can compromise a supervisor's

objectivity when assigning duties, approving payroll, or evaluating employee performance.

- City code does not establish the amount of compensation of city officials and employees.

Because city code passed by the Board to govern the city and its residents has the force and effect of law, it is important it is complete and followed. By not following city code regarding vacation leave, the city paid more than required resulting in a greater financial burden. In addition, strict compliance with personnel policies related to relatives is necessary to ensure equitable treatment of employees, prevent misunderstandings, and ensure employees are properly compensated. Section 79.270, RSMo, authorizes the Board to fix the compensation of city officials and employees by ordinance.

2.3 Cost allocations

The city had no documentation to justify the allocation of the City Clerk's compensation to the various city funds. The City Clerk's compensation was allocated 50 percent to the Water Fund, 25 percent to the Wastewater Fund, and 25 percent to the General Fund.

The proper allocation of disbursements is necessary to accurately determine the results of operations of specific activities, thus enabling the city to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure funds are used for intended purposes, the allocation of disbursements to city accounts should be based on specific criteria and documentation supporting allocation decisions should be retained. The Board indicated it was unaware of the importance of documenting the allocation of these costs to the appropriate funds.

Recommendations

The Board of Aldermen:

2.1 Ensure timecards are properly signed and approved, employee leave balances are properly tracked and monitored, and reviews of timecards are performed to ensure the propriety of payroll payments.

2.2 Follow city code and establish the compensation of all city officials and employees by ordinance as authorized by statute.

2.3 Allocate disbursements to city funds based on specific criteria and retain documentation to support the allocation.

Auditee's Response

2.1 We will ensure timecards are properly signed and approved, employee leave balances are properly tracked and monitored, and reviews of timecards are performed to ensure the propriety of payroll payments. Currently, there are no full-time employees receiving leave benefits.

2.2 We will review city code for payroll, conflicts of interest, and compensation issues and revise, as needed. We will then follow the revised city code.

2.3 We will allocate disbursements to city funds based on specific criteria and retain documentation to support the allocation.

3. Accounting Controls and Procedures

Accounting controls and procedures need improvement. During the year ended December 31, 2020, city receipts totaled approximately $262,000. The city receives payments for utility services (water, sewer, and trash), franchise fees, property taxes, sales taxes, municipal court fines and fees, and other miscellaneous receipts.

3.1 Oversight and segregation of duties

The Board has not established adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the City Clerk. Weaknesses identified throughout this report are significant and demonstrate a lack of segregation of duties and proper oversight by the Board that led to the overpayments, improper use of city funds, and conflicts of interest noted in MAR finding numbers 1 and 2.

The City Clerk is responsible for the record-keeping duties of the city including posting transactions to the accounting system; preparing utility billings and making adjustments; receipting; maintaining payroll records; preparing, distributing, and signing payroll and disbursement checks; preparing monthly bank reconciliations; transferring money between bank accounts; preparing financial reports for Board meetings; and preparing budgets and financial statements.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the Board. A Board member indicated the Board was unaware of the importance of segregating duties and performing a supervisory review.

3.2 Depositing and receipting

The former City Clerk and former City Treasurer did not always deposit receipts intact and timely, and rental deposits for the John Q. Hammons Community Center were not always receipted or deposited. We reviewed all receipts collected and/or deposited from August 17, 2020, through August 28, 2020, and performed a cash count on March 30, 2021, and noted the following concerns:

- Receipts totaling $1,617 collected between Thursday, August 13, 2020, and Tuesday, August 18, 2020, were not deposited until Friday, August 21, 2020. The receipts collected were for property taxes, utilities,

the sale of pipe, and other miscellaneous services. The former Mayor indicated he believed the former City Clerk went to the bank 3 to 4 times a week, and city offices were closed at 3 p.m. to allow her to go to the bank; however, the former City Clerk typically went to the bank once a week and occasionally twice a week.

- Receipts collected on August 17, 2020, and August 27, 2020, totaling $77 were not deposited intact with other city receipts deposited on August 21 and August 28, 2020. These receipts were held and not deposited until September 11, 2020, along with other receipts collected between September 3 and September 8, 2020.

- During a cash count performed on March 30, 2021, 10 checks totaling $500 were being held in the safe for rental deposits of the John Q. Hammons Community Center. Some of the checks dated back to 2006. These checks were not deposited, and receipt slips were not written for this money.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of money will go undetected. A Board member indicated the Board was unaware of the importance of properly receipting and depositing money.

3.3 Bank accounts

The city maintains an excessive number of bank accounts. The city maintained 24 checking accounts (excluding the municipal court account). This included accounts at 2 different banks for 11 of the city's 14 funds. The city may benefit from combining some city bank accounts.

A large number of bank accounts requires additional record keeping and increases the likelihood that errors may occur. The Board indicated it was unaware of the additional record keeping and increased risk of errors associated with the number of bank accounts.

Recommendations

The Board of Aldermen:

3.1 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

3.2 Ensure all money received is deposited intact and timely, and receipt slips are issued for all money received. In addition, determine the status of the rental deposits on hand and deposit or return them to the payer.

3.3 Evaluate and reduce the number of bank accounts.

Auditee's Response

3.1 We will implement appropriate reviews and monitoring procedures.

3.2 We will ensure all money received is deposited intact and in a timely manner and receipt slips are issued for all money received. We will also determine the status of the rental deposits on hand and deposit them or return them to the payer.

3.3 We will review and reduce the number of bank accounts.

4. Disbursements

Controls and procedures over disbursements need improvement. During the year ended December 31, 2020, disbursements totaled approximately $248,000.

4.1 Procurement procedures and contracts

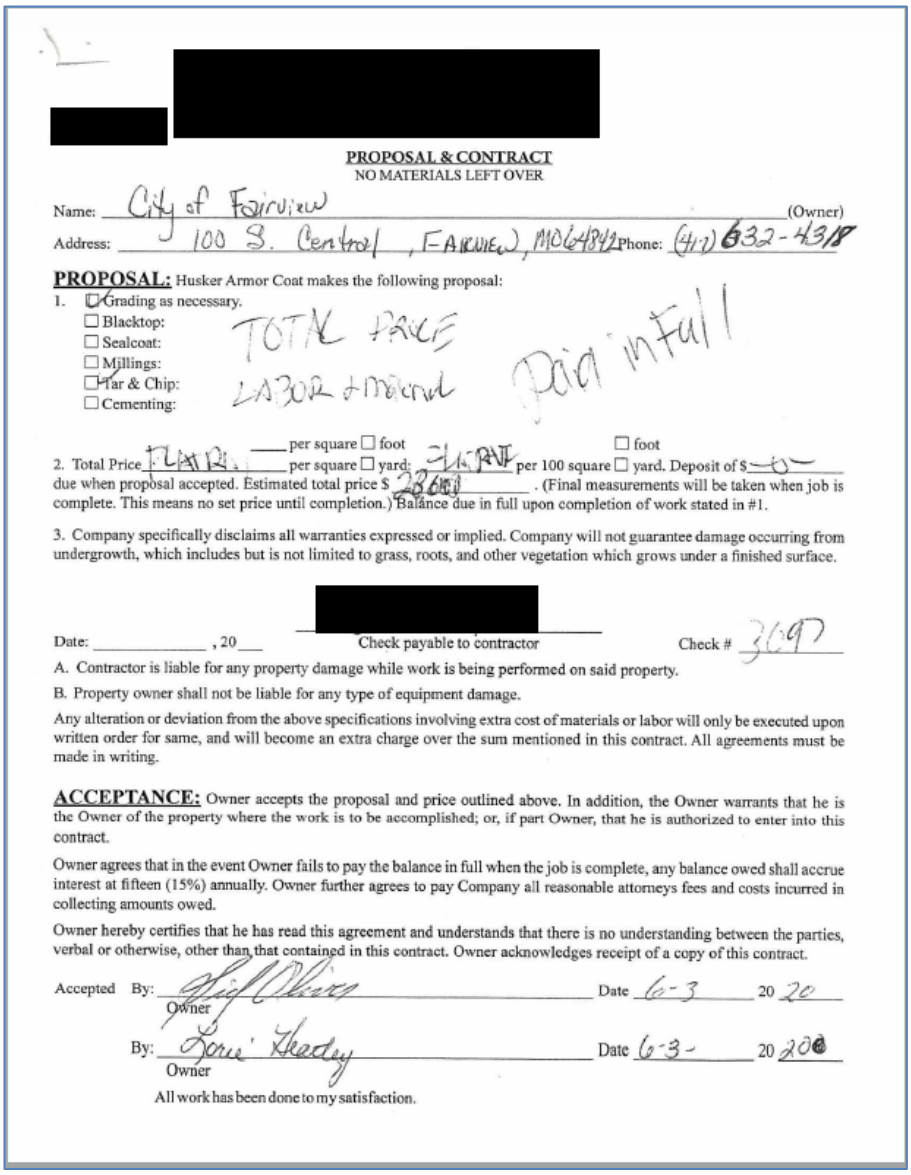
City officials did not always solicit bids or proposals as required by city code, and did not always enter into written contracts. The former Mayor entered into a contract for asphalt services after work had already began, and the contract amount was altered without Board approval.

- The city did not solicit bids for general city maintenance work provided by a company managed and owned by former Mayor Oliver and did not enter into a written contract for these services (see MAR finding number 1.3). In addition, the hourly rate charged by the company increased from $9.00 per hour to $9.45 per hour in February 2020 without documented approval of the Board. The city paid $18,664[2] to this company during the years ended December 31, 2019, and 2020.

- The city did not solicit bids for asphalt work performed on city streets. In addition, the former Mayor and former City Clerk entered into a contract with the vendor for these services after work had already begun, and the amount of the contract was increased without Board approval.

  Meeting minutes of an emergency meeting held on June 2, 2020, indicated the Board approved hiring a company to chip and seal 2 city streets with an estimated cost of $20,000 with "Work to begin today." No documentation was retained to explain why an emergency meeting was needed, and no notice of the meeting was given to the public (see MAR finding number 7.2). In addition, the contract with the company (shown below) was not signed until June 3, 2020 (the day after the work was to begin), and the $20,000 estimate was written over (changed) to be increased to $23,000. The redactions to the invoice are of information of a personal, privileged, or sensitive nature.

[2] The amount reported in MAR finding number 1.3 paid to former Mayor Oliver's business ($17,325) only includes payments made while former Mayor Oliver was on the Board during those years (January 1, 2019, to June 9, 2020).



[redacted]

PROPOSAL & CONTRACT
NO MATERIALS LEFT OVER

Name: City of Fairview (Owner)
Address: 100 S. Central, FAIRVIEW, MO 64842 Phone: (417) 632-4318

PROPOSAL: Husker Armor Coat makes the following proposal:

1. ☑ Grading as necessary.
   - ☐ Blacktop:
   - ☐ Sealcoat:
   - ☐ Millings:
   - ☐ Tar & Chip:
   - ☐ Cementing:

TOTAL PRICE LABOR + Material Paid in Full

2. Total Price [redacted] ____ per square ☐ foot ____ per square ☐ yard; [redacted] per 100 square ☐ foot ☐ yard. Deposit of $ -0- due when proposal accepted. Estimated total price $ 2860 . (Final measurements will be taken when job is complete. This means no set price until completion.) Balance due in full upon completion of work stated in #1.

3. Company specifically disclaims all warranties expressed or implied. Company will not guarantee damage occurring from undergrowth, which includes but is not limited to grass, roots, and other vegetation which grows under a finished surface.

[redacted]

Date: _____, 20___ Check payable to contractor Check # 3697

A. Contractor is liable for any property damage while work is being performed on said property.

B. Property owner shall not be liable for any type of equipment damage.

Any alteration or deviation from the above specifications involving extra cost of materials or labor will only be executed upon written order for same, and will become an extra charge over the sum mentioned in this contract. All agreements must be made in writing.

ACCEPTANCE: Owner accepts the proposal and price outlined above. In addition, the Owner warrants that he is the Owner of the property where the work is to be accomplished; or, if part Owner, that he is authorized to enter into this contract.

Owner agrees that in the event Owner fails to pay the balance in full when the job is complete, any balance owed shall accrue interest at fifteen (15%) annually. Owner further agrees to pay Company all reasonable attorneys fees and costs incurred in collecting amounts owed.

Owner hereby certifies that he has read this agreement and understands that there is no understanding between the parties, verbal or otherwise, other than that contained in this contract. Owner acknowledges receipt of a copy of this contract.

Accepted By: [redacted] Owner Date 6-3 20 20

By: Dorie' Headley Owner Date 6-3- 20 20

All work has been done to my satisfaction.

The contract states "Any alteration or deviation from the above specifications involving extra cost of materials or labor will only be executed upon written order for same, and will become an extra charge over the sum mentioned in this contract. All agreements must be made in writing." However, documentation was not retained to explain the reason the contract cost was changed, whether the cost of the contract was changed after it was signed or it was changed before it was signed, and who changed the cost of the contract. The contract and check issued to the person providing asphalt services were signed only by the former Mayor and former City Clerk, and as a result, the $3,000 increase in

contract cost was not approved by the Board. The city also did not file a 1099 form with the Internal Revenue Service (IRS) for this payment.

- The city has not bid trash services or entered into a new contract with the city's trash provider since 2017. The city signed a contract with the city's current trash provider in 2011 for a term of 3 years with an automatic renewal for an additional 3 years. Based on these terms, the contract expired in 2017. The city paid $17,624 for trash service during the year ended December 31, 2020.

- The city has not entered into written contracts for sewer lagoon maintenance services and cleaning services for the John Q. Hammons Community Center. During the year ended December 31, 2020, the city paid $9,350 for sewer lagoon maintenance services and $1,920 for cleaning services.

A Board member indicated the Board was not aware of the importance of following city code, entering into written contracts before work begins, and ensuring 1099 forms are filed with the IRS.

City Code Section 25.080 states, "All purchases of, and contracts for supplies and contractual services, and all sales of personal property which has become obsolete and unusable shall, except as specifically provided herein, be based wherever possible on competitive bids." City Code Section 25.090 states, "All supplies and contractual services, . . . when the estimated cost thereof shall exceed five thousand dollars ($5,000.00), shall be purchased by formal, written contract from the lowest responsible bidder, after due notice inviting proposals." In addition, City Code Section 21.298 states, the "Mayor may approve purchases of up to $1,000.00 without Board of Alderman [*sic*] approval. Purchases of over $1,000.00 to $5,000.00 with the approval of the Board of Alderman [*sic*] may be made. Purchases of over $5,000.00 must be put out for bid and approved by the Board of Alderman [*sic*]. The Mayor may exceed the $1,000.00 limit on emergency repairs only on city utilities and/or city vehicles, tractor and monthly bills for insurance, utilities, taxes and payroll. The Mayor is to advise the Board of Alderman [*sic*] by phone or in person of any emergency repairs in a reasonable time after repairs are made and advise of the cost."

In addition to being authorized by city code, the routine use of a competitive procurement process for major purchases ensures the city has made every effort to receive the best and lowest price and all interested parties are given an equal opportunity to participate in city business. Complete documentation of all bids received and justification for awarding the bid should be maintained. Also, periodically soliciting proposals for professional services helps ensure all parties are given an equal opportunity to participate in city business, helps provide a range of possible choices, and allows the Board to

make better-informed decisions to ensure necessary services are obtained from the best qualified provider, taking expertise, experience, and/or cost into consideration.

Section 432.070, RSMo, indicates no city shall make any contract, unless such contract be made upon a consideration wholly to be performed or executed subsequent to the making of the contract; and such contract, including the consideration, shall be in writing and dated when made, and shall be subscribed by the parties thereto, or their agents authorized by law and duly appointed and authorized in writing.

Sections 6041 to 6050Y of the Internal Revenue Code require non-wage payments of at least $600 in one year to an individual be reported to the federal government on a 1099 form.

4.2 Credit cards

The city does not monitor credit card limits, adequate supporting documentation was not retained for some credit card purchases, and some disbursements made were not a necessary and prudent use of public funds. The city paid the credit card company $10,248 during the year ending December 31, 2020.

- The city's monthly-cycle credit card limit is excessive. The limit for the city's 2 credit cards was $24,000, ($12,000 for a credit card used by the former Mayor and $12,000 for a credit card used by the former City Clerk).

- Supporting documentation was not retained for $856 of $976 (88 percent) of credit card purchases made by the former Mayor during the period January 2020 through June 2020. For example, documentation was not retained for some purchases of water system supplies, office supplies, meals, and fuel.

- Some of the purchases made by the former Mayor and former City Clerk did not appear to be a necessary and prudent use of public funds. For example, according to the credit card statement and invoices, some of the meals purchased by the former Mayor were within 6 miles of the city (City of Wheaton) and others within 44 miles of the city (City of Joplin), and some of the meals were purchased for 2 individuals. The purpose of the meals was not documented and were made on days where the credit card was also used to purchase city supplies.

Excessive credit card limits and purchasing ability increases the risk of abuse and potential large liabilities for the city. By periodically comparing the actual purchasing card activity to monthly cycle limits and adjusting limits as needed, the city can strengthen control over the cards and reduce potential risks. To ensure obligations were actually incurred and amounts paid were

proper, all disbursements should be supported by paid receipts, itemized vendor invoices, or other detailed documentation with payment information clearly indicated. Citizens have placed a fiduciary trust in their public officials to spend city money in a prudent and necessary manner. A Board member indicated the Board was unaware of the importance of better controls over city credit cards.

4.3 Dual signatures

The former City Clerk (as noted in MAR finding number 1.1) and former City Treasurer signed their own payroll checks, and former Mayor Oliver signed checks issued to a company he managed and owned (as noted in MAR finding number 1.3), on numerous occasions, and the former City Clerk typically signed the payroll checks of the Meter Reader (her grandson) as noted in MAR finding number 2.2. Their signatures on these checks were 1 of the 2 required signatures. In addition, several instances were noted in which the former City Clerk was the only signer on other city checks. City checks typically require 2 signatures, and the former Mayor, a former Alderwoman, former City Clerk, and former City Treasurer were authorized check signers. The former Mayor indicated the former City Clerk and the former City Treasurer should not have signed their own checks.

Dual independent authorized signatures help provide assurance that checks represent payment for legitimate city disbursements. Failure to require dual independent signatures on all checks is a significant control weakness and may have allowed overpayments, improper use, and conflicts of interest to occur. A Board member indicated the Board was unaware of the importance of ensuring dual independent authorized signatures are on all checks.

Recommendations

The Board of Aldermen:

4.1 Follow formal bidding policies and procedures as required by city code, enter into written contracts prior to beginning work as required by state law, and ensure 1099 forms are issued in accordance with IRS regulations.

4.2 Review and adjust credit card limits, require adequate, detailed supporting documentation be retained for all disbursements, and ensure all disbursements are necessary and a prudent use of public funds.

4.3 Require dual independent signatures on all checks.

Auditee's Response

4.1 We will review our current city policies and procedures for revision, and we will follow any new and current policy/procedures. We will enter into written contracts prior to beginning work as required by state law. We will also ensure 1099 forms are issued in accordance with IRS regulations.

4.2 We will review and adjust credit card limits, and require adequate, detailed documentation for all disbursements, and we will ensure all disbursements are necessary and a prudent use of taxpayer funds.

4.3 We will require dual independent signatures on all checks.

5. Utility System Controls and Procedures

Significant weaknesses exist in the city's utility system controls and procedures. As a result, there is less assurance all utility payments have been properly recorded and transmitted. The city collected approximately $104,700 in utility receipts during the year ended December 31, 2020.

5.1 Utility reconciliations

City personnel do not prepare proper reconciliations related to utility services.

- The former City Clerk did not perform monthly reconciliations of amounts billed, payments received, and amounts unpaid for utility services.

- Significant differences between the gallons of water pumped and gallons of water billed and used by the city were not investigated. We compared the reports of water usage to water pumped from January 2020 through December 2020 and noted unidentified differences ranging from 12 percent to 21 percent more water pumped than used (billed). For October 2020, the reports indicate 70 percent more water was used (billed) than was pumped.

  According to the United States Environmental Protection Agency, most states have regulatory policies that set acceptable losses from public water systems at a maximum of between 10 to 15 percent or less.[3] The standard for Missouri established by the Department of Natural Resources is 10 percent.

Monthly reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, errors or discrepancies are detected timely, and to help detect significant water loss or other problems and ensure all water usage is properly billed. A Board member and the City Clerk indicated they were unaware of the importance of preparing and reviewing these reconciliations.

5.2 Adjustments

The former City Clerk made adjustments to customer accounts, including writing off charges caused by water leaks or incorrect meter readings, without

[3] United States Environmental Protection Agency, *Control and Mitigation of Drinking Water Losses in Distribution Systems, Appendix A, Table A-2, Selected State Standards for Unaccounted-for Water,* <https://www.awwa.org/Portals/0/AWWA/Government/WaterLossControl508.pdf>, accessed August 4, 2022.

obtaining independent approval or maintaining adequate documentation to support the reason for the adjustment. A subsequent City Clerk indicated she did not know how to generate a report of adjustments. In addition, the Board does not review and approve all adjustments. Our review of current and former Board of Aldermen utility accounts during the year ended December 31, 2020, showed adjustments were made to improperly remove late penalties charged to the accounts. As a result, there is an increased risk of theft and misuse occurring without being detected.

To ensure adjustments to utility accounts are valid and approved, adjustment transactions should be approved before they are made in the computer system and the posted adjustments should later be compared to the list of approved adjustments. Review and approval of adjustments by the Board is necessary to ensure adjustments made are proper. A Board member indicated the Board was unaware of the importance of reviewing adjustments made to the utility system.

5.3 Late penalties and shut off procedures

Late penalties are not always charged and utility services are not shut off in accordance with city ordinances.

During the year ended December 31, 2020, 11 instances were noted in which late penalties were not assessed properly and shut offs were not initiated for former and current members of the Board.

A review of customer accounts for December 2020, identified 31 customers with delinquent account balances older than 30 days, totaling $4,838, that had not been shut off in accordance with city ordinance. In addition, a listing of requests for shut offs was not maintained or provided to the Board.

City Ordinance 68.010(8) states, "Service bills not paid by the sixteenth shall be subject to a ten percent (10%) late charge. Failure of the Owner to submit a service bill shall not excuse the water user from his obligation to pay for the water used when the bill is submitted. Failure to pay a bill by the thirtieth day following the close of the period for which service was rendered shall result in the disconnection of the service and such disconnection shall be made without the necessity of notice to the water user."

Allowing customers to receive service without paying reduces the incentive to make payments, reduces city receipts, and could impact the utility rates for other paying customers. To ensure all customers receive equitable treatment and city revenue is maximized, procedures need to be established to ensure penalty provisions in the ordinance are enforced and any variance from the ordinance is properly approved. A Board member indicated the Board was unaware of the importance of reviewing utility accounts to ensure compliance with city ordinances.

5.4 Utility deposits

The City Clerk does not reconcile the list of customer utility deposits held to the related money held in the Water/Sewer Fund bank account. At December 31, 2020, the list of utility deposits on hand totaled $8,822 and the reconciled Water/Sewer Fund bank account balance was $9,723, resulting in an unidentified balance (overage) of $901.

Refundable utility deposits are restricted funds held for customers. Periodic reconciliation of customer utility deposit balances to city accounting records is necessary to ensure sufficient funds are available for deposit refunds. Differences should be adequately investigated and resolved. Various statutory provisions provide for the disposition of unidentified money. The Board indicated it was unaware of the importance of reconciling the list of utility deposits on hand with the related reconciled bank balance.

5.5 Partial payments

The city does not have an ordinance or written policies authorizing partial payments. Partial payments were not approved by someone independent of the utility's accounting functions and written payment agreements for partial payments did not exist.

City Code Section 68.010 states failure to pay a bill by the 30th day following the close of the period for which services were rendered shall result in disconnection of the service. Good business practices require adequate collection procedures be established to ensure accounts are collected timely and bad debts are kept to a minimum. The Board indicated it was unaware of the importance of revising ordinances and establishing procedures for partial payments.

Recommendations

The Board of Aldermen:

5.1 Ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and significant differences between gallons of water billed to gallons pumped should be investigated and resolved.

5.2 Require the City Clerk to prepare a report of adjustments and ensure an independent and/or supervisory review and approval of all adjustments made in the utility system is performed.

5.3 Ensure late penalties are charged and utility service is shut off in accordance with city ordinance, and maintain a record of shut offs, along with any relevant documentation.

5.4 Periodically reconcile customer utility deposits in the utility system to accounting records and cash balances, and promptly investigate any differences. In addition, any unidentified money should be disbursed in accordance with state law.

5.5 Establish an ordinance for partial payments and create policies and procedures governing the process that should include at least (1) a written payment plan for each partial payer, and (2) approval of each plan by someone independent of the utility's accounting functions.

Auditee's Response

5.1 We will ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts and significant differences between gallons of water billed to gallons pumped are investigated and resolved.

5.2 We will require the City Clerk to prepare a report of adjustments and ensure an independent review and approval of all adjustments made in the utility system is performed.

5.3 We will review and revise our ordinance and follow the updated ordinance. We will also maintain a record of shut offs along with any relevant documentation.

5.4 We will periodically reconcile customer utility deposits in the utility system to accounting records and cash balances and promptly investigate any differences. We will research any unidentified money and disburse it in accordance with state law.

5.5 We will establish an ordinance for partial payments and create policies and procedures governing this process.

6. Budgeting, Planning, and Financial Reporting

Budgeting, planning, and financial reporting procedures need improvement.

6.1 Budgets

The Board does not have adequate procedures to prepare or monitor budgets.

Preparation

City officials did not include all the statutorily required elements in the budgets prepared for the years ending December 31, 2021, and 2020. The budgets did not include a budget message, actual or budgeted amounts for the 2 preceding years, the actual beginning and estimated ending cash balances, a budget summary, or balances of the city's indebtedness.

Section 67.010, RSMo, requires the annual budget be prepared that presents a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations

for each area of city operations. It also assists in setting tax levies, utility rates, and informing the public about city operations and current finances.

Monitoring

The Board does not adequately monitor budget-to-actual receipts and disbursements. On January 12, 2021, the former City Clerk presented a budget-to-actual report for the year ended December 31, 2020, to the Board, and actual disbursements exceeded budgeted disbursements for 6 of the 14 funds as follows:

Fund	Budgeted Disbursements	Actual Disbursements
General	$ 68,090	75,474
Wastewater	26,024	26,977
Street	31,106	40,610
Hammons Trust	12,888	44,435
Centennial	304	953
Auxiliary	1,239	2,387

Budget amendments were not prepared or approved by the Board before the budgets for these funds were overspent or before the fiscal year ended.

Section 67.040, RSMo, requires political subdivisions to keep disbursements within amounts budgeted, but allows for budget increases if the governing body officially adopts a resolution setting forth the facts and reasons. In addition, Section 67.080, RSMo, provides that no disbursements of public money be made unless it is authorized in the budget. Proper monitoring and amending prior to disbursing funds is necessary for the budget to be an effective management tool and to comply with state law.

A Board member and the City Clerk indicated they were unware of these requirements.

6.2 Maintenance plans

City officials have not developed a formal annual maintenance plan for city streets. In addition to the motor-vehicle related revenues received from the state, the city also receives the proceeds from a property tax levy restricted for street use. During the year ending December 31, 2020, street fund receipts totaled $15,974.

A formal maintenance plan should be prepared in conjunction with the annual budget and include a description of the streets needing maintenance, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates such work could begin, the amount of labor required to perform the work, and other relevant information. The plan should be included in the budget message and approved by the Board. In addition, a public hearing should be held to obtain input from city residents.

A formal maintenance plan would serve as a useful management tool and provide greater input into the overall budgeting process. A plan provides a means to continually and more effectively monitor and evaluate the progress made in the repair and maintenance of streets throughout the year. A Board member indicated the Board was unaware of the importance of developing a formal maintenance plan for its streets.

6.3 Filing of financial reports

City officials did not file an accurate financial report with the SAO for the year ended December 31, 2020, as required by state law. The financial report submitted did not include accurate ending cash balances for 3 of the 12 funds[4] (excluding the Municipal Court Fund) and did not include the Hammons Endowment Fund. In addition, receipts and disbursements by fund included in the financial report did not agree to the receipts and disbursements reported on the summary of funds page of the same financial report as follows:

Fund	Receipts by Fund	Receipts per Summary of Funds
General	$ 49,166	89,317
Water	112,188	132,685
Wastewater	28,349	30,408
Street	21,693	20,600
Hammons Trust	5,718	3,055
Centennial	1,201	660

Fund	Disbursements by Fund	Disbursements per Summary of Funds
General	$ 53,197	75,474
Water	111,329	128,548
Wastewater	30,326	26,459
Street	18,015	40,610
Hammons Trust	5,471	2,884
Centennial	340	958

To be of maximum assistance to the Board and to adequately inform the public, the city's financial statements need to accurately report financial activity and fund balances. A Board member indicated that the Board was unaware the financial statements were not accurate.

[4] The city had a bank account at 2 different banks for 11 of the 12 bank accounts listed on the financial report submitted. The accounts for each fund were combined for financial reporting.

6.4 Published financial statements

City officials did not publish semiannual financial statements for the year ended December 31, 2020, as required by state law. As a result, information regarding the city's financial activity and condition is not available to all citizens.

Section 79.160, RSMo, requires the Board to prepare and publish semiannual financial statements that include a full and detailed account of the receipts, disbursements, and indebtedness of the city. In addition, City Code Section 21.420(6) indicates the City Clerk "shall prepare semi-annually a statement of the receipts and expenditures of the city, and cause the same to be published in a newspaper published in the city." A Board member indicated the Board was unaware of this requirement.

Recommendations

The Board of Aldermen:

6.1 Prepare annual budgets that contain all information required by state law, ensure disbursements do not exceed budgeted amounts, and prepare any necessary budget amendments timely.

6.2 Establish a formal annual street maintenance plan.

6.3 Submit accurate annual financial reports to the State Auditor's Office.

6.4 Publish semiannual financial statements as required by state law and city code.

Auditee's Response

6.1 We will prepare annual budgets that contain all information required by state law, ensure disbursements do not exceed budgeted amounts, and prepare any necessary budget amendments timely.

6.2 We will establish a formal annual street maintenance plan.

6.3 We will submit accurate annual financial reports to the State Auditor's Office.

6.4 We will publish semiannual financial statements as required by state law and city code.

7. Sunshine Law

The city did not comply with the Sunshine Law for some closed and open Board meetings.

7.1 Closed meetings

The Board did not comply with the Sunshine Law for 7 out of 8 closed meetings held during the year ended December 31, 2020.

Allowable topics

The Missouri Attorney General's Office (AGO) filed a civil lawsuit against the city in the Circuit Court of Newton County on April 13, 2021, for

violations of the Sunshine Law (Case Number 21NW-CV00965). The AGO cited 4 counts of violations of Section 610.022.3, RSMo.[5]

A Consent Judgment was filed by the Newton County Circuit Court on September 28, 2021. The Consent Judgment concluded that the city violated Section 610.022.3, RSMo, on all 4 counts. The city was ordered by the court to pay a $250 civil monetary penalty for each of the 4 violations of the Sunshine Law for a total penalty of $1,000, pursuant to Section 610.027.3, RSMo. It was further ordered that $600 of the civil monetary penalty due pursuant to Section 610.027.3, RSMo, be suspended, subject to being executed if the Court subsequently finds a violation of the Consent Judgment has occurred. If no such violation occurs during the 2-year period following the date of the Consent Judgment, the $600 penalty will be forgiven.

Reasons for closing meetings

Consistent with the Consent Judgment, open meeting minutes did not always document the specific reasons or section of law allowing the meetings to be closed. Most meeting notices and agendas included a statement that a closed session could be held in the event the Board wanted to enter into a closed session.

Section 610.022, RSMo, of the Sunshine Law requires public bodies to announce the specific reasons allowed by law for going into a closed session and to enter the vote and reason into the minutes. The section also limits discussion topics and actions in closed meetings to only those specifically announced prior to closure.

A Board member indicated the Board was not aware of these requirements of the Sunshine Law prior to the AGO investigation.

7.2 Open meetings

The Board did not always comply with the Sunshine Law regarding open meetings.

- The Board held Board meetings on April 14, 2020, and May 12, 2020, but did not allow the public to attend, citing the COVID-19 pandemic and did not provide an alternative way for the public to access these meetings. After these 2 meetings, the Board started holding the open meetings at the John Q. Hammons Community Center to allow for social distancing.

[5] Section 610.022.3, RSMo, states, "Any meeting or vote closed pursuant to section 610.021 shall be closed only to the extent necessary for the specific reason announced to justify the closed meeting or vote. Public governmental bodies shall not discuss any business in a closed meeting, record or vote which does not directly relate to the specific reason announced to justify the closed meeting or vote. Public governmental bodies holding a closed meeting shall close only an existing portion of the meeting facility necessary to house the members of the public governmental body in the closed session, allowing members of the public to remain to attend any subsequent open session held by the public governmental body following the closed session."

It is unclear why the Board did not hold these 2 meetings at this location to allow the public access to the meetings.

- As noted in MAR finding number 4.1, the Board held an emergency meeting on June 2, 2020, and approved hiring a company to chip and seal 2 city streets with an estimated cost of $20,000. No documentation was retained to explain why an emergency meeting was needed, and no notice of the meeting was given to the public.

Section 610.020.1, RSMo, requires all public governmental bodies to give notice of the time, date, and place of each meeting, and its tentative agenda, in a manner reasonably calculated to advise the public of the matters to be considered, and if the meeting will be conducted by telephone or other electronic means, the notice of the meeting must identify the mode by which the meeting will be conducted and the designated location where the public may observe and attend the meeting. If a public body plans to meet by internet chat, internet message board, or other computer link, it shall post a notice of the meeting on its website in addition to its principal office and must notify the public how to access that meeting.

Section 610.020.2, RSMo, requires notice conforming with all of the requirements of subsection 1 of this section to be given at least 24 hours, exclusive of weekends and holidays when the facility is closed, prior to the commencement of any meeting of a governmental body unless for good cause such notice is impossible or impractical, in which case as much notice as is reasonably possible must be given. Each meeting must be held at a place reasonably accessible to the public and of sufficient size to accommodate the anticipated attendance by members of the public, and at a time reasonably convenient to the public, unless for good cause such a place or time is impossible or impractical. Every reasonable effort must be made to grant special access to the meeting to handicapped or disabled individuals.

A Board member indicated the Board was not aware of these requirements of the Sunshine Law prior to the AGO investigation.

Recommendations

The Board of Aldermen:

7.1 Ensure specific reasons for closing a meeting are documented in the open minutes and discussions are limited to the specific reasons cited for closing the meeting.

7.2 Ensure all Board meetings are held at a place and in a manner to accommodate and allow the public access to the meetings, proper notification and agendas for public meetings are given, and the reasons for holding emergency meetings are documented.

Auditee's Response

7.1 We will ensure specific reasons for closing a meeting are documented in open minutes and discussions are limited to the specific reasons cited for closing the meeting.

7.2 We will ensure all Board meetings are held at a place and in a manner to accommodate and allow the public access to meetings, proper notification is given, and the reason for emergency meetings are documented when they occur.

8. Electronic Communication Policy

The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[6]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law. A Board member indicated the Board was unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The Board of Aldermen develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We will develop a written records management and retention policy to address electronic communication management and retention to comply with Missouri Secretary of State Records Service Division electronic communication guidelines.

[6] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed June 13, 2022.

9. Capital Assets

City officials do not maintain records of all capital assets owned by the city.

The listing of capital assets maintained does not include records of land, utility system infrastructure, equipment, and other property. In addition, city officials do not tag, number, or otherwise identify assets as property of the city, or perform an annual physical inventory of city property.

Adequate capital asset records and procedures are necessary to provide controls over city property, safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage. A Board member indicated the Board was unaware of the importance of maintaining a complete record of capital assets.

Recommendation

The Board of Aldermen ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location, and subsequent disposition. The Board should also ensure city personnel properly tag, number, or otherwise identify all applicable city property, conduct an annual physical inventory, and compare this inventory to detailed records.

Auditee's Response

We will ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as information, tag number, description, cost, acquisition date, location, and subsequent disposition. The Board will also ensure city personnel properly tag number or otherwise identify all applicable city property, conduct an annual physical inventory, and compare this inventory to detailed records.

City of Fairview
Organization and Statistical Information

The City of Fairview is located in Newton County. The city was incorporated in 1907 and is a fourth-class city. The city employed 1 full-time employee and 2 part-time employees on December 31, 2020.

City operations include law enforcement services, utilities (water, sewer, and trash), street maintenance, park services, and the John Q. Hammons Community Center.

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at December 31, 2020, are identified below. The Mayor and Board of Aldermen members do not receive any compensation for their service.

Ashley Rodgers, Mayor (1)
Tammy O'Brien, Alderwoman (2)
Raymond Stapleton, Alderman (3)
Pamela McNee, Alderwoman (4)
Bill Canoy, Alderman (5)

(1) Sid Oliver served until June 2020. Ashley Rodgers was elected in June 2020 and resigned in October 2021. Mickey Schouten was elected in April 2022.

(2) Tammy O'Brien resigned in March 2021. John Cook was elected in April 2021.

(3) Raymond Stapleton was impeached in April 2021. Barbara Stapleton was appointed in April 2021. Raymond Stapleton was reinstated by court order in July 2021 and resigned the same day. Barbara Stapleton was reappointed in July 2021 and elected in April 2022.

(4) Pamela McNee resigned in March 2021. George Richards was elected in April 2021.

(5) Bill Canoy resigned in March 2021. Trish Christensen was appointed in April 2021 and elected in April 2022.

Other Principal Officials

The City Clerk, City Treasurer, and Police Chief are appointed positions. The city's principal officials at December 31, 2020, are identified below:

Lorie Heatley, City Clerk (1)
Betty Kruse, City Treasurer (2)
Police Chief, Vacant (3)

(1) Lorie Heatley resigned in March 2021, and was replaced by Bruce Forsberg as Interim City Clerk from March 2021 until May 2021. Denise Robertson was hired in May 2021 and resigned in July 2022. Staecy Fox was hired in May 2022 and resigned in October 2022. Chelsie Dick was hired in October 2022.

(2) Betty Kruse resigned in March 2021, and this position has not been filled by the Board.

(3) Robert Jacobus was hired in March 2021, and was terminated in April 2021. Russell Nicholes was hired to work part-time in January 2022.

Financial Activity

A summary of the city's financial activity, prepared using the city's bank statements, for the year ended December 31, 2020, follows:

City of Fairview

(1) The city had 2 bank accounts (one account at 2 different banks) for each of these accounts. The city withdrew some money from the bank accounts at one bank to open similar bank accounts at another bank. Accounts were combined for this schedule. Receipts and disbursements were adjusted for these withdrawals and subsequent deposits.

Information of a personal, privileged, or sensitive nature, and/or information that is not directly related to the information requested in the subpoena has been redacted.

Office of Missouri State Auditor

SUBPOENA

To: Lorie Heatley
[redacted]

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative, Pam Allison, Audit Manager, at the Landers State Office Building, 149 Park Central Square, Suite 814, Springfield, MO 65806, at 10:30 a.m. on Wednesday, October 12, 2022, for purposes of providing testimony, and producing for examination, copying, and interrogation the following records and documents listed on Exhibit A attached to this Subpoena.

In lieu of appearance, you may ship the records responsive to this subpoena to the Missouri State Auditor to the attention of Troy Royer at 149 Park Central Square, Suite 814, Springfield, MO 65806 or email the records to Troy.Royer@auditor.mo.gov.

ISSUED this 26th day of September, 2022, pursuant to Section 29.235.4(1), of the Revised Statutes of Missouri.

Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by hand delivery on this 28TH day of September, 2022.

Office of Missouri State Auditor

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the City of Fairview for the time period of January 2020 to March 2021.

This request includes, but is not limited to, the following:

1. Timesheets and or time cards, pay checks, pay stubs, bank statements, leave records, personnel policies, and any and all payroll records for services provided to the City of Fairview from January 2020 until March 2021;

2. Any and all documents related to your testimony during the interview held on September 28, 2022.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

									Total Over Payments	3,520.56	
									Total (Under) Payments	(169.10)	
									Total Net Over(Under) Payments	$ 3,351.46	

(1) Gross pay was calculated at $11 per hour during 2020 and $12 per hour during 2021 for hours recorded in the payroll system unless otherwise noted.

(2) Lorie Heatley is the former City Clerk, Sid Oliver and Ashley Rodgers are former Mayors, and Betty Kruse is the former City Treasurer.

(3) Hours recorded on the timecard and in the payroll system include non-working time (hours for vacation and holidays).

(4) Overtime (hours worked over 40 hours in weekly pay period) was calculated at $11 per hour due to non-working hours recorded during pay period.

(5) Timecard was signed by the former City Clerk.

(6) Overtime (hours worked over 40 hours in weekly pay period) was calculated at time and a half or $16.50 per hour.

(7) Overtime (hours worked over 40 hours in weekly pay period) was underpaid at straight time ($12 per hour), and the underpayment amount was calculated at $6 per hour (the remainder of $18 per hour, or time and a half).

(8) One hour of overtime was underpaid at straight time ($12 per hour) and the underpayment was calculated at $6 per hour (the remainder of $18 per hour, or time and a half). The remaining overtime of 0.083 was calculated at the time and a half rate of $18 per hour.

(9) Overtime (hours worked over 40 hours in a weekly pay period) was calculated at time and a half, or $18 per hour.

(10) The pay stub inaccurately reported this pay period. The pay period should be February 22, 2021, through February 28, 2021.

(11) Overtime (hours worked over 40 hours in weekly pay period) was calculated at $12 per hour due to non-working hours recorded during pay period.

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis - Office of Mayor and Other City Offices

City Counselor's Payroll Controls and Procedures	Employee leave request forms were not always retained, accurate, recorded correctly, or reviewed and approved as required.
Additional Comments	An audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned is intended to reflect the performance of the entities reviewed as a whole. It does not indicate the performance of any one city official or office.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 5

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Civil Rights Enforcement Agency Commission
and
City Counselor
and
City Register
and
Chief Medical Examiner
and
Assessor
City of St. Louis, Missouri

We have audited certain operations of the Offices of Mayor, City Counselor, City Register, Medical Examiner, and Assessor; and the Civil Rights Enforcement Agency in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2021. To minimize duplication of effort, we reviewed the CPA firm's report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2021. The objectives of our audit were to:

1. Evaluate each offices' internal controls over significant management and financial functions.

2. Evaluate each offices' compliance with certain legal provisions.

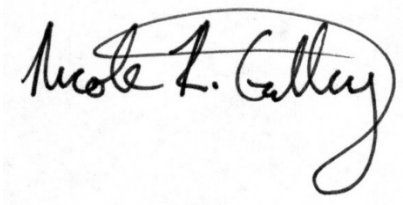
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of each office, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from each office's management and was not subjected to the procedures applied in our audit of the offices.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Office of Mayor and other city offices. No findings resulted from our audit of the Offices of the Mayor, Medical Examiner, City Register, Assessor, or the Civil Rights Enforcement Agency.



Nicole R. Galloway, CPA
State Auditor

1. City Counselor's Payroll Controls and Procedures

Employee leave request forms were not always retained, accurate, recorded correctly, or reviewed and approved as required. Payroll expenses were approximately $4.2 million for the fiscal year ended June 30, 2021.

Office procedures require all employees complete and sign leave request forms for medical leave and vacation time that are reviewed and approved by the employee's supervisor or the appointing authority prior to submission for processing. In addition, the employee and the supervisor or appointing authority are required to sign leave requests documenting unpaid leave or other uncompensated time during the pay period.

We reviewed leave request forms submitted to the payroll clerk for the pay period ending June 5, 2021. During that period, 24 employees took leave and submitted 32 leave request forms. We noted leave requests for 5 of the 24 employees that took leave during the test period (21 percent) were missing. In addition, 5 of the 32 leave request forms reviewed (16 percent) were not approved by the supervisor or appointing authority, and 1 of these 5 leave requests (20 percent) was not signed by the employee. In addition, 1 employee's leave used did not agree to the type of leave requested. The employee requested 8 hours of medical leave; however, the timesheet indicated 8 hours of vacation leave. As a result, the employee's leave balance for each type is incorrect.

Officials indicated these issues occurred during a transition period in which an Interim City Counselor was appointed to replace the prior City Counselor who had retired.

Signed, approved, and accurate leave requests that are retained are necessary to ensure employee time is properly tracked and accounted for.

Recommendation

The City Counselor ensure employees prepare leave requests for medical leave, vacation leave, and unpaid time and the requests are properly signed, approved, accurately recorded on payroll records, and retained for all employees.

Auditee's Response

The current City Counselor agrees with the audit finding and has already taken steps to implement the recommendation.

City of St. Louis - Office of Mayor and Other City Offices Organization and Statistical Information

The following offices were created by the City Charter and City Ordinance and perform various services within the City of St. Louis.

Office of the Mayor

The Mayor is the chief executive of the City of St. Louis. The main responsibilities of the Mayor are policy formation and coordination of the activities of city departments and agencies. The Mayor also serves as a member of the Board of Estimate and Apportionment. The Mayor's office has 18 full-time employees.

Tishaura Jones currently serves as the Mayor. Mayor Jones began her first term of office in April 2021. Lyda Krewson served as Mayor from April 2017 through March 2021.

Civil Rights Enforcement Agency

Ordinance 67119 created the Civil Rights Enforcement Agency. Its mission is to eliminate and remedy discrimination in housing, employment, and public accommodations. The agency has 4 full-time employees.

The current Executive Director for the agency, Monica Del Villar, was appointed in December 2021. Charles Bryson served as Executive Director from July 2013 to December 2021.

Office of City Counselor

The Office of City Counselor provides legal assistance to all city departments. The office represents the city in all litigation including appellate court, equity matters, and damage suits, and is responsible for reviewing applicable legislation and city contracts. The office also has a problem property unit which works with the city's Department of Public Safety. The office has 73 full-time employees and 2 part-time employees.

The current City Counselor, Sheena Hamilton, was appointed in October 2021. Matt Moak served as Interim City Counselor from April 2021 to October 2021. Michael Garvin served as Interim City Counselor from October 2020 to April 2021.

Register's Office

The Register's Office was created under Article IX of the City Charter. The Register's Office has responsibility for custody of the city seal, original rolls of ordinances, contracts, conditional bonds, title deeds, and other various certificates and documents. The office also has responsibility for administrating oaths of office. As provided in the City Code, the Register's Office has control and direction in the preparation and printing of the City Journal. The office has 3 full-time employees.

The current City Register, Amber Simms, was appointed in May 2021. Dionne Flowers served as City Register from August 2017 through April 2021.

Medical Examiner's Office

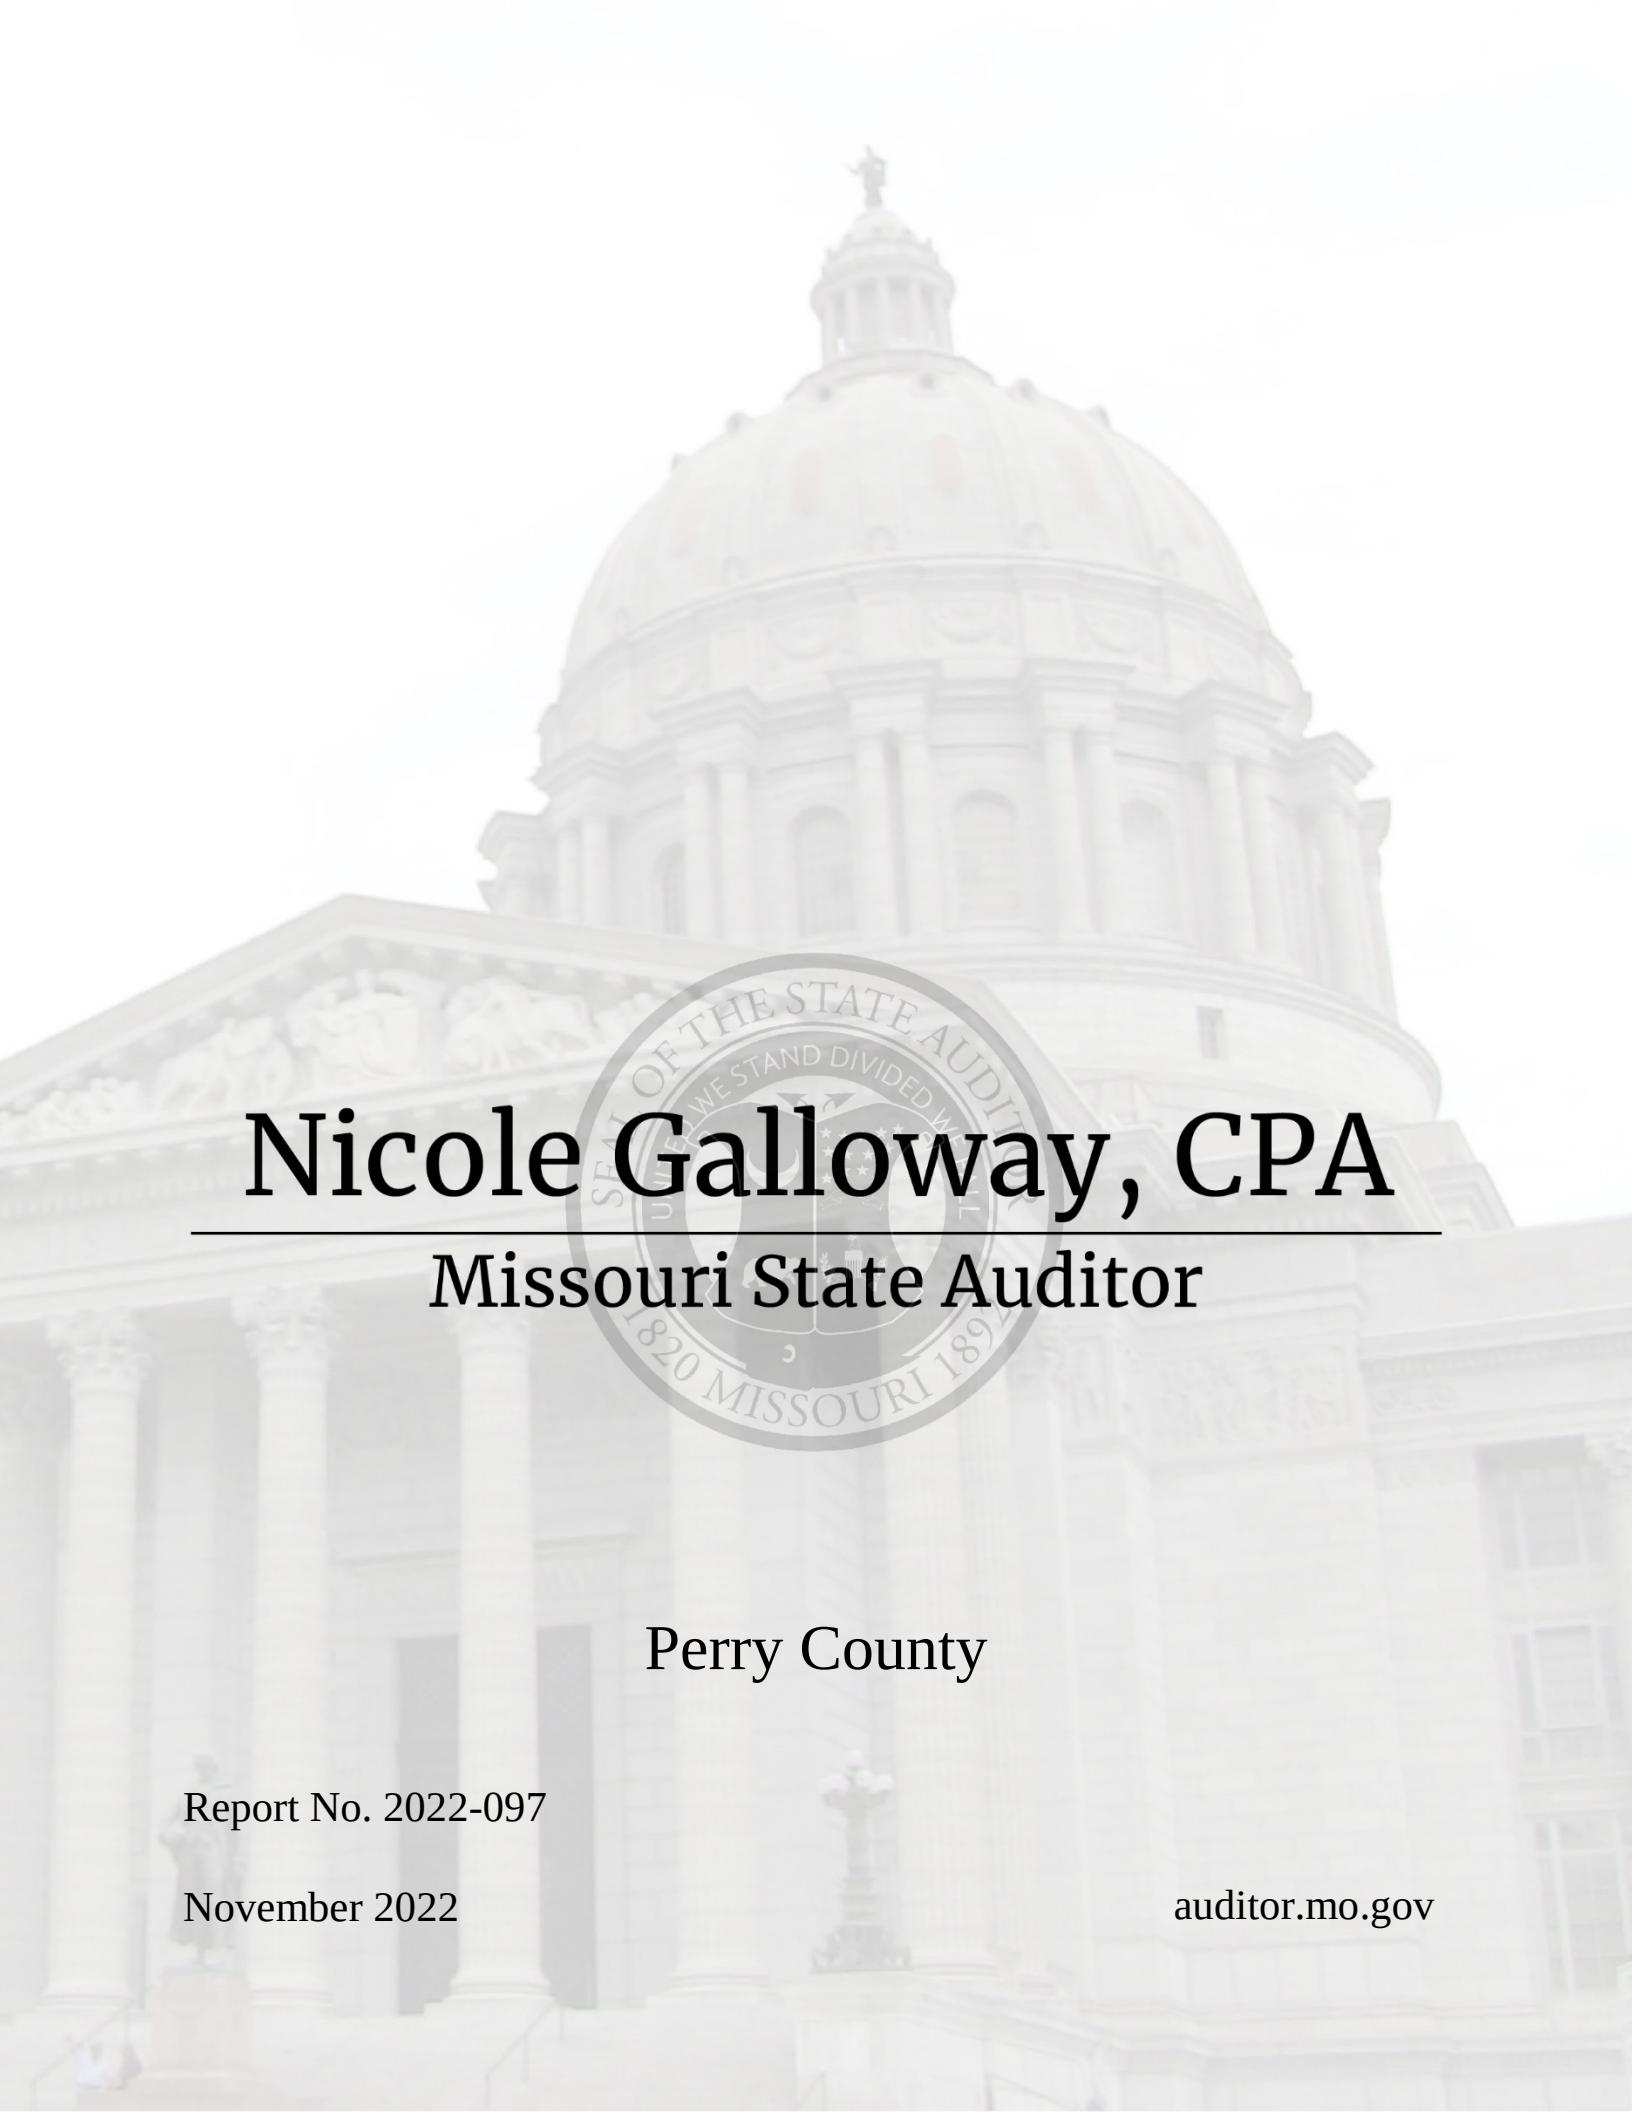
The Medical Examiner's Office is responsible for investigating the medical cause of deaths which occur as a result of unusual or suspicious circumstances as well as for certain deaths which by law fall under its jurisdiction.

The Medical Examiner is Michael A. Graham, M.D, and the office has 23 full-time employees.

Assessor's Office

The Assessor's Office assesses real and personal property, keeps records of all real estate transactions, and maintains a current record of property ownership in the city. In every odd-numbered year, the Assessor's Office will re-assess all real property located within the city.

The Assessor is Michael Dauphin and the office has 60 full-time employees.



Nicole Galloway, CPA

Missouri State Auditor

Perry County

Report No. 2022-097

November 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Perry County

Sheriff's Controls and Procedures	The Sheriff has not adequately segregated accounting duties or performed adequate supervisory reviews of detailed accounting records, and does not disburse commissary net proceeds to the County Treasurer for deposit into the Inmate Prisoner Detainee Security Fund as required by state law. Sheriff's office personnel do not prepare adequate bank reconciliations and a monthly list of liabilities for the commissary account. The Sheriff does not properly reconcile fuel used to fuel purchased, and does not document his review of fuel usage reports.
County Collector's Tax Maintenance Fund	The County Collector improperly reimbursed himself $1,480 from the Tax Maintenance Fund for expenses not in compliance with uses allowed by state law, and invoices were not maintained to support the reimbursements.
Public Administrator's Controls and Procedures	The Public Administrator has maintained possession of a deceased ward's property. Office personnel do not issue receipt slips for checks received and do not always document checks received on the receipt log. Some checks and money orders are not restrictively endorsed until the weekly deposit is prepared.
Budgets and Financial Reporting	The County Clerk failed to submit a certified copy of the 2022 and 2021 county budgets to the State Auditor's Office in accordance with state law. Neither the County Commission nor the County Clerk submitted proof of publication of the county's financial statements for the years ended December 31, 2021, and 2020, to the State Auditor's Office as required by state law.
Electronic Data Security	The Sheriff has not established adequate password controls to reduce the risk of unauthorized access to computers and data.
Electronic Communications Policy	The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Perry County

We have audited certain operations of Perry County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

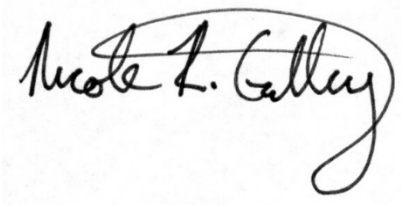
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal control, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Perry County.



Nicole R. Galloway, CPA
State Auditor

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collected money for civil paper service, bonds, housing prisoners, and other miscellaneous receipts totaling approximately $289,000 during the year ended December 31, 2021.

1.1 Segregation of duties

The Sheriff has not adequately segregated accounting duties or performed adequate supervisory reviews of detailed accounting records. The Sheriff's assistant is primarily responsible for receipting, recording, and depositing receipts; making disbursements; reconciling bank accounts; billing for paper services and board bills; and receiving and transmitting the associated payments collected. The Sheriff documents his review of the monthly bank reconciliations; however, the only other records the Sheriff reviews are occasional deposits. The Sheriff's assistant indicated the office is short-staffed so she performs all the procedures and the Sheriff is not always available to review deposits or other records.

Proper segregation of duties is necessary to ensure transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, and depositing receipts; making disbursements; reconciling bank accounts; billing; and receiving and transmitting the associated payments collected. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of detailed accounting and bank records are essential and should include comparing daily receipts to deposits.

1.2 Commissary net proceeds

The Sheriff's office does not disburse commissary net proceeds to the County Treasurer for deposit into the Inmate Prisoner Detainee Security Fund as required by state law.

All commissary net proceeds from the commissary sales and commissions received from the commissary vendors are retained with the inmate money in the inmate bank account. Any amount in the bank account exceeding the inmate money balance is considered commissary net proceeds and totaled approximately $32,300 as of December 31, 2021. The Sheriff's assistant indicated she does not know how to run a system report showing the amount of net proceeds in the account, so she has not disbursed any of this money to the Treasurer.

To reduce the risk of loss, theft, or misuse of funds, commissary net proceeds should be disbursed to the County Treasurer monthly. Section 50.370, RSMo, requires county officials to turn over all fees to the County Treasurer monthly. Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the

remaining funds (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Treasurer.

1.3 Commissary bank reconciliations and liabilities

Sheriff's office personnel do not prepare adequate bank reconciliations and a monthly list of liabilities for the commissary account.

The December 31, 2021, reconciled bank balance per the bank reconciliation totaled $203,122, but the book balance was $203,454, resulting in a shortage of $332 in the account. The account has been short this amount since January 2021. Because the bank reconciliation prepared did not agree to the book balance, and a list of liabilities was not maintained and reconciled to the available cash balance, the shortage in the account was not identified. The Sheriff's assistant prepares a reconciliation to ensure issued checks have cleared the bank account; however, she is not ensuring the book balance agrees to the reconciled bank balance.

Preparing adequate monthly bank reconciliations and monthly lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Regular identification of liabilities and comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities. Differences should be adequately investigated and resolved.

1.4 Fuel reconciliation

The Sheriff does not properly reconcile fuel used to fuel purchased, and does not document his review of fuel usage reports. Deputies fuel patrol cars using a bulk fuel tank and fuel cards. The fuel tank is monitored by video camera; however, the tank is easily accessible and unlocked, and the pump is always turned on. The Sheriff indicated he reviews the monthly fuel usage reports, but he does not document this review. During the year ended December 31, 2021, the Sheriff's office spent approximately $66,000 on fuel for 26 vehicles. During our previous 2 audits, the Sheriff indicated the department would implement better controls to monitor fuel usage; however, this has not happened and now the Sheriff's office is no longer tracking fuel purchased using the fuel cards. The Sheriff could not provide a reason why changes were not made to better monitor fuel purchased and used.

Procedures for reconciling fuel used to fuel purchased and documenting reviews of fuel usage reports are necessary to ensure vehicles are properly utilized and decrease the risk of loss, theft, or misuse of fuel going undetected.

Similar conditions previously reported

Similar conditions to sections 1.2 and 1.4 were noted in our 2 prior audit reports.

Recommendations

The Sheriff:

1.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting and bank records are performed and documented.

1.2 Ensure existing and future commissary net proceeds not necessary to meet cash flow needs or current operating expenses are disbursed timely to the County Treasurer for deposit into the Inmate Prisoner Detainee Security Fund.

1.3 Ensure adequate monthly bank reconciliations and lists of liabilities are prepared and reconciled timely. Any differences between accounting records and reconciliations should be promptly investigated and resolved.

1.4 Establish procedures to reconcile fuel used to fuel purchased and document the review of fuel usage reports. Any significant discrepancies should be promptly investigated.

Auditee's Response

We will attempt to implement the recommendations. We will also pass these recommendations on to the new Sheriff, who starts on October 1, 2022.

2. County Collector's Tax Maintenance Fund

The County Collector improperly reimbursed himself $1,480 from the Tax Maintenance Fund (TMF) for expenses not in compliance with uses allowed by state law, and invoices were not maintained to support the reimbursements.

The reimbursements to the County Collector totaled $1,480 for television service for all the offices in the county administration building for the year ended February 28, 2022. No supporting documentation was maintained for these reimbursements, which occurred quarterly. The County Collector indicated he has paid for the expenses for several years and did not know it was a problem.

Section 52.315, RSMo, requires TMF money to be expended for additional administration and operation costs of the County Collector's office. Because television service is primarily personal and not related to costs or expenses incurred in the office of the County Collector, the disbursements are not an appropriate use of TMF money. In addition, to ensure the reimbursements are valid and proper, adequate supporting documentation should be maintained.

Recommendation

The County Collector ensure future disbursements from the TMF are in compliance with statutory provisions and supporting documentation is maintained. In addition, the County Collector should reimburse the TMF account for the improper purchases.

Auditee's Response

I will consider the recommendation. In early 2022 we stopped providing television services for the county administration building.

3. Public Administrator's Controls and Procedures

Controls and procedures related to property listings, and receipting and recording need improvement. The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The Public Administrator's office was responsible for the financial activity of 87 wards and estates as of December 31, 2021.

3.1 Deceased ward's property

The Public Administrator has maintained possession of a deceased ward's property. The ward died in 2019 and two trail cameras, batteries, and SD cards along with related set-up expenses were purchased during August 2020 using the ward's checking account for approximately $250.

According to the Public Administrator, the cameras were purchased due to suspicious activity on the ward's property. The cameras, batteries, and SD cards have been stored in the Public Administrator's office even after the ward's real estate properties were auctioned. The cameras, batteries, and SD cards are the property of the ward's estate and should be timely distributed to the ward's estate. The Public Administrator indicated she did not give these items to the ward's estate because she forgot about them.

Section 475.130, RSMo, requires the Public Administrator, as conservator, to protect, preserve, and manage the estate; perform all duties required by law; and deliver the assets to the persons entitled to them.

3.2 Receipting and recording

Office personnel do not issue receipt slips for checks received in the office and do not always document checks received on the receipt log. In addition, a cash count performed on April 28, 2022, totaling $24,748, identified 17 checks and 1 money order, totaling $9,981, that were not restrictively endorsed. Some checks and money orders are not endorsed until the weekly deposit is prepared.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

Recommendations

The Public Administrator:

3.1 Ensure all ward assets are properly distributed to wards' heirs timely.

3.2 Issue prenumbered receipt slips for all money received, and ensure all checks are recorded in the receipt log. In addition, the Public Administrator should ensure checks and money orders are restrictively endorsed at the time of receipt.

Auditee's Response

3.1 We plan to sell the assets and put the proceeds back into the estate.

3.2 We will implement the recommendation.

4. Budgets and Financial Reporting

Procedures related to budgets and financial reporting need improvement.

4.1 Budgets

The County Clerk failed to submit a certified copy of the 2022 and 2021 county budgets to the State Auditor's Office (SAO) in accordance with state law. The County Clerk indicated he thought he submitted the budgets.

Section 50.740.2, RSMo, requires the county clerk to file a certified copy of the budget with the State Auditor within 5 days of approval.

4.2 Financial reporting

Neither the County Commission nor the County Clerk submitted proof of publication of the county's financial statements for the years ended December 31, 2021, and 2020, to the SAO as required by state law. The County Clerk indicated he always publishes the financial statements late and simply forgot to submit to the SAO.

Section 50.810, RSMo,[1] requires filing of proof of publication of the county's financial statements with the State Auditor by April 1st of each year. Section 50.810.3, RSMo, states the county treasurer shall not pay any county commissioner until notice is received from the State Auditor that the required proof of publication has been filed. The County Commissioners have continued to receive payment of compensation as of August 15, 2022.

Recommendations

4.1 The County Clerk submit a certified copy of the county budget to the State Auditor within 5 days of approval as required by state law.

4.2 The County Commission submit proof of publication of the county's financial statements to the State Auditor's Office or discontinue payments to the County Commission until proof of publication of the county's financial statements are submitted in accordance with state law.

[1] Effective August 28, 2022, Section 50.810, RSMo, has been repealed. The requirement to file proof of publication has been moved to Section 50.820, RSMo. Additionally, under revised Section 50.815, RSMo, publication must occur before June 30 each year.

Auditee's Response

The County Clerk provided the following response:

4.1 I will implement the recommendation.

The County Commission provided the following response:

4.2 We will implement the recommendation.

5. Electronic Data Security

Controls over the Sheriff's computers are not sufficient. As a result, the office's records are not adequately protected and are susceptible to unauthorized access or loss of data.

As noted in our prior 2 audit reports, the Sheriff has not established adequate password controls to reduce the risk of unauthorized access to computers and data. The Sheriff's office is not required to change passwords periodically. The Sheriff indicated he believes there has not been a need to address this issue.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords do not have to be periodically changed, there is less assurance the office is effectively limiting access to computer and data files. Passwords should be unique, confidential, and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

Recommendation

The Sheriff require confidential passwords that are periodically changed to prevent unauthorized access to county computers and data.

Auditee's Response

We will attempt to implement the recommendation. We will also pass this recommendation on to the new Sheriff, who starts on October 1, 2022.

6. Electronic Communications Policy

The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of

records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[2]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Commission indicated it was unaware of the electronic communications record retention requirements and guidelines.

Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We will implement the recommendation.

[2] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government,* May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed August 15, 2022.

Perry County
Organization and Statistical Information

Perry County is a county-organized, third-class county. The county seat is Perryville.

Perry County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 84 full-time employees and 11 part-time employees on December 31, 2021.

In addition, county operations include Senate Bill 40 Board, Mental Health Board, Youth Board, Senior Citizens Board, Solid Waste Board, and 911 services. Also, in conjunction with the City of Perryville, county operations include maintenance of a community multi-purpose facility.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2022	2021
Mike J. Sauer, Presiding Commissioner	$	42,565
Jay P. Wengert, Associate Commissioner		40,565
Keith A. Hoehn, Associate Commissioner		39,979
Dana Pritchard, Recorder of Deeds		58,143
Jared W. Kutz, County Clerk (1)		59,917
Caitlin Hoeh Pistorio, Prosecuting Attorney		71,414
Gary J. Schaaf, Sheriff (2)		59,676
Kathy A. Schumer, County Treasurer		58,143
Bill Bohnert, County Coroner		35,512
Tamara M. Tarrillion, Public Administrator		54,550
Rodney J. Richardet, County Collector (3), year ended February 28,	75,612	
Charles Triller, County Assessor (4), year ended August 31,		61,677
Tim Baer, County Surveyor (5)		

(1) Includes $1,774 of commissions earned for preparing city property tax books.
(2) Resigned from office effective September 30, 2022. Bill Bohnert was appointed Interim Sheriff effective October 1, 2022. Jason Klaus was appointed Sheriff effective October 13, 2022.
(3) Includes $17,470 of commissions earned for collecting city and levee district property taxes.
(4) Includes $1,774 of commissions earned for assessing city property taxes.
(5) Compensation on a fee basis.

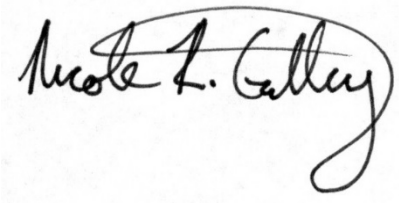
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 53 political subdivisions required to file a financial report by September 30, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in September 2022, after their filing deadline. The filing status for these 17 entities is presented in summary on page 3 and by individual entity in Appendixes B and C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except that effective August 28, 2022, any political subdivision with gross revenues less than $5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.[1]

This report includes the filing status for the 53 political subdivisions, other than cities, towns, and villages, with a fiscal year end of March 31, 2022. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 53 political subdivisions, 43 filed an annual financial report timely.

This report also includes the filing status for 17 political subdivisions, other than cities, towns, and villages, that filed their financial report in September 2022, after their filing deadline.

[1] Prior to August 28, 2022, only transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report were not subject to the fine.

NICOLE GALLOWAY, CPA
Missouri State Auditor

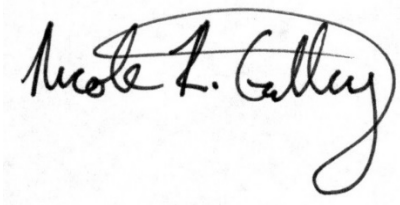
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by September 30, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 51 cities and 25 villages is presented in summary on page 4 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in September 2022, after their filing deadline. The filing status for these 16 cities and 3 villages is presented in summary on page 4 and by individual entity in Appendixes B to E.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except that effective August 28, 2022, any political subdivision with gross revenues less than $5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.[1]

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

[1] Prior to August 28, 2022, only transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report were not subject to the fine.

This report includes the filing status for the 51 cities and 25 villages with a fiscal year end of March 31, 2022, whose financial report was due by September 30, 2022. Of the 76 municipalities, 55 filed the financial report timely. Of the 55 municipalities required to file an addendum, 29 filed timely. Of the 27 municipalities required to file a certification, 15 filed timely.

This report includes the filing status for 16 cities and 3 villages that filed at least one of the items (financial report, addendum, or certification) in September 2022, after their filing deadline. Of these municipalities, 8 filed an annual financial report, 6 filed an addendum, and 7 filed a certification.

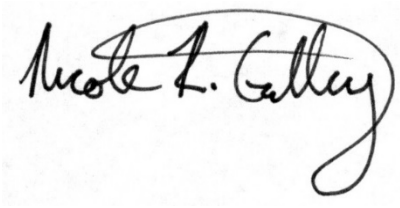
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 13 political subdivisions required to file a financial report by August 31, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in August 2022, after their filing deadline. The filing status for these 95 entities is presented in summary on page 3 and by individual entity in Appendixes B and C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except that effective August 28, 2022, any political subdivision with gross revenues less than $5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.[1]

This report includes the filing status for the 13 political subdivisions, other than cities, towns, and villages, with a fiscal year end of February 28, 2022. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 13 political subdivisions, 7 filed an annual financial report timely.

This report also includes the filing status for 95 political subdivisions, other than cities, towns, and villages, that filed their financial report in August 2022, after their filing deadline.

[1] Prior to August 28, 2022, only transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report were not subject to the fine.

NICOLE GALLOWAY, CPA
Missouri State Auditor

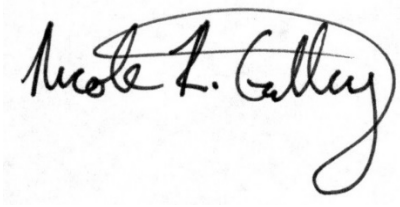
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by August 31, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 4 cities and 4 villages is presented in summary on page 4 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in August 2022, after their filing deadline. The filing status for these 27 cities and 11 villages is presented in summary on page 4 and by individual entity in Appendixes B to F.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except that effective August 28, 2022, any political subdivision with gross revenues less than $5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.[1]

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

[1] Prior to August 28, 2022, only transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report were not subject to the fine.

This report includes the filing status for the 4 cities and 4 villages with a fiscal year end of February 28, 2022, whose financial report was due by August 31, 2022. Of the 8 municipalities, 6 filed the financial report timely. Of the 4 municipalities required to file an addendum, 2 filed timely. Of the 3 municipalities required to file a certification, 2 filed timely.

This report includes the filing status for 27 cities and 11 villages that filed at least one of the items (financial report, addendum, or certification) in August 2022, after their filing deadline. Of these municipalities, 22 filed an annual financial report, 19 filed an addendum, and 3 filed a certification.

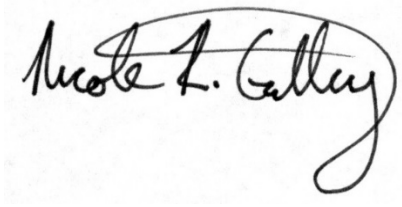
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of June 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In June, the state spent $352 million from federal ARP Act assistance (Appendix A). Through the end of June, the state has received $4.21 billion and spent $1.37 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of June 30, 2022, approximately $10.91 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule*, January 2022. The final rule is effective April 1, 2022; however, recipients can choose to take advantage of the final rule's flexibilities and simplifications now, before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In June, the state spent $352 million from federal ARP Act assistance (Appendix A). Through the end of June, the state has received $4.21 billion and spent $1.37 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the fiscal year ended June 30, 2022, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because no appropriations were authorized through June 2022.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, the DED has occasionally used it to receipt and disburse ARP Act awards due to grant drawdown and budgetary timing challenges.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[3] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the fiscal year ended June 30, 2022, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because no appropriations were authorized through June 2022.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

Total All Funds	$ 3,852,593,938	1,099,857,180	2,752,736,758

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] This fund had $13,826,934 in expenditures in June 2021 from a similar appropriation in fiscal year 2021. Due to the limited use of ARP Act funds in fiscal year 2021, appropriation activity for fiscal year 2021 will not be included in this report.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

B Receipts, Disbursements, and Fund Balances - Federal COVID-19 Related Funds Cumulative Results through June 30, 2022 11

C Statement of Appropriations and Expenditures - Federal COVID-19 Related Funds Fiscal Year 2021 and Fiscal Year 2022 13

D Statement of Appropriations and Expenditures - Federal COVID-19 Related Funds Fiscal Year 2020 30

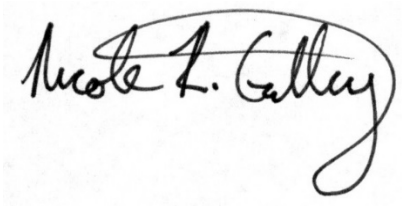
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of June 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In June, the state spent $218.5 million from federal COVID-19 assistance (Appendix A). Through the end of June, the state has received $6.2 billion and spent $5.97 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.79 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of June 30, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of June 30, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients are currently permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, Assistance Listing Number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients are currently permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of June 30, 2022, approximately $4.28 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of June 30, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of June 30, 2022, approximately $10.93 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In June, the state spent $218.5 million from federal COVID-19 assistance (Appendix A). Through the end of June, the state has received a total of $6.2 billion and spent $5.97 billion from this assistance (Appendix B). A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.79 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

Department of Labor & Industrial Relations Federal Stimulus Fund	329,380	746,041	684,238	0	0	264,796	126,387
Total all Funds	$ 32,940,028	210,022,468	218,455,829	0	5,746	461,582	24,050,831

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

Total all Funds	$ 6,195,708,862	5,971,272,122	3,605,793	589,605,578	786,385,694	24,050,831

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[3] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Department of Conservation Data Security

User Account Management	The Missouri Department of Conservation (MDC) does not always timely remove accounts of terminated users and does not ensure a network security system control requiring user accounts' passwords to be changed periodically is consistently enforced. The MDC does not proactively monitor for user accounts that have not been accessed or used for a specified period of time and does not have a policy requiring such review. The MDC does not perform periodic reviews of existing users' access to resources to ensure access remains appropriate and aligned with job responsibilities, nor is there a policy requiring such reviews.
Service Level Agreement	The MDC and the Office of Administration - Information Technology Services Division (ITSD) do not have a service level agreement in place for IT services provided by the ITSD to the MDC.
Policies and Procedures	The MDC has not formally completed and documented a comprehensive risk assessment program. The MDC has not fully established a security plan on which department-wide security policies, standards, and procedures can be formulated, implemented, or monitored. The MDC has not documented policies and procedures for certain security controls of department systems.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Department of Conservation Response 14

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Sara Parker Pauley, Director
Missouri Department of Conservation
Jefferson City, Missouri

We have audited certain internal controls, including security controls, designed to protect data and information maintained by the Missouri Department of Conservation. This audit was conducted in fulfillment of our duties under Chapter 29, RSMo. The objectives of our audit were to:

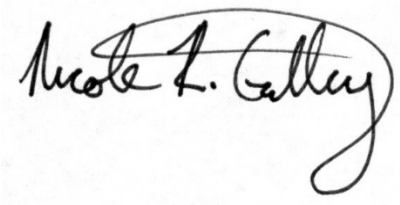
1. Evaluate the department's internal controls over significant management operations, including the effectiveness of information security controls and other management practices for protecting the confidentiality, integrity, and availability of significant systems and information.

2. Evaluate the department's compliance with certain legal provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, and (2) no significant noncompliance with legal provisions.

The accompanying Management Advisory Report presents our findings arising from our audit of Missouri Department of Conservation Data Security.



Nicole R. Galloway, CPA
State Auditor

Department of Conservation Data Security Introduction

Background

The mission of the Missouri Department of Conservation (MDC) is to protect and manage the fish, forest, and wildlife resources of the state; and to facilitate and provide opportunity for all citizens to use, enjoy, and learn about these resources. The MDC Information Technology (IT) Branch supports the department's mission through technological solutions and electronic communications. The MDC was not included in the 2005 statewide consolidation of IT resources, but works closely with the consolidated IT operations on certain matters.

The IT Branch provides support and management of information technology resources for the MDC. Information, some of which is sensitive, maintained in MDC systems includes:

- Hunting and fishing permits and licenses
- Wildlife protection investigations and arrests
- Human resource and department expenditure records
- Geographic information system data

To carry out its duties, the MDC uses approximately 125 various applications to collect, process, and distribute information. These applications are a combination of those developed and supported by internal MDC personnel, as well as those developed by contractors. These applications support functions including administration, permitting and licensing, investigations, environmental protection, mapping, and natural resource protection, among other functions.

Disclosure of specific sensitive data maintained in MDC systems could compromise department enforcement activities. In addition, unauthorized access to personal information could increase the risk of identity theft.

The Government Accountability Office (GAO) has included the security of information systems in the office's High-Risk List since 1997, specifically adding the protection of Personally Identifiable Information (PII) in its 2015 update.[1] Technological advances, such as lower data storage costs and increasing interconnectivity, have allowed both government and private sector agencies to collect and process extensive amounts of PII more effectively. Risks to PII can originate from unintentional and intentional threats. These risks include insider threats from careless, disgruntled, or improperly trained employees and contractors; the ease of obtaining and using hacking tools; and the emergence of more destructive attacks and data thefts.

[1] GAO, Report GAO-21-119SP *Report to Congressional Committees, High Risk Series: Dedicated Leadership Needed to Address Limited Progress in Most High-Risk Areas*, March 2021, p.168, <https://www.gao.gov/assets/gao-21-119sp.pdf>, accessed June 17, 2022.

Technology advances, combined with the increasing sophistication of individuals or groups with malicious intent, have increased the risk of PII being compromised and exposed. Correspondingly, the number of reported security incidents involving PII in both the private and public sectors has increased dramatically in recent years. At the same time, state agencies are increasingly reliant on technology and information sharing to interact with citizens and to deliver essential services. As a result, the need to protect information, including PII, against cybersecurity attacks is increasingly important.

According to the National Institute of Standards and Technology (NIST),[2] security controls are the safeguards or countermeasures employed within a system or an organization to protect the confidentiality, integrity, and availability of the system and its information and to manage information security risk. Confidentiality refers to preserving authorized restrictions on information access and disclosure, including the means for protecting personal privacy and proprietary information. Integrity relates to guarding against improper information modification or destruction, and availability ensures timely and reliable access to and use of information. Effective privacy controls depend on the safeguards employed within the information system that is processing, storing, and transmitting PII and the environment in which the system operates. Organizations cannot have effective privacy without a basic foundation of information security. Without proper safeguards and controls, information systems and confidential data are vulnerable to individuals with malicious intentions who can use access to obtain sensitive data or disrupt operations.

The NIST defines cybersecurity as the process of protecting information by preventing, detecting, and responding to attacks[3] while ISACA states cybersecurity encompasses all that protects enterprises and individuals from intentional attacks, breaches, and incidents as well as the consequences.[4] Cybersecurity should be aligned with all other aspects of information security, including governance, management, and assurance. The state of being secure requires maintenance and continuous improvement to meet the needs of stakeholders and the demands of emerging cyber threats.

[3] NIST, *Framework for Improving Critical Infrastructure Cybersecurity*, Version 1.1, April 2018, p. 45, <https://nvlpubs.nist.gov/nistpubs/CSWP/NIST.CSWP.04162018.pdf>, accessed June 17, 2022.

[4] ISACA, *Transforming Cybersecurity*, 2013, p. 11.

Scope and Methodology

The scope of our audit included evaluating (1) MDC management's approach to and management of information security controls; (2) policies and procedures; and (3) other management functions and compliance issues in place during the year ended December 31, 2021.

Our methodology included reviewing written policies and procedures, interviewing various MDC personnel, and performing testing. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed audit procedures to assess internal control to the extent necessary to address the audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We reviewed the authorized users for the MDC network, as well as a separate contractor-developed system, to determine if any terminated employees had active user accounts. In addition, we obtained employment records of all state employees from the statewide accounting system, Statewide Advantage for Missouri (SAM II), and matched these records against all authorized users. We provided MDC management a list of all terminated employees identified. Although we used computer-processed data from the MDC network, contractor system, and SAM II for our audit work, we did not rely on the results of any processes performed by these systems in arriving at our conclusions. Our conclusions were based on our review of the issues specific to the audit objectives.

We also assessed user access to PII maintained by the MDC.

We based our evaluation on accepted state, federal, and international standards and best practices related to information technology security controls from the following sources:

- Missouri Adaptive Enterprise Architecture (MAEA)
- National Institute of Standards and Technology (NIST)
- Government Accountability Office (GAO)
- ISACA

Department of Conservation Data Security Management Advisory Report State Auditor's Findings

1. User Account Management

The Missouri Department of Conservation (MDC) does not always timely remove accounts of terminated users, and has not consistently or adequately established certain user account controls. As a result, information maintained by the MDC is at risk of inappropriate access.

The MDC uses various internally-developed and contractor-developed information systems to carry out its functions. In addition, the MDC purchases or licenses various commercially available software products. User access to these systems is either controlled by a network security system maintained by the MDC or through a security system specific to an individual system. The MDC network security system is designed to allow users access from both onsite and remote locations.

A contributing factor to the account management weaknesses identified is a lack of comprehensive policies and procedures for the management of user accounts. Additional concerns regarding departmental policies and procedures are discussed in Management Advisory Report (MAR) finding number 3.

1.1 Terminated and unidentified users

Accounts of terminated users are not always removed timely, which leaves the MDC vulnerable to the risk of records being improperly viewed and altered. A terminated user is someone who has left employment with an entity and no longer needs access to the entity's data. We tested all MDC user accounts and found concerns with 39 users' access to the MDC network. Of those 39 user accounts identified, 31 users were former employees whose employment had ended at least 30 days prior to our test, and MDC could not identify the remaining 8 users, or determine why their access to MDC resources was necessary. In addition, we identified 8 terminated users with access to MDC resources via a separate, contractor-developed system. One of these users terminated employment in February 2019, 5 in 2021, and the termination dates for 2 were unknown.

While the MDC has a documented policy describing user termination procedures, department information technology (IT) management indicated IT staff turnover contributed to the failure to detect and remove terminated users timely. Additionally, MDC policy does not address accounts in the contractor-developed system.

According to the Missouri Adaptive Enterprise Architecture (MAEA),[5] entities must have a procedure in place for the timely notification of

[5] The MAEA includes standards, policies, and guidelines established by Office of Administration management. The MAEA is made up of several information technology domains, including domains dedicated to security and information. The domains define the principles needed to help ensure the appropriate level of protection for the state's information and technology assets.

administrators when a user no longer needs access. In addition, entities are responsible for determining who is given access to their systems and for ensuring all individuals who have access still need the access. When a user no longer needs access, the entity should submit a form to the security administrator requesting removal of the user's access to the systems.

Without effective procedures to remove access, terminated employees could continue to have access to critical or sensitive resources or have opportunities to sabotage or otherwise impair entity operations or assets, according to the Government Accountability Office (GAO).[6]

1.2 Password expiration

The MDC does not ensure a network security system control requiring user accounts' passwords to be changed periodically is consistently enforced. IT management verbally indicated their practice is to consistently enforce this control; however, the department does not have a formal written policy requiring it. We found 44 user accounts whose passwords were set to never expire.

Password controls reduce the risk of unauthorized access to computers and data. The MDC requires passwords to authenticate network access, and established a policy requiring passwords to be changed periodically. The network security system allows administrators to specify the maximum length of time that a password may be used. After this maximum time, a user is required to change the password. This policy is consistent with MAEA requirements that passwords for all systems be subject to password expiration. However, the MDC does not consistently enforce this control for all users.

Allowing accounts to have non-expiring passwords greatly increases the risk of an account password becoming known by someone other than the account owner, which may result in inappropriate access to and misuse of sensitive department information.

1.3 Inactive user accounts

The MDC does not proactively monitor for user accounts that have not been accessed or used for a specified period of time and does not have a policy requiring such review. Department IT management indicated this review did not happen due IT staff turnover.

Our analysis of system user accounts identified 14 accounts that had never been accessed by the user assigned to the account. This may indicate the access was not necessary and should not have been granted. We also identified 70 accounts that had not been accessed for an extended period.

[6] GAO, Report GAO-09-232G, *Federal Information System Controls Audit Manual*, February 2009, p. 176 and 225, <https://www.gao.gov/assets/gao-09-232g.pdf>, accessed June 17, 2022.

NIST guidance recommends system administrators disable inactive accounts after a specified time period.[7] This reduces opportunities for inappropriate system access, potentially by individuals who do not own the account. Without appropriate monitoring, security administrators are less likely to identify user accounts that have not been accessed or used for a specified period of time.

1.4 Existing user access

The MDC does not perform periodic reviews of existing users' access to resources to ensure access remains appropriate and aligned with job responsibilities, nor is there a policy requiring such reviews.

As users' job responsibilities change, access rights to resources may be added, changed, or removed. Over time, users can accumulate access rights that are no longer necessary, increasing the risk of inappropriate access.

Without periodically reviewing user access rights, there is an increased risk that unauthorized alterations of the rights will go undetected or that access rights may not be aligned with current job responsibilities.

Recommendations

The MDC:

1.1 Ensure user access is adequately reviewed to identify and remove accounts belonging to terminated employees and unidentified users in accordance with policy. In addition, the policy should be updated to cover the contractor-developed system.

1.2 Develop a policy to ensure user account passwords are consistently set to periodically expire.

1.3 Develop a policy to periodically monitor for user accounts that have not been accessed or used for a specified period of time.

1.4 Develop a policy to ensure existing users' access rights are periodically reviewed and remain appropriate and aligned with job responsibilities.

Auditee's Response

The department's written response is included in the Appendix.

[7] NIST, Special Publication 800-53 Revision 5, *Security and Privacy Controls for Information Systems and Organizations,* p. 20-21, <https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-53r5.pdf>, accessed June 17, 2022.

2. Service Level Agreement

The MDC and the Office of Administration (OA) - Information Technology Services Division (ITSD) do not have a service level agreement (SLA) in place for IT services provided by the ITSD to the MDC. As a result, the responsibilities and expectations between both parties are not fully established or documented.

The MDC did not participate in the 2005 consolidation of IT services from most other state agencies into the centralized ITSD. Therefore, the MDC is solely responsible for IT services necessary for its business operations. However, the MDC works with the ITSD to obtain certain services. Services provided by the ITSD include state network access, security monitoring, and access to statewide IT contracts, among others.

An SLA is a document used by organizations entering into a partnership for the provision of IT services. According to ISACA, an SLA is used to align IT enabled products and services and service levels with enterprise needs and expectations, including identification, specification, design, publishing, agreement, and monitoring of IT products and services.[8] SLAs can be in-house between an organizational unit and its IT department, external between an entity and an outside service provider, or internal within the units of a service provider.[9]

MDC management indicated they were not aware of the need for an SLA, and that operations between the ITSD and MDC had been operating well without one. However, an SLA is crucial to promote continuous and open communication between the parties to the agreement. Without such communication, there is an increased risk the customer and the service provider will not appropriately understand or respond to each other's expectations. This weakness could result in confusion or frustration, or potentially more severe outcomes such as system failure or data loss.

According to the *Information Systems Control Journal*,[10] an "SLA is a necessity between a service provider and service beneficiary because a service can be called 'bad' or 'good' only if this service is clearly described. Moreover, it formalizes the needs and expectations of the organization and serves as a kind of guarantee for both parties. In this way, potential misunderstandings are reduced and a clear view is given on the priorities of the service and its delivery. . . . A balanced SLA is a compromise between the needs, expectations and requirements of the organization (user group) and

[8] ISACA, *Control Objectives for Information and Related Technologies 2019 Framework: Governance and Management Objectives*, November 2018, p. 113-115.
[9] Van Grembergen, Wim, Ph.D., Steven De Haes and Isabelle Amelinckx. "Using COBIT and the Balanced Scorecard as Instruments for Service Level Management." *Information Systems Control Journal*, Volume 4 (2003): p. 56.
[10] Ibid., p. 56-57.

the service provision capabilities and promises of the service provider. At the same time, it must protect the service provider by limiting liability, identifying responsibilities and rationally managing user expectations."

Recommendation

The MDC work with the ITSD to develop an SLA that specifies services to be provided and addresses communications between the agencies.

Auditee's Response

The department's written response is included in the Appendix.

3. Policies and Procedures

MDC management has not developed certain key policies and procedures for data security. Additionally, some polices that have been developed have not been formally documented.

3.1 Risk assessment

The MDC has not formally completed and documented a comprehensive risk assessment program.

According to the National Institute of Standards and Technology (NIST),[11] risk assessments are used to identify, estimate, and prioritize risk to organizational operations (i.e., mission, functions, image, and reputation), organizational assets, and other organizations, resulting from the operation and use of information systems. Risk is determined by identifying potential threats, identifying vulnerabilities in systems, determining the likelihood that a particular threat may exploit vulnerabilities, and assessing the resulting impact on the organization's mission, including the effect on sensitive and critical systems and data. Risk assessments should include essential elements such as discussion of threats, vulnerabilities, impact, risk model, and likelihood of occurrence, and be updated using the results from ongoing monitoring of risk factors. According to the MAEA, only after a risk assessment has been performed can an entity take actions to mitigate the risks identified, including performance of a cost-benefit analysis and development of an action plan to address risks.

While MDC personnel have performed informal risk assessment procedures, a comprehensive risk assessment has not been performed. As such, risk assessment procedures that have been completed have been ad-hoc rather than a comprehensive plan to address risks inherent to the system. Consequently, the department has been unable to formally develop a plan to evaluate, prioritize, and remediate risks.

Since risks and threats change over time, the results of risk assessments should be documented to ensure an appropriate action plan is developed to

[11] NIST, Special Publication 800-30 Revision 1, *Guide for Conducting Risk Assessments*, September 2012, <https://nvlpubs.nist.gov/nistpubs/Legacy/SP/nistspecialpublication800-30r1.pdf>, accessed June 17, 2022.

limit vulnerabilities and to reduce risk to an acceptable level. According to the GAO,[12] the risk assessment should also be performed periodically and revised as necessary whenever there is a change in the entity's operations.

Without a comprehensive risk assessment program, MDC management has less assurance appropriate controls are in place to reduce risks of threats and vulnerabilities to an acceptable level.

3.2 Security plan

The MDC has not fully established a security plan on which department-wide security policies, standards, and procedures can be formulated, implemented, or monitored.

According to the GAO,[13] an entity-wide information security plan is the foundation of a security control structure and a reflection of senior management's commitment to addressing security risks. The security plan should establish a framework and continuous cycle of activity for assessing risk, developing and implementing effective security procedures, and monitoring the effectiveness of these procedures. Implementing an information security plan is essential to ensuring controls over information and information systems work effectively on a continuing basis.

MDC management indicated the department has informally adopted the Center for Internet Security's (CIS) Critical Security Controls framework to guide cyber security operations. The MDC has also partially completed a self-evaluation based on the CIS controls to identify security risks to address. However, the use of this framework has not been formally approved, nor has a complete evaluation been performed.

Until MDC management fully implements a security plan and takes steps to fully develop the necessary policies and controls to correct or mitigate information security control weaknesses, the MDC will have limited assurance that sensitive information and systems are adequately protected.

3.3 Documentation of security controls

The MDC has not documented policies and procedures for certain security controls of department systems.

According to the GAO,[14] control activities are the policies, procedures, techniques, and mechanisms that enforce management's directives and help

[12] GAO, Report GAO-09-232G, *Federal Information System Controls Audit Manual*, February 2009, p. 167-169, <https://www.gao.gov/assets/gao-09-232g.pdf>, accessed June 17, 2022.
[13] Ibid, p. 151.
[14] GAO, Report 14-704G, *Standards for Internal Control in the Federal Government*, September 2014, p. 75, <https://www.gao.gov/assets/gao-14-704g.pdf>, accessed June 17, 2022.

ensure that actions are taken to reasonably address risks. The following control activities have not been fully documented:

- Incident response, reporting, and correction
- Continuity planning and disaster recovery procedures, including system and data backups and recovery procedures
- Data and resource ownership, and owner responsibilities
- Security logging and monitoring
- Physical security procedures, including visitor access
- Segregation of duties
- Security training and awareness
- Password standards and requirements
- Privileged user account access

MDC staff indicated that much of this information is communicated to users by on-the-job training and other informal processes.

According to NIST,[15] documentation of all aspects of computer support and operations is important to ensure continuity and consistency. Formalizing operational practices and procedures with sufficient detail helps to eliminate security lapses and oversights, gives new personnel sufficiently detailed instructions, and provides a quality assurance function to help ensure operations will be performed correctly and efficiently.

Without documented and approved policies and procedures, management may not have assurance that control activities are appropriate and properly applied.

Recommendations

The MDC:

3.1 Design and implement a formal risk assessment process that includes policies, standards, and procedures for performing periodic risk

[15] NIST, Special Publication 800-12 Revision 1, *An Introduction to Information Security*, June 2017, p. 49, <https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-12r1.pdf>, accessed June 17, 2022

assessments and for reducing risk to a level acceptable to the department.

3.2 Fully develop and document a formal security plan for MDC systems.

3.3 Fully document and regularly review documentation of key security controls.

Auditee's Response

The department's written response is included in the Appendix.

MISSOURI DEPARTMENT OF CONSERVATION

Headquarters
2901 West Truman Boulevard, P.O. Box 180, Jefferson City, Missouri 65102-0180
Telephone: 573-751-4115 ▲ www.MissouriConservation.org

SARA PARKER PAULEY, Director

September 16, 2022

The Honorable Nicole R. Galloway
Missouri State Auditor
P.O. Box 869
Jefferson City, MO 65102

Dear Auditor Galloway:

The Department of Conservation ("Department") appreciates and continues to welcome the oversight provided by the State Auditor's Office. The Department is pleased your office directly communicated to me, consistent with past state audits, that no significant noncompliance with legal provisions were found to exist during this review.

We reviewed your office's draft audit report of the Department's "Data Security" for the year ended December 31, 2021. Generally, the Department agrees with the findings related to deficiencies in internal controls as provided in your office's draft audit report.

The Department's responses to specific audit findings are as follows:

1. **User Account Management**

   1.1 Terminated users. As the report indicates, the Department has a documented policy. The Department agrees with the recommendation to ensure user access is adequately reviewed in accordance with policy. The Department will implement steps to ensure reviews and to update the policy covering its contractor-developed system.

   1.2 Password expiration. The Department agrees with the recommendation and is currently working on reducing the number of these accounts while also working on establishing a policy and procedures to ensure user account passwords are consistently set to periodically expire.

   1.3 Inactive user accounts. The Department agrees with the recommendation and is currently reviewing unused accounts while also working on establishing a policy and procedures to ensure user accounts are periodically reviewed for lack of use.

   1.4 Existing user access. The Department agrees with the recommendation and is currently working on establishing a policy and procedures to ensure user access rights are periodically reviewed and remain appropriate and aligned with job responsibilities.

COMMISSION

MARGARET F. ECKELKAMP, Washington
STEVEN D. HARRISON, Rolla
MARK L. McHENRY, Kansas City
WM. L. (BARRY) ORSCHELN, Columbia

2. Service Level Agreement (SLA)

2 Service Level Agreement. The Department will make contact and attempt to work with the ITSD to develop an SLA.

3. Policies and Procedures

3.1 Risk Assessment. As the report indicates, the Department has performed informal risk assessment procedures. These were conducted using the Center for Internet Security's (CIS) Critical Security Controls built upon the NIST Cybersecurity Framework. The Department agrees it has not yet formally developed a plan to evaluate, prioritize, and remediate risks, and will work to design and implement a formal risk assessment process.

3.2 Security Plan. As the report indicates, the Department has informally adopted the CIS Critical Security Controls framework and partially completed a self-evaluation to identify security risks. The Department will work to fully develop and document a formal security plan.

3.3 Documentation of Security Controls. The Department does have an incident response plan in early draft form and a disaster recovery plan being reviewed for required updates. The Department is also working on a Password Policy and a Data Governance Policy. Additionally, the Department will fully document and regularly review the key security controls detailed in the recommendations.

Thank you for the opportunity to respond to your recommendations. Should you have any questions about these responses, please feel free to contact me or my staff.

Sincerely,

SARA PARKER PAULEY
DIRECTOR

c: Conservation Commission

NICOLE GALLOWAY, CPA
Missouri State Auditor

October 11, 2022

Honorable Mike Parson, Governor
and
Members of the General Assembly

The State Auditor's Office reviewed state agency compliance with Section 536.175, RSMo. We determined that the Department of Transportation, Department of Labor and Industrial Relations, Department of Mental Health, and Department of Natural Resources have met the requirements of Section 536.175, RSMo. These requirements include each agency reviewing its existing rules, completing and filing the periodic rule review report with the Joint Committee on Administrative Rules (JCAR), and ensuring the report is available on the agency's website.

Section 536.175, RSMo, requires a 5 year rolling review by all state agencies of their existing rules. Each agency must repeat this process every 5 years, and the second group of agencies began their second review process no later than July 1, 2021.

The JCAR publishes in the Missouri Register a notification of which rules are subject to review and the process for this review, including who the public may submit comments to at each agency. Each agency must prepare a report of the results of the agency's rule review with an attached appendix summarizing comments received and the agency's response. The agency must file the report and appendix electronically with the JCAR and the small business regulatory fairness board no later than June 30th after the JCAR publishes the notice. These reports also must be made available on the state agency's website.

Any rule not included in the agency review and report may become null and void. There is a process in place before nullification of a rule, including the ability of the agency to request an extension from the JCAR and a notice and opportunity for the agency to correct the delinquency.

On July 1, 2021, the JCAR published in the Missouri Register the notification of the agency rules (Title 7 to 10) subject to review and the process, as required by Section 536.175.2, RSMo. The following agencies began their rule review on July 1, 2021, and completed the review process by June 30, 2022:

Title 7 - Department of Transportation
Title 8 - Department of Labor and Industrial Relations
Title 9 - Department of Mental Health
Title 10 - Department of Natural Resources

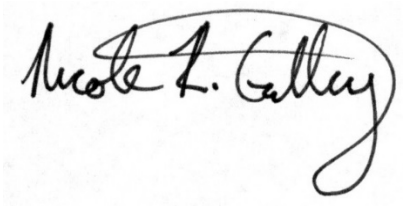
Based on a review of the JCAR's website, each agency timely completed and filed its periodic rule review report by June 30, 2022. These reports are available on that website. Each agency also posts its report on the agency's website.

P.O. Box 869 • Jefferson City, MO 65102 • (573) 751-4213 • FAX (573) 751-7984

On August 30, my office sent a letter to each agency to confirm the information from this review. Each agency provided a response. The table below provides a summary of the information determined from this review.

Department	Number of Rules Reviewed	Number of Comments Received	Rule Report Filed with JCAR	Rule Report Available on Agency Website
Department of Transportation	198	0	Yes	Yes
Department of Labor and Industrial Relations	176	0	Yes	Yes
Department of Mental Health	119	28	Yes	Yes
Department of Natural Resources	464	948	Yes	Yes

Based on this review, these agencies timely completed their rule review process and report as required under Section 536.175, RSMo; and, no further action is necessary.



Nicole R. Galloway, CPA
State Auditor

Missouri State Auditor

Dent County

Report No. 2022-088

October 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Dent County

Prosecuting Attorney's Administrative Fees	The Prosecuting Attorney's office does not assess or collect the statutorily-required fees from defendants who owe bad check or court-ordered restitution.
Sheriff's Unidentified Liabilities	The Sheriff's fee bank account had $2,956 of unidentified money at December 31, 2021. The Head Administrative Clerk indicated this unidentified balance has been in the fee bank account for multiple years, and office personnel have not disposed of it because they were unable to identify the related liabilities. After we discussed the state laws regarding unidentified money with them, Sheriff's office personnel turned over the balance to the County Treasurer.
Electronic Data Security	The County Assessor, Recorder of Deeds, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. The County Assessor, Recorder of Deeds, Sheriff, and Public Administrator do not have security controls in place to lock computers after a specified number of incorrect logon attempts. The Public Administrator does not store backup data at an off-site location.
Electronic Communications Policy	The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

and
Officeholders of Dent County

We have audited certain operations of Dent County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

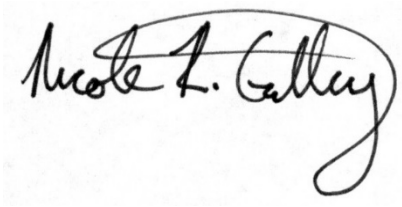
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Dent County.



Nicole R. Galloway, CPA
State Auditor

1. Prosecuting Attorney's Administrative Fees

The Prosecuting Attorney's office does not assess or collect the statutorily-required fees from defendants who owe bad check or court-ordered restitution. The office collected approximately $2,800 in bad check restitution and approximately $8,100 in court-ordered restitution during the year ended December 31, 2021.

The statutorily-required administrative handling fee was not assessed for any applicable cases handled during the year ended December 31, 2021. Beginning in January 2020, the Prosecuting Attorney established a new policy requiring restitution payments received by the office be made payable directly to the victims, and the office began forwarding the payments to the victims. At that time, the Prosecuting Attorney stopped assessing the administrative handling fees. The Prosecuting Attorney stated he no longer collects an administrative handling fee because he believes the state laws relating to bad check and court-ordered restitution, Sections 570.120 and 559.100, RSMo, are not mandatory under his new policy of solely forwarding restitution payments directly to the victim. Although the checks received for restitution are written in the name of the victim, the Prosecuting Attorney takes the actions of receiving the checks, entering the information into office's case management system, generating a receipt slip, and mailing the receipt slip along with the payment to the victim. The Prosecuting Attorney also monitors the remaining restitution balances due to the victims.

Section 570.120, RSMo, establishes the crime of passing bad checks. Section 570.120.5, RSMo, provides that in cases involving bad checks, ". . . each prosecuting attorney or circuit attorney who takes any action pursuant to the provisions of this section shall collect from the issuer in such action an administrative handling cost." With regard to court-ordered restitution, Section 559.100.3, RSMo, provides, ". . . each prosecuting attorney or circuit attorney who takes any action to collect restitution shall collect from the person paying restitution an administrative handling cost." These statutes do not include provisions for waiver of fees.

Recommendation

The Prosecuting Attorney assess and collect fees on all bad check and court-ordered restitution cases as required by state law.

Auditee's Response

The Prosecuting Attorney's written response is included in the Appendix.

Auditor's Comment

Although the Prosecuting Attorney may not place the restitution payments in a bank account, the Prosecuting Attorney takes action under Sections 559.100 and 570.120, RSMo, by receiving the restitution checks, entering the information into the office's case management system, generating a receipt slip, and mailing the receipt slip along with the payment to the victim. The Prosecuting Attorney provided audit staff with 221 case notes summarizing cases that cite Sections 559.100 and 570.120, RSMo. Only 6 of these cases were issued after August 28, 2013, which was when the new language

regarding the administration handling fee first took effect. None of these 6 cases interpreted or involved the requirement that prosecutors collect administrative handling fees. In addition, the statutes both require the collection of the administrative handling fee and the deposit of the fee by the county treasurer into an interest bearing fund. If money in the fund is not expended, Section 559.100.6, RSMo, provides that the unexpended balance shall remain in the fund to accumulate from year to year. While the Prosecuting Attorney has authority to determine whether to currently spend the money, the statutes provide for the fees to be placed and remain in an interest bearing fund so that the money may be spent in the future as necessary.

2. Sheriff's Unidentified Liabilities

The Sheriff's fee bank account had an unidentified balance as of the year ended December 31, 2021. The office collected receipts for civil paper service, board bills, concealed carry weapon permits, and other miscellaneous receipts totaling approximately $198,000 through the fee bank account during the year ended December 31, 2021.

The Sheriff's fee bank account had $2,956 of unidentified money at December 31, 2021. The Sheriff's office staff reconciles the bank balance to a list of liabilities on a monthly basis, and has documented unidentified balances. The Head Administrative Clerk indicated this unidentified balance has been in the fee bank account for multiple years, and office personnel have not disposed of it because they were unable to identify the related liabilities. After we discussed the state laws regarding unidentified money with them, Sheriff's office personnel turned over the balance to the County Treasurer.

Maintaining unidentified balances in the bank account increases the risk of loss, theft, or misuse of funds. Various statutory provisions address the disposal of unidentified money.

Recommendation

The Sheriff disburse unidentified money in accordance with state law.

Auditee's Response

We agree with the recommendation and have already turned over the balance to the County Treasurer. If we have this problem in the future, we will disburse the money in accordance with state law.

3. Electronic Data Security

Controls over county computers are not sufficient As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

3.1 Passwords

The County Assessor, Recorder of Deeds, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically. Additionally, the passwords used by employees in the offices of the County Assessor, Recorder of Deeds, Sheriff, and Public

Administrator are not required to have a minimum number of characters. Officials indicated they have not considered the necessity of a policy requiring these password controls.

In addition, user identifications and passwords for the computers in the Recorder of Deeds office are shared between employees. The Recorder of Deeds indicated she did not feel it was necessary for the part-time employee to have a separate user identification because the software used by the office tracks on which computer the transaction was completed. Employees are instructed to work on one computer to ensure the system can track which computer enters the transaction. However, the system cannot track which employee is using the computers.

Unique user identifications and passwords are necessary to authenticate access to computers and identify activity performed by each individual. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not periodically changed or contain a minimum number of characters in certain offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Also, allowing users to share accounts and passwords reduces individual accountability for system activity and unauthorized system access could occur. Passwords changed periodically, that contain a minimum number of characters and are not shared, reduce the risk of a compromised password and unauthorized access to and use of computers and data.

3.2 Security controls

The County Assessor, Recorder of Deeds, Sheriff, and Public Administrator do not have security controls in place to lock computers after a specified number of incorrect logon attempts. Officials indicated the computers in their offices have the capability to automatically lock after a number of incorrect logon attempts, but they have not required this because they were unaware it was necessary.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

3.3 Data backups

The Public Administrator does not store backup data at an off-site location. She stated she had not considered that both the computer and backup would be lost if her office was damaged or destroyed.

Failure to store computer backup data at a secure off-site location results in the backup data being susceptible to the same damage as the data on the

computer. Storing backup data off-site will help ensure it is available for recovery if necessary.

Similar conditions previously reported

Similar conditions to section 3.1 and 3.2 were noted in our prior audit report.

Recommendations

The County Commission work with other county officials to:

3.1 Require each employee to use a unique user identification and password with a minimum number of characters that is periodically changed.

3.2 Require county computers to have security controls in place to lock each computer after a specified number of incorrect logon attempts.

3.3 Ensure backup computer data is stored at a secure off-site location.

Auditee's Response

We will work with these officeholders to implement these recommendations.

4. Electronic Communications Policy

The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Clerk indicated the County has a limited, informal policy regarding electronic communications; however, the County Commission was unaware of the necessity of adopting a formal written policy.

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed August 9, 2022.

Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We will work with the Missouri Association of Counties to implement this recommendation.

Dent County
Organization and Statistical Information

Dent County is a county-organized, third-class county. The county seat is Salem.

Dent County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 73 full-time employees and 10 part-time employees on December 31, 2021.

In addition, county operations include a Senate Bill 40 Board and Senior Citizens Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2022	2021
Darrell Skiles, Presiding Commissioner	$	32,827
Wes Mobray, Associate Commissioner		30,705
Gary Larson, Associate Commissioner		30,705
Cindy Ard, Recorder of Deeds		45,493
Angie Curley, County Clerk		45,493
Andrew M. Curley, Prosecuting Attorney		140,483
Bob Wells, Sheriff		53,736
Denita Williams, County Treasurer		45,493
Benjamin Pursifull, County Coroner		15,790
Sherida Cook, Public Administrator		45,493
Shannon VanKirk, County Collector (1), year ended February 28,	52,952	
Jamie L. Homeyer, County Assessor, year ended August 31,		44,616
Michelle Elwood, County Surveyor (2)		

(1) Includes $5,500 of commissions earned for collecting city property taxes.
(2) Compensation on a fee basis.

In Re: Audit of Dent County

This letter is in response to the auditor's critique of my office policy relating to RSMO 570.120 and 559.100. The issue involves my decision to not collect PA administration fees in connection with restitution/bad checks.

On the vast majority of bad check cases, the defendant is ultimately ordered to pay $118.50 in court cost and $300 in fines for county law enforcement restitution (clerf). The fines and clerf penalties account for tens of thousands of dollars for general revenue and clerf. The clerf sums are utilized by my office and other law enforcement agencies to cover costs related to the administration of criminal justice.

Based on the results of prior audits, I created a policy where my office receives from the defendant certified money orders made payable to the victim. The sums are not placed into any county bank account and are simply forwarded to the victim. The reason we are the middle-person is to avoid giving out the victim's contact info to the defendant and because the responsibility to record the restitution payments has inevitably fallen on prosecutor's across the state.

I do not believe RSMO 570.120 and 559.100 are mandatory for prosecutors to assess additional fees against defendants under the circumstances applicable to my policy.

570.120, section 5 indicates that a prosecuting attorney "who takes any action pursuant to the provision of this section shall…." My office has elected not to take any action pursuant to that section and therefore does not collect any referenced fees. Further, I reviewed the editor's notes from the legislature and it indicates that Subsection 5 is intended to cover the "check writing spree" cases. The legislative notes and history do not assert any requirement for prosecutors to collect the fees referenced in the entire statute. There are 221 Missouri cases that discuss this statute. I have reviewed every case and none stand for the proposition that a prosecutor must collect these additional fees. In fact, court costs, fines, clerf, crime victims compensation and the like are already being assessed, collected by the circuit clerk and distributed accordingly.

OFFICE OF THE PROSECUTING ATTORNEY

Dent County Judicial Building
Salem, Missouri 65560
(573)729-3406

Andrew M. Curley
Prosecuting Attorney

James Weber
Assistant Prosecuting Attorney

559.100 indicates that, "In addition to all other costs and fees allowed by law, each prosecuting attorney or circuit attorney who takes an action to collect restitution shall collect from the person paying restitution an administrative handling cost." It is important the legislature used the words "takes an action". My office has elected not to take any action to collect restitution and therefore does not collect any referenced fees. Restitution payments are made payable to the victim and are not escrowed by my office. We simply record the payment and forward it to the victim. There are 19 cases in Missouri that discuss this statute and none stand for the proposition that a prosecutor must collect these additional fees.

For both statutes, I have been unable to find any attorney general opinion that supports the auditor's interpretation of the 2 statutes.

Lets think about this from a logical/common sense standpoint. 570.120 and 559.100 fees, if collected, are to be placed into an administrative handling fund that can only be expended by the prosecuting attorney's office. If I collected these fees, then I am the only person that could spend or, most importantly, decline to spend any of the sums collected. Your interpretation of the statutes arrived at a contradictory conclusion that I must collect fees that I have the sole discretion to decline to spend. Why would the legislature require my office to assess and collect fees that I can thereafter decline to spend?

Lastly, after reviewing the draft audit report, it appeared there were no concerns with misappropriated funds nor office procedures that might lead to or encourage the same. My staff and I take great pride in conducting ourselves honestly and with integrity. We value the trust the public has bestowed on this office and will never act in a way that will jeopardize that trust. I appreciate your professionalism and efforts in conducting this audit. I fully appreciate that your job is not an easy one to perform. Your staff was considerate and courteous throughout the process and we appreciated the same.

If you have any questions or concerns, do not hesitate to contact me.

Sincerely,

Andrew M. Curley
Prosecuting Attorney

Putnam County

Report No. 2022-087

October 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Putnam County

County Assessor's Controls and Procedures	The County Assessor has not adequately segregated accounting duties and does not always perform documented supervisory reviews of the accounting and bank records, and the County Assessor's office did not always timely deposit receipts or timely disburse receipts to the County Collector-Treasurer.
Prosecuting Attorney's Disbursements	The Prosecuting Attorney's office does not always timely disburse bad check and court-ordered restitution payments to victims or fees received to the County Collector-Treasurer.
Electronic Communications Policy	The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Capital Assets	The county does not have procedures in place to identify capital asset purchases and dispositions throughout the year. In addition, county officials have not conducted annual physical inventories or provided inventory lists to the County Clerk as required.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 8

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Putnam County

We have audited certain operations of Putnam County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

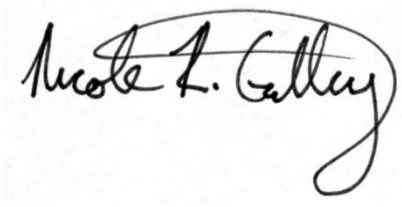
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Putnam County.



Nicole R. Galloway, CPA
State Auditor

1. County Assessor's Controls and Procedures

Controls and procedures in the County Assessor's office need improvement. The County Assessor's office processed receipts totaling approximately $11,400 for maps, plat books, on-line GIS data access, and other miscellaneous fees during the year ended December 31, 2021.

1.1 Segregation of duties

The County Assessor has not adequately segregated accounting duties and does not always perform documented supervisory reviews of the accounting and bank records. The Deputy Assessor performs the duties of receiving, recording, depositing, preparing and distributing checks, and reconciling the bank account. The County Assessor indicated she reviews the financial records monthly and signs the monthly "Sales by Item Detail" report, however, no signature or other evidence of supervisory review was noted on these reports for 3 months in 2021. The County Assessor indicated the lack of signature for those months was an unintentional oversight.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of receiving, recording, depositing, disbursing, and reconciling money. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records are essential to ensure bank records are in agreement with accounting records.

A similar condition was noted in our prior audit report.

1.2 Deposits and disbursements

The County Assessor's office did not always timely deposit receipts or timely disburse receipts to the County Collector-Treasurer.

Office personnel deposited and disbursed receipts more than one month following the month of receipt for 6 out of 12 months for the year ended December 31, 2021. For example, office personnel deposited receipts totaling $1,615 from September 2021 through December 2021 on February 3, 2022. These receipts along with $102 in receipts credited electronically to the office's bank account during that time frame were also disbursed on February 3, 2022. The County Assessor indicated deposits and disbursements are generally made monthly but office staffing shortages sometimes prevented the office from following that practice.

Failure to implement timely depositing and disbursing procedures increases the risk that loss, theft, or misuse of money received will go undetected. Additionally, Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay this money monthly to the County Collector-Treasurer, and Section 50.380, RSMo, provides that any county officer that fails to pay fees or other remuneration to the County Collector-Treasurer timely may be subject to penalties for such failure.

Recommendations

The County Assessor:

1.1 Segregate accounting duties or ensure independent or supervisory reviews of accounting and bank records are performed and documented.

1.2 Ensure receipts are deposited timely, and disburse receipts in accordance with state law.

Auditee's Response

1.1 Due to the small office staff size, accounting duties cannot be adequately segregated. To ensure checks and balances, I review the financial records and usually sign the "Sales by Item Detail" report to show evidence of my review. As part of that review, I reviewed all deposits and any lack of evidence of signature was an unintentional oversight. I will strive to continue to review all accounting and bank records and will ensure my review is documented.

1.2 The office staff includes a Deputy Assessor, Personal Property Data Clerk, and the County Assessor. During the timeframe mentioned the office lost an employee, an employee was sick for a period of time and a new employee was gained. During this time of year, the office is already busy during the tax season completing many other duties related to assessment. This lack of staffing left a significant burden on staff to complete all necessary functions of the office. Because of limited office staff and a delegation of duties, some deposits and disbursements were delayed due to other office tasks taking precedence. Going forward, we will give priority to making timely and monthly deposits and disbursements.

2. Prosecuting Attorney's Disbursements

The Prosecuting Attorney's office does not always timely disburse bad check and court-ordered restitution payments to victims or fees received to the County Collector-Treasurer. The office collected approximately $18,700 in bad check and court-ordered restitution and fees during the year ended December 31, 2021.

The office disbursed bad check and court-ordered restitution and fees to victims and the County Collector-Treasurer, respectively, on only 4 dates during the year ended December 31, 2021. For example, the office disbursed $5,636 for receipts received from August 13, 2021, through December 27, 2021, on December 27, 2021. The office's Secretary indicated she was new to the position in 2021 and could not prepare timely disbursements as she was learning her new duties.

Timely disbursement of bad check and restitution payments and fees is necessary to ensure victims are compensated, receipts are properly accounted for, and to reduce the risk of loss, theft, or misuse of funds. Additionally,

Section 50.370, RSMo, requires all county officials who receive fees or any other remuneration for official services to pay this money monthly to the County Collector-Treasurer, and Section 50.380, RSMo, provides that any county officer that fails to pay fees or other remuneration to the County Collector-Treasurer timely may be subject to penalties for such failure.

A similar condition was noted in our prior 3 audit reports.

Recommendation

The Prosecuting Attorney disburse victim restitution timely and transmit fees in accordance with state law.

Auditee's Response

Our office receives a very small number of restitution/bad check payments each month. From January 1, 2021, to December 31, 2021, we received a total of 7 bad check payments and 73 restitution payments. This is a small office with only one staff member and with all of the demands on her time, the disbursements were not made monthly, as the Auditor's finding points out. In addition, there was staff turnover mid-June 2021. Disbursements were made and the bank accounts were reconciled and balanced before the previous staff member left. After the new staff member was trained, disbursements and reconciliations started being done on a monthly basis and the accounts have balanced every time with no discrepancies. We will continue to make disbursements and reconcile the accounts on a monthly basis, regardless of the amount involved.

3. Electronic Communications Policy

The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Commission

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed July 18, 2022.

indicated it was unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We will review the Secretary of State's guidelines and work with other county officials to develop a policy to implement this recommendation.

4. Capital Assets

Procedures and records to account for county property are not adequate. The county does not have procedures in place to identify capital asset purchases and dispositions throughout the year. In addition, county officials have not conducted annual physical inventories or provided inventory lists to the County Clerk as required. As a result, the county's capital asset records are not complete and up to date. The County Clerk indicated the county intended to develop new procedures and records, but this has not been done due to other priorities.

Adequate capital asset records and procedures are necessary to ensure effective internal controls, meet statutory requirements, and provide a basis for determining proper insurance coverage. Procedures to track capital asset purchases and dispositions throughout the year and compare to physical inventory results would enhance the county's ability to account for capital assets and potentially identify unrecorded additions and dispositions, identify obsolete assets, and deter and detect theft of assets. Section 49.093, RSMo, provides that the officer or his/her designee of each county department is responsible for performing annual inspections and inventories of county property used by his/her department and for submitting an inventory report to the County Clerk.

A similar condition was noted in our prior 2 audit reports.

Recommendation

The County Commission and County Clerk work with other county officials to ensure complete and accurate inventory records are maintained, annual physical inventories are conducted, and procedures for tracking capital asset purchases and dispositions throughout the year are implemented.

Auditee's Response

We will review the statute and work with other county officials to develop policies and procedures to implement this recommendation.

Putnam County
Organization and Statistical Information

Putnam County is a township-organized, third-class county. The county seat is Unionville.

Putnam County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 12 full-time employees and 6 part-time employees on December 31, 2021. The townships maintain county roads.

In addition, county operations include the Senior Citizens' Services Board, the Putnam County Memorial Hospital, and a 911 Board. The Putnam County Memorial Hospital is audited separately, with the last audit report issued for the year ended June 30, 2021.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2022	2021
Robert Munden, Presiding Commissioner	$	27,760
Shane Bradshaw, Associate Commissioner		25,760
Gerald Owings, Associate Commissioner		25,760
Jeneen Roof, Recorder of Deeds		36,000
Christy Brooks, County Clerk (1)		25,333
Chrystal Perkins, County Clerk (1)		12,000
Thomas Keedy, Prosecuting Attorney		43,000
Jason Knight, Sheriff		42,000
Anna Fleshman, County Coroner		12,000
Ami Hartwig, Public Administrator		27,000
Jennifer Heidenwith, County Collector-Treasurer, year ended March 31,	38,166	
Chrissy Gillis, County Assessor, year ended August 31,		36,000

(1) Christy Brooks was appointed County Clerk upon the resignation of Chrystal Perkins on April 30, 2021.

Missouri State Auditor

Grundy County

Report No. 2022-086

October 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Grundy County

Sheriff's Controls and Procedures	The Sheriff's office does not conduct periodic physical inventories of seized property, has not established procedures to dispose of seized property held for long time periods, and did not maintain disposal forms for all disposed items. The Sheriff has not established procedures to routinely follow up on outstanding checks in the inmate bank account.
Ambulance Department's Controls and Procedures	The Ambulance Department Director has not adequately segregated accounting duties or performed supervisory reviews of accounting records. Accounts receivable are not adequately monitored and written procedures for the collection of past due amounts are not always followed. Additionally, procedures for when accounts receivable are considered uncollectable and should be written off have not been established.
Electronic Data Security	The County Assessor, County Collector-Treasurer, County Clerk, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically. Additionally, the passwords used by employees in the offices of the County Assessor and County Clerk are not required to have a minimum number of characters. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.
Electronic Communications Policy	The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 10

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Grundy County

We have audited certain operations of Grundy County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

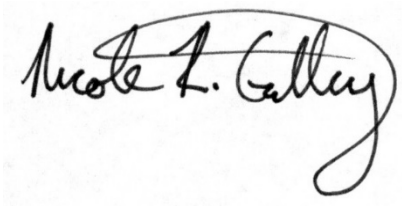
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Grundy County.



Nicole R. Galloway, CPA
State Auditor

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The Sheriff's office processed receipts for money collected from inmates, civil paper service, concealed carry weapon permits, bonds, and other miscellaneous receipts. The Sheriff's office deposited approximately $33,000 into the inmate bank account and approximately $95,000 into the Sheriff's fee bank account during the year ended December 31, 2021.

1.1 Seized property

The Sheriff's office does not conduct periodic physical inventories of seized property, has not established procedures to dispose of seized property held for long time periods, and did not maintain disposal forms for all disposed items.

A seized property log is used to track seized property. We haphazardly selected 5 items from the log to ensure they were in the seized property room and identified 1 item that could not initially be located because the case number was not on the item. Additionally, we haphazardly selected 5 items from the room to ensure they were on the log and identified 1 item not on the log correctly. The Sheriff indicated he does not find it necessary to perform periodic physical inventories as he is the only one with access to the seized property room.

The seized property room contained old seized property that could be disposed. According to the seized property log, several items had been held for years with 2 items dating back to cases from the 1980s. The Sheriff indicated he has not spoken with the Circuit Judge regarding the procedures for the disposal of old seized property items. For one of the items that was marked disposed on the log, it was determined the Sheriff did not retain the disposal form and the Sheriff did not have a reason for it not being retained.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Maintaining complete and accurate inventory control records, including forms for items that have been disposed, and performing periodic physical inventories with the results compared to inventory records is necessary to ensure seized property is accounted for properly. Section 542.301, RSMo, provides the requirements for the disposition of seized property that has not been forfeited or returned to the claimant.

A similar condition was noted in our prior audit report.

1.2 Outstanding checks

The Sheriff has not established procedures to routinely follow up on outstanding checks in the inmate bank account. As of December 31, 2021, 52 checks totaling $514 had been outstanding for multiple years with issue dates ranging from 2012 to 2017. The Administrative Assistant over the inmate bank account indicated no action was taken on these checks due to the cost of canceling each check.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of money in the account and ensure the checks are appropriately reissued to the payee or the money is disbursed as provided by state law. Section 447.532, RSMo, provides that any funds held by a political subdivision that remain unclaimed for more than 3 years should be turned over to the Missouri State Treasurer's Unclaimed Property Division.

Recommendations

The Sheriff:

1.1 Maintain a complete and accurate seized property log, ensure a periodic inventory is conducted and reconciled to the seized property log, and investigate any differences. The Sheriff should also make timely and appropriate dispositions of seized property, and retain disposal forms for all dispositions.

1.2 Establish procedures to routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the money should be disposed of in accordance with state law.

Auditee's Response

1.1 I agree with this audit recommendation and am working towards implementing periodic inventories and working with a property room officer to ensure items are labeled property. I will also make timely and appropriate dispositions of seized property, and retain disposal forms for all dispositions.

1.2 I agree with this audit recommendation and will investigate how to implement the recommendation.

2. Ambulance Department's Controls and Procedures

Controls and procedures in the Ambulance Department need improvement. Deposits totaling approximately $1 million were made to the ambulance bank account for ambulance service and other miscellaneous receipts during the year ended December 31, 2021.

2.1 Segregation of duties

The Ambulance Department Director has not adequately segregated accounting duties or performed supervisory reviews of accounting records. The Billing Director is primarily responsible for preparing billings for ambulance services, receipting and recording money received, and transmitting the money to the County Collector-Treasurer. The Billing Director also enters receivables into the collection agency's program and makes adjustments to accounts, including preparing requests for amounts owed to be written off. The Ambulance Department Director does not perform a supervisory review of the detailed accounting records to ensure billings are properly prepared, adjustments to accounts are valid, and all

money received is properly recorded and transmitted to the County Collector-Treasurer. The Ambulance Department Director did not document the review of the monthly financial reports, and did not review the accuracy and validity of the amounts included on write-off requests or approve the amounts prior to submission to the County Commission for approval. The current Ambulance Department Director said she did not perform these reviews because she was not aware this was necessary.

Proper segregation of duties is necessary to ensure all transactions are accounted for properly, adjustments to accounts are valid, and assets are adequately safeguarded. Internal controls would be improved by segregating the duties of billing, receipting, recording, and transmitting payments received. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting records, including a review of adjustments made, are essential.

2.2 Billing, collection, and write-off procedures

Accounts receivable are not adequately monitored and written procedures for the collection of past due amounts are not always followed. Additionally, procedures for when accounts receivable are considered uncollectable and should be written off have not been established. Written procedures indicate past due accounts receivable are to be turned over to a collection agency 7 months after initial patient billing if no payment agreement is in place. Accounts receivable totaled approximately $655,000 as of December 31, 2021.

There were 961 accounts receivable balances as of December 31, 2021, and 121 accounts receivable balances, totaling approximately $71,000, were written off during the year. We haphazardly selected 20 billings from the accounts receivable balances report as of December 31, 2021, and 5 billings from the list of write-offs approved during 2021 for review and noted the following:

- Procedures have not been established regarding when accounts receivable are to be written off. The Billing Director indicated amounts may be written off due to a lack of payment or by judgment that payment is not likely to be received.

- Accounts receivable are not adequately monitored. For 11 of the 20 accounts receivable and 3 of the 5 write-offs reviewed, we noted extended time periods, up to 7 years, with no activity or follow-up by the Ambulance Department. Of these 14 accounts, there had been no activity or follow-up for over a year for 9 of the active accounts receivable and all 3 of the write-offs. The Billing Director indicated she did not adequately follow-up on billings in prior years because she did not have time to do so.

- Procedures were not followed for turning past due amounts over to a collection agency on 10 billings. Of these 10 billings, 4 were sent to a collection agency before the payment grace period of 7 months had ended and 3 were sent to the collection agency up to 4 months after the grace period. The other 3 billings were never turned over to a collection agency, with 2 written off 7 years after the initial invoice date and the other one written off 1 year after the initial invoice date. The Billing Director indicated she may send accounts to the collection agency earlier than indicated in established procedures based on her judgment regarding the likelihood of receiving payments.

Proper and timely monitoring of accounts receivable is necessary to help ensure unpaid amounts are collected and proper follow-up action is taken for non-payment. Also, written procedures should be established and followed to ensure the consistency and propriety of the collection and write-off of accounts receivable.

Similar conditions previously reported

A similar condition to section 2.1 was noted in our prior audit report and a similar condition to 2.2 was noted in our prior 3 audit reports.

Recommendations

The Ambulance Department Director:

2.1 Segregate accounting duties or ensure adequate independent or supervisory reviews of detailed accounting records, including account adjustments, and transmittals, are performed and documented.

2.2 Ensure procedures to routinely monitor accounts receivable are followed and ensure proper follow-up action is taken on accounts with amounts due. In addition, establish procedures regarding when accounts are to be written off.

Auditee's Response

I understand and will take steps to fix the listed recommendations.

3. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

The County Assessor, County Collector-Treasurer, County Clerk, and Sheriff have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically. Officials indicated they were not aware policies requiring periodic password changes were necessary, as it is not required by county-wide policies, and passwords are set by the information technology (IT) provider for the county and do not change. Additionally, the passwords used by employees in the offices of the County

Assessor and County Clerk are not required to have a minimum number of characters. The IT provider for the county indicated the systems used by these offices do not have complexity rules in place, requiring a minimum number of characters for passwords. The County Assessor indicated he had not given much thought to the necessity of a policy requiring passwords to have a minimum number of characters. The County Clerk indicated with the numerous passwords used by the office, complicating the passwords with a minimum number of characters would make remembering the passwords difficult.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not periodically changed or contain a minimum number of characters in certain offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords changed periodically, that contain a minimum number of characters, reduce the risk of a compromised password and unauthorized access to and use of computers and data.

A similar condition was noted in our 2 prior audit reports.

Recommendation

The County Commission work with other county officials to require each employee to use a password with a minimum number of characters that is required to be periodically changed.

Auditee's Response

We agree and will continue to work with county officials to strengthen access to computers as necessary.

4. Electronic Communications Policy

The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed August 3, 2022.

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Clerk indicated she and the County Commission were unaware of the electronic communications record retention requirements and the electronic communications guidelines.

Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We will develop and implement the policy as stated in the recommendation.

Grundy County
Organization and Statistical Information

Grundy County is a township-organized, third-class county. The county seat is Trenton.

Grundy County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 52 full-time employees and 14 part-time employees on December 31, 2021. The townships maintain county roads.

In addition, county operations include the Ambulance Department, the Senate Bill 40 Board, and the Senior Citizens' Service Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2022	2021
Phillip Ray, Presiding Commissioner	$	28,968
Don Sager, Associate Commissioner		26,928
Brad Chumbley, Associate Commissioner		26,928
Becky Stanturf, Circuit Clerk and Ex Officio Recorder of Deeds (1)		
Betty Spickard, County Clerk		40,800
Kelly W. Puckett, Prosecuting Attorney		47,940
Rodney W. Herring, Sheriff		45,780
Dewayne Slater, County Coroner		12,240
Jill Eaton, Public Administrator (2)		7,787
Adria Moore, Public Administrator (2)		33,013
Barbara Harris, County Collector-Treasurer, year ended March 31,	41,004	
Kathy Veatch, County Assessor, year ended August 31,		40,533

(1) Compensation is paid by the state.

(2) Jill Eaton resigned as Public Administrator effective March 9, 2021. Adria Moore was appointed as temporary interim Public Administrator by the County Commission on March 9, 2021, and was appointed as Public Administrator by the Governor on April 26, 2021.

Missouri State Auditor

City of St. Louis

Department of Parks,
Recreation, and Forestry

Report No. 2022-085

September 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis - Department of Parks, Recreation, and Forestry

Payroll and Personnel Procedures	Department of Parks, Recreation, and Forestry (PRF) supervisors do not always perform a documented review of the payroll records. Additionally, the PRF did not retain adequate payroll documentation for several employees. Some employees did not obtain required ethics training and/or documentation was not retained to demonstrate attendance.
Capital Assets	PRF personnel have not performed a recent, documented physical inventory of capital assets. Additionally, the PRF has not established procedures to identify capital asset purchases and dispositions throughout the year and asset descriptions lack sufficient detail.
Permit Fees	Fees charged for permits do not always agree to the established fee schedule and amounts charged are not reviewed and approved.
Board of Parks and Recreation	The Board of Parks and Recreation is inactive, which is a violation of City Charter.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

4. Board of Parks and Recreation 8

Organization and Statistical Information 9

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Director of Department of Parks, Recreation, and Forestry
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Department of Parks, Recreation, and Forestry in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The City of St. Louis engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2021. To minimize duplication of effort, we reviewed the CPA firm's report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2021. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.

2. Evaluate the department's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

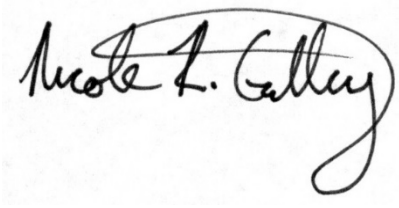
Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures . The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Department of Parks, Recreation, and Forestry.

Additional audits of various officials and departments of the City of St. Louis are in process, and any additional findings and recommendations will be included in subsequent reports.



Nicole R. Galloway, CPA
State Auditor

1. Payroll and Personnel Procedures

Department of Parks, Recreation, and Forestry (PRF) controls and procedures over payroll and personnel need improvement. Payroll expenditures were approximately $12.6 million for the fiscal year ended June 30, 2021.

1.1 Payroll

PRF supervisors do not always perform a documented review of the payroll records. Additionally, the PRF did not retain adequate payroll documentation for several employees.

At the end of the bi-weekly pay period, the daily time records are summarized onto an attendance record and both the daily records and the attendance records are reviewed and approved by the employee's supervisors (generally the immediate supervisor and either the section supervisor or division commissioner) prior to submission to the payroll specialist for processing.

We tested one pay period for 25 employees to determine if the various time records agreed, a documented supervisory review was performed, leave requests were completed and approved, internal leave balances agreed to the City of St. Louis Comptroller's records, and the compensatory time or overtime awarded was calculated correctly.

PRF personnel could not locate the daily attendance record for 3 of the 25 employees tested. These 3 employees were awarded compensatory time and overtime totaling 67.5 hours during the pay period. Without the daily time records to support the time awarded, there is no assurance all of the hours were actually earned. In addition, PRF personnel did not perform a documented supervisory review of the various payroll records for 3 other employees.

City Department of Personnel (DOP) Administrative Regulation No. 134[1] states, "attendance and pay records must be maintained for a minimum period of three years and until the Comptroller's audit for the period covered has been completed." Without accurate and approved payroll records and documented supervisory reviews, the PRF cannot ensure hours worked and compensatory time earned is appropriate and documented.

PRF Management indicated errors occurred due to lack of monitoring and oversight.

1.2 Code of conduct and ethics training

Some PRF employees did not obtain required ethics training and/or documentation was not retained to demonstrate attendance. We reviewed 25 employee files to determine if the employee received ethics training within

[1] Department of Personnel Administrative Regulation No. 134 was amended August 23, 2021, to change the retention requirement from 3 to 5 years.

the required timeframe and if the employee signed the code of conduct acknowledgement. We determined 23 of the 25 employees (92 percent) did not have the ethics training documented in their personnel files and 1 of the remaining 2 employees did not receive the ethics training within the required timeframe. In addition, a signed Code of Conduct Acknowledgement was not present in 1 employee's personnel file. PRF personnel indicated errors occurred due to a lack of oversight.

DOP Administrative Regulation No. 108 (Employee Training) Section II, requires ethics training be attended by all employees within 6 months of an employee's initial date of employment, and thereafter, once every 3 calendar years. In addition, the City of St. Louis Employee Code of Conduct states all appointing authorities are required to issue a copy of the Code of Conduct to every employee under their authority. Issuance of the Code must be documented by having the employee and issuing supervisor or payroll clerk sign the "Acknowledgement" form issued by the DOP. The original form must be filed with the DOP within 5 working days of issuance.

Without timely ethics training, employees are not aware of relevant ethics and compliance issues and/or requirements in the city. Being ethically aware helps to maintain a positive ethical culture and upholds a strong public image.

Recommendations

The PRF ensure:

1.1 Payroll records are retained and supervisors perform a documented review of the records.

1.2 Employees attend ethics training and sign the code of conduct acknowledgement as required by Department of Personnel policy.

Auditee's Response

Our department agrees with the findings and will implement the following:

1.1 Our department table of organization has three Payroll Specialists who are responsible for all payroll-related functions. They function independently by division but they occasionally interface. The applicable supervisors of these individuals/positions will perform reviews of the applicable records and subsequently document the information. The Director will be apprised of any concerns.

1.2 Ethics training and signed Code of Conduct forms are mandatory. Our Commissioners and section heads will review all staff member files to ensure any needed Ethics training is addressed by scheduling the same with the Department of Personnel. In addition, all divisions will have a standard template form to ensure all staff members have all of the necessary city employee-related forms signed, dated, and in their respective files.

2. Capital Assets

PRF personnel have not performed a recent, documented physical inventory of capital assets. Additionally, the PRF has not established procedures to identify capital asset purchases and dispositions throughout the year and asset descriptions lack sufficient detail. PRF records indicate the department maintained approximately $249.5 million in capital assets as of June 30, 2021.

The listing of the PRF's assets is not up-to-date and PRF personnel could not determine when office personnel performed the last complete physical inventory. Additionally, details/descriptions for fixed assets recorded in the Fixed Asset Management System (FAMS) are vague making it difficult to trace/verify the asset associated with the item in the list.

We tested 20 assets selected from the FAMS to ensure the asset existed and the description on the FAMS was accurate. PRF personnel could not locate 5 of the 20 assets tested (25 percent). PRF personnel indicated one of the items was disposed of over 15 years ago and should have been removed from the FAMS and they could not determine the status of the remaining 4 assets. In addition, several asset descriptions in the FAMS did not include sufficient detail to determine the asset location. The PRF director indicated these issues occurred due to a lack of oversight/monitoring and the department was aware of these issues.

The Comptroller's office reported similar issues in an internal audit report issued in January 2019.[2]

The city's FAMS policies and procedures manual requires each department to conduct an annual physical inventory of all departmental property, reconcile the inventory to the capital asset listing provided by the Comptroller's office, and notify the Comptroller's office of capital asset additions, dispositions, transfers, and adjustments or corrections necessary to ensure city records are accurate and complete.

Compliance with the FAMS policies and procedures manual is necessary to provide controls over city property; safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage.

Recommendation

The PRF ensure complete, detailed, and accurate inventory records are maintained and annual documented physical inventories are conducted. In addition, establish procedures for tracking capital asset purchases and dispositions throughout the year.

[2] See City of St. Louis - Comptroller's office audit report at <https://www.stlouis-mo.gov/government/departments/comptroller/documents/audits/fixed-asset-review-parks-recreation-forestry-director-office.cfm>, accessed August 12, 2022.

Auditee's Response

Our department agrees with the finding and will implement the following:

All Commissioners and section heads will assign a FAMS (Fixed Asset Management System) Coordinator role to one staff member if that delegation is not in place already. This individual will be responsible for conducting an annual physical inventory report on all assets within that particular division. In addition, one standard list of capital assets procedures will be implemented for our department to ensure we have a complete, detailed, and accurate listing of all capital assets throughout the year. This process involves direct communication with the Comptroller's office on additions and deletions of capital assets.

3. Permit Fees

Fees charged by the PRF for permits do not always agree to the established fee schedule and amounts charged are not reviewed and approved. Permit fee receipts totaled $545,139 during the year ended June 30, 2021.

To rent a park venue, citizens apply for a permit and pay the required fees. If a citizen wishes to change the rental venue, Parks personnel will cancel the active permit, refund the amount paid, and process the new rental permit application and payment. In addition, individuals requesting special rental fees must complete a waiver form. There is no review or approval for initial permits issued, changes to existing permits, or fee waivers to ensure completeness and accuracy.

We tested 10 billings to determine if charges were calculated correctly. We noted the fee billed did not agree with the fee schedule for 2 of the 10 billings (20 percent) tested. Park personnel indicated 1 of the 2 errors was because the venue changed but the fee was not changed accordingly. The second instance occurred when an organization approached the Parks Director and asked for a reduced rental fee because the permit would be for a recurring event. There was no written documentation or approval to support the reduced fee. The PRF Director indicated this was caused by a breakdown in oversight and follow up.

By strengthening controls related to billings, the PRF can ensure all customers receive equitable treatment, fees charged are appropriate, and errors are reduced.

Recommendation

The PRF establish procedures to perform a documented review of initial permits issued, changes to existing permits, and special fees.

Auditee's Response

Our department agrees with the finding and will implement the following:

The current permit fee process will be reviewed to ensure we have consistent procedures in place and we will conduct documented reviews of all associated permits, possible permit changes, and special fees.

4. Board of Parks and Recreation

The Board of Parks and Recreation is inactive, which is a violation of City Charter. City Charter, Article XIII, Section 14-B, establishes a 6-member board of parks and recreation, with members appointed by the Mayor to advise the PRF Director on matters relating to parks and recreation. In addition, the board is to hear complaints of individuals and groups concerning the use of the parks and recreational facilitates, with recommendations to be made to the Director.

The PRF Director indicated the Board of Parks and Recreation has been inactive since approximately 1981. Letting the Board of Parks and Recreation become inactive, is a violation of the City Charter. The board could be used as a resource for the director to seek advice and recommendations on issues concerning the department and would be a way individuals and groups could voice concerns about the parks and recreation facilities.

Similar conditions previously reported

A similar condition was noted in our prior audit report. In the *Follow-Up Report on Audit Findings City of St. Louis - Department of Parks, Recreation, and Forestry*, Report No. 2018-080, released in September 2018, department officials indicated the previous recommendation had not been implemented.

Recommendation

The PRF work with the Mayor's office to reestablish the Board of Parks and Recreation or, if the Board is no longer necessary, determine if a change to the City Charter is necessary.

Auditee's Response

Our department agrees with the finding and will implement the following:

Our department will work with the Mayor's Office to reestablish the 6-member board which is listed in the City Charter. If the board is deemed unnecessary then a change to City Charter will be pursued to ensure action is taken to rectify this prior audit finding.

City of St. Louis - Department of Parks, Recreation, and Forestry Organization and Statistical Information

The City of St. Louis Department of Parks, Recreation, and Forestry (PRF) was created by a Charter Amendment in 1958. The department consists of the Director's Office and the divisions of Parks, Recreation, and Forestry. The department operates under the direction of the Director, Greg Hayes. The department, when fully staffed, has approximately 320 employees in the following divisions:

Director's Office

The Office of the Director of PRF is responsible for the supervision and coordination of all activities in the department. The office works to coordinate efforts of community groups to maximize their positive impact on city parks, activities, and programs. The department has oversight for the purchasing and accounts payable and receivable for the three divisions. In addition, the Director's Office oversees the Soulard Market and Operation Brightside (a partnership of residents, businesses, organizations, and city government to clean and green the city).

Parks Division

The Parks Division's mission is to provide safe, accessible, attractive, open space and to offer a variety of recreational opportunities. The Administration program is responsible for the management and operation of the Parks Division. The program's responsibilities including preparing the Parks Division budget, establishing goals and objectives, responding to citizen inquiries, and monitoring expenditures. The division's mission is achieved via the Horticulture, Permits, Park Maintenance, Facility Services, and Neighborhood Parks Fund Programs. Areas included in the division's care include the 108 city parks, including Forest Park and Tower Grove Park, and overseeing all use permits issued by the department for athletic fields, picnics, vending and concession, and for major functions, such as weddings at the Jewel Box.

Recreation Division

The Recreation Division's mission is to utilize recreation centers by offering a wide variety of programs that reflect the needs and desires of the community, while providing a safe environment for youth during non-school hours. The Recreation Division partners with many individuals, groups, and agencies to host additional programming in 7 recreation centers. The year-round recreation centers offer a wide variety of leisure activities to the city including supervised sports and recreational activities. The Summer Day Camps programs receive Community Development Block Grant funds to operate 7 campsites to provide structured programs to youth during summer vacations. The Recreation Division also is responsible for maintaining the city's 3 outdoor and 4 indoor pools and organizing activities and programs for city residents. The Boxing and Recreation Leaders are also overseen by the Recreation Division. Finally, the Administration Program provides healthy and holistic projects, programs, and services for youth, senior citizens, and families.

Forestry Division

The Forestry Division's mission is to enhance public safety and appearance of the urban forest by responding to service requests and managing the systematic tree maintenance plan. The Division works to beautify neighborhoods and provide a safe environment by maintaining public and private properties on a schedule or as-requested basis. This is achieved through the Tree Maintenance, Debris and Weed Control, and District Debris Removal Programs. The Administration Program responds to and handles all citizens' service bureau requests, documents account balances, and responds to all applicable citizen inquiries.

Nodaway County

Report No. 2022-084

September 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Nodaway County

Sheriff's Controls and Procedures	The Sheriff's office does not always correctly record the method of payment on receipt slips issued for the fee account and receipts are not always deposited intact. Sheriff's office personnel do not prepare a monthly list of liabilities for the commissary account. The Sheriff does not disburse all commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law. The Sheriff's office does not charge or collect sales tax on e-cigarettes sold to inmates; and sales taxes charged and collected for commissary items sold through the commissary vendor are not remitted to the state Department of Revenue. The Sheriff's office has not established procedures to follow up on outstanding checks. The Sheriff has also not entered into written agreements with the surrounding counties or cities for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, or any required notification for emergency or non-routine situations.
Sheriff's Electronic Data Security	The Sheriff has not established adequate password controls to reduce the risk of unauthorized access to computers and data. Sheriff's office personnel are not required to change their password periodically to help ensure it remains known only to them. The Sheriff does not have security controls in place to lock computers after a certain period of inactivity.
Public Administrator's Annual Settlements	The Public Administrator does not always file annual settlements and/or status reports timely.
Electronic Communication Policy	The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Good**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 10

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Nodaway County

We have audited certain operations of Nodaway County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

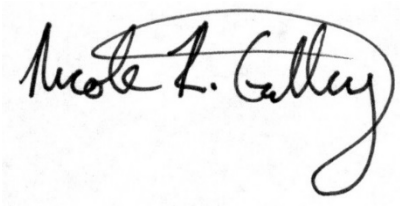
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard, random, and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal control, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Nodaway County.



Nicole R. Galloway, CPA
State Auditor

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office collected approximately $100,000 for civil fees, concealed carry weapon permits, bonds, commissary sales, and other miscellaneous receipts during the year ended December 31, 2021.

1.1 Receipting, recording, and depositing

The Sheriff's office does not always correctly record the method of payment on receipt slips issued for the fee account and receipts are not always deposited intact. We reviewed March 2021 deposits and found the method of payment was not recorded on one receipt slip and the method of payment was not recorded correctly on another. Also, the $630 receipt with no method of payment on the receipt slip was withheld from the March 19, 2021 deposit, but the next sequential receipt was included. The dates recorded on these two receipt slips were altered on the carbon copies which makes it appear they were received in reverse order. The $630 receipt was deposited a week later, and according to bank records, was a cash receipt. The clerk responsible for these types of receipts indicated the issues were caused by clerical errors. While the clerk indicated another clerk compares total receipts to amounts deposited, this comparison is not documented and did not detect this issue.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

1.2 Liabilities

Sheriff's office personnel do not prepare a monthly list of liabilities for the commissary account. Consequently, liabilities are not agreed to the reconciled bank balances. The clerk responsible for this account indicated she was unaware this procedure needed to be performed.

The reconciled bank balance for the commissary account was $41,450 as of December 31, 2021, which consisted of inmate account balances, undistributed sales tax, undistributed inmate donations, and undistributed commissary net proceeds. We requested office personnel prepare a list of liabilities for the account as of December 31, 2021, but they could not provide one.

Regular identification and comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities. Prompt follow up on discrepancies is necessary to resolve errors and ensure money is properly disbursed. Various statutory provisions provide for the disposition of unidentified money.

1.3 Inmate Prisoner Detainee Security Fund

The Sheriff does not disburse all commissary net proceeds to the county Inmate Prisoner Detainee Security Fund as required by state law. Net proceeds from commissary sales are retained with inmate money in the commissary bank account. Any amount in the bank account exceeding the

inmate money and other liabilities is considered commissary net proceeds. The clerk stated she was unaware commissary net proceeds needed to be disbursed. In April 2022, after we informed the clerk that net proceeds needed to be disbursed; she disbursed $12,683 of net proceeds, to the County Collector-Treasurer for deposit to the Inmate Prisoner Detainee Security Fund. The clerk indicated this represented commissary net proceeds for the period January 1, 2017, to March 31, 2022.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expenses, and requires deposit of the remaining money (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Collector-Treasurer.

1.4 Sales tax

The Sheriff's office does not charge or collect sales tax on e-cigarettes sold to inmates; and sales taxes charged and collected for commissary items sold through the commissary vendor are not remitted to the state Department of Revenue (DOR). The clerk indicated the failure to collect sales tax on e-cigarettes was an oversight and that she thought the sales tax collected on commissary items was remitted to the DOR by the vendor. Since lists of liabilities are not maintained, the amount of sales tax on hand was unknown. The contract with the commissary vendor stipulates that sales tax will be charged on all transactions, but is the responsibility of the Sheriff's office to remit the collections to the DOR.

Pursuant to 12 Code of State Regulations 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax. Section 144.080, RSMo, requires sales tax collections be remitted to the DOR on a monthly, quarterly, or annual basis, depending on the amounts collected. Therefore, the Sheriff should be charging and collecting sales tax and remitting tax collections to the DOR.

1.5 Outstanding checks

The Sheriff's office has not established procedures to follow up on outstanding checks. As of December 31, 2021, 16 checks, totaling $935, had been outstanding for more than a year for the commissary account. The clerk indicated that they do not follow-up on outstanding checks because it can be difficult to contact former inmates.

Procedures to routinely follow up on outstanding checks are necessary to prevent the accumulation of money in the commissary account and to ensure the checks are appropriately reissued to the payee or the money is disbursed as otherwise provided by state law. Failure to resolve reconciling items, like outstanding checks, timely in the commissary account increases the risk that other errors or misstatements will not be detected and corrected timely.

1.6 Prisoner boarding

The Sheriff has not entered into written agreements with the surrounding counties or cities for the boarding of prisoners detailing the housing rate to be paid, the services to be provided, or any required notification for emergency or non-routine situations. The Sheriff's office collected approximately $25,000 for the boarding of prisoners during the year ended December 31, 2021. The Office Administrator indicated they do not regularly hold prisoners for the same counties, which makes it difficult to ensure a written agreement is in place for the various counties the prisoners may be from.

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written agreements, signed by the parties involved, typically specify the services to be rendered and the manner and amount of compensation to be paid and are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings.

Similar conditions previously reported

Similar conditions to sections 1.1, 1.2, and 1.4 were noted in our prior audit report. A similar condition to section 1.3 was noted in our prior 2 audit reports.

Recommendations

The Sheriff:

1.1 Ensure all receipts are deposited intact, receipt slips are not altered, the method of payment is indicated on all receipt slips, and an independent reconciliation of the composition of receipts to the composition of deposits is performed.

1.2 Prepare monthly lists of liabilities and reconcile the lists to the available cash balances. Any differences noted between accounting records should be promptly investigated and resolved. Any unidentified money should be disposed of in accordance with state law.

1.3 Ensure existing and future commissary net proceeds not necessary to meet cash flow needs or current operating expenses are disbursed to the County Collector-Treasurer for deposit in the Inmate Prisoner Detainee Security Fund.

1.4 Determine the amount of sales tax previously collected and remit any amounts owed to the DOR. In addition, establish procedures for charging and collecting sales tax on all items sold to inmates and ensure future sales tax collections are remitted to DOR.

1.5 Routinely investigate outstanding checks. Old outstanding checks should be voided and reissued to payees that can be readily located. If payees cannot be located, the money should be disposed of in accordance with state law.

1.6 Work with the County Commission to obtain written agreements with counties and cities for the boarding of prisoners.

Auditee's Response

1.1 I agree with the recommendation and plan to adopt procedures to ensure receipts are deposited intact, receipt slips are not altered, and the method of payment is recorded. I will also ensure an independent review of the composition of receipts to deposits is performed.

1.2 I will discuss with staff and require a listing of liabilities be prepared monthly and reconciled to the available cash balance in the commissary account.

1.3 I will ensure profits from the commissary are turned over to the County Collector - Treasurer annually.

1.4 The Department of Revenue has been contacted and we are in the process of determining the amount of sales tax to remit. Sales taxes will be collected on all applicable sales in the future and amounts collected will be remitted timely to the DOR.

1.5 My staff have reviewed old outstanding checks and remitted those where the payee could not be located to the state. Procedures will be adopted to routinely investigate checks remaining outstanding for a period of time.

1.6 I will talk with the County Commission about getting contracts in place with applicable entities for housing prisoners.

2. Sheriff's Electronic Data Security

Controls over the Sheriff's computers are not sufficient. As a result, the office's records are not adequately protected and are susceptible to unauthorized access or loss of data.

2.1 Passwords

The Sheriff has not established adequate password controls to reduce the risk of unauthorized access to computers and data. Sheriff's office personnel are not required to change their password periodically to help ensure it remains known only to them. The Sheriff indicated they are in a secure facility and the number of applications requiring passwords makes it difficult to continuously change passwords and retain that information. Instead, personnel write down passwords and keep them under their keyboards, which is also a security control issue.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not required to be periodically changed and secured, there is less assurance the office is effectively limiting access to computers and data files. Passwords should be unique, confidential, and changed periodically to

reduce the risk of a compromised password and unauthorized access to and use of computers and data.

2.2 Security controls

The Sheriff does not have security controls in place to lock computers after a certain period of inactivity. The Sheriff indicated they have a secure facility and he does not believe this control is necessary.

Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files.

Recommendations

The Sheriff:

2.1 Require passwords that are periodically changed and kept confidential, to prevent unauthorized access to county computers and data.

2.2 Require computers to have security controls in place to lock after a certain period of inactivity.

Auditee's Response

I will discuss these recommendations with the county Information Technology professional and determine what actions are necessary to implement these recommendations.

3. Public Administrator's Annual Settlements

The Public Administrator does not always file annual settlements and/or status reports timely. The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The Public Administrator's office was responsible for the financial activity of 73 wards and estates as of December 31, 2021.

During our review of 6 randomly selected cases and 2 judgmentally selected cases based on the estate value, we found the Public Administrator did not timely file the annual settlements for 2 of them. Settlements for these cases were filed 31 and 76 days after the due dates. For one of these cases, the annual settlement for the previous year was filed at the same time as the current year, making it almost 400 days late. The Public Administrator indicated the attorney preparing settlements had a conflict of interest on one of the cases and a different attorney was sought to prepare that settlement, which took longer than expected. The settlement on the other case was overlooked.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement and/or status report with the court for each ward or estate. Timely filing of annual settlements and/or status reports is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

Recommendation

The Public Administrator file annual settlements and/or status reports timely.

Auditee's Response

I agree and will make every effort to ensure settlements and status reports are filed timely.

4. Electronic Communication Policy

The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The Commission indicated it was unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We will talk with the other county officials about their usage of electronic communications and current retention procedures, review the applicable guidelines, and discuss this recommendation with our attorney.

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed June 9, 2022.

Nodaway County
Organization and Statistical Information

Nodaway County is a township-organized, third-class county. The county seat is Maryville.

Nodaway County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. The townships maintain county roads. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 49 full-time employees and 18 part-time employees on December 31, 2021.

In addition, county operations include Senate Bill 40 and Senior Citizen Services Boards.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2022	2021
Bill Walker, Presiding Commissioner	$	47,381
Chris Burns, Northern District Commissioner		44,672
Scott A. Walk, Southern District Commissioner		44,672
Lisa Nickerson, Recorder of Deeds		67,685
Melinda Patton, County Clerk		67,685
Caleb Phillips, Prosecuting Attorney		143,765
Randy Strong, Sheriff		76,229
Vince Shelby, County Coroner		22,833
Dee O'Riley, Public Administrator		52,687
Marilyn Jenkins, Treasurer and ex officio County Collector (1), year ended March 31,	88,626	
Rex Wallace, County Assessor, year ended August 31,		67,685

(1) Includes $20,941 of commissions earned for collecting city property taxes.

Financing Arrangements

The county entered into a lease purchase agreement in June 2008, and obtained a loan of $4,550,000 to build the Administrative Building. As of December 31, 2021, the amount outstanding was $1,980,115. The loan is scheduled to be paid in monthly installments of $29,652 over 240 months with an interest rate of 4.85 percent annually. The final payment is scheduled for June 1, 2028.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Board of Directors of Fire Protection
Districts in St. Louis County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our responsibilities of Section 321.690.3, RSMo, and 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audit reports of the fire protection districts in St. Louis County for audit periods ending December 31, 2021. The purpose of this review was to evaluate the districts' compliance with statutory audit requirements and SAO regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 23 fire protection districts in St. Louis County. Each district has a fiscal year end of December 31. All the districts, except for the Kinloch and Northeast Ambulance Fire Protection Districts, submitted audit reports for the year ended December 31, 2021. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. As noted in our prior report, No. 2021-048, *St. Louis County Fire Protection Districts,* issued in August 2021, the Kinloch and Maryland Heights Fire Protection Districts did not timely obtain the required independent audits for the year ended December 31, 2020. The SAO received the Kinloch audit report on September 29, 2021, and the Maryland Heights audit report on September 7, 2021, subsequent to that review. The Kinloch and Northeast Ambulance Fire Protection Districts did not timely obtain the required independent audits for the year ended December 31, 2021. However, the districts have engaged independent auditors to perform an audit for that period. Upon completion of the audits, the districts are expected to submit the reports to the SAO.

The SAO posts the individual audit reports to the office's website. A searchable link is available at https://auditor.mo.gov. A table summarizing our review of the submitted audit reports follows.

P.O. Box 869 • Jefferson City, MO 65102 • (573) 751-4213 • FAX (573) 751-7984

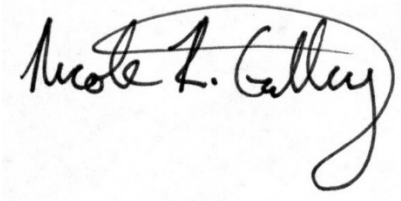
West Overland EMS	1 Year Ended 12/31/2021	Yes	No

[1] The district filed the audit report after the statutory deadline of 6 months after the close of the fiscal year end.

[2] Due to noncompliance in a previous period, the SAO reviewed the audit report for the year ended December 31, 2020, submitted September 29, 2021. The audit report had audit findings and was in compliance with Section 321.690.3, RSMo, except for being filed after the statutory deadline.

[3] Due to noncompliance in a previous period, the SAO reviewed the audit report for the year ended December 31, 2020, submitted September 7, 2021. The audit report did not have audit findings and was in compliance with Section 321.690.3, RSMo, except for being filed after the statutory deadline.

Except for the Kinloch and Northeast Ambulance Fire Protection Districts failing to obtain and submit an audit report, we identified no other concerns from our review of the audit reports submitted by the St. Louis County fire protection districts.



Nicole R. Galloway, CPA
State Auditor

September 2022
Report No. 2022-083

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Scott County, Missouri

The Office of the State Auditor contracted for an audit of Scott County's financial statements for the year ended December 31, 2021, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission
The County of Scott, Missouri

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the County of Scott ("County"), Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash Balances - All Governmental Funds-Regulatory Basis and the Statements of Assets and Liabilities Arising From Cash Transactions - Fiduciary Funds - Regulatory Basis as of December 31, 2021, and the related Statements of Receipts, Disbursements and Changes in Cash Balances - Budget and Actual - All Governmental Funds - Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2021, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the accompanying financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2021, or changes in net position and cash flows thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated August 17, 2022, on our consideration of the County of Scott's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Scott's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Scott, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1821 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: County Clerk, Collector, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Assessor, Coroner, Public Administrator and Prosecuting Attorney.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and human services.

The financial statements referred to above include only the primary government of Scott County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri Court System and considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds, and a Statement of Assets and Liabilities Arising from Cash Transactions – Fiduciary Funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Custodial funds are accounted for and reported similar to the governmental funds. Custodial funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the generally accepted basis of accounting, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget included estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations that were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1, and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2021, for purposes of taxation, was:

	2021
Real Estate	$ 303,879,110
Personal Property	175,614,667
Railroad and Utilities	53,463,736
	$ 532,957,513

During 2021, the County Commission approved a $.3501 tax levy per $100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2021
General Revenue Fund	$ .0000
Special Road and Bridge Fund	.2999
Johnson Grass Fund	.0100
Senate Bill 40 Fund	.0402
	$ .3501

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balances. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes depositing funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting. Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

II. DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash and investments are separately held by several of the County's funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2021, the carrying amounts of the County's deposits were $7,194,552.69, and the bank balances were $9,294,434.33. The total bank balances as of December 31, 2021, were insured through the Federal Deposit Insurance Corporation and securities set by the County's financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2021, as follows:

Included in the following fund financial statement captions:

Statements of Receipts, Disbursements and Changes in Cash – Governmental Funds:	
Deposits and cash equivalents	$ 7,194,552.69
Total Governmental Funds	7,194,552.69
Statement of Assets and Liabilities Arising From Cash Transactions – Fiduciary Funds:	
Deposits	10,067,673.07
Total Custodial Funds	10,067,673.07
Total Deposits as of December 31, 2021	$ 17,262,225.76

II. DEPOSITS AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2021.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's deposits were not exposed to concentration of investment credit risk for the year ended December 31, 2021.

III. LONG-TERM DEBT

LEASE PURCHASES:

On June 20, 2018, the County entered into a lease purchase agreement with Ford Motor Municipal Finance via a master lease purchase agreement with the Bancorp Bank for four Ford F150s and two Chevy Silverados. The lease requires five annual payments of $38,330.84 and matures in 2023.

On June 20, 2018, the County entered into a lease purchase agreement with Ford Motor Municipal Finance via a master lease purchase agreement with the Bancorp Bank for five Dodge Chargers. The lease requires three annual payments of $35,506.28 and matured in 2021.

In February 2019, the County added three Dodge Chargers to the master lease agreement with the Bancorp Bank. The vehicles will be paid for in three annual installments of $8,819.61, $9,546.10, and $10,708.49, respectively. Payments on these vehicles matured in 2021.

On April 16, 2021, the County entered into a lease purchase agreement with Ford Motor Municipal Finance via a master lease purchase agreement with the Bancorp Bank for four Ford F150s. The lease requires five annual payments of $36,068.55 and matures in 2025.

The following is a schedule of payments made under the agreement as of December 31, 2021.

Description	Balance 12/31/2020	Additions	Retirements	Balance 12/31/2021	Interest Paid
Ford-F150s	$ -	$ 163,226.60	$ 36,068.55	$127,158.05	$ -
Ford-F150s	70,078.76	-	33,985.96	36,092.80	4,344.88
2019 Dodge Charger	8,852.55	-	8,852.55	-	693.55
2019 Dodge Charger	8,171.54	-	8,171.54	-	648.07
2019 Dodge Charger	9,938.38	-	9,993.38	-	770.11
TOTAL	$ 97,041.23	$ 163,226.60	$ 97,016.98	$163,250.85	$6,456.61

2021 AMORTIZATIONS

Years Ending December 31,	Principal	Interest	Total
2022	$ 65,485.55	$ 8,913.84	$ 74,399.39
2023	30,935.87	5,132.68	36,068.55
2024	32,560.00	3,508.55	36,068.55
2025	34,269.43	1,799.12	36,068.55
Totals	$ 163,250.85	$ 19,354.19	$ 182,605.04

III. LONG-TERM DEBT (concluded)

PROMISSORY NOTE:

On September 6, 2018, the County entered into a promissory note with First State Bank and Trust Company, Inc. for $145,095. Original payment was due September 6, 2019. This note was extended to 2021. The note carries an interest rate of 4.75%.

The following is a schedule of payments made under the agreement as of December 31, 2021.

Description	Balance 12/31/2020	Additions	Retirements	Balance 12/31/2021	Interest Paid
Promissory Note	$ 100,000.00	$ -	$ 100,000.00	$ -	$ 1,534.26
TOTAL	$ 100,000.00	$ -	$ 100,000.00	$ -	$ 1,534.26

IV. INTERFUND TRANSFERS

Transfers between funds for the year ended December 31, 2021 are as follows:

	2021	
	Transfers In	Transfers Out
General Revenue Fund	$135,000.00	$3,073,358.78
Special Road and Bridge Fund	100,000.00	-
Assessment Fund	11,317.00	-
E-911 Communications Fund	333,859.92	-
Law Enforcement Fund	2,542,139.86	-
Landfill Fund	25,000.00	-
Reserve Fund	25,000.00	-
Inmate Security Fund	-	100,000.00
Collector's Maintenance Fund	-	35,000.00
TIF Allocation Fund	36,042.00	-
	$ 3,208,358.78	$3,208,358.78

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee or retiree participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service and who terminated employment after December 31, 1999, may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

B. Contributions (concluded)

If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions (other than those made by the County) are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. During 2021, the County collected and remitted to CERF, employee contributions of approximately $130,525.46 for the year then ended.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS)

Plan Description

The Scott County's defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. Scott County participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo. 70.600-70.755. As such, it is LAGERS responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by accessing the LAGERS website at www.molagers.org.

Benefits Provided

LAGERS provides retirement, death and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 (55 for police and fire) with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 (50 for police and fire) and receive a reduced allowance.

	2021 Valuation
Benefit Multiplier:	1.50%
Final Average Salary:	3 Years
Member Contributions:	0%

Benefit terms provide for annual post retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Employees Covered By Benefit Terms

At June 30, 2021, the following employees were covered by the benefit terms:

	General	Police
Inactive employees or beneficiaries currently receiving benefits	58	25
Inactive employees entitled to but not yet receiving benefits	72	41
Active employees	68	23
	198	89

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the employer do not contribute to the pension plan. Employer contribution rates are 6.1% (General) and 7.8% (Police) of annual covered payroll.

Net Pension Liability

The employer's net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of February 28, 2021.

Actuarial Assumptions

The total pension liability in the February 28, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75% wage inflation; 2.25% price inflation
Salary Increase	2.75% to 6.75% including wage inflation
Investment rate of return	7.00%, net of investment expenses

The healthy retiree mortality tables, for post-retirement mortality, were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables, for post-retirement mortality, were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees mortality table for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2021, valuation were based on the results of an actuarial experience study for the period March 1, 2010, through February 28, 2015.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Alpha	15.00%	3.76%
Equity	35.00%	4.78%
Fixed Income	31.00%	1.41%
Real Assets	36.00%	3.29%
Strategic Assets	8.00%	5.25%
Cash/Leverage	-25.00%	-0.29%

Discount Rate

The discount rate used to measure the total pension liability is 7.00%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (continued)

Changes in the Net Pension Liability

Schedule of Changes in Net Pension Liability and Related Ratios

	General Division	Police Division
A. Total Pension Liability		
1 Service Cost	$ 214,967	$ 87,100

Police Division:			
Total Pension Liability (TPL)	$ 5,067,089	$ 4,433,936	$ 3,917,489
Plan Fiduciary Net Position	5,875,371	5,875,371	5,875,371
Net Pension Liability / (Asset) (NPL)	$ (808,282)	$ (1,441,435)	$ (1,957,882)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2021, the employer recognized pension expense of $(347,041) for the general and $(240,795) for police. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

	General		Police	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	$ 112	$ (44,876)	$ -	$ (94,332)
Changes in assumptions	-	(172,371)	-	(41,694)
Net difference between projected and actual earnings on pension plan investments	-	(1,337,328)	-	(609,809)
Employer contributions subsequent to the measurement date	-	-	-	-
Total	$ 112	$ (1,554,575)	$ -	$ (745,835)

VI. LOCAL GOVERNMENT EMPLOYEES RETIREMENT SYSTEM (LAGERS) (concluded)

*The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction in the Net Pension Liability for the year ending June 30, 2021.

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Net Deferred Outflows of Resources - General	Net Deferred Outflows of Resources - Police
2022	$ (480,010)	$ (259,102)
2023	(379,085)	(165,128)
2024	(290,608)	(131,833)
2025	(404,760)	(189,772)
2026	-	-
Thereafter	-	-
Total	$ (1,554,463)	$ (745,835)

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $3,366 for the year ended December 31, 2021.

VIII. POST-EMPLOYMENT BENEFITS

The County does provide post-employment benefits except, as mandated, the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. There were zero participants on COBRA for the year ended December 31, 2021.

IX. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to four weeks of paid vacation based upon the number of years of continuous service. Employees receive one week of vacation after the first year of service, two weeks of vacation per year after two years of employment, three weeks of vacation per year after twelve years of employment, and four weeks of vacation per year after twenty years of employment. Vacation days do not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue four hours of sick leave per month for a total of six days for the year. The County allows employees to carry forward any and all unused sick leave up to 560 hours. However, upon termination, employees do not get reimbursed for sick leave. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

X. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is also a member of the Missouri Association of Counties Workers Compensation Self-Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

XI. SUBSEQUENT EVENTS

As of the date of the audit report, there are no subsequent events to report.

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Scott, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Scott ("County"), which comprise the Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds – Regulatory Basis and the Statements of Assets and Liabilities Arising from Cash Transactions – Custodial Funds – Regulatory Basis as of December 31, 2021, and the related Statements of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds – Regulatory Basis for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 17, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

MEMBERS OF
MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

August 17, 2022

To the Board of Commissioners
Scott County

In planning and performing our audit of the regulatory based financial statements of the County of Scott (County) as of and for the year ended December 31, 2021, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our comments concerning internal control and other significant matters are presented as follows:

I. Information Required by Professional Standards

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards, *Government Auditing Standards* and the Uniform Guidance

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 18, 2022. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during fiscal year 2021. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 17, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves

I. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Audrain County, Missouri

The Office of the State Auditor contracted for an audit of Audrain County's financial statements for the year ended December 31, 2021, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by McBride, Lock & Associates, LLC, Certified Public Accountants, is attached.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Audrain County, Missouri

Opinion

We have audited the accompanying financial statements of Audrain County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2021, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Audrain County, Missouri, as of December 31, 2021, and their respective cash receipts and disbursements, and budgetary results for the year then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Audrain County, Missouri, as of December 31, 2021, or the changes in financial position thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Audrain County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Audrain County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Other Matter

Audrain County, Missouri's December 31, 2020 financial statements were audited by a predecessor auditor who reported on the financial statements before restatement. As part of our audit of the December 31, 2021 financial statements, we also audited the adjustments described in Note 9 that were applied to restate the 2020 ending balances. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 2020 financial statements of the County other than with respect to the year-end balances, and, accordingly, we do not express an opinion or any other form of assurance on the 2020 financial statements as a whole.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law, as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an

opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Audrain County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Audrain County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 10, 2022, on our consideration of Audrain County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Audrain County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Audrain County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Audrain County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control. The County has a Developmental Disability Board which obtains separate audits, therefore, it has been excluded from the scope of our audit.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds: Law Enforcement Training, Sheriff Civil Fee, Prosecuting Attorney Administrative, Sheriff Revolving, and Inmate Security.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2021, for purposes of taxation were:

Real Estate	$ 228,192,490
Personal Property	96,339,063
Railroad and Utilities	90,464,790
Total	$ 414,996,343

The County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

General Revenue	$0.2258
Special Road and Bridge	0.3054
Common Road District	0.3500

The Common Road District levy was applied to an assessed valuation of $130,029,316 and is recognized in the Special Road and Bridge Fund.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2021, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents - Governmental Funds	$ 13,533,794	$ 13,818,349	$ 250,000
Cash and Cash Equivalents	$ 23,946,867	$ 19,246,150	$ 527,938
Investments	110,908	110,908	110,908
Total Fiduciary Funds	$ 24,057,775	$ 19,357,058	$ 638,846

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2021 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Audrain County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Audrain County do not contribute to the pension plan. The January 1st statutorily required contribution rates were 12% (General) and 9.3% (Police) of annual covered payroll for 2021. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2021, the County contributed $353,036 to LAGERS.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his

or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2021, the County collected and remitted to CERF employee withholdings and fees collected of $318,057 for the year then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $5,843 for the year ended December 31, 2021.

D. Other Retirement Plan

Audrain County has a voluntary 457(b) plan which is paid by a deduction from employee's salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2021 were $85,633.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with up to 48 hours of sick time each year, up to a maximum of 480 hours. Upon termination, employees will not be compensated for any unused sick time.

Vacation time is made available in whole on the employee's anniversary date. Vacation time is five days for employees with one year of service; ten days for employees with two to four years of service; 15 days for employees with five to nine years of service; and 20 days for employees with ten or more years of service. Employees may accrue up to a maximum of 200 hours of vacation time, of which only 40 hours may be carried over each calendar year. Upon termination, employees are compensated for any unused vacation time.

Full-time employees earn overtime or compensatory time credits based on department assignment. Overtime and Compensatory Time credits are earned at 1.5 times the regular hourly rate of the employee for work hours accumulated over 40 hours in a 160-hour period during seven consecutive 24-hour periods. Upon termination, employees are compensated for any compensatory time credits.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. CAPITAL LEASES

In June 2017, the County entered into a Certificates of Participation (COPS) agreement for a jail expansion project in the amount of $5,470,000. The debt is paid in semi-annual payments over 17 years, with a fixed interest rate of 2.6% for the first seven years and then two five-year adjustments floored at 2.6% and capped at 4.5%. The schedule of future payments assumes a 4.5% interest rate after the first seven years.

The following schedule shows changes in long-term debt during the year ended December 31, 2021:

Description	Balance 12/31/2020	Additions	Payments	Balance 12/31/2021	Interest Paid
COPS	$ 4,640,000	$ -	$290,000	$4,350,000	$118,755

The following schedule represents future payments under long-term debt obligations:

Fiscal Year Ending December 31,	Principal	Interest	Total
2022	$ 300,000	$ 111,150	$ 411,150
2023	305,000	103,320	408,320
2024	315,000	129,460	444,460
2025	320,000	150,750	470,750
2026	330,000	136,238	466,238
2027-2031	1,795,000	447,863	2,242,863
2032-2034	985,000	67,050	1,052,050
Totals	$ 4,350,000	$ 1,145,831	$ 5,495,831

8. OPERATING LEASES

At December 31, 2021, the County had the following operating leases:

A. The Prosecuting Attorney's office has a 60-month lease through October 2024 with a monthly payment of $241 for a copier.

B. The County Clerk's office has a 60-month lease through May 15, 2025 with a monthly payment of $193 for a postage machine.

Fiscal Year Ending December 31,	Amount
2022	$ 5,198
2023	5,198
2024	4,717
2025	963

9. RESTATEMENTS

The beginning balances of the Collector Accounts and Sheriff Account on the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis have been restated from the December 31, 2020 audited ending balances. The Collector Accounts have been increased by $3,095,656 and the Sheriff Account has been increased by $1,556.

10. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2021 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 10, 2022, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Audrain County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Audrain County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2021, and the related Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the year then ended, and the related notes to the financial statements, which collectively comprise Audrain County, Missouri's basic financial statements and have issued our report thereon dated August 10, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Audrain County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Audrain County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Audrain County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Audrain County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Audrain County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Audrain County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Audrain County, Missouri's major federal programs for the year ended December 31, 2021. Audrain County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Audrain County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Audrain County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Audrain County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Audrain County, Missouri's federal programs.

Auditor's Responsibilities for Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Audrain County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Audrain County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Audrain County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Audrain County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Audrain County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant

deficiencies over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

AUDRAIN COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED DECEMBER 31, 2021

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Audrain County, Missouri for the year ended December 31, 2021. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the year ended December 31, 2021.

NOTE D – LOAN TO BENEFICIARY

The expenditures of Assistance Listing 21.027 Coronavirus State and Local Fiscal Recovery Funds for include a $1,815,660 loan to a local hospital. Under the Promissory Note issued September 20, 2021, the principal and accrued interest are due and payable on September 15, 2022 and interest accrues at a fixed rate of 2.5%. The hospital may prepay the note at any time without penalty.

McBRIDE, LOCK & ASSOCIATES, LLC
CERTIFIED PUBLIC ACCOUNTANTS

August 10, 2022

To the County Commission
Audrain County, Missouri

We have audited the regulatory basis financial statements of Audrain County, Missouri for the year ended December 31, 2021. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 14, 2022. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Audrain County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2021. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The following material misstatements detected as a result of audit procedures were corrected by management:

- The beginning balance of the Collector Accounts on the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis has been increased by $3,095,656 from the ending balance per the December 31, 2020 audit report.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 10, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompany the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Audrain County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Andrew County

2021-001	The county implement internal controls to ensure that the Schedule of Expenditures of Federal Awards (SEFA) completely and accurately states the expenditures of federal awards of the county each year, such as performing a reconciliation between the SEFA and underlying accounting records.
Sheriff Commissary Internal Controls	The Sheriff's office implement additional controls over the commissary account such as additional reviews of deposits, bank statements, or bank reconciliations by the Sheriff or another designated employee.
Public Administrator Disbursements	Write checks in the name of the individual ward to reduce the risk of misappropriation of funds held in a fiduciary capacity. If checks must be written to "Cash" in particular circumstances, we recommend implementing additional procedures to document that the funds were received by the ward, such as having the ward sign a document indicating that they received the funds and maintain this document as support for the disbursement.

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Andrew County, Missouri

Opinion

We have audited the accompanying financial statements of Andrew County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2020 and 2021, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Andrew County, Missouri, as of December 31, 2020 and 2021, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Andrew County, Missouri, as of December 31, 2020 and 2021, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Andrew County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Andrew County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law, as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Andrew County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Andrew County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 15, 2022, on our consideration of Andrew County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Andrew County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Andrew County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff, and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Andrew County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk and all funds under their control.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. The financial statements of the Law Enforcement Fund reflect a negative budgeted ending balance for 2021, however, this was due to an audit adjustment effecting the ending fund balance for 2020. The County's 2021 budget did not reflect a negative ending balance for this Fund.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law. The County Commission did not approve formal budgets in 2020 or 2021 for the Hazardous Materials Emergency Preparedness

Fund. There was no activity in the Fund during the years ended December 31, 2020 and 2021.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the Inmate Security, COVID-19, Gore Road NID, and Senior Citizens Services Board Funds in 2020.

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and tax bills are mailed to taxpayers in October and November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2021 and 2020, for purposes of taxation were:

	2021	2020
Real Estate	$ 197,076,814	$ 190,962,251
Personal Property	75,093,356	64,452,210
Railroad and Utilities	37,481,800	36,916,508
Total	$ 309,651,970	$ 292,330,969

For calendar years 2021 and 2020, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2021	2020
General Revenue	$ 0.1841	$ 0.1818
Special Road & Bridge	0.4917	0.4917
Johnson Grass	0.0147	0.0147
Senate Bill 40 Board	0.0776	0.0776
Senior Citizens Services Board	0.0273	0.0273

In addition to the levies above, the County imposes special assessment taxes on residents of Neighborhood Improvement Districts (NIDs) located within the County. These taxes have been recorded as property tax revenues in the financial statements.

F. Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time

certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and investment balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Investments" caption. Investments consist of certificates of deposit with original maturities that are greater than ninety days.

The Aggregate Cemetery Fund holds cash deposits and investments allowed by the Cemetery Trust Agreement. The terms of the trust agreement authorize investments in United States Government securities and stocks currently traded on the New York Stock Exchange. A court opinion docketed in 2001 authorized the County Commission to buy, sell or trade stocks and bonds as long as the shares of original stock making up the corpus of the trust were maintained. The Aggregate Cemetery Fund stated at cost was $2,566,932, and the balance at market was $3,481,483 as of December 31, 2020. The Aggregate Cemetery Fund stated at cost was $2,793,712, and the balance at market was $3,822,916, as of December 31, 2021.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2021, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	$ 8,199,311	$ 5,642,195	$ 673,330
Investments	2,779,670	2,779,670	72,302
Total Governmental Funds	$ 10,978,981	$ 8,421,865	$ 745,632
Cash and Cash Equivalents - Fiduciary Funds	$ 4,536,094	$ 4,292,459	$ 486,356

At December 31, 2020, the County had the following cash and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents	$ 6,091,588	$ 3,756,499	$ 618,160
Investments	2,539,842	2,539,842	71,764
Total Governmental Funds	$ 8,631,430	$ 6,296,341	$ 689,924
Cash and Cash Equivalents - Fiduciary Funds	$ 4,638,207	$ 4,169,128	$ 454,997

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2021 and 2020 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for the Aggregate Cemetery funds invested in non-FDIC eligible trust accounts.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Andrew County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Andrew County do not contribute to the pension plan. The January 1st statutorily required contribution rates were 14.5% and 14.5% (General), and 10.8% and 10.9% (Police) of annual covered payroll for 2021 and 2020 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2021 and 2020, the County contributed $310,921 and $301,713 to LAGERS.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 24, 2002, is not required to make contributions. The County has elected not to make contributions on behalf of employees. During 2021 and 2020, the County collected and remitted to CERF employee withholdings and fees collected of $368,355 and $338,102, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $3,671 and $3,360, respectively, for the years ended December 31, 2021 and 2020.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides full-time employees with up to 60 days of sick time, to accrue at one day per complete calendar month of employment. Upon termination, employees will not be compensated for any unused sick time. Vacation time will accrue at a rate between one-half day to one and one-half days per month depending on length of employment. No more than two weeks of vacation time may be carried over into the next calendar year except employees with 10 or more years of service can carryover 3 weeks. Compensatory time will accrue at a rate of one and one-half times overtime hours worked based on federal wage and hour regulations, up to a maximum of 80 hours. Upon termination, employees will be paid for any unused vacation and compensatory time.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

C. Litigation

The County was involved in pending litigation as of the audit report date. The County's management and legal counsel anticipate that potential claims, if any, against the County resulting from such litigation would not have a material effect on the financial position of the County.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2021:

A. The Andrew County Public Benefit Corporation is obligated to USDA Rural Development Agency for $5,255,887 under two notes. The two notes were issued in 2012 for $5,200,000 and $700,000, bearing interest at 4% and 4.25%, and are scheduled to be repaid in 40 annual payments of $302,629 ending September 2051. The building of the judicial center is pledged as collateral for the two notes. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2022	$ 87,032	$ 215,597	$ 302,629
2023	90,602	212,027	302,629
2024	94,318	208,311	302,629
2025	98,187	204,442	302,629
2026	102,215	200,414	302,629
2027-2031	577,515	935,630	1,513,145
2032-2036	706,088	807,057	1,513,145
2037-2041	863,284	649,861	1,513,145
2042-2046	1,055,479	457,666	1,513,145
2047-2051	1,290,463	222,682	1,513,145
2052	290,704	11,925	302,629
Totals	$ 5,255,887	$ 4,125,612	$ 9,381,499

B. In 2017, the County Commission approved plans and awarded contracts for a jail expansion project, to be financed under a $553,500 loan to the Andrew County Public Benefit Corporation by the USDA Rural Development Agency. The note bears interest at 3.375% and is scheduled to be repaid in 40 annual payments of $25,423, ending January 2058. The schedule of remaining payments and interest is listed below:

Fiscal Year Ending December 31,	Principal	Interest	Total
2022	$ 7,442	$ 17,981	$ 25,423
2023	7,693	17,730	25,423
2024	7,953	17,470	25,423
2025	8,221	17,202	25,423
2026	8,499	16,924	25,423
2027-2031	46,997	80,118	127,115
2032-2036	55,485	71,630	127,115
2037-2041	65,505	61,610	127,115
2042-2046	77,335	49,780	127,115
2047-2051	91,301	35,814	127,115
2052-2056	107,789	19,326	127,115
2057-2058	48,382	2,464	50,846
Totals	$ 532,602	$ 408,049	$ 940,651

C. The final payment for the Gore Road Neighborhood Improvement District Bond, issued in September 2011 for $121,000, was made on February 19, 2020.

D. $70,000 outstanding for the Orchard Estates Neighborhood Improvement District Bond, issued in March 2013 for $110,000. The bond is scheduled to be paid in 20 annual payments with interest at 4%. The final payment is scheduled for 2033. Payments are made using tax monies collected for the NID in the prior year. The schedule of remaining payments and interest is listed below:

Payment Date	Principal	Interest	Total
4/1/2022	$ 5,000	$ 1,400	$ 6,400
10/1/2022	-	1,300	1,300
4/1/2023	5,000	1,300	6,300
10/1/2023	-	1,200	1,200
4/1/2024	5,000	1,200	6,200
10/1/2024	-	1,100	1,100
4/1/2025	5,000	1,100	6,100
10/1/2025	-	1,000	1,000
4/1/2026	5,000	1,000	6,000
10/1/2026	-	900	900
2027-2031	25,000	6,500	31,500
2032-2033	20,000	800	20,800
Totals	$ 70,000	$ 18,800	$ 88,800

E. $104,000 outstanding for the Eden Estates Neighborhood Improvement District Bond, issued in September 2016 for $132,200. The bond is scheduled to be paid in 20 annual payments with interest at 2.75%. The final payment is scheduled for 2036. Payments are made using tax monies collected for the NID in the prior year. The schedule of remaining payments and interest is listed below:

Payment Date	Principal	Interest	Total
3/1/2022	$ 5,700	$ 2,860	$ 8,560
3/1/2023	5,800	2,703	8,503
3/1/2024	6,000	2,544	8,544
3/1/2025	6,200	2,379	8,579
3/1/2026	6,300	2,208	8,508
2027-2031	34,500	8,333	42,833
2032-2036	39,500	3,313	42,813
Totals	$ 104,000	$ 24,340	$ 128,340

F. $132,900 outstanding for the County Road 162/1623 Neighborhood Improvement District Bond, issued in June 2018 for $152,000. The bond is scheduled to be paid in 20 annual payments with interest at 2.75%. The final payment is scheduled for 2038. Payments are made using tax monies collected for the NID in the prior year. The schedule of remaining payments and interest is listed below:

Payment Date	Principal	Interest	Total
3/1/2022	$ 6,200	$ 1,827	$ 8,027
9/1/2022	-	1,742	1,742
3/1/2023	6,400	1,742	8,142
9/1/2023	-	1,654	1,654
3/1/2024	6,600	1,654	8,254
9/1/2024	-	1,563	1,563
3/1/2025	6,800	1,563	8,363
9/1/2025	-	1,470	1,470
3/1/2026	7,000	1,470	8,470
9/1/2026	-	1,374	1,374
2027-2031	37,600	11,212	48,812
2032-2036	43,200	5,660	48,860
2037-2038	19,100	529	19,629
Totals	$ 132,900	$ 33,460	$ 166,360

G. In December 2015, the County entered into a $45,980, three-year capital lease for two 2014 Dodge Chargers for the Sheriff's Department. The final payment was made on February 27, 2020.

H. On August 2, 2017, the County entered into a $112,519, four-year capital lease to purchase three 2016 Dodge Chargers and a 2016 Ford Explorer for the Sheriff's Department. The final payment was made on June 28, 2021.

I. On April 23, 2021, the County entered into a $117,699, four-year capital lease with Clayton Holdings, LLC, to purchase three 2021 Ford F150 trucks. The contract is to be paid with four annual payments of $30,971, including interest of 2.08%, beginning April 23, 2022.

Fiscal Year Ending December 31,	Principal	Interest	Total
2022	$ 28,523	$ 2,448	$ 30,971
2023	29,115	1,856	30,971
2024	29,721	1,250	30,971
2025	30,340	631	30,971
Totals	$ 117,699	$ 6,185	$ 123,884

The following schedule shows changes in long-term debt during the year ended December 31, 2020:

Description	Balance 12/31/2019	Additions	Payments	Balance 12/31/2020	Interest Paid
2012 USDA Notes	$ 5,419,798	$ -	$ (80,308)	$ 5,339,490	$ 222,321

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Andrew County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Andrew County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2020 and 2021, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Andrew County, Missouri's basic financial statements and have issued our report thereon dated August 15, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Andrew County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Andrew County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Andrew County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a certain deficiency in internal control described in the accompanying schedule of findings and questioned costs as item 2021-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Andrew County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that is required to be reported under *Government Auditing Standards*.

Andrew County, Missouri's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on Andrew County, Missouri's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. Andrew County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Andrew County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Andrew County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Andrew County, Missouri's major federal programs for the years ended December 31, 2020 and 2021. Andrew County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Andrew County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2020 and 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Andrew County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Andrew County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Andrew County, Missouri's federal programs.

Auditor's Responsibilities for Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Andrew County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Andrew County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Andrew County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Andrew County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Andrew County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, as discussed below, we did identify a certain deficiency in internal control over compliance that we consider to be a significant deficiency.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance

requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2021-001 to be a significant deficiency.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on Andrew County, Missouri's response to the internal control over compliance findings identified in our compliance audit described in the accompanying schedule of findings and questioned costs. Andrew County, Missouri's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

ANDREW COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2020 AND 2021

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Andrew County, Missouri for the years ended December 31, 2021 and 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

NOTE C – SUBRECIPIENTS

The County did not pass any federal awards through to subrecipients during the years ended December 31, 2021 and 2020.

ANDREW COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2020 AND 2021

SECTION I – SUMMARY OF AUDITOR'S RESULTS

Financial Statements:

Type of Auditor's Report Issued: Unmodified

Internal Control Over Financial Reporting:

- Material weakness(es) identified? ___ Yes __X__ No

- Significant deficiencies identified that are not considered to be material weaknesses? __X__ Yes ____ None Reported

- Noncompliance material to financial statements noted? ___ Yes __X__ No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? ___ Yes __X__ No

- Significant deficiencies identified that are not considered to be material weaknesses? __X__ Yes ____ None Reported

Type of Auditor's Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516? ___ Yes __X__ No

Identification of Major Programs:

Assistance Listing Number(s)	Name of Federal Program or Cluster
21.019	COVID-19 – Coronavirus Relief Fund

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: $750,000

Auditee Qualified as low-risk: ___ Yes __X__ No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

See Finding 2021-001 below.

ITEMS OF NONCOMPLIANCE

None

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2021-001: Internal Control Over Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Agriculture, U.S. Department of the Treasury, Election Assistance Commission, U.S. Department of Health and Human Services, U.S. Department of Homeland Security

Pass-Through Grantor: Missouri State Treasurer's Office, Missouri Secretary of State, Missouri Department of Social Services, Missouri Department of Public Safety

Federal Assistance Listing Number: 10.923, 21.019, 21.027, 90.404, 93.569, 97.036

Program Title: Emergency Watershed Protection Program, Coronavirus Relief Fund, Coronavirus State and Local Fiscal Recovery Funds, 2020 HAVA Election Security Grants, Child Support Enforcement, Disaster Grants – Public Assistance (Presidentially Declared Disasters)

Pass-through Entity Identifying Number: 253, 2001MOCSES, DR-4451

Award Year: 2020 and 2021

Questioned Costs: None

Criteria: 2 CFR 200.510(b) requires auditees to prepare a Schedule of Expenditures of Federal Awards (SEFA) which must report total federal awards expended during the audit period. At a minimum, the schedule must include: expenditures by individual federal program, name of the pass-through entity and identifying number for awards not received directly from the federal government, and the total amount provided to subrecipients from each federal program. The County has not implemented proper internal controls to ensure the completeness and accuracy of the SEFA.

Condition: The SEFA reported by the County in the 2022 and 2021 annual budget documents contained errors in amounts of federal expenditures reported. Discrepancies in amounts reported on the 2021 SEFA and amount supported by underlying accounting records are summarized as follows:

Federal Agency	Assistance Listing Number	Program	Original SEFA	Supported	Difference
Treasury	21.019	Coronavirus Relief Fund	$ -	$ 43,014	$ (43,014)
Treasury	21.027	Coronavirus State and Local Fiscal Recovery Funds	1,720,174	45,677	1,674,497
HHS	93.569	Child Support Enforcement	36,074	99,094	(63,020)

Discrepancies in amounts reported on the 2020 SEFA and amount supported by underlying accounting records are summarized as follows:

Federal Agency	Assistance Listing Number	Program	Original SEFA	Supported	Difference
USDA	10.923	Emergency Watershed Protection Program	$ 138,812	$ 250,937	$ (112,125)
Treasury	21.019	Coronavirus Relief Fund	2,077,971	2,041,637	36,334
EAC	90.404	2020 HAVA Election Security Grants	27,125	26,966	159
HHS	93.569	Child Support Enforcement	100,507	95,743	4,764
DHS	97.036	Disaster Grants - Public Assistance	3,465	55,479	(52,014)

Cause: The County has not implemented a proper system of internal control over SEFA preparation, such as a reconciliation to underlying accounting records or having a separate individual review the SEFA for clerical accuracy after it has been prepared. Reasons for discrepancies in individual programs varied.

Effect: The SEFA presented for audit did not accurately reflect the County's actual expenditures of federal awards for both the years ended December 31, 2021 and 2020.

Recommendation: We recommend that the County implement internal controls to ensure that the SEFA completely and accurately states the expenditures of federal awards of the County each year, such as performing a reconciliation between the SEFA and underlying accounting records.

County's Response: I recognize my mistake of this finding and will report the correct information of expenditure amounts on the SEFA schedule in the future.

I have always reported the federal dollar amount that we receive during the prior budget year and now know this needs to be the amount of the County's expenditures of the federal dollars for the prior year.

Auditor's Evaluation: The response is appropriate to correct the concern.

MANAGEMENT'S RESPONSE TO AUDITOR'S FINDINGS:

- **Summary Schedule of Prior Audit Findings**
- **Corrective Action Plan**

ANDREW COUNTY, MISSOURI
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

In accordance with the Uniform Guidance, this section reports the follow-up on action taken by Andrew County, Missouri on the applicable findings in the prior audit report issued for the two years ended December 31, 2017 and 2016.

2017-001: Actual expenditures exceeded budgeted expenditures for one fund in 2017 and one fund in 2016. In addition, we noted discrepancies between fund balances reported on the County budget documents and the County's published financial statements for four funds in 2016 and six funds in 2017. There were also instances where the beginning fund balances on the budget documents did not agree to the ending cash balances from the previous year's budget. The 2018 budget misstated the beginning available cash balance of the Ford Farm Fund by $80,320, the amount of a certificate of deposit held by the County for the benefit of Ford Farm.

Status: Considered resolved. Our audit noted instances of actual expenditures exceeding budgeted expenditures for four funds in 2020, however, this was not considered to be an instance of material noncompliance.

Signature: Sarah E. Miller

McBRIDE, LOCK & ASSOCIATES, LLC
CERTIFIED PUBLIC ACCOUNTANTS

August 15, 2022

To the County Commission
Andrew County, Missouri

We have audited the regulatory basis financial statements of Andrew County, Missouri for the years ended December 31, 2021 and 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 14, 2022. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Andrew County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2020 and 2021. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 15, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2020 and 2021, we considered Andrew County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 15, 2022. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Sheriff Commissary Internal Controls

A proper system of internal controls requires segregation of duties to ensure adequate oversight and accountability for employees with accounting duties. During our audit, we noted that one individual has incompatible duties with respect to the commissary account. Cash payments are made at one of two kiosks

within the jail. One employee withdraws the cash from the kiosks and deposits the funds in the bank on a weekly basis. The deposit slips are attached to the kiosk system reports, however, the deposit slips and reports are not reviewed by the Sheriff or another designated employee. Additionally, the same employee that handles the cash and makes the deposit also prepares the bank reconciliation for the commissary account. We recommend that the Sheriff's office implement additional controls over the commissary account such as additional reviews of deposits, bank statements, or bank reconciliations by the Sheriff or another designated employee.

Public Administrator Disbursements

During our audit, we noted that 5 of the 40 disbursements selected for testing were made out to "Cash". These checks were to provide money to the wards for personal spending. However, there were no procedures in place to ensure that the funds were received by the ward as intended. We recommend that the Public Administrator write checks in the name of the individual ward to reduce the risk of misappropriation of funds held in a fiduciary capacity. If checks must be written to "Cash" in particular circumstances, we recommend implementing additional procedures to document that the funds were received by the ward, such as having the ward sign a document indicating that they received the funds and maintaining this document as support for the disbursement.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompany the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Andrew County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

INDEPENDENT AUDITOR'S REPORT

To the County Commission and
Officeholders of Adair County, Missouri

Opinion

We have audited the accompanying financial statements of Adair County, Missouri, which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2020 and 2021, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash balances of each fund of Adair County, Missouri, as of December 31, 2020 and 2021, and their respective cash receipts and disbursements, and budgetary results for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by Missouri Law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Adair County, Missouri, as of December 31, 2020 and 2021, or the changes in financial position thereof for the years then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Adair County, Missouri, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the financial statements are prepared by Adair County, Missouri on the basis of the financial reporting provisions prescribed or permitted by Missouri Law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri Law. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles prescribed or permitted by Missouri law, as described in Note 1. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Adair County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Adair County, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we also have issued our report dated August 2, 2022, on our consideration of Adair County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Adair County, Missouri's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

The accompanying Notes to the Financial Statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Adair County, Missouri ("County") is governed by a three-member board of commissioners. In addition to the three board members, there are ten elected Constitutional Officers: Assessor, Circuit Clerk, Collector, Coroner, County Clerk, Prosecuting Attorney, Public Administrator, Recorder, Sheriff and Treasurer.

As discussed further in Note 1, these financial statements are presented using accounting practices prescribed or permitted by Missouri Law, which differ from accounting principles generally accepted in the United States of America, which would include all relevant Government Accounting Standards Board (GASB) pronouncements. The differences include use of a prescribed definition of the reporting entity and the cash basis of accounting.

A. Reporting Entity

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include the primary government of Adair County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that are considered to comprise the County's legal entity under the regulatory basis of accounting. Financial data of other entities that may be considered to be component units of the County under generally accepted accounting principles is not included.

In accordance with the regulatory basis of accounting, the financial statements of the County do not include the activity of the Circuit Court, which is part of the Missouri court system and is considered to be a state function, including the operations of the Circuit Clerk (other than the portion that is funded by the General Revenue Fund) and all funds under their control. The County has a Developmental Disability Board which obtains separate audits, therefore, it has been excluded from the scope of our audit.

B. Basis of Presentation

Governmental Funds – Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, net assets, revenues/receipts and expenditures/disbursements. The County's funds are governmental funds. Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds.

Fiduciary Funds – Fiduciary funds consist of custodial funds. Custodial funds account for assets held by the County as an agent of individuals, private organizations, taxing units, other governments and/or funds. Budgets are not adopted for the County's custodial funds.

C. Basis of Accounting

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. This basis of accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

D. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50, RSMo, the County's policy is to adopt a budget for each governmental fund.

2. On or before January 15, each elected officer and department director will transmit to the County Commission and County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures, on the cash basis of accounting, for all budgeted funds. Budgeting of appropriations is based upon an estimated fund balance at the beginning of the year as well as estimated revenues to be received.

4. State law requires that, at the individual fund level, budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance.

5. A public hearing is conducted to obtain public comment on the budget. Prior to its approval by the County Commission, the budget document is available for public inspection, which usually takes place the third and fourth weeks of January.

6. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

7. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by a formal vote of the Commission. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. Adoption of a formal budget is required by law. However, the County did not adopt formal budgets for the HAVA and COVID-19 Relief Funds in 2020.

10. Section 50.740, RSMo prohibits expenditures in excess of the approved budgets. Actual expenditures exceeded budgeted amounts for the following funds:

	2021	2020
E-911 Reserve	N/A	✓
Capital Improvement Project	✓	N/A

E. Property taxes are based on the voter-approved tax levy applied to the real and personal assessed property values. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1 of the following year.

The assessed valuations of the tangible taxable property, included within the County's boundaries for the calendar year 2021 and 2020, for purposes of taxation were:

	2021	2020
Real Estate	$ 284,658,614	$ 221,007,821
Personal Property	82,319,843	75,565,429
Railroad and Utilities	48,710,573	46,819,315
Total	$ 415,689,030	$ 343,392,565

For calendar years 2021 and 2020, the County Commission approved a tax levy per $100 of assessed valuation of tangible taxable property as follows:

	2021	2020
General Revenue	$ 0.1230	$ 0.0944
Special Road and Bridge	0.2647	0.2755

F. Cash Deposits and Cash Equivalents

Deposits and cash equivalents are stated at cost, which approximates market. Cash balances for all the County Treasurer funds are pooled and invested to the extent possible. Interest earned from these balances is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, purchased at a price at or below par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash and cash equivalent balances are presented in Note 2.

G. Interfund Activity

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and

long-term financing. Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

2. CASH AND CASH EQUIVALENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Each fund's portion of this pool is displayed on the financial statements within the "Cash and Cash Equivalents" caption. Cash and cash equivalents include deposits and short-term investments with maturities that are less than ninety days.

Custodial Credit Risk - Deposits – Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2021, the County had the following cash and cash equivalent and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents - Governmental Funds	$ 8,400,189	$ 9,637,678	$ 250,000
Cash and Cash Equivalents	$ 15,570,993	$ 14,836,340	$ 1,913,794
Investments	1,743,330	1,743,330	-
Total Fiduciary Funds	$ 17,314,323	$ 16,579,670	$ 1,913,794

At December 31, 2020, the County had the following cash and cash equivalent and investment balances:

	Carrying Value	Bank Balance	FDIC Coverage
Cash and Cash Equivalents - Governmental Funds	$ 6,597,857	$ 7,509,423	$ 250,000
Cash and Cash Equivalents	$ 14,265,841	$ 12,896,011	$ 1,371,763
Investments	1,586,433	1,586,433	-
Total Fiduciary Funds	$ 15,852,274	$ 14,482,444	$ 1,371,763

The remainder of the balances not covered by FDIC deposit insurance at December 31, 2021 and 2020 were covered by collateral held at the Federal Reserve Bank and the County's safekeeping bank agent in the County's name or by a line of credit held by the County or by its agent in the County's name, except for $239,859 and $14,663 held by the Public Administrator for one ward in one bank in excess of $250,000. The Public Administrator also holds funds in certain investments that are not subject to FDIC coverage.

3. COUNTY EMPLOYEES' RETIREMENT PLANS

A. Missouri Local Government Employees Retirement System (LAGERS)

1) Plan Description

Adair County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by statute, Section 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401 (a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri 65102 or by calling 1-800-447-4334, or by the following website, www.molagers.org.

2) Pension Benefits

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police), and early retirement is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and amount of credited service time.

3) Funding Policy

Full-time employees of Adair County do not contribute to the pension plan. The January 1st statutorily required contribution rates were 15.1% and 14.9% (General), and 19.7% and 19.2% (Police) of annual covered payroll for 2021 and 2020 respectively. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the years ended December 31, 2021 and 2020, the County contributed $489,686 and $464,591 to LAGERS.

B. County Employees' Retirement Fund (CERF)

The County Employees' Retirement Fund was established by the State of Missouri to provide pension benefits for County officials and employees.

1) Plan Description

The Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elective or appointed officer or employee whose performance requires

the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840, RSMo, circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997, RSMo and certain personnel not defined as an employee per Section 50.1000(8), RSMo. The Fund was created by an act of the legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the Fund and the investment of the Fund are vested in a board of directors of eleven persons.

2) Pension Benefits

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the Fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, by calling 1-877-632-2373, or by the following website, www.mocerf.org.

3) Funding Policy

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to the CERF. Further, all participants hired on or after February 25, 2002 are required to contribute an additional 4% of their gross compensation to CERF, starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 25, 2002, is not required to make contributions. During 2021 and 2020, the County collected and remitted to CERF employee withholdings and fees collected of $279,963 and $277,283, respectively, for the years then ended.

C. Prosecuting Attorney Retirement Fund

In accordance with Section 56.807, RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $11,628 and $10,659, respectively, for the years ended December 31, 2021 and 2020.

4. POST EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

5. CLAIMS, COMMITMENT AND CONTINGENCIES

A. Compensated Absences

The County provides regular full-time 40 hour employees with vacation leave for each month of service from 40 hours to 160 hours per year depending on length of employment. Regular full-time 35 hour employees earn vacation leave of 35 to 140 hours per year depending upon length of service. Vacation hours can be accrued up to a maximum of 175 hours for 35 hour employees and 200 hours for 40 hour employees. Upon termination, employees are compensated for any unused vacation time. The County provides regular full-time employees with 48 (35 hour) or 60 (40 hour) hours of sick leave per year up to a maximum of 420 (35 hour) or 480 (40 hour) hours. Upon termination, employees are not compensated for any unused sick time.

B. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants, when performed, could result in the disallowance of certain costs. Accordingly, such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial and, therefore, no provision has been made in the accompanying financial statements for the potential refund of grant monies.

6. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member of the Missouri Association of Counties Self-Insured Workers' Compensation Trust. The County purchases workers' compensation insurance through this fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $2,000,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

7. LONG-TERM DEBT

The County had the following long-term debt outstanding as of December 31, 2021:

A. In June 2000, the County entered into a lease purchase agreement in the amount of $1,900,000 for a term of 20 years for the purpose of constructing a juvenile justice center. In June 2011,

the lease purchase agreement was amended to obtain a lower interest rate of 3.9%. The amended lease term was for nine years with an annual lease payment of $151,085. The final payment was made in June 2020.

B. In September 2021, the County entered into an $88,287 lease purchase agreement for the purpose of acquiring a track loader for the Road and Bridge department. The lease has an interest rate of 2.99% with two annual payments of $27,123 and a final payment in 2024 of $38,960.

Fiscal Year Ending December 31,	Principal	Interest	Total
2022	$ 24,446	$ 2,677	$ 27,123
2023	25,188	1,935	27,123
2024	38,653	307	38,960
Totals	$ 88,287	$ 4,919	$ 93,206

C. In October 2021, the County entered into an $8,000,000 lease purchase agreement for the purpose of making repairs and renovations to the County courthouse. The lease has an interest rate of 2.25% with a final payment due on September 1, 2032. The original lease called for semi-annual payments of $411,477 on March 1 and September 1 each year. The first addendum to the lease was entered in February 2022 which changed the semi-annual payments to $419,105 after an initial payment of $222,563 on March 1, 2022.

Fiscal Year Ending December 31,	Principal	Interest	Total
2022	$ 531,355	$ 110,313	$ 641,668
2023	673,936	164,275	838,211
2024	689,185	149,026	838,211
2025	704,779	133,432	838,211
2026	720,725	117,486	838,211
2027-2031	3,855,745	335,308	4,191,053
2032	824,275	13,936	838,211
Totals	$ 8,000,000	$ 1,023,776	$ 9,023,776

The following schedule shows changes in long-term debt during the year ended December 31, 2021:

Description	Balance 12/31/2020	Additions	Payments	Balance 12/31/2021	Interest Paid
Capital Improvement Project	$ -	$ 8,000,000	$ -	$ 8,000,000	$ -
Track Loader	-	88,287	-	88,287	-

The following schedule shows changes in long-term debt during the year ended December 31, 2020:

Description	Balance 12/31/2019	Additions	Payments	Balance 12/31/2020	Interest Paid
Juvenile Justice Center	$ 145,399	$ -	$ (145,399)	$ -	$ 5,686

8. OPERATING LEASES

At December 31, 2021, the County had three non-cancellable leases for temporary office space during the renovation of the courthouse. The County had a six month lease through March 1, 2022 with a monthly payment of $1,700 and an option to renew for another six months for office space for the Collector and Assessor. The County had a six month lease through March 1, 2022 with a monthly payment of $850 and an option to renew for another six months for office space for the Recorder. The County had a six month lease through April 15, 2022 with an option to renew for another six months for office space for the circuit court. This lease calls for monthly payments of $1,000 for the first six months, and payments of $1,450 for the second six months beginning April 15, 2022. The lease also calls for payments of $2,000 per month for utility expenses.

Fiscal Year Ending December 31,	Amount
2022	$ 50,100

9. CHANGE IN REPORTING ENTITY

The County has changed the definition of the reporting entity at January 1, 2020 to exclude the Deputy Supplemental Fund. The Deputy Supplement Fund is a pass-through fund used to collect and remit fees to the state and therefore will be excluded in the County's financial statements and reported with Fiduciary funds. This change had the effect of decreasing the County's cash balances at January 1, 2020 by $650.

10. SUBSEQUENT EVENTS

The County has evaluated events subsequent to December 31, 2021 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through August 2, 2022, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the County Commission and
Officeholders of Adair County, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Adair County, Missouri which comprise the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis and the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis as of December 31, 2020 and 2021, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis for the years then ended, and the related notes to the financial statements, which collectively comprise Adair County, Missouri's basic financial statements and have issued our report thereon dated August 2, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Adair County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Adair County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Adair County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Adair County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the County Commission and
Officeholders of Adair County, Missouri

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Adair County, Missouri's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of Adair County, Missouri's major federal programs for the years ended December 31, 2020 and 2021. Adair County, Missouri's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Adair County, Missouri complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2020 and 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Adair County, Missouri and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Adair County, Missouri's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Adair County, Missouri's federal programs.

Auditor's Responsibilities for Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Adair County, Missouri's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Adair County, Missouri's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Adair County, Missouri's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Adair County, Missouri's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Adair County, Missouri's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies over compliance. Given these limitations, during our audit we did not identify any

deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

ADAIR COUNTY, MISSOURI
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEARS ENDED DECEMBER 31, 2020 AND 2021

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (SEFA) includes the federal award activity of Adair County, Missouri for the years ended December 31, 2021 and 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), wherein certain types of expenditures are not allowed or are limited as to reimbursement. The County has elected not to use the 10 percent de minimus indirect cost rate as allowed under the Uniform Guidance.

ADAIR COUNTY, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2020 AND 2021

SECTION I – SUMMARY OF AUDITOR'S RESULTS

Financial Statements:

Type of Auditor's Report Issued: Unmodified

Internal Control Over Financial Reporting:

- Material weakness(es) identified? ___ Yes __X__ No

- Significant deficiencies identified that are not considered to be material weaknesses? ___Yes __X__ None Reported

- Noncompliance material to financial statements noted? ___Yes __X__ No

Federal Awards:

Internal Control Over Major Programs:

- Material weakness(es) identified? ___ Yes __X__ No

- Significant deficiencies identified that are not considered to be material weaknesses? ___Yes __X__ None Reported

Type of Auditor's Report Issued on Compliance For Major Programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance section 200.516? ___ Yes __X__ No

Identification of Major Programs:

Assistance Listing Number(s)	Name of Federal Program or Cluster
20.205	Highway Planning and Construction (Cluster)
21.019	COVID-19 - Coronavirus Relief Fund

Dollar Threshold Used to Distinguish Between Type A and Type B Programs: $750,000

Auditee Qualified as low-risk: ___ Yes __X__ No

SECTION II – FINANCIAL STATEMENTS FINDINGS

MATERIAL WEAKNESSES IN INTERNAL CONTROL

None

SIGNIFICANT INTERNAL CONTROL DEFICIENCIES

None noted

ITEMS OF NONCOMPLIANCE

McBRIDE, LOCK & ASSOCIATES, LLC
CERTIFIED PUBLIC ACCOUNTANTS

August 2, 2022

To the County Commission
Adair County, Missouri

We have audited the regulatory basis financial statements of Adair County, Missouri for the years ended December 31, 2021 and 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 14, 2022. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Adair County, Missouri are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2020 and 2021. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Since the County is reporting on the cash basis of accounting, there are no particularly sensitive estimates affecting the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements detected during the audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated August 2, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In planning and performing our audit of the Statement of Receipts, Disbursements and Changes in Cash – All Governmental Funds – Regulatory Basis, the Statement of Fiduciary Receipts, Disbursements and Changes in Cash – Regulatory Basis, and the related Comparative Statements of Receipts, Disbursements and Changes in Cash – Budget and Actual – Regulatory Basis – All Governmental Funds as of and for the years ended December 31, 2020 and 2021, we considered Adair County's internal control in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on internal control. We issued our report on our consideration of internal control over financial reporting dated August 2, 2022. However, during our audit we became aware of matters that are opportunities for strengthening internal controls.

Treasurer Stale Checks

The bank reconciliation of the Treasurer's main checking account for December 31, 2021 included several stale dated checks as outstanding going back as far as 2002. There were 257 checks totaling $45,683 listed as outstanding on the reconciliation that were written prior to the current audit period. State statutes require

that unclaimed property should be done annually and any unclaimed amounts greater than 5 years (3 years for checks written to government entities) should be turned over to the state unclaimed property. We recommend that the Treasurer resolve the stale dated checks, turn over any funds required to go to unclaimed property, and remove the items from the list of outstanding checks on the bank reconciliation.

Other Matters

We were engaged to report on the Schedule of Expenditures of Federal Awards, which accompany the financial statements but are not Required Supplementary Information. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles prescribed or permitted by Missouri law, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the information and use of the County Commission and management of Adair County, Missouri and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

(Original Signed by McBride, Lock & Associates, LLC)

McBride, Lock & Associates, LLC

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Board of Directors of Fire Protection
Districts in Greene County

Certain fire protection districts are required by Section 321.690, RSMo, to be audited and to submit their audit reports to the State Auditor's Office (SAO). To address our responsibilities of Section 321.690.3, RSMo, and 15 CSR 40-4.010 to 15 CSR 40-4.020, we have reviewed the independent audit reports of the fire protection districts in Greene County for audit periods ending December 31, 2021. The purpose of this review was to evaluate the districts' compliance with statutory audit requirements and SAO regulations. Because our review is limited to statutory and regulatory compliance, we do not express an opinion or any other form of assurance on the audit reports.

There are 11 fire protection districts in Greene County. Each district has a fiscal year end of December 31. All the districts, except for the Ash Grove Fire Protection District, submitted audit reports for the year or 2 years ended December 31, 2021, when required. Section 321.690.2, RSMo, requires certain fire protection districts to have an audit performed biennially, and Section 321.690.3, RSMo, requires the districts to forward the audit report to our office within 6 months of fiscal year end. Some of the districts were not required to submit a report in 2022, because they obtain biennial audits and the most recent audit report submitted was for the 2 years ended December 31, 2020. These districts are expected to submit a biennial audit report for the 2 years ended December 31, 2022. The Ash Grove Fire Protection District did not timely obtain the required independent audit for the 2 years ended December 31, 2021. However, the district has engaged independent auditors to perform an audit for that period. Upon completion of the audit, the district is expected to submit the report to the SAO.

The SAO posts the individual audit reports to the office's website. A searchable link is available at https://auditor.mo.gov. A table summarizing our review of the submitted audit reports follows.

P.O. Box 869 • Jefferson City, MO 65102 • (573) 751-4213 • FAX (573) 751-7984

District	Audit Report Period	Report Complied with Section 321.690.3, RSMo	Findings in Independent Audit Report
Ash Grove		No	Not Applicable
Battlefield	1 Year Ended 12/31/21	Yes	No
Bois D'Arc	2 Years Ended 12/31/21	Yes	No
Brookline[1]			
Ebenezer	2 Years Ended 12/31/21	Yes	No
Fair Grove[1]			
Logan-Rogersville[1]			
Strafford[1]			
Walnut Grove	1 Year Ended 12/31/21	Yes	Yes
West Republic[1]			
Willard	1 Year Ended 12/31/21	Yes	No

[1] The fire protection district had an independent audit for the 2 years ended December 31, 2020. The district's next audit is expected to cover the 2 years ended December 31, 2022, and is required to be submitted to the SAO no later than June 30, 2023.

Except for the Ash Grove Fire Protection District failing to obtain and submit an audit report, we identified no other concerns from our review of the audit reports submitted by the Greene County fire protection districts.

CITIZENS SUMMARY

Findings in the audit of the Cornland Special Road District

Services Performed By Commissioners	Commissioners received payments for providing road work for the district, creating an apparent conflict of interest. Additionally, the district did not report amounts paid to the Commissioners to the Internal Revenue Service.
Bidding Procedures and Written Agreements	The district does not have a formal bidding policy and bids or proposals were not solicited during the year ended December 31, 2021, for gravel costing approximately $9,200 and rock hauling services costing approximately $4,400. Also, the district did not enter into written agreements for road work, rock hauling, and administrative services.
Oversight and Segregation of Duties	The Board has not established adequate oversight or segregation of duties over the various financial accounting functions performed by the Secretary/Treasurer, and some district checks were signed only by the Secretary/Treasurer.
Sunshine Law	The Board does not always provide public notice of Board meetings, and agendas and meeting minutes are not prepared. Additionally, the Board has not adopted a written policy regarding public access to district records as required by state law.
Budgetary Procedures and Financial Reporting	The Board does not prepare annual budgets for district funds and does not file timely annual financial reports as required by state law.
Electronic Communication Policy	The district has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Fair**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Board of Commissioners
Cornland Special Road District

The State Auditor was petitioned under Section 29.230, RSMo, to audit the Cornland Special Road District. We have audited certain operations of the district in fulfillment of our duties. The objectives of our audit were to:

1. Evaluate the district's internal controls over significant management and financial functions.

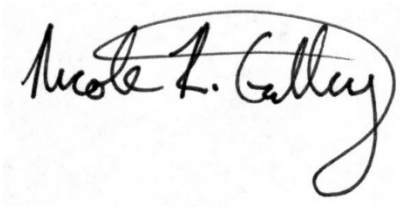
2. Evaluate the district's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis, except as explained in the Scope and Methodology section of this report related to the refusal by the Board of Commissioners and the district's Secretary/Treasurer to provide certain written representations.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Cornland Special Road District.



Nicole R. Galloway, CPA
State Auditor

Scope and Methodology

The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

The Board of Commissioners and the district's Secretary/Treasurer refused to provide certain written representations to our office as requested. While such management representations are not specifically required by Government Auditing Standards for performance audits, it is standard practice of the State Auditor's Office to require such representations be provided to help ensure adequate audit evidence has been obtained.

We asked the Board and Secretary/Treasurer to provide, among other things, the following written representations:

- "We have not knowingly withheld from you any records that in our judgment would be relevant to your audit."

- "We have no knowledge of any fraud or suspected fraud affecting the district and involving administrative officials; employees who have significant roles in internal control (e.g., processing transactions or safeguarding assets); or others."

Refusal to provide such representations is concerning and may indicate information potentially relevant to our audit was knowingly withheld from us by the Board and Secretary/Treasurer.

1. Services Performed By Commissioners

Commissioners received payments for providing road work for the district, creating an apparent conflict of interest. Additionally, the district did not report amounts paid to the Commissioners to the Internal Revenue Service (IRS).

During the year ended December 31, 2021, the district made payments for road repair and maintenance services to 2 Commissioners as follows: 3 payments[1] (each exceeding $500) totaling $3,015 to Commissioner Hill, and 3 payments (each exceeding $500) totaling $1,820 to Commissioner Dirks. Additionally, in January 2022 the district made payments to the Commissioners for road work as follows: 1 payment totaling $1,140 to Commissioner Hill, and 1 payment totaling $683 to Commissioner Dirks. The payments made by the district were for hours worked at hourly rates ranging from $45 to $65, according to invoices maintained by the district. In February 2022, the district submitted most of these disbursements for reimbursement on a Federal Emergency Management Agency (FEMA) grant obtained for road repairs for damage caused by flooding in 2019. The district also made payments totaling $2,545 to Commissioner Dirks for road work services in 2019 and 2020, and requested and received reimbursement for these disbursements from the FEMA grant in 2021.

1.1 Conflicts of interest

Commissioners receiving payments for road work services while also serving on the Board creates an apparent conflict of interest. The district solicited proposals for road repair services in 2020, but according to a Commissioner, the district received only verbal quotes from individuals offering to operate equipment purchased or rented by the district, which were rejected by the district due to the high hourly rates and lack of equipment. The district then contacted a local vendor for an estimate, but the district rejected the estimate received.[2] The estimate was considered too high and the district subsequently spent $8,854 with a different vendor[3] to repair a portion of the roads in 2020. According to a Commissioner, the district used this vendor for the most significant repair work, and Commissioners Hill and Dirks (and a business owned by a family member of Commissioner Anderson for which he had no financial interest[4]) have been performing much of the remaining repair work.

[1] One of these payments, totaling $1,040, included billings for road work services costing $440, according to the invoice, that were performed before Commissioner Hill became district commissioner in April 2021.

[2] The estimated cost submitted by the vendor totaled approximately $235,000 to completely repair the district's roads.

[3] According to a Commissioner, the district contacted this vendor for an estimate based on discussions with a State Emergency Management Agency (SEMA) official.

[4] The district made one payment totaling $2,380 in January 2022 for road work services to this business. Commissioner Anderson indicated he abstained from voting on the decision to award road work to his family member's company, but the vote occurred in an informal meeting of the Board in 2021 for which no meeting minutes were maintained.

A Commissioner indicated other vendors have been utilized for various road repair and maintenance services in previous years but those entities either became too expensive or were no longer willing to perform the services for the district. The district maintained no documented, formal Board approval of the arrangements for the services performed by the Commissioners prior to the services being performed.[5]

Commissioners serve in a fiduciary capacity and have an obligation to the public to avoid apparent conflicts of interest. Personal interests in business matters of the district could create an actual or apparent conflict of interest, and a lack of independence could harm public confidence in the Board and reduce its effectiveness. Section 105.454, RSMo, prohibits elected officials and employees serving in an executive or administrative capacity from performing any service for compensation, other than compensation for the performance of their duties, that involve more than $500 per transaction or $5,000 per annum, unless there has been public notice to solicit proposals and competitive bidding, provided the bid or offer accepted is the lowest received. Section 105.458, RSMo, prohibits district commissioners from receiving such compensation without competitive bidding. Additionally, under the terms of the FEMA award, the district is required to comply with 2 CFR Section 200.318 that requires the district maintain written standards of conduct covering conflicts of interest and prohibits any officer or agent of the district from participating in the "selection, award, or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest."

1.2 1099 forms

The district does not have a procedure in place to prepare and file 1099 forms with the IRS as required. The district did not prepare and file 1099 forms with the IRS for payments made to the Commissioners for the year ended December 31, 2021. The Commissioners and Secretary/Treasurer were unaware of the requirement to file these forms.

Sections 6041 through 6050W of the Internal Revenue Code require payments of $600 or more for professional services or for services performed as a trade or business by non-employees (other than corporations), be reported to the federal government on 1099 forms.

Recommendations

The Board of Commissioners:

1.1 Avoid transactions that represent actual conflicts of interest or apparent conflicts of interest.

[5] Commissioner Anderson indicated the other commissioners abstained from the Board votes approving payments to themselves, but the district did not maintain documentation of those votes as noted in Management Advisory Report (MAR) finding number 4.1.

1.2 Prepare and file 1099 forms with the IRS as required, and file amended 1099 forms for previous years.

Auditee's Response

The Board of Commissioners did not provide a response.

2. Bidding Procedures and Written Agreements

The district does not have a formal bidding policy and bids or proposals were not solicited during the year ended December 31, 2021, for gravel costing approximately $9,200 and rock hauling services costing approximately $4,400. Also, the district did not enter into written agreements for road work, rock hauling, and administrative services. During the year ended December 31, 2021, district expenditures totaled $23,978.

According to a Commissioner, bids/proposals were not solicited for gravel and rock hauling services because the district has only one local quarry for gravel and only a few vendors available for rock hauling. However, the district did not maintain documentation of efforts taken to identify and select vendors. In addition, the district did not solicit bids for payments for road work performed by 2 of the commissioners and the business owned by a family member of the third commissioner, as noted in MAR finding number 1.1, or obtain written agreements for those services. Most of the disbursements for gravel, rock hauling, and road work related to the district's road repair projects to be reimbursed through the FEMA grant. Additionally, the district did not obtain written agreements for rock hauling services, and for administrative services related to the FEMA grant provided by Commissioner Anderson.[6] According to a Commissioner, the Commission was unaware of the need for written agreements.

The FEMA grant requires the district to have a documented procurement policy that complies with applicable federal, state, and local regulations, and publicly solicit competitive bids. Formal bidding procedures for major purchases or services provide a framework for economic management of district resources and help ensure the district receives fair value by contracting with the lowest or best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in district business. Formal bidding procedures should be sufficiently detailed and include requirements for documenting the process of awarding a bid.

Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.

[6] Commissioner Anderson indicated he intends to seek reimbursement for his time spent performing administrative tasks for the FEMA grant, but he has not submitted a billing to either the district or FEMA as of May 2022.

Recommendation

The Board of Commissioners establish formal bidding policies and procedures, solicit bids for goods and periodically solicit proposals for services, and ensure the solicitation for bids and proposals and the evaluation and selection of vendors is documented. In addition, enter into written contracts for services received.

Auditee's Response

The Board of Commissioners did not provide a response.

3. Oversight and Segregation of Duties

The Board has not established adequate oversight or segregation of duties over the various financial accounting functions performed by the Secretary/Treasurer.

The Secretary/Treasurer is responsible for the record-keeping duties of the district including receipting, posting transactions into the accounting system, preparing invoices for payment, preparing and distributing checks, preparing monthly bank reconciliations, and preparing financial statements. Commissioner Anderson, the husband of the Secretary/Treasurer, indicated he assists the Secretary/Treasurer with those duties as necessary. In addition, while the Commissioners indicated checks are reviewed and signed by Commissioner Dirks after preparation and signature by the Secretary/Treasurer, 4 of 22 checks issued during the year ended December 31, 2021, were signed only by the Secretary/Treasurer. According to a Commissioner, lack of Board oversight caused the checks to be issued without dual signatures.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records should be performed. Good management practices require extensive and detailed oversight by the Board. Dual authorized signatures help provide assurance that checks represent payment for legitimate district disbursements. Failure to require dual signatures on all checks is a significant control weakness and could allow for improper checks and overpayments to occur.

Recommendation

The Board of Commissioners segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures. In addition, the Board should require dual signatures on all checks.

Auditee's Response

The Board of Commissioners did not provide a response.

4. Sunshine Law

The Board does not always comply with the Sunshine Law.

4.1 Board meetings

The Board does not always provide public notice of Board meetings, and agendas and meeting minutes are not prepared. According to a Commissioner,

the Board only held one public meeting during the year ended December 31, 2021. However, no agenda or minutes were maintained for this meeting. In addition, a Commissioner indicated the Board met informally at other times during the year to discuss and vote on Board business and public notice was not provided for those meetings and no agendas or minutes were prepared. Additionally, no minutes were prepared for the public meeting held in March 2022. According to a Commissioner, the Board believes only one annual public meeting is generally needed and minutes are unnecessary because the Board provides letters to district residents periodically with information about the status of district activities and finances.

Section 610.010(5), RSMo, defines a public meeting as any meeting of a public governmental body at which any public business is discussed, decided, or public policy formulated. Section 610.020.1, RSMo, requires public entities to give notice of the time, date, and place of each meeting, and its tentative agenda to advise the public of matters to be considered. Section 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of Board actions and decisions.

4.2 Public access policy

The Board has not adopted a written policy regarding public access to district records as required by state law. A written policy regarding public access to district records would establish guidelines for the district to make records available to the public. Such policies typically identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records. According to a Commissioner, the Board was unaware a written policy was required.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the district to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law.

Recommendations

The Board of Commissioners:

4.1 Ensure notices and agendas are provided to advise the public of district meetings, and maintain minutes for all meetings.

4.2 Develop a written public access policy for district records.

Auditee's Response

The Board of Commissioners did not provide a response.

5. Budgetary Procedures and Financial Reporting

The Board does not prepare annual budgets for district funds or submit annual financial reports as required by state law.

5.1 Budgets

The Board does not prepare annual budgets for district funds as required by state law. A Commissioner indicated the Board informally allocates about one-half of the district's typical revenues for rock purchases and one-half for hauling, grading, and administrative expenses, but the Board did not believe a formal budget was needed.

Section 67.010, RSMo, requires the budget to present a complete and accurate financial plan for the ensuing budget year and outlines the various information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of district operations. It also assists in informing the public about district operations and current finances.

5.2 Filing of financial reports

The Board does not file timely annual financial reports with the State Auditor's Office (SAO) as required by state law. The district's financial report for the year ended December 31, 2021, due by June 30, 2022, was not filed until July 25, 2022. The district's financial report for the year ended December 31, 2020, due by June 30, 2021, was not filed until August 4, 2021. The district's financial report for the year ended December 31, 2019, due by June 30, 2020, was not filed until August 21, 2020. Also, no financial report was filed with the SAO for the year ended December 31, 2018. In addition, the financial report filed for 2021 did not include the property tax levies as required by state regulation. According to a Commissioner, other personal obligations prevented him from filing complete and timely financial reports.

Section 105.145, RSMo, requires each political subdivision to file annual reports of its financial transactions with the SAO. Section 105.145.5, RSMo, prohibits members of the governing body from receiving compensation or payment of expenses after the deadline to submit the financial statement and until the financial statement is submitted to the SAO. Section 105.145.9, RSMo, subjects political subdivisions to a fine of $500 per day for missing filing deadlines. In addition, 15 Code of State Regulations (CSR) 40-3.030, requires each political subdivision to file annual financial reports within 6 months of the end of the subdivision's fiscal year.

Recommendations

The Board of Commissioners:

5.1 Prepare annual budgets that contain all information required by state law.

5.2 Submit annual financial reports to the State Auditor's Office as required by state law.

Auditee's Response

The Board of Commissioners did not provide a response.

6. Electronic Communication Policy

The district has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[7]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the district is retained as required by state law. According to a Commissioner, the Board was unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The Board of Commissioners develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The Board of Commissioners did not provide a response.

[7] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed July 18, 2022.

Cornland Special Road District
Organization and Statistical Information

The Cornland Special Road District was incorporated in 1945 and organized under Sections 233.320 through 233.445, RSMo. The district is responsible for approximately 12 miles of gravel roads outside the city of Butler in Bates County, Missouri.

Board of Commissioners

The Board of Commissioners consists of three commissioners who serve 3-year terms. The commissioners elect a President of the board and appoint an individual to serve as the Secretary/Treasurer. The commissioners and Secretary/Treasurer serve without compensation. The Board of Commissioners, at December 31, 2021, are identified below.

Name and Title	Dates of Service
Elston Dirks, President	2013 to current
Gary Anderson, Member	2016 to current
Don Hill, Member	2021 to current

Secretary/Treasurer

Annette Anderson has served as the district's Secretary/Treasurer since her appointment to the position in 2005.

Disaster Assistance

In July 2020, the Federal Emergency Management Agency (FEMA) and the Department of Public Safety - State Emergency Management Agency (SEMA) awarded disaster assistance funding up to a maximum of $129,682 for repairs to district roads that were damaged by flooding in 2019. The district is responsible for completing the repairs in accordance with state and federal requirements. The federal, state, and district share of the actual project costs are 75, 10, and 15 percent, respectively. Under the disaster assistance program, the SEMA will reimburse the district throughout the project for a portion of the state and federal share of the costs incurred and paid by the district; and upon project completion, inspection, and approval by FEMA and SEMA, the SEMA will reimburse the district for the remaining federal and state share of actual expenses.

In January 2021, the district submitted to SEMA a reimbursement claim for expenditures paid through November 2020 totaling $30,048, and received reimbursement totaling $16,902 in March 2021. In February 2022, the district submitted a second reimbursement claim totaling $21,565 for expenditures from December 2020 through January 2022 and the district had not received any reimbursement on this claim as of June 2022. In its progress status report to SEMA as of March 31, 2022, the district indicated the completion percentage of repairs to the 15 damaged road sites ranged from 0 to 75 percent, and estimated the project completion date to be June 9, 2022, and indicated this was dependent upon SEMA paying the previous reimbursement claim.

According to district officials, road repair work was not completed as of June 2022 and the SEMA indicated the district will not receive reimbursement on

the second reimbursement claim until after July 1, 2022. The FEMA also awarded the district funding for actual administrative costs (100 percent federal share) up to a maximum of $6,484 reimbursable only upon project completion.

In June 2020, the district requested donations totaling $20,200 from district property owners to help fund the road repairs. The district determined each property owner's proportionate share of the donation total based upon the relative productive agricultural value of each property. As of February 2022, the district had only received $4,170 in donations.

Financial Activity

For comparative purposes, a summary of the district's financial activity obtained from the district's general ledger and annual financial statements for the years ended December 31, 2021, 2020, and 2019, follows.

Cornland Special Road District
Comparative Statement of Receipts, Disbursements, and Changes in Cash

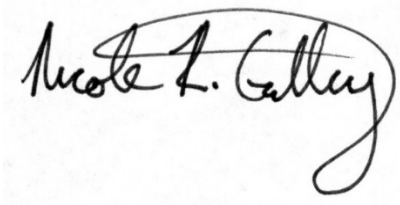
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 10 political subdivisions required to file a financial report by July 31, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in July 2022, after their filing deadline. The filing status for these 183 entities is presented in summary on page 3 and by individual entity in Appendixes B to E.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 10 political subdivisions, other than cities, towns, and villages, with a fiscal year end of January 31, 2022. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 10 political subdivisions, 8 filed an annual financial report timely.

This report also includes the filing status for 183 political subdivisions, other than cities, towns, and villages, that filed their financial report in July 2022, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

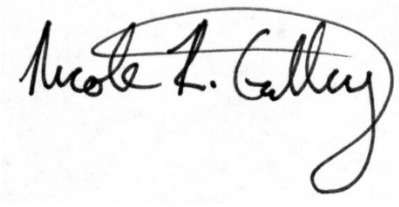
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by July 31, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 1 city is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in July 2022, after their filing deadline. The filing status for these 55 cities, 3 towns, and 14 villages is presented in summary on page 4 and by individual entity in Appendixes B to H.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 1 city with a fiscal year end of January 31, 2022, whose financial report was due by July 31, 2022. The municipality filed the financial report timely. The municipality was not required to file an addendum or certification.

This report includes the filing status for 55 cities, 3 towns, and 14 villages that filed at least one of the items (financial report, addendum, or certification) in July 2022, after their filing deadline. Of these municipalities, 47 filed an annual financial report, 30 filed an addendum, and 15 filed a certification.

Nicole Galloway, CPA

Missouri State Auditor

Smithville R-II School District

Report No. 2022-074

September 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Smithville R-II School District

Procurement Procedures, Contracts, and Disbursements	District procurement procedures and practices were not sufficient to ensure the district complied with district policy and state law. More frequent solicitation and evaluation of qualifications of the construction management and architectural firms would help ensure the firms meet the current needs of the district. District personnel did not use a sealed bid process as required for several purchases of $45,000 or more, and did not provide a reason why they did not. District personnel did not provide adequate documentation to support purchasing decisions for several purchases. District personnel spent approximately $30,000 on food and employee gifts and awards during the 2019 - 2020 school year that may not have been prudent, reasonable, or necessary use of school funds.
Sunshine Law	The Board of Education did not document members absent in open and closed meetings or the vote to close meetings, as required. The Board discussed some items in closed meetings that do not appear allowable under the Sunshine Law or were not cited as the reason for closing the meeting. Minutes for closed meetings did not include sufficient detail to ensure some topics discussed were allowable.
Additional Compensation	District employees received additional compensation, totaling $16,900, during the 2019 - 2020 school year, for various purposes including teaching dual credit courses and exercise classes that were not included on Board approved salary schedules. In addition, district personnel did not withhold payroll and income taxes from payments made to these employees. Instead, the district issued each employee a 1099 form.
District Controls and Procedures	District personnel do not have controls in place to ensure donations received are used only for their intended purposes. District personnel and volunteers do not issue tickets to attendees and/or keep a tally sheet for athletic events and musical productions. District personnel did not timely prepare and the Board did not timely approve budget amendments for the year ended June 30, 2020. Personnel did not retain some records in accordance with state law.
Attendance Data Changes	The Board has not developed procedures to adequately track some changes made to attendance records and limit the time period when attendance changes can be made. Also, district officials do not review changes made to current school year attendance records.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Board of Education
Smithville R-II School District

The State Auditor was petitioned under Section 29.230, RSMo, to audit the Smithville R-II School District. We have audited certain operations of the district in fulfillment of our duties. The district engaged Westbrook & Co., P.C. Certified Public Accountants (CPAs), to audit the district's financial statements for the year ended June 30, 2020. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2020. The objectives of our audit were to:

1. Evaluate the district's internal controls over significant management and financial functions.

2. Evaluate the district's compliance with certain legal provisions.

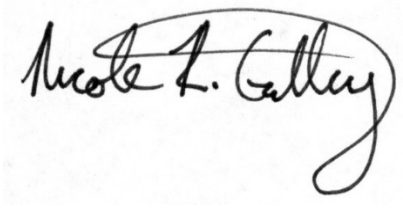
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and performing sample testing using judgmental selection. The results of our tests cannot be projected to the entire population from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and the audited financial statements and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Smithville R-II School District.



Nicole R. Galloway, CPA
State Auditor

1. Procurement Procedures, Contracts, and Disbursements

District procurement, contract, and disbursement practices need improvement.

1.1 Procurement procedures

District procurement procedures and practices were not sufficient to ensure the district complied with district policy and state law. We reviewed 62 payment transactions totaling approximately $1.6 million and 10 contracts using judgmental selection from a population of 2019 - 2020 school year payment transactions totaling approximately $38 million. We noted various concerns.

Construction management and architectural services

The district has used the same construction management firm for the past 28 years and the 10-year term of the current contract with this firm makes it unlikely the district will request qualifications again for an extended period. Payments to this firm totaled $152,229 for the 2019 - 2020 school year and total expenditures included in Amendment I of the current contract are anticipated to be approximately $427,000. District personnel entered into the current 10-year contract with the firm in January 2019 after requests for proposals (RFP) were solicited in October 2018. The district's financial consultant indicated the RFP was written to implement the district's 10-year facility master plan. However, the RFP did not state the length of the plan and it was not available for interested parties to use in their responses to the RFP because it had not yet been developed. We could not review the documentation of the evaluation and selection of the construction management firm because the documentation was destroyed in a sewer backup in January 2021.

In addition, district personnel have established a long-term relationship with an architectural firm and the expected term of the relationship makes it unlikely the district will request qualifications again for an extended period. District personnel solicited requests for qualifications (RFQ) in November 2018 to establish a relationship with an architectural firm for the purpose of developing a facilities master plan, designing the resulting projects once funded, and providing on-call services. District personnel entered into a contract with the firm in July 2019 to develop a master facility plan and provide on-call architectural services, and entered into another contract with this firm in May 2020 to design the first phase of the master facility plan. Additional contracts to design the second and third phases of the master facility plan are expected to be awarded to this same firm within the next 10 years. We could not review the documentation of the evaluation and selection of the architectural firm for the 10-year master facility plan and on-call architectural services because the documentation was destroyed in the sewer

backup. During the 2019 - 2020 school year, the district paid the architectural firm $75,884.

The district believes using the same construction management and architectural firms for the entire 10-year master facility plan is more cost effective than hiring new firms for each phase of the plan who would need to be informed about the work completed in the previous phase(s).

Sections 8.285 to 8.291 and 8.675 to 8.687, RSMo, provide the requirements for obtaining, evaluating, and negotiating for architectural and construction management. More frequent solicitation and evaluation of firm qualifications would help ensure the firms meet the current needs of the district.

Sealed bids and proposals

District personnel did not use a sealed bid process as required for purchases of $45,000 or more for the following purchases made during the 2019 - 2020 school year and July 2020:

Item	Cost
Chromebooks	$ 295,197
Laptops (1)	120,348
Alternative transportation services	84,390
Science curriculum materials	69,411
Lease payment (2)	63,554
Behavioral health services	53,892
Occupational therapy	49,863
Total	$ 736,655

(1) Laptops were procured in the 2019 - 2020 school year, but were not paid for until July 2020.

(2) The district entered into a 3-year lease for Chromebooks in May 2017.

District personnel did not provide a reason why they did not use a sealed bid process for the purchases. They indicated written bids were obtained and awarded to the low bidders for the Chromebooks, laptops, and leased Chromebooks and district personnel indicated only approved vendors are invited to bid on technology purchases. The financial consultant also indicated the district obtained written bids from and selected the vendors that best met the districts needs for alternative transportation, behavioral health services, and occupational therapy services. However, district personnel did not provide written documentation of the evaluation and selection of the winning bidders.

The district's financial consultant indicated there were only 3 vendors offering a science curriculum that met Missouri Learning Standards; however, he could not provide documentation to support this assertion. In addition, we

were unable to review the evaluation and selection of the 3 science curriculum vendors because district personnel did not retain the documentation.

Board policy DJF requires employees to solicit sealed bids for items costing $45,000 or more. Competitive procurement using a sealed bid process not only ensures the district is complying with board policies, but also helps ensure the district has made every effort to receive the best and lowest price and all interested parties are given an equal opportunity to participate in district business.

Documentation

District personnel did not provide adequate documentation to support purchasing decisions for the following purchases made during the 2019 - 2020 school year:

Item	Cost
Special education services	$ 217,079
Wireless network maintenance	91,604
Biomedical course materials and lab supplies	58,616
Student mental health and other at-risk services	56,371
Advanced Placement (AP) testing	37,780
Desktop computers	32,970
Desk barriers	21,453
Professional development services	17,500
Convertible tables	14,953
American College Test (ACT) study materials	14,779
Sound panel wall	11,603
District satisfaction survey	10,500
Plexiglass counter shields	8,969
Total	$ 594,177

The district's financial consultant indicated the vendors providing special education services, biomedical course materials and lab supplies, student mental health and other at-risk services, AP testing, professional development services, ACT study materials, and the district satisfaction survey were all single feasible sources but this was not documented as required. The district's financial consultant also indicated no bids were solicited for the desk barriers and the Plexiglas counter shields because these were emergency purchases related to the COVID-19 pandemic. However, there was no documentation of the Superintendent's written authorization for either purchase as required. District personnel did not maintain supporting documentation to demonstrate the amounts paid for wireless network maintenance, desktop computers, and convertible tables agreed with the amounts in cooperative purchasing agreements the district used to obtain the goods and services. The district's financial consultant indicated the sound panel wall was not bid because the

funds used to make the purchase were provided by the Parent Teacher Organization.

Board policy DJF requires employees to obtain three bids, quotes, or offers for items costing between $3,500 and $45,000. In addition, Board policy DJF allows the purchasing officer to waive the bidding requirements in certain circumstances. For example, he/she must document in writing when a vendor is a single feasible source and must obtain the Superintendent's written authorization for emergency purchases. Board policy DJF also indicates all funds deposited with the district, regardless of source, are considered district funds and any purchases made with these funds must comply with district policies and procedures. Documentation of the various bids and proposals received, the selection process, and criteria (including single source, cooperative agreement, or emergency procurements justifications), is necessary to demonstrate compliance with board policies and support decisions made.

1.2 Food and gift purchases

District personnel spent approximately $30,000 on food and employee gifts and awards during the 2019 - 2020 school year that may not have been prudent, reasonable, or necessary uses of district funds. In addition, the district does not have written policies on employer-provided food, gifts, and awards.

The food purchases were for employee meetings, training sessions, employee recognition and appreciation, holiday parties, and lunches at local restaurants. The employee gifts and awards included employee recognition and appreciation, incentives, and teacher of the year awards. The district's financial consultant indicated these items were purchased with budgeted funds which were approved by the Board. In addition, he indicated the Board approves checks each month, including checks for these items.

While some of these purchases may be appropriate, the district has not established any guidance or policies about food, gift, and award purchases. Examples of the types of provisions the district could incorporate into its own guidance and policies can be found in the State of Missouri's state agency policies. For example, the State of Missouri's agency-provided food policy only allows for food at official business functions and light refreshments at other agency sponsored activities (employee retirement, employee appreciation, etc.). In addition, the state's policy requires documentation to support food purchases including (1) purpose, (2) list of participants or estimated number of invitees, and (3) cost of food provided. The State of Missouri also has an agency gift and award policy that allows retirement, service, and other recognition award gifts that are reasonable and primarily represent a token of recognition and not a reward with a cash equivalent or substantial monetary value.

District residents have placed a fiduciary trust in their public officials to spend district revenues in a prudent and necessary manner. Established policies on district provided food and gifts would provide employees necessary guidance and better transparency for citizens about the use of public funds.

Recommendations

The Board of Education:

1.1 Periodically request and evaluate qualifications for architectural and construction management services. In addition, ensure district personnel competitively procure goods and services in accordance with board policies and maintain documentation of decisions made.

1.2 Ensure all disbursements are a necessary and prudent use of district funds. In addition, the Board should establish policies regarding food, gift, and award purchases, if such purchases are considered necessary.

Auditee's Response

1.1 The district put out an RFP for professional services for construction management and architectural services to create a long-term master building plan (plan). The plan, created with public input and approved by the Board of Education contains a 2020, 2025, and 2030 capital improvement plan with identified projects. Each phase builds on itself and requires consistency to ensure budgets and timeframes are maintained. The district believes there is value in a long-term relationship with the professional service providers because of their prior knowledge of worksite conditions and work performed during each phase, what pre-construction services need to be done for each phase, and what work remains as the project enters a new phase. If new construction management and architecture firms were brought in each time, time and money would be wasted "catching up." Secondly, projects do not begin when voters approve the bonds that pay for the projects; years of advance planning, including design work and cost estimating, must be prepared prior to the bond ever appearing on the ballot - not having a relationship with professional service providers prior would again cost patrons time and money. The district complied with state law and Board Policy FEC for construction management services and Board Policy FEB for architectural services. The district used scoring guides, conducted interviews, and produced the questions and interview schedules for said interviews during the audit. At the time of selection, the district also provided the Board with recommendations concerning the bids, but was unable to produce those documents due to sewer backup that is addressed in Management Advisory Report (MAR) finding number 4.4. The district will work to ensure that all records regarding its selection of professional services are safely stored and accessible for

review, while ensuring that the plan is completed in a timely manner and at the lowest cost.

Sealed bids: The district will continue to follow the Board approved policies and procedures when soliciting bids or quotes via competitive purchasing, as outlined under Board Policy DJF-1 and Administrative Procedure DJF-1-AP(1).

To better document district purchases, the Board will adopt and require that Form DJF-AF3 be completed for applicable purchases. The Form will also enable the district to standardize its documentation of circumstances surrounding single source, cooperative, and emergency purchases. Administratively, DJF-AF3 will go in to effect on September 1, 2022.

1.2 *The purchases referenced by the State Auditor were items purchased out of budgeted supply accounts or activity accounts. For example, the Board's purchases of a holiday turkey for staff was budgeted and approved by the Board under the supply account. Food and drinks were purchased for after school meetings to provide a light snack for participants via the budgeted supply accounts approved by the Board. Each fall, spirit wear was purchased for staff via donations received by vendors who participated in a back to school event. The donations were then budgeted and approved by the Board via the activity account. All supply accounts and activity accounts are Board approved as part of the annual budget. Each month the Board approves checks and receives a general ledger update on how these accounts are operating. The district will continue to plan and implement its annual budget pursuant to Board Policy DB, and document purchases as required under Board Policy DJF-1. Any purchases deemed imprudent or unnecessary and denied by the Board will not be made. The district is in the process of developing an administrative policy and procedure regarding the purchase of nominal gifts, food, and beverages.*

2. Sunshine Law

The district did not comply with the Sunshine Law for open and closed meetings.

Required information

The Board did not document members absent in open and closed meetings or the vote to close meetings, as required. The district financial consultant indicated that beginning in April 2021 some required information and some meeting details (see insufficient detail section) were not included in the minutes approved by the Board and this has since been corrected with training and new personnel assigned to document the minutes. The consultant did not provide a reason why required information was not included in meeting minutes prior to April 2021.

Allowable topics

The Board discussed some items in closed meetings that do not appear allowable under the Sunshine Law or were not cited as the reason for closing the meeting. For example, closed meeting minutes note the Board discussed organizational restructuring options and restructuring the district office in closed meetings. The discussions were included under personnel matters in the minutes and Section 610.021.03, RSMo, was cited as a reason for closing the meetings; however, the minutes do not indicate if the discussion included hiring, firing, disciplining, or promoting or particular employees. At another closed meeting the Board evaluated the superintendent's performance as allowed by Section 610.021.13, RSMo; however, this section was not cited as a reason for closing the meeting. The district financial consultant indicated the Board and district personnel are familiar with the Sunshine Law and any unallowable discussion was due to an inadvertent error.

Insufficient detail

Minutes for closed meetings did not include sufficient detail to ensure some topics discussed were allowable. Closed meeting minutes included only a brief description of the topics discussed unless a vote was taken. For example, each month, the closed meeting minutes include "Personnel Report" as a topic for discussion under "Personnel Matters." Other frequent topics listed under "Personnel Matters" included discussion with a school administrator; approval of new positions; and salary, stipend, and compensation discussions. Without sufficiently detailed meeting minutes it is unclear if all of these discussions were appropriate for closed meetings.

Conclusion

Missouri's Sunshine Law, Chapter 610, RSMo, provides for transparency and openness of government. Section 610.020.7, RSMo, requires minutes of meetings be maintained as a record of business conducted and to provide an official record of actions and decisions, including the date, time, place, members present, members absent, and a record of any votes taken. The minutes need to provide sufficient details of discussions to demonstrate compliance with statutory provisions and support important decisions made. Section 610.021, RSMo, lists the topics that may be discussed in closed meetings. Section 610.022, RSMo, provides that a meeting or vote may be closed only after the vote of each member on the question of closing the meeting and the specific reason for closing the meeting or vote by making specific reference to the specific section of law that is announced publicly at the open session and entered into the minutes. Section 610.022.3, RSMo, mandates that the discussion topics and actions in closed meetings must be limited to only those specifically allowed by law as announced in justification for closing the meeting.

Recommendation

The Board of Education ensure meeting minutes are complete, accurate, and sufficiently detailed and only allowable topics are discussed in closed meetings. In addition, ensure discussions in closed meetings are limited to only those specific reasons cited for closing the meeting.

Auditee's Response

Staff and the Board of Education have received training to ensure compliance with the Missouri Sunshine Law including ensuring meeting minutes are complete, accurate, and sufficiently detailed. In addition, the Board will ensure specific exemptions for closing a meeting under the Sunshine Law are fully documented in the open minutes, ensure only topics that are covered by the specific exemptions under the Sunshine Law are discussed in closed meetings, and discussions are limited to the specific exemptions under the Sunshine Law for entering closed session.

3. Additional Compensation

District employees received additional compensation, totaling $16,900, during the 2019 - 2020 school year, for various purposes including teaching dual credit courses and exercise classes that were not included on Board approved salary schedules. In addition, district personnel did not withhold payroll and income taxes from payments made to these employees. Instead, the district issued each employee a 1099 form. The district's financial consultant indicated the payments are not included on salary schedules or subject to payroll withholding because the district uses funding from the university managing the dual credit program and vendor sponsorships for the additional compensation rather than tax revenue.

All compensation should be approved by the Board and included on salary schedules as necessary to ensure all employees are treated fairly and equitably and salaries are calculated consistently and are reasonable. In addition, the failure to withhold and properly report payroll and income taxes for district employees makes the district potentially subject to additional tax liabilities along with penalties and interest. For employees, IRS regulations require employers to report compensation on W-2 forms and withhold and remit income and payroll taxes. Similarly, Chapter 143, RSMo, includes requirements for reporting wages and withholding state income taxes.

Recommendation

The Board of Education ensure pay schedules are complete and all compensation is approved by the Board. In addition, the Board should ensure all employee compensation paid is subject to proper withholdings and properly reported.

Auditee's Response

The Board of Education will continue to ensure pay schedules are complete and all compensation is approved by the Board. Going forward, the Board will ensure that all employee compensation is paid subject to proper withholding and properly reported.

4. District Controls and Procedures

District controls and procedures over donations, event sales, budget amendments, and record preservation and retention need improvement.

4.1 Donations

District personnel do not have controls in place to ensure donations received are used only for their intended purposes. District personnel account for

donations within one account in the Student Activities Fund. However, there is no separate accounting for donations intended for a specific purpose within that account and district personnel are not otherwise tracking the donations to ensure they are only used as intended. District personnel believed that accounting for the donations in one account was sufficient. During the 2019 - 2020 school year, the district received donations totaling $11,897 specifically intended for various purposes including food boxes, Christmas gifts, and clothing and hygiene items for the Warrior Closet.

Separate funds and/or accounting of receipts and related disbursements associated with specific purposes are necessary to ensure donation receipts are expended as the donors intended.

4.2 Event sales

District personnel and volunteers do not issue tickets to attendees and/or keep a tally sheet for athletic events and musical productions. Without some method of determining attendance, there is no way for district personnel to reconcile collections to deposits and ensure all receipts are deposited. The district's financial consultant did not provide an explanation for why a method to determine attendance had not been developed. The district collected approximately $82,000 in admission fees for the 2019 - 2020 school year.

Issuing tickets or maintaining a tally sheet to account for attendees and reconciling that information to the money collected is necessary to properly account for event receipts and the amount deposited.

4.3 Budget amendments

District personnel did not timely prepare and the Board did not timely approve budget amendments for the year ended June 30, 2020. The Board amended the budget on June 24, 2020, only after disbursements exceeded the total amount budgeted. After the amendment, district personnel still overspent the Student Activity, School Foundation, and Debt Service Funds. The district's financial consultant indicated the amendments were not complete until late May, and as a result, the amended budget was not ready for Board approval until June 2020. In addition, the financial consultant indicated amended amounts were based on actual expenditures through April 2020 and their best estimate of activity for May and June 2020.

Section 67.040, RSMo, requires political subdivisions to keep disbursements within amounts budgeted and allows for budget increases, after the governing body officially adopts a resolution setting forth the facts and reasons. Board monitoring of actual disbursements compared to budgeted amounts and formal amendment of budgets before the related disbursements are incurred is necessary to ensure compliance with state law.

4.4 Record preservation and retention

District personnel did not retain some records in accordance with state law. Upon the retirement of the Chief Financial Officer, district personnel stored his records in a mechanical room at the district office. Some of the records,

including the procurement documents described in MAR finding number 1.1, were soiled and ruined from a sewer backup in January 2021.

Retention of records is necessary to ensure the validity of transactions and provide an audit trail. In addition, storing records in secure areas that are free from excessive heat, moisture, and threats of destruction is necessary to ensure records are retained in accordance with state law. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. Record retention schedules can be found on the Secretary of State's website.

Recommendations

The Board of Education:

4.1 Ensure donations collected are adequately tracked and/or deposited into a separate account and used for their intended purposes.

4.2 Ensure receipts deposited for all events are reconciled to the paid attendance.

4.3 Prepare and approve budget amendments prior to incurring the related disbursements.

4.4 Store records in secure areas and ensure all records are retained in accordance with state law.

Auditee's Response

4.1 The district has created sub accounts under its existing Care Account (within the Student Activities Fund) that will provide a more detailed accounting of funds received and help ensure that funds continue to be used for their intended purpose.

4.2 The Board of Education recognizes that it needs to have a system in place to ensure receipts deposited for all events are reconciled to the paid attendance. The Board plans to address this during the 2022-2023 school year by going to an on-line electronic ticketing system to eliminate cash at the point of sale and providing accurate attendance information for all interscholastic and scholastic events.

4.3 The Board will follow its policy, DB – Annual Budget, to comply with State Law and guidelines outlined in the Department of Elementary and Secondary Education Missouri Financial Accounting Manual. Financial reports will be reviewed monthly by the Board of Education and staff to monitor budgeted revenue and expenditures vs. actual revenue and expenditures. If required, budget amendments

will occur prior to any disbursement that would cause a fund to exceed its budgeted amount.

4.4 *The district follows the guidance of the Missouri Secretary of State process of fully digitizing its records in October 2016, beginning with documents from the Board, including agendas and minutes. Student records were digitized starting in 2014, and the district has digitized the past 18 years of student records, by digitizing both the current year and one archive year on an annual basis. Due to lack of time, manpower, and funding, the district has not yet put a plan in place to digitize the archived records of the Board, which include the procurement documents addressed by the State Auditor in MAR finding number 1.1 and destroyed due to a sewer backup in January 2021. In the meantime, the district will better ensure that physical records not yet digitized are stored in secure areas that are free from excessive heat, moisture, and threats of destruction.*

5. Attendance Data Changes

The Board has not developed procedures to adequately track some changes made to attendance records and limit the time period when attendance changes can be made. Also, district officials do not review changes made to current school year attendance records.

District procedures require recording of daily student attendance in the attendance system by each teacher or by a substitute teacher when a teacher is absent. Each school's administrative assistant runs a report to ensure all attendance has been entered. Changes after the current day can be made anytime for the current school year by the administrative assistants and the teachers assigned to each class. The system does not have the ability to track these changes and although documentation is maintained to support changes made, this documentation is not reviewed by district administrative personnel. Instead, the district's financial consultant indicated attendance is reviewed by the school principal and administrative assistant daily and these individuals also review overall attendance for patterns and irregularities.

Correcting attendance data is necessary to ensure accuracy in the reporting process and any changes must be made before attendance can be certified to the Department of Elementary and Secondary Education. Without limiting the time frame during which attendance system changes can be made or reviewing changes made, attendance data is subject to erroneous changes that may affect attendance reports to the DESE.

Recommendation

The Board of Education implement additional controls and procedures to ensure student attendance data is accurately recorded and reported, including restricting the time frame during which changes can be made. The Board should also require documentation of changes made to attendance data be reviewed for accuracy.

Auditee's Response

PowerSchool, the district's attendance system, received an update with Version 21.2.2.0, which provides an electronic timestamp when data is entered or revised, as well as other security enhancements, including attendance change logs. This update enables the district to better ensure that attendance is properly recorded and reported. Internal controls are in place at the building level and district level to monitor attendance closely for accuracy. All attendance change logs will be monitored and verified for accuracy at the district level.

Smithville R-II School District
Organization and Statistical Information

The Smithville R-II School District is located in the western part of Missouri, covering parts of Clay, Platte, and Clinton counties.

The district currently has one early childhood center, three elementary schools (grades K-6), a junior high school (grades 7-8), and a high school (grades 9-12). Enrollment was approximately 2,600 students for the 2019 - 2020 school year. The district employed 228 full-time employees and 108 part-time employees (teachers, aids, custodians, and nurses) at June 30, 2020.

The Smithville R-II School District has been classified under the Missouri School Improvement Program as "Accredited" by the Missouri Department of Elementary and Secondary Education.

Board of Education

An elected board acts as the policy-making body for the district's operations. The board's seven members serve 3-year terms without compensation. Members of the board at June 30, 2020, were

Denney Fales, President
Sarah Lamer, Vice-President
Wade Keifer, Member
Ian Saxton, Member
Len Matthies, Member
Scott Haggerty, Member
Susan Whitacre, Member

Superintendent

The district's superintendent at June 30, 2020, was Todd Schuetz and his annual compensation was $165,714. The superintendent's compensation is established by the board.

Financial Activity

A summary of the district's financial activity obtained from the financial statement audit report for the year ended June 30, 2020, follows.

SMITHVILLE R-II SCHOOL DISTRICT
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - MODIFIED CASH BASIS - GOVERNMENTAL FUNDS
FOR THE YEAR ENDED JUNE 30, 2020

	GENERAL FUND	SPECIAL REVENUE FUND	DEBT SERVICE FUND	CAPITAL PROJECTS FUND	TOTAL GOVERNMENTAL FUNDS

C Statement of Appropriations and Expenditures - ARP Act Related Funds
Fiscal Year 2022 through May 31, 2022 11

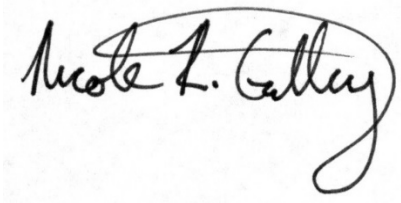
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of May 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In May, the state spent $159.3 million from federal ARP Act assistance (Appendix A). Through the end of May, the state has received $3.83 billion and spent $1.02 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of May 31, 2022, approximately $10.91 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule,* January 2022. The final rule is effective April 1, 2022; however, recipients can choose to take advantage of the final rule's flexibilities and simplifications now, before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In May, the state spent $159.3 million from federal ARP Act assistance (Appendix A). Through the end of May, the state has received $3.83 billion and spent $1.02 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, the DED has occasionally used it to receipt and disburse ARP Act awards due to grant drawdown and budgetary timing challenges.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[3] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the fiscal year ended June 30, 2022, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because no appropriations were authorized through June 2022.

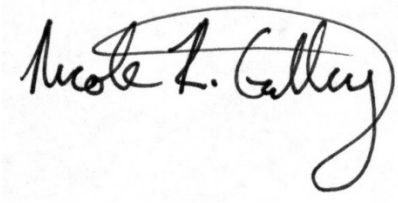
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of May 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In May, the state spent $141.7 million from federal COVID-19 assistance (Appendix A). Through the end of May, the state has received $5.99 billion and spent $5.75 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.72 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of May 31, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of May 31, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients are currently permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, Assistance Listing Number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients are currently permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of May 31, 2022, approximately $4.23 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of May 31, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of May 31, 2022, approximately $10.93 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In May, the state spent $141.7 million from federal COVID-19 assistance (Appendix A). Through the end of May, the state has received a total of $5.99 billion and spent $5.75 billion from this assistance (Appendix B). A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.72 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

Department of Labor & Industrial Relations Federal Stimulus Fund	341,367	2,408,748	1,260,895	0	0	1,159,840	329,380
Total all Funds	$ 51,036,440	128,858,849	141,711,950	0	0	5,243,311	32,940,028

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[3] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

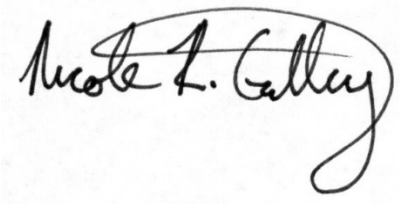
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of April 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In April, the state spent $163.9 million from federal ARP Act assistance (Appendix A). Through the end of April, the state has received $2.3 billion and spent $863.5 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of April 30, 2022, approximately $10.91 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule,* January 2022. The final rule is effective April 1, 2022; however, recipients can choose to take advantage of the final rule's flexibilities and simplifications now, before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In April, the state spent $163.9 million from federal ARP Act assistance (Appendix A). Through the end of April, the state has received $2.34 billion and spent $863.5 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

Total all Funds	$ 2,338,311,500	863,546,400	0	111,331,090	111,377,237	1,474,718,953

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, the DED has occasionally used it to receipt and disburse ARP Act awards due to grant drawdown and budgetary timing challenges.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[3] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the fiscal year ended June 30, 2022, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because no appropriations were authorized through June 2022.

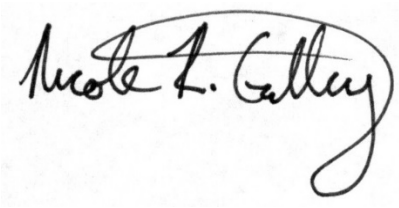
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of April 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In April, the state spent $118.9 million from federal COVID-19 assistance (Appendix A). Through the end of April, the state has received $5.86 billion and spent $5.61 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.66 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of April 30, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of April 30, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients are currently permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, Assistance Listing Number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients are currently permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of April 30, 2022, approximately $4.15 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of April 30, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of April 30, 2022, approximately $10.9 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In April, the state spent $118.9 million from federal COVID-19 assistance (Appendix A). Through the end of April, the state has received a total of $5.86 billion and spent $5.61 billion from this assistance (Appendix B). A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.66 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

Total all Funds	$ 5,856,827,545	5,611,104,343	3,605,793	589,599,832	780,680,801	51,036,440

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[3] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Members of the General Assembly
and
Honorable Scott Fitzpatrick, State Treasurer
Jefferson City, Missouri

We completed audit work at the Office of State Treasurer (STO) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2021. We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the STO during the audit and the audit results.

Statewide Financial Statement Audit and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

Financial Statement Audit Work at the STO

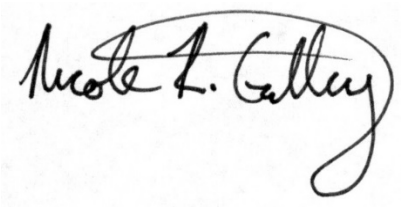
For the STO, we audited more than $5.7 billion in cash and investment balances in various funds. In addition, we audited $99 million in revenue activity and $46 million in expenditure activity for the Abandoned Fund Account (Unclaimed Property) Fund.

Audit Results and Findings at the STO

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the STO.

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud. The reports issued reported no audit findings related to the audit procedures performed at the STO.



Nicole R. Galloway, CPA
State Auditor

August 2022
Report No. 2022-069

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Missouri Highways and Transportation Commission
and
Patrick K. McKenna, Director
Department of Transportation
Jefferson City, Missouri

We completed audit work at the Missouri Department of Transportation (MoDOT) as part of our annual statewide audit of the State of Missouri's federal awards for the fiscal year ended June 30, 2021. We issued the Single Audit Report (Report No. 2022-043), in July 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the MoDOT during the audit and the audit results.

Statewide Single Audit and Methodology

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Single Audit Work at the MoDOT

The MoDOT reported federal award expenditures totaling $1.3 billion for fiscal year 2021. We audited, as major, three programs with expenditures totaling $1.3 billion: the Highway Planning and Construction

[1]The Single Audit Report is available at: <https://auditor.mo.gov/AuditReport/Menu>.

Cluster, the Airport Improvement Program, and the Formula Grants for Rural Areas and Tribal Transit Program.

Audit Results and Findings at the MoDOT

Our responsibility for the statewide Single Audit is limited to the previously stated objectives. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major programs audited at the MoDOT.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of federal statutes, regulations, and terms and conditions of federal awards; and/or known or likely questioned costs greater than $25,000. We reported an audit finding related to the MoDOT's administration of federal awards.

- MoDOT FFATA Reporting (Finding No. 2021-022) - The MoDOT needed to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting for the Airport Improvement Program.

The audit finding and the MoDOT's response and Corrective Action Plan are included in the Single Audit Report (Report No. 2022-043).

State Auditor

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Robert J. Knodell, Acting Director
Department of Social Services
Jefferson City, Missouri

We completed audit work at the Department of Social Services (DSS) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2021. We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022; and issued the Single Audit Report (Report No. 2022-043), in July 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DSS during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DSS

For the DSS, we audited financial activities and balances totaling more than $19 billion for the following significant accounts:

Federal Reimbursement Allowance Fund:
- $1.9 billion in revenue activity
- $3.2 billion in expenditure activity

Title XIX Federal and Other Fund:
- $4.6 billion in revenue activity
- $4.7 billion in expenditure activity
- an accounts receivable balance of $153 million

Department of Social Services Federal and Other Fund:
- $670 million in revenue activity
- $702 million in revenue activity
- an accounts receivable balance of $53 million
- an accounts payable balance of $32 million

Nursing Facility Federal Reimbursement Allowance Fund:
- $317 million in revenue activity
- $463 million in expenditure activity

General Revenue Fund:
- $2 billion in expenditure activity
- an accounts receivable balance of $3 million

Life Sciences Research Trust Fund:
- $33 million in expenditure activity

Pharmacy Rebates Fund:
- an accounts receivable balance of $74 million

Third Party Liability Collection Fund:
- an accounts receivable balance of $3 million

Temporary Assistance for Needy Families Fund:
- an accounts receivable balance of $17 million

Department of Social Services Educational Improvement Fund:
- an accounts receivable balance (and related deferred inflows of resources) of $3 million

Federal Medical Assistance Percentage (FMAP) Enhancement Fund:
- $719 million in revenue activity

In addition, we audited Medical Assistance Payments survey data totaling $9.6 billion for various funds, and food stamps distributions of $1.7 billion.

Single Audit Work at the DSS

The DSS reported federal award expenditures totaling $11.3 billion for fiscal year 2021. We audited, as major, 8 programs with expenditures totaling $9.3 billion: the Emergency Solutions Grant Program, the Crime Victim Assistance (CVA) program, the Temporary Assistance for Needy Families (TANF) program, the Low-Income Home Energy Assistance (LIHEAP) program, the Child Care and Development Fund (CCDF) Cluster, the Foster Care Title IV-E program, the Children's Health Insurance Program (CHIP), and the Medicaid Cluster.

Audit Results and Findings at the DSS

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DSS. The Single Audit reported material noncompliance with direct and material compliance requirements for the CHIP and the Medicaid Cluster, and no material noncompliance for the other major programs audited at the DSS.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than $25,000.

We reported an audit finding related to the DSS's internal controls over financial reporting.

- Department of Social Services Financial Reporting Controls (Finding No. FS2021-003) - The DSS - Division of Finance and Administrative Services (DFAS) did not have adequate controls and procedures over financial reporting of federal grant accounts receivable. As a result, accounts receivable data submitted to the OA for inclusion in the financial statements for the year ended June 30, 2021, was misstated. If the misstatement had not been identified during the audit, accounts receivable would have been understated by approximately $16.3 million in the financial statements.

The audit finding and the DSS's response are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2022-022) and the DSS's Corrective Action Plan is included in the Single Audit Report (Report No. 2022-043).

We reported 5 audit findings related to the DSS's administration of federal awards.

- Medicaid National Correct Coding Initiative (Finding No. 2021-004) - As noted in our previous audit, the DSS - MO HealthNet Division had not fully implemented the Medicaid National Correct Coding Initiative edits in the Medicaid Management Information System as required by 42 USC 1396b(r).

- Medicaid and CHIP Participant Eligibility (Finding No. 2021-005) - As similarly noted in our previous audits, the DSS did not have sufficient controls to ensure compliance with the eligibility redetermination requirements of the Medicaid Cluster and the CHIP for certain participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). The DSS did not correct

system overrides for some MAGI-based participants, preventing their cases from being closed when necessary.

- Foster Care Maintenance Payment Rates (Finding No. 2021-006) - The DSS had not documented policies and procedures, including a periodic schedule, for reviews of Foster Care program maintenance payment rates. In addition, the DSS could not provide documentation supporting any review of the rates in effect for the year ended June 30, 2021.

- Child Care Corrective Payments (Finding No. 2021-007) - DSS controls over the Child Care Development Fund program's corrective (manual) subsidy payments to child care providers were not sufficient to prevent improper payments. The DSS made unsupported corrective payments and/or overpaid providers on behalf of 3 children.

- DSS FFATA Reporting (Finding No. 2021-008) - The DFAS needed to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting for the TANF, LIHEAP, and CVA programs. During state fiscal year 2021, the DFAS did not fully comply with FFATA reporting requirements for more than half of the subawards reviewed.

The DSS partially agreed or disagreed with one or more of the audit findings. The audit findings and the DSS's responses and Corrective Action Plans, including explanation and specific reasons for disagreement, are included in the Single Audit Report (Report No. 2022-043).

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Wayne Wallingford, Director
Department of Revenue
Jefferson City, Missouri

We completed audit work at the Department of Revenue (DOR) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2021. We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DOR during the audit and the audit results.

Statewide Financial Statement Audit and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

Financial Statement Audit Work at the DOR

For the DOR, we audited financial activities and balances totaling $20.4 billion for the following significant accounts:

General Revenue Fund:
- $12.6 billion in revenue activity
- $1.5 billion in expenditure activity
- an accounts receivable balance (and related deferred inflows of resources) of $2 billion
- an accounts payable balance of $409 million

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

Motor Fuel Tax Fund:

- $709 million in revenue activity
- $181 million in expenditure activity

Gaming Proceeds for Education Fund:

- $326 million in revenue activity

School District Trust Fund:

- $996 million in revenue activity
- an accounts receivable balance (and related deferred inflows of resources) of $129 million

Conservation Commission Fund:

- $134 million in revenue activity
- an accounts receivable balance of $17 million

Parks Sales Tax Fund:

- $54 million in revenue activity
- an accounts receivable balance of $7 million

Soil and Water Sales Tax Fund:

- $54 million in revenue activity
- an accounts receivable balance of $7 million

DOR Agency Funds:

- asset (and related liability) balances of $1.3 billion

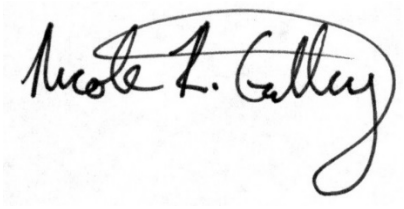
Audit Results and Findings at the DOR

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DOR. We expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes at the DOR.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud. We reported an audit finding related to the DOR's internal controls over financial reporting.

- Department of Revenue Financial Reporting Controls (Finding No. FS2021-001) - The DOR did not have adequate controls and procedures over financial reporting of sales and use tax accounts receivable. As a result, net accounts receivable and related liability balances submitted to the OA for inclusion in the financial statements for the year ended June 30, 2021, were misstated. If the misstatements had not been identified during the audit, net accounts receivable and related liability balances for governmental and fiduciary funds would have been understated by approximately $87 million in the financial statements.

The audit finding and the DOR's response are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2022-022) and the DOR's Corrective Action Plan is included in the Single Audit Report (Report No. 2022-043).



Nicole R. Galloway, CPA
State Auditor

August 2022
Report No. 2022-066

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Sandy Karsten, Director
Department of Public Safety
and
James Remillard, Director
State Emergency Management Agency
Jefferson City, Missouri

We completed audit work at the Department of Public Safety - State Emergency Management Agency (SEMA) as part of our annual statewide audit of the State of Missouri's federal awards for the fiscal year ended June 30, 2021. We issued the Single Audit Report (Report No. 2022-043), in July 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the SEMA during the audit and the audit results.

Statewide Single Audit and Methodology

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

[1]The Single Audit Report is available at: <https://auditor.mo.gov/AuditReport/Menu>.

Single Audit Work at the SEMA

The SEMA reported federal award expenditures totaling $225.8 million for fiscal year 2021. We audited, as major, the Disaster Grants - Public Assistance (Presidentially Declared Disasters) (DGPA) program with expenditures of $201.2 million.

Audit Results and Findings at the SEMA

Our responsibility for the statewide Single Audit is limited to the previously stated objectives. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major program audited at the SEMA.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of federal statutes, regulations, and terms and conditions of federal awards; and/or known or likely questioned costs greater than $25,000. We reported two audit findings related to the SEMA's administration of federal awards.

- SEMA Suspension and Debarment Procedures (Finding No. 2021-020) - During the year ended June 30, 2021, the SEMA did not have adequate procedures to ensure the timely verification that subrecipients of the DGPA program were not suspended or debarred.

- SEMA FFATA Reporting (Finding No. 2021-021) - The SEMA needed to strengthen internal controls related to FFATA reporting for the DGPA program. During state fiscal year 2021, the SEMA did not comply with FFATA reporting requirements for any of the subawards reviewed.

The audit findings and the SEMA's responses and Corrective Action Plans are included in the Single Audit Report (Report No. 2022-043).

programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DPS-MVC

For the DPS-MVC, we audited revenue activity of $75.2 million, expenditure activity of $45.6 million, a capital assets balance of $3.5 million, an accounts receivable balance of $5.1 million, and a compensated absences balance of $4.1 million for the Missouri Veterans Homes Fund.

Single Audit Work at the DPS-MVC

The DPS-MVC reported federal award expenditures totaling $59.9 million for fiscal year 2021. No programs at the DPS-MVC were assessed as high risk; therefore, no programs were audited as major. We performed limited audit procedures related to risk assessments and the SEFA.

Audit Results and Findings at the DPS-MVC

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DPS-MVC. The Single Audit reported no material issues related to the limited work performed at the DPS-MVC.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than $25,000. The reports issued reported no audit findings related to the audit procedures performed at the DPS-MVC.

For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DNR

For the DNR, we audited revenue activity of $145 million, expenditure activity of $104 million, and a loans receivable balance of $1.6 billion for the Water &Wastewater Loan Revolving Fund; revenue activity of $41 million and expenditure activity of $40 million for the Water & Wastewater Loan Fund; expenditure activity of $31 million for the Parks Sales Tax Fund; expenditure activity of $46 million for the Soil and Water Sales Tax Fund; and a capital assets balance of $151 million for the State Parks Earnings Fund. In addition, we audited accounts receivable balances totaling $10 million for the Water Pollution Permit Fee Subaccount Fund, the Solid Waste Management Fund, and the DNR Protection - Air Pollution Permit Fee Fund.

Single Audit Work at the DNR

The DNR reported federal award expenditures totaling $87 million for fiscal year 2021. No programs at the DNR were assessed as high risk; therefore, no programs were audited as major. We performed limited audit procedures related to risk assessments and the SEFA.

Audit Results and Findings at the DNR

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DNR. The Single Audit reported no material issues related to the limited work performed at the DNR.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than $25,000. We reported an audit finding related to the DNR's internal controls over financial reporting.

- Department of Natural Resources Capital Asset Controls (Finding No. FS2021-002) - The DNR did not have adequate controls and procedures over reporting capital assets in the statewide accounting system. If the accounting system errors had not been identified during the audit, Government Wide - Business Type Activities and Non-Major Enterprise Fund accumulated depreciation of capital assets would have been overstated and net capital assets would have been understated by approximately $25.4 million in the financial statements for the year ended June 30, 2021.

The audit finding and the DNR's response are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2022-022) and the DNR's Corrective Action Plan is included in the Single Audit Report (Report No. 2022-043).

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Mental Health Commission
and
Valerie Huhn, Director
Department of Mental Health
Jefferson City, Missouri

We completed audit work at the Department of Mental Health (DMH) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2021. We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022; and issued the Single Audit Report (Report No. 2022-043), in July 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DMH during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DMH

For the DMH, we audited revenue activity of $1.5 billion and expenditure activity of $1.2 billion for the DMH - Federal Fund, and expenditure activity of $956 million for the General Revenue Fund.

Single Audit Work at the DMH

The DMH reported federal award expenditures totaling $82.1 million for fiscal year 2021. We performed audit procedures related to the DMH's cooperative agreements with the Department of Social Services (DSS) for the Medicaid Cluster, a major program at the DSS.

Audit Results and Findings at the DMH

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DMH. The Single Audit reported no material noncompliance with direct and material compliance requirements for the portion of the Medicaid Cluster audited at the DMH.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than $25,000. We reported an audit finding related to the DMH's administration of federal awards.

- Medicaid Developmental Disabilities Comprehensive Waiver Per Diem Rates (Finding No. 2021-014) - As noted in our prior 6 audit reports, the DMH - Division of Developmental Disabilities (DD) continued to pay historical per diem rates to providers for residential habilitation services provided to participants of the Home and Community Based Services, Developmental Disabilities Comprehensive Waiver (Comprehensive Waiver) program, but did not retain adequate documentation to support these rates. As a result, the DD could not demonstrate some amounts paid were allowable costs of the Comprehensive Waiver program.

The DMH disagreed with the audit finding. The audit finding and the DMH's response and Corrective Action Plan, including explanation and specific reasons for disagreement, are included in the Single Audit Report (Report No. 2022-043).

We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022; and issued the Single Audit Report (Report No. 2022-043), in July 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DOLIR during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DOLIR

For the DOLIR, we audited revenue activity of $3.6 billion, expenditure activity of $3.7 billion, a cash balance of $602 million, an accounts receivable balance of $104 million, and an accounts payable balance of $45 million for the Unemployment Compensation Fund. In addition, we audited expenditure activity of $71 million and a long-term liabilities balance of $2.2 billion for the Workers Compensation - Second Injury Fund.

Single Audit Work at the DOLIR

The DOLIR reported federal award expenditures totaling $3.8 billion for fiscal year 2021. We audited, as major, the Presidential Declared Disaster Assistance to Individuals and Households - Other Needs program with expenditures of $301 million.

Audit Results and Findings at the DOLIR

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DOLIR. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major program audited at the DOLIR.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than $25,000. We reported an audit finding related to the DOLIR's internal controls over financial reporting and administration of federal awards.

- Department of Labor and Industrial Relations UInteract System Controls (Finding Nos. FS2021-004 and 2021-019) - The DOLIR needed to improve certain UInteract system controls. System controls were not sufficient to prevent or detect improper payments authorized by an employee totaling approximately $123,000 during fiscal years 2020 and 2021.

The audit finding and the DOLIR's response are included in our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2022-022) and the Single Audit Report (Report No. 2022-043). The DOLIR's Corrective Action Plan is included in the Single Audit Report.

award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DHEWD

For the DHEWD, we audited expenditure activity of $740.2 million for the General Revenue Fund.

Single Audit Work at the DHEWD

The DHEWD reported federal award expenditures totaling $69.3 million for fiscal year 2021. We audited, as major, 2 programs with expenditures totaling $55.3 million: the Workforce Innovation and Opportunity Act (WIOA) Cluster and the Education Stabilization Fund.[2]

Audit Results and Findings at the DHEWD

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DHEWD. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major programs audited at the DHEWD.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than $25,000. The reports issued reported no audit findings related to the audit procedures performed at the DHEWD.

We completed audit work at the Department of Health and Senior Services (DHSS) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2021. We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022; and issued the Single Audit Report (Report No. 2022-043), in July 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DHSS during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DHSS

For the DHSS, we audited revenue activity of $1 billion and expenditure activity of $999 million for the DHSS - Federal and Other Funds Fund, and expenditure activity of $391 million for the General Revenue Fund.

Single Audit Work at the DHSS

The DHSS reported federal award expenditures totaling $686 million for fiscal year 2021. We audited, as major, 2 programs with expenditures totaling $321 million: the Child Nutrition Cluster (CNC)[2] and the Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) program. We also performed audit procedures related to the DHSS's cooperative agreements with the Department of Social Services (DSS) for the Medicaid Cluster, a major program at the DSS.

Audit Results and Findings at the DHSS

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DHSS. The Single Audit reported material noncompliance with direct and material compliance requirements for the ELC program, and no material noncompliance for the other major programs audited at the DHSS.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than $25,000. We reported 5 audit findings related to the DHSS's administration of federal awards.

- ELC Program Subrecipient Reimbursements (Finding No. 2021-009) - The Division of Community and Public Health (DCPH) did not have sufficient controls and procedures to ensure ELC program reimbursements to subrecipients were allowable, reasonable, and supported with sufficient documentation. As a result, unsupported reimbursements totaling $105,507 were made to some subrecipients.

- ELC Program Subrecipient Monitoring (Finding No. 2021-010) - The DCPH did not perform subrecipient monitoring procedures in accordance with the DHSS's Financial Policy.

- DHSS FFATA Reporting (Finding No. 2021-011) - During state fiscal year 2021, the DHSS did not complete Federal Funding Accountability and Transparency Act (FFATA) reporting within required timeframes for some ELC program subawards.

[2]The CNC is administered by both the DHSS and the Department of Elementary and Secondary Education.

- Medicaid SPPC Participant Choice Agreements (Finding No. 2021-012) - The Division of Senior and Disability Services did not have effective controls in place to ensure Participant Choice Agreements were obtained and/or retained for participants of the State Plan Personal Care (SPPC) program.

- Medicaid Facility Survey Timeliness (Finding No. 2021-013) - The Section for Long-Term Care Regulation did not perform facility survey procedures within timeframes required by the State Operations Manual.

The DHSS disagreed with one of the audit findings. The audit findings and the DHSS's responses and Corrective Action Plans, including explanation and specific reasons for disagreement, are included in the Single Audit Report (Report No. 2022-043).

State Board of Education
and
Dr. Margie Vandeven, Commissioner
Department of Elementary and Secondary Education
Jefferson City, Missouri

We completed audit work at the Department of Elementary and Secondary Education (DESE) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2021. We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022; and issued the Single Audit Report (Report No. 2022-043), in July 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DESE during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Financial Statement Audit Work at the DESE

For the DESE, we audited expenditure activity totaling $5.6 billion, including $2.5 billion for the General Revenue Fund, $782 million for the Department of Elementary and Secondary Education Fund, $837 million for the Outstanding Schools Trust Fund, $191 million for the State School Money Fund, $958 million for the Schools District Trust Fund, and $337 million for the Classroom Trust Fund. In addition, we audited accounts payable balances of $61 million for the Department of Elementary and Secondary Education Fund and $69 million for the DESE Federal Emergency Relief Fund, and an accounts receivable balance of $69 million for the DESE Federal Emergency Relief Fund.

Single Audit Work at the DESE

The DESE reported federal award expenditures totaling $1.3 billion for fiscal year 2021. We audited, as major, 3 programs with expenditures totaling $810 million: the Child Nutrition Cluster (CNC),[2] the Special Education Cluster (IDEA), and the Education Stabilization Fund (ESF) program.[3]

Audit Results and Findings at the DESE

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DESE. The Single Audit reported material noncompliance with direct and material compliance requirements for the ESF program, and no material noncompliance for the other major programs audited at the DESE.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than $25,000. We reported 4 audit findings related to the DESE's administration of federal awards.

- GEER Fund Annual Performance Reporting (Finding No. 2021-015) - The DESE did not report subaward information in its annual performance report of the Governor's Emergency Education Relief (GEER) Fund for the period March 13 through September 30, 2020.

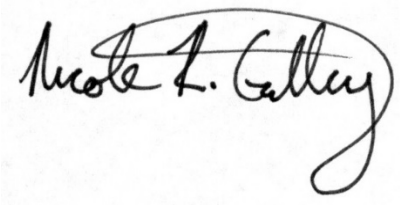
- DESE FFATA Reporting (Finding No. 2021-016) - The DESE did not comply with Federal Funding Accountability and Transparency Act (FFATA) reporting requirements for any of the subawards reviewed for the GEER Fund and the Elementary and Secondary School Emergency Relief Fund grants during the year ended June 30, 2021.

[2]The CNC is administered by both the DESE and the Department of Health and Senior Services.
[3]One ESF program grant, the Governor's Emergency Education Relief (GEER) Fund, is administered by both the DESE and the Department of Higher Education and Workforce Development.

- Special Education Cluster Subrecipient Monitoring (Finding No. 2021-017) - The DESE needed to strengthen internal controls to ensure compliance with subrecipient monitoring requirements. During the year ended June 30, 2021, the DESE did not perform subrecipient monitoring reviews in accordance with its monitoring guide for the Special Education Cluster.

- DESE SEFA (Finding No. 2021-018) - The DESE's controls and procedures related to the preparation of the SEFA were not sufficient, and as a result, expenditures reported on the DESE SEFA submitted to the OA - Division of Accounting for inclusion in the statewide SEFA for the year ended June 30, 2021, were misstated. If the errors and omissions had not been identified during the audit, expenditures would have been understated by approximately $77.1 million in the statewide SEFA for various DESE programs.

The audit findings and the DESE's responses and Corrective Action Plans are included in the Single Audit Report (Report No. 2022-043).



Nicole R. Galloway, CPA
State Auditor

August 2022
Report No. 2022-058

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Maggie Kost, Acting Director
Department of Economic Development
Jefferson City, Missouri

We completed audit work at the Department of Economic Development (DED) as part of our annual statewide audit of the State of Missouri's federal awards for the fiscal year ended June 30, 2021. We issued the Single Audit Report (Report No. 2022-043), in July 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DED during the audit and the audit results.

Statewide Single Audit and Methodology

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Single Audit Work at the DED

The DED reported federal award expenditures totaling $372.4 million for fiscal year 2021. We audited, as major, the Emergency Rental Assistance (ERA) Program with expenditures of $323.7 million.

[1] The Single Audit Report is available at: <https://auditor.mo.gov/AuditReport/Menu>.

Audit Results and Findings at the DED

Our responsibility for the statewide Single Audit is limited to the previously stated objectives. The Single Audit reported material noncompliance with direct and material compliance requirements for the ERA Program audited at the DED.

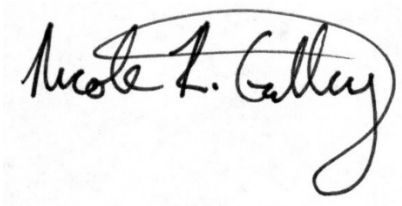
We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of federal statutes, regulations, and terms and conditions of federal awards; and/or known or likely questioned costs greater than $25,000. We reported three audit findings related to the DED's administration of federal awards.

- DED Subrecipient Determination and Monitoring (Finding No. 2021-001) - The DED did not establish policies and procedures to determine if the recipients of federal program funds were subrecipients or contractors. The DED made an inaccurate determination and did not classify the Missouri Housing and Development Commission (MHDC) as a subrecipient. Additionally, the DED did not implement a subrecipient monitoring program to monitor the MHDC. All of the ERA Program funds received by the DED were paid to the MHDC.

- DED SEFA (Finding No. 2021-002) - The expenditures reported on the DED's SEFA submitted to the Office of Administration - Division of Accounting for inclusion in the statewide SEFA for the year ended June 30, 2021, were misstated. If the misstatement had not been identified during the audit, DED program expenditures would have been understated by $337.5 million in the statewide SEFA.

- DED Performance and FFATA Reporting (Finding No. 2021-003) - The DED did not develop an internal control system to achieve compliance with federal reporting requirements and a quarterly performance report was inaccurate. Additionally, the DED did not take the appropriate steps to ensure the required Federal Funding Accountability and Transparency Act (FFATA) reporting occurred as required by federal regulations.

The audit findings and the DED's responses and Corrective Action Plans are included in the Single Audit Report (Report No. 2022-043).



Nicole R. Galloway, CPA
State Auditor

August 2022
Report No. 2022-057

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Anne L. Precythe, Director
Department of Corrections
Jefferson City, Missouri

We completed audit work at the Department of Corrections (DOC) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2021. We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the DOC during the audit and the audit results.

Statewide Financial Statement Audit and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

Financial Statement Audit Work at the DOC

For the DOC, we audited revenue activity of $19.8 million and expenditure activity of $18.9 million for the Working Capital Revolving Fund, and expenditure activity of $587.3 million and an accounts payable balance of $21.7 million for the General Revenue Fund.

Audit Results and Findings at the DOC

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the DOC.

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud. The reports issued reported no audit findings related to the audit procedures performed at the DOC.

August 2022
Report No. 2022-055

NICOLE GALLOWAY, CPA
Missouri State Auditor

Members of the General Assembly
and
Honorable Eric Schmitt, Attorney General
Jefferson City, Missouri

We completed audit work at the Office of Attorney General (AGO) as part of our annual statewide audit of the State of Missouri's financial statements for the fiscal year ended June 30, 2021. We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the AGO during the audit and the audit results.

Statewide Financial Statement Audit and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

Financial Statement Audit Work at the AGO

For the AGO, we audited $485 million in revenue activity for the Tort Victims' Compensation Fund.

Audit Results and Findings at the AGO

Our responsibility for the statewide financial statement audit is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the AGO.

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

We are required by the audit standards to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; and/or fraud. The reports issued reported no audit findings related to the audit procedures performed at the AGO.

Report No. 2022-054

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Kenneth J. Zellers, Commissioner
Office of Administration
Jefferson City, Missouri

We completed audit work at the Office of Administration (OA) as part of our annual statewide audits of the State of Missouri's financial statements and federal awards for the fiscal year ended June 30, 2021. We issued audit reports (Report Nos. 2022-002 and 2022-022) of the state's Annual Comprehensive Financial Report, in January and March 2022; and issued the Single Audit Report (Report No. 2022-043), in July 2022.[1] The purpose of this letter is to summarize, and communicate to stakeholders, the audit work performed at the OA during these audits and the audit results.

Statewide Audits and Methodology

We conducted the annual financial statement audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statement audit includes, among other things, expressing an opinion on whether the state's financial statements are fairly presented, in all material respects. The Office of Administration (OA) prepared the Annual Comprehensive Financial Report (financial statements) from various sources including the statewide accounting (SAM II) system and survey data received from state agencies and offices. The state's financial statements covered $50 billion in total assets and $35 billion in total expenses for fiscal year 2021. To satisfy our audit objectives, we evaluated and identified the accounts significant to each opinion unit within the state's financial statements and performed various audit procedures, including reviews of internal controls for each of those accounts. For fiscal year 2021, our financial statement audit included work at the OA and 13 state agencies and offices.

We conducted the annual Single Audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The Single Audit includes, among other things, expressing an opinion on whether the state complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs. The state's Schedule of Expenditures of Federal Awards (SEFA), which did not include federal award expenditures of the public universities and other component units, reported the state expended more than $20.6 billion in federal funds for 305 programs in fiscal year 2021. We performed risk assessments on

[1]Audit reports are available at: <https://auditor.mo.gov/AuditReport/Menu>.

each of the state's 33 Type A programs (programs with federal award expenditures more than $30.96 million) and 26 larger Type B programs (programs with federal award expenditures between $7.7 million and $30.96 million) and audited (as major) each program assessed as high risk in accordance with the Uniform Guidance. For each major program, we performed various audit procedures, including testing and reviews of internal control over compliance requirements that could have a direct and material effect on the program. For fiscal year 2021, our Single Audit included 20 major federal programs with expenditures totaling $13.8 billion, administered by 10 state agencies.

Financial Statement Audit Work at the OA

We audited certain significant accounts specific to OA operations. For the OA, we audited expenditure activity totaling $1.4 billion, including $1.3 billion for the State Emergency Management Agency Federal Stimulus Fund, $56 million for the State Facility Maintenance and Operating Fund, and $85 million for the Missouri Revolving Information Technology Trust Fund.

Single Audit Work at the OA

The OA reported federal award expenditures totaling $1.3 billion for fiscal year 2021. We audited, as major, the Coronavirus Relief Fund program with expenditures of $1.2 billion.

Audit Results and Findings at the OA

Our responsibility for the statewide audits is limited to the previously stated objectives. The audit reports of the state's financial statements reported no material misstatements for the OA. The Single Audit reported no material noncompliance with direct and material compliance requirements for the major program audited at the OA.

We are required by the audit standards and single audit requirements to report as audit findings certain significant or material conditions such as weaknesses in internal control; noncompliance with provisions of laws, regulations, contracts, or grant agreements; fraud; and/or known or likely questioned costs greater than $25,000. The reports issued reported no audit findings related to the audit procedures performed at the OA.

CITIZENS SUMMARY

Findings in the audit of the Office of State Treasurer

Background

The Office of State Treasurer is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer as defined by Article IV Section 15 are to be the custodian of all state funds; to determine the amount of state money not needed for current operating expenses; and to invest such money in interest-bearing time deposits at Missouri banking institutions selected by the State Treasurer and approved by the Governor and State Auditor, short-term U.S. government securities, or certain allowable commercial paper and banker's acceptances. The Office of State Treasurer operates in four major functional areas (1) accounting and banking services, (2) general and administrative services, (3) investments and deposit programs, and (4) unclaimed property.

Findings

The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, and no significant deficiencies in management practices and procedures. No findings resulted from this audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Scott Fitzpatrick, State Treasurer
Jefferson City, Missouri

We have audited certain operations of the Office of State Treasurer, in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2021. The objectives of our audit were to:

1. Evaluate the office's internal controls over significant management and financial functions.

2. Evaluate the office's compliance with certain legal provisions.

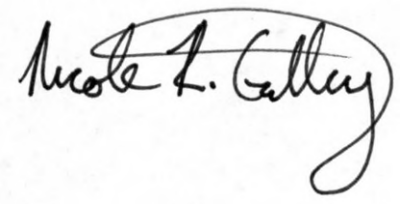
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the office, as well as certain external parties; and testing selected transactions. We reviewed receipt, disbursement, and payroll transactions, and cash and investment activity; and performed sample testing of some of these areas using haphazard and judgmental selection, as appropriate. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the office's management and was not subjected to the procedures applied in our audit of the office.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. No findings resulted from our audit of the Office of State Treasurer.



Nicole R. Galloway, CPA
State Auditor

Office of State Treasurer
Organization and Statistical Information

The Office of State Treasurer is an elective office as provided in the Missouri Constitution. The duties of the State Treasurer as defined by Article IV Section 15 are to be the custodian of all state funds; to determine the amount of state money not needed for current operating expenses; and to invest such money in interest-bearing time deposits at Missouri banking institutions selected by the State Treasurer and approved by the Governor and State Auditor, short-term U.S. government securities, or certain allowable commercial paper and banker's acceptances.

The Office of State Treasurer operates in four major functional areas (1) accounting and banking services, (2) general and administrative services, (3) investments and deposit programs, and (4) unclaimed property.

The accounting and banking services area (1) maintains a fund accounting system to fulfill a statutory responsibility to keep separate accounts of the funds of the state and to allocate investment interest to funds, (2) maintains ledger controls on fund balances and appropriations to assure that no check is issued that exceeds the lawful appropriated balances, (3) controls receipt of state money collected by state agencies and deposited in local banks throughout the state, (4) reconciles bank activity to receipt and disbursement activity reflected on the state books, (5) determines the amount of state money not needed for current operating expenses, and (6) confirms daily disbursements with the bank as certified by the Office of Administration.

The general and administrative services area provides processing support to other areas of the office by (1) operating the central check mail service, (2) controlling and processing outlawed and replacement checks, and (3) processing invoices for office expenditures.

The investments area places state money not needed for current operating expenses in interest-bearing time deposits, U.S. government and agency securities, commercial paper, banker's acceptances, and repurchase agreements. This area also administers the State Treasurer's statutory linked deposit program and monitors and accounts for the collateralization of state funds.

The Unclaimed Property Division administers Missouri's Unclaimed Property Act (Chapter 447, RSMo). The Unclaimed Property Division is responsible for (1) ensuring unclaimed property is reported, (2) receiving and recording reports of unclaimed property, (3) depositing unclaimed funds to the Abandoned Fund Account Fund, (4) maintaining custody and safekeeping of abandoned or unclaimed physical property, and (5) processing owner claims for abandoned funds or physical property.

Governor Michael L. Parson appointed Scott Fitzpatrick as the forty-seventh State Treasurer, and he was sworn in on January 14, 2019. Treasurer

Fitzpatrick was elected to a four year term of office in November 2020. His term expires in January 2025.

As of June 30, 2021, the office had 41 full-time positions to assist in the accomplishment of its mission.

Financial Activity

A summary of the office's operating financial activity, cash and investment balances, and investment income is presented in the following Appendixes and in the Notes to the Appendixes.

Comparative Statement of Interest Received on Pooled Investments

	Year Ended June 30,				
	2021	2020	2019	2018	2017
INTEREST RECEIPTS					
Appropriated funds	$ 36,264,936	76,066,140	75,018,369	47,231,264	27,978,208
Total Interest Receipts	$ 36,264,936	76,066,140	75,018,369	47,231,264	27,978,208

The accompanying Notes to the Appendixes are an integral part of this statement.

Notes to the Appendixes

1. Basis of Presentation

Amounts presented in Appendixes A through E are reported on the budgetary or cash basis of accounting. The budgetary basis recognizes revenues as cash is received and expenditures as cash is disbursed. Missouri issues an Annual Comprehensive Financial Report (ACFR) for each fiscal year ended June 30, in conformity with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board. The financial activity of the Office of State Treasurer is included in the ACFR.

The amounts presented in Appendix A represent receipts, disbursements, transfers, and cash and investment balances of funds that are dedicated to the activities and programs of the office.

The amounts presented in Appendixes B and C represent funds appropriated to the office by the Missouri General Assembly and expended by the office.

The amounts presented in Appendixes D and E represent all funds in the state treasury and all trust funds in the custody of the State Treasurer.

State treasury funds are subject to appropriation; trust funds are not. The appendixes do not include any funds or investments that are not in the custody of the State Treasurer.

2. Cash and Investments

Article IV, Section 15 of the Missouri Constitution establishes the State Treasurer as custodian of all state funds and funds received from the U.S. government. This section further authorizes the State Treasurer to place all such money on time deposit, bearing interest, in Missouri banking institutions selected by the State Treasurer and approved by the Governor and the State Auditor, or in obligations of the U.S. government or any agency or instrumentality thereof maturing or becoming payable not more than 5 years from the date of purchase. In addition, the State Treasurer may enter into repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of U.S. government agencies or instrumentalities of any maturity, as provided by law. The State Treasurer may also invest in banker's acceptances issued by domestic commercial banks possessing the highest rating issued by at least 2 nationally recognized statistical rating organizations and in commercial paper, issued by domestic corporations receiving the highest rating issued by at least 2 nationally recognized statistical rating organizations. Investments in bankers acceptances and commercial paper shall mature and become payable not more than 180 days from the date of purchase, maintain the highest rating throughout the duration of the investment and meet any other requirements provided by law. The State Treasurer shall prepare, maintain, and adhere to a written investment policy that shall include an asset allocation plan limiting

the total amount of state money that may be invested in each investment category authorized by law.

Deposits

The State Treasurer maintains approximately 39 demand deposit bank accounts that serve as the state's primary operating accounts, and 81 additional demand deposit bank accounts throughout the state, some with multiple depositing locations, that serve as collection accounts for various state agencies. Cash balances in the state's operating accounts that are not needed for immediate use are invested.

The demand deposit accounts on Appendix D are used to manage the state's daily receipt, disbursement, and transfer activities and to segregate funds available for investing. The demand deposit accounts consist of the following:

Demand Deposit Accounts

	June 30, 2021		June 30, 2020		June 30, 2019	
	Bank Balance ($)	Number of Accounts	Bank Balance ($)	Number of Accounts	Bank Balance ($)	Number of Accounts
US Bank	2,468,047	1	1,753,729	1	339,723	1
Central Bank	127,171,579	28	136,164,728	30	31,494,061	30
Commerce Bank	16,192,384	8	10,776,522	8	1,238,809	8
Wells Fargo	60,000,000	1	60,000,000	1	2,500,000	1
UMB Bank	4,602,369	1	2,369,409	1	166,337	1
Collection bank accounts	2,429,588	81	2,822,166	83	2,242,413	84

Banking service agreements on the operating demand accounts allow the State Treasurer to invest outstanding checks up until the checks clear the bank, thereby investing an amount in excess of book balances. Negative balances at June 30 (Appendix D) for any bank's appropriated funds demand deposits represent the book balance net of amounts invested.

The State Treasurer's deposits at June 30, 2021, were entirely covered by federal depositary insurance or by collateral securities held by the custodial banks in the State Treasurer's name.

To protect the safety of state deposits, Sections 30.270 and 110.020, RSMo, require depositaries to pledge collateral securities to secure deposits not insured by the Federal Deposit Insurance Corporation.

Investments

The State Treasurer's investments at June 30, 2021, are listed by type below to give an indication of the level of risk assumed by the state at year end. All investments are insured or registered, or have collateral held by the State Treasurer or a custodial bank in the state's name.

Investments in Custody of State Treasurer - June 30, 2021

		Reported Amount	Fair Value
Time deposits	$	193,316,922	193,321,175
U.S. government securities		5,468,520,923	5,451,698,418
Commercial paper		549,859,611	549,952,847
Repurchase agreements		2,158,591,000	2,158,591,000
Other investments		5,130	126,295
Total investments	$	8,370,293,586	8,353,689,735

Investments are recorded at acquisition cost except "other" investments, which are recorded at par. Investments in time deposits and repurchase agreements are acquired at face value and earn a stated interest rate. Investments in U.S. government securities are acquired at fair value and mature at face value.

3. Special Fund Dedicated Investments

The State Treasurer is assigned the authority for recording direct investments of special funds in the accounting system. The amounts presented as special fund dedicated investments in the appropriated funds on Appendix D include funds under the control of certain state agencies that represent specific investments made or held by the State Treasurer on behalf of the Pansy Johnson-Travis Memorial State Gardens Trust Fund and the State Public School Fund. The State Treasurer is responsible for purchasing, custodial, income collection, distribution, and record-keeping duties related to the investments of these funds.

The investments of the Pansy Johnson-Travis Memorial State Gardens Trust Fund are maintained in the instruments transferred to the State Treasurer from the previous trustee of the fund. The investment purchases for the State Public School Fund are made in accordance with the instructions of the State Public School Fund investment committee.

CITIZENS SUMMARY

Conclusions in the review of Article X, Sections 16 through 24

Background

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment is commonly referred to as the Hancock Amendment.

Section18(a-d) of the Hancock Amendment requires annual total state revenue limits. The amendment limits the amount of personal income that may be used to fund state government to no greater than the portion used to do so in 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

A 1996 amendment added Section 18(e) to the Hancock Amendment, which imposes an additional revenue limit on tax and fee increases. Section 18(e) states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than $50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of total state revenue for the second fiscal year prior to the general assembly's action, whichever is less.

Fiscal Year 2021 Conclusions

For the year ended June 30, 2021, total state revenue was approximately $3.8 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2021. This revenue limit has not been exceeded since the year ended June 30, 1999.

For the year ended June 30, 2021, the Office of Administration, Division of Budget and Planning determined based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees could increase by a total of $24.5 million, which is under the tax and fee increase revenue limit of $111.8 million. The projected net increase does not include 6 bills for which the Section 18(e) fiscal impact could not be projected. Actual compliance with the Section 18(e) revenue limit can be determined after each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Because of the nature of this review, no rating is provided.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Kenneth J. Zellers, Commissioner
Office of Administration
Jefferson City, Missouri

We have conducted a review of revenues of the state of Missouri for the year ended June 30, 2021, and the application to those revenues of Article X, Sections 16 through 24, Missouri Constitution, more commonly referred to as the Hancock Amendment (included as an Appendix). We previously reported on revenues of the state for the years ended June 30, 1982 through 2020. The amendment, which was adopted by the voters of Missouri on November 4, 1980, limits the growth of state revenues collected in any fiscal year. The objectives of this review were to:

1. Evaluate the formulas to calculate the state's revenue limits.

2. Determine the specific items included in total state revenue.

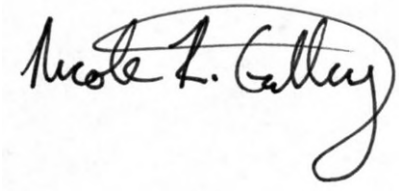
3. Verify the accuracy of the revenue limit computations and compare the limits to total state revenue and projected tax and fee increases from legislative actions.

4. Review the state's overall compliance with the provisions of the amendment.

Our review included only the application of the revenue limit to state revenues and, accordingly, did not include a review of the effects of the amendment on any local governmental unit.

Our methodology to accomplish these objectives included discussions with personnel of the Office of Administration, Division of Budget and Planning, inspecting relevant records and reports compiled by that office, and reviewing data and reports from the statewide accounting system.

The Executive Summary and the Background, Methodology, and Conclusions present our comments and conclusions concerning the state's overall compliance with the provisions of Article X, Sections 16 through 24, Missouri Constitution.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

The amendment, commonly referred to as the Hancock Amendment, limits annual state revenues, and tax and fee increases.

Total State Revenue (TSR) Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires no greater portion of Missourians' personal income (MPI) be used in any future year to fund state government than was the case in fiscal year 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

For the year ended June 30, 2021, total state revenue (TSR) was approximately $3.8 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2021. This revenue limit has not been exceeded since the year ended June 30, 1999. Over the last 5 years, the amount of TSR under the refund threshold has ranged from $3.8 billion to $6.3 billion.

Tax and fee increases Section 18(e)

Section 18(e) of the Hancock Amendment states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than $50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less.

For the year ended June 30, 2021, the Office of Administration, Division of Budget and Planning (OA-BP) determined based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, as a result of general assembly legislative actions, net taxes and fees could increase by a total of $24.5 million, which is under the tax and fee increase revenue limit of $111.8 million. The projected net increase does not include 6 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit is determined by measuring the aggregate actual new annual revenues produced in the first fiscal year each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

A bar graph of TSR compared to the refund threshold follows:

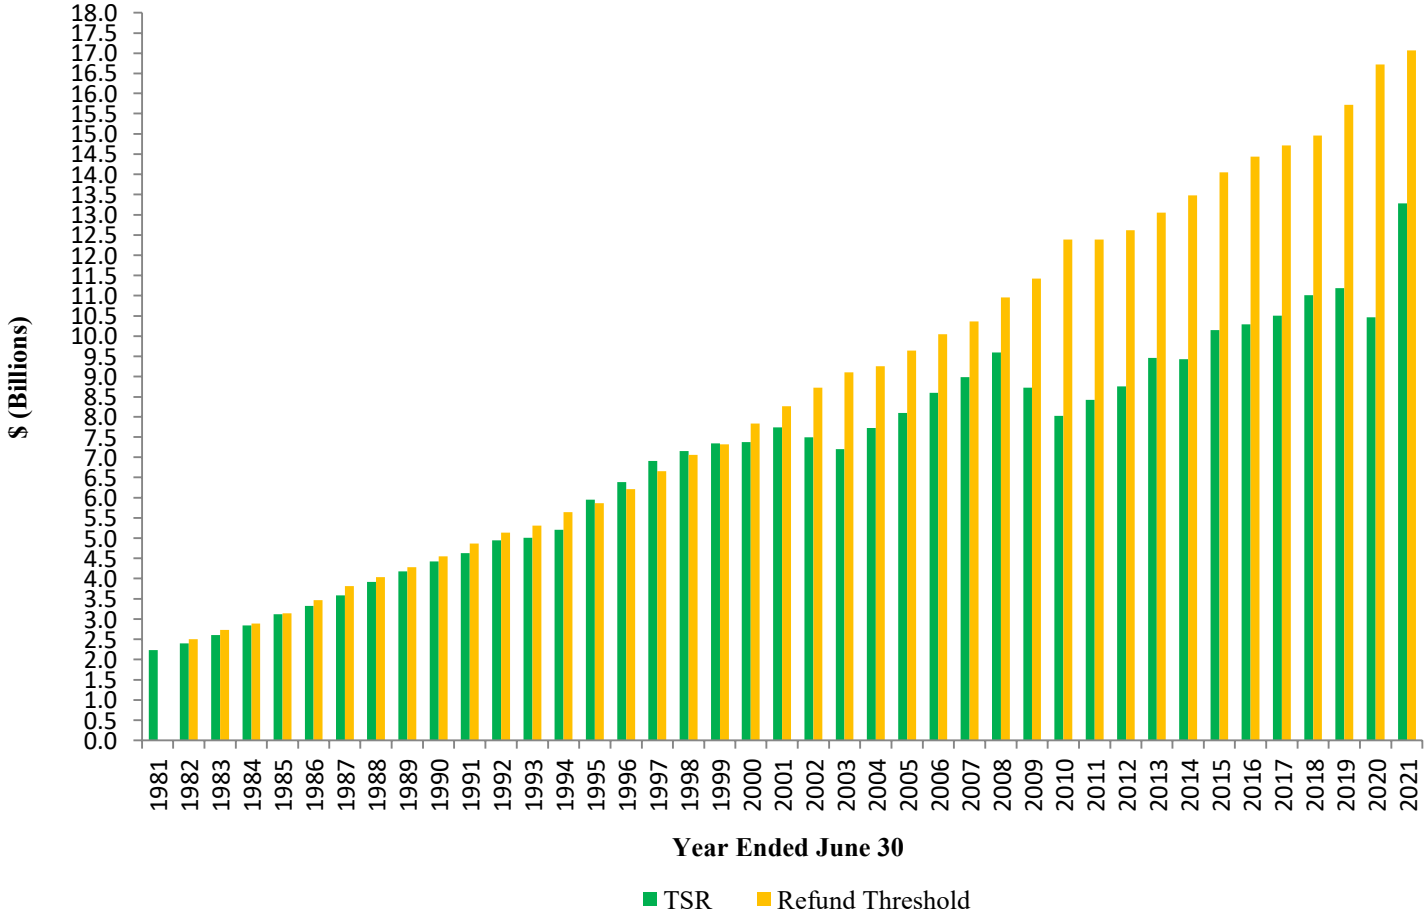
Constitution of Missouri
Graph of Total State Revenue Versus Refund Threshold



Review of Article X, Sections 16 Through 24, Constitution of Missouri Background, Methodology, and Conclusions

On November 4, 1980, the voters of Missouri passed Constitutional Amendment No. 5, which added Article X, Sections 16 through 24 to the Constitution of Missouri. The amendment is commonly referred to as the Hancock Amendment.

This review addresses the components of the amendment that relate to state revenues, primarily the requirements outlined in Section 18(a-d) which limit annual state revenues and Section 18(e) which limits tax and fee increases.

Total State Revenue Section 18(a-d)

Section 18(a-d) of the Hancock Amendment requires annual total state revenue limits. The amendment limits the amount of personal income that may be used to fund state government to no greater than the portion used to do so in 1981, except as authorized by a vote of the people. The amendment provides for taxpayer refunds of excess revenues.

The Office of Administration, Division of Budget and Planning (OA-BP) calculates annual total state revenue (TSR), revenue limits, refund thresholds, and refund amounts.

Calculation

The following table summarizes the calculated TSR, revenue limits, refund thresholds, and refund calculations for the 5 years ended June 30, 2021.

		Year Ended June 30,				
		2017	2018	2019	2020	2021
		(in millions)				
TOTAL STATE REVENUE (TSR)						
Total revenues	$	27,249.91	28,525.80	28,560.83	31,217.74	34,300.73
Less excluded revenue		(15,326.03)	(16,087.60)	(16,042.97)	(19,503.80)	(19,505.91)
Less expenditure refunds		(1,474.61)	(1,480.78)	(1,391.94)	(1,313.26)	(1,536.58)
Add refundable tax credits		53.62	56.15	56.11	62.86	24.05
TSR	$	10,502.89	11,013.57	11,182.03	10,463.54	13,282.29
Missouri personal income (MPI)	$	257,338.33	261,547.77	274,975.80	292,512.85	298,619.75
Base year ratio (BYR)	x	0.056395	0.056395	0.056395	0.056395	0.056395
Base limit		14,512.60	14,749.99	15,507.26	16,496.26	16,840.66
Judicial article amendment		53.75	55.90	56.46	57.23	58.16
Revenue limit		14,566.35	14,805.89	15,563.72	16,553.49	16,898.82
1 percent adjustment		145.66	148.05	155.64	165.54	168.99
Refund threshold	$	14,712.01	14,953.94	15,719.36	16,719.03	17,067.81
TSR	$	10,502.89	11,013.57	11,182.03	10,463.54	13,282.29
Less refund threshold		14,712.01	14,953.94	15,719.36	16,719.03	17,067.81
Over (under) threshold		(4,209.12)	(3,940.37)	(4,537.33)	(6,255.49)	(3,785.52)
1 percent adjustment		0.00	0.00	0.00	0.00	0.00
Refund	$	0.00	0.00	0.00	0.00	0.00

The calculation shows for the year ended June 30, 2021, TSR was approximately $3.8 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2021. This revenue limit has not been exceeded since the year ended June 30, 1999.

Revenue limit formula

The OA-BP calculated the 1981 base year ratio of personal income to TSR as 5.6 percent, and uses this ratio to calculate the annual revenue limit.

Section 18(a) establishes the revenue limit formula as follows:

$$\text{Revenue limit for fiscal year (FY) 20XX} = \frac{\text{Total state revenue (TSR) in FY 1981}}{\text{CY 1979 Missouri personal income (MPI)}} \times \text{The greater of MPI in the calendar year (CY) prior to the CY in which appropriations are made for FY 20XX or Average MPI for 3 CYs preceding FY 20XX.}$$

The formula is composed of two principal parts. The first part of the formula, the base year ratio (BYR), is as follows:

$$\frac{\text{TSR in FY 1981}}{\text{CY 1979 MPI}}$$

The application of this ratio to the second part of the formula (future years' MPI) sets the revenue limit to ensure no greater portion of a future year's personal income will be used to fund state government than was the case at the time of passage of the amendment.

The MPI amounts used in the formula for the base year and subsequent years are reported by the U.S. Department of Commerce (DOC). The OA-BP uses the MPI first officially published by the DOC after the close of the calendar year to calculate the revenue limit for the applicable fiscal year. The OA-BP does not adjust the MPI used in the BYR or the second part of the formula for subsequent adjustments to the MPI by the DOC. Section 17(2) refers to ". . . total income . . . as defined and officially reported by" the DOC. Even though the amendment does not specifically refer to such adjustments, this wording suggests the revenue limit should be recalculated each time the MPI is adjusted by the DOC. For example, the BYR would be adjusted whenever the CY 1979 MPI is adjusted by the DOC. The use of the initial reporting of MPI provides at least two benefits. First, by having a consistent and unchanging BYR, the state can more easily plan and make appropriate adjustments to stay under the revenue limit. Second, if the initial MPI is subsequently adjusted, retroactive refunds are a possibility. That is, an adjustment to MPI for any prior year (including the base year) could reduce the revenue limit for a prior year below that year's TSR, providing a refund where one previously was not due. Therefore, we find this approach reasonable if it is followed consistently.

The BYR was calculated by the OA-BP as follows (dollar amounts are in millions):

$$\frac{\$\ 2{,}232.204096}{\$\ \ 39{,}581.0} = .05639584891$$

In its calculations of the revenue limit, the OA-BP rounded the BYR to .056395. To determine the revenue limit for the fiscal year, this amount is multiplied by the MPI in the calendar year preceding the calendar year in which appropriations were made for the fiscal year or the average MPI for the 3 calendar years preceding the fiscal year. For the fiscal year 2021 revenue limit calculation, the OA-BP used the CY 2019 MPI which was greater than the average MPI for the preceding 3 calendar years.

Adjustments

Section 18(d) provides the revenue limit may be adjusted, "[i]f responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, . . . provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such a change."

The OA-BP has adjusted the revenue limit for the transfer of deputy circuit clerks from the county payroll to the state payroll under Section 483.245, RSMo, effective on July 1, 1981. In *Kelly v. Hanson,* 959 S.W.2d 107 (Mo. Banc 1997), the Supreme Court held that this adjustment to the revenue limit is appropriate.

Refund threshold

Section 18(b) allows the state to exceed the revenue limit by less than 1 percent before a refund is due. Therefore, to determine the point at which the refund provision takes effect (the refund threshold) the revenue limit is adjusted upward by 1 percent. However, should TSR exceed the refund threshold, all revenues in excess of the revenue limit are subject to refund.

TSR

An integral part in applying the provisions of the amendment to state revenues is to determine what constitutes TSR. The amendment does not specify the methodology to be used to determine TSR. Consequently, procedures to calculate TSR have been established and certain decisions as to items that would be either included or excluded have been made, except for items ruled on by the Attorney General or the Missouri courts.

TSR includes all revenues recorded in the Statewide Accounting System for Missouri (SAM II) and receipted by the state treasurer, which may only be withdrawn pursuant to an appropriation or which stand appropriated by the Constitution of Missouri. Various funds not in the state treasury are not included in TSR. These funds include university local funds; Department of

Revenue local sales and use tax fund collections; various funds held in trust for inmates, patients, etc.; and funds of various quasi-governmental agencies such as the Board of Public Buildings, the Housing Development Commission, the Higher Education Loan Authority, the Health and Educational Facilities Authority, and the state's retirement and other employee benefit plans. The Hancock Amendment states the composition of TSR is, "defined in the budget message of the governor for fiscal year 1980-81." The funds described above were not addressed in the governor's budget message for that year since the funds were not in the state treasury and not appropriated. Thus, it is reasonable to conclude these funds should not be included in TSR.

From the revenue amounts obtained from SAM II, 8 funds are entirely excluded and 26 types of revenues are excluded to arrive at TSR, as defined in Section 17(1). These excluded funds and revenue types, and other exclusions and limits considered to arrive at TSR are described at Appendix C. A detailed schedule of SAM II revenue, adjustments for excluded funds and revenue types and other exclusions and limits, and resulting TSR for the 5 years ended June 30, 2021, is shown at Appendix A.

Tax and Fee Increases Section 18(e)

A 1996 amendment added Section 18(e) to the Hancock Amendment, which imposes an additional revenue limit on tax and fee increases.

Section 18(e) states the general assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce new annual revenues greater than $50 million adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or 1 percent of TSR for the second fiscal year prior to the general assembly's action, whichever is less. Sections 18(e) and 23 provide any taxpayer can bring suit in a court of law to enforce the provisions of the Hancock Amendment.

The OA-BP calculates the limits and monitors new legislation for tax and fee increases and decreases for each legislative session.

Calculation

The following table summarizes the OA-BP's annual projected net increases/decreases from legislative actions based on fiscal notes prepared for each bill by the Committee on Legislative Research - Oversight Division, calculated revenue limits, and projected amounts over/under revenue limits for the 5 years ended June 30, 2021.

		Year Ended June 30,				
		2017	2018	2019	2020	2021
LEGISLATIVE ACTIONS*						
Net tax and fee increases/decreases	$	2,272,090	At least (41,321,078)	(61,210,754)	(5,685,865)	24,546,218
REVENUE LIMIT						
By MPI growth	$	120,291,485	123,479,209	128,134,375	135,719,930	139,411,513
By 1 percent of TSR	$	101,495,508	102,879,357	105,028,851	110,135,745	111,820,254
Revenue limit (lesser amount)	$	101,495,508	102,879,357	105,028,851	110,135,745	111,820,254
DIFFERENCE						
Over (under) limit	$	(99,223,418)	N/A	N/A	N/A	(87,274,036)

* Legislative action amounts do not include bills for which Section 18(e) fiscal impact could not be projected.
N/A For fiscal years 2018, 2019, and 2020 the projections showed a net decrease in taxes and fees.

For the year ended June 30, 2021, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general assembly legislative actions, net taxes and fees could increase by a total of $24.5 million, which is under the tax and fee increase revenue limit of $111.8 million. As noted in the Legislative actions section, the projected net increase does not include 6 bills for which the Section 18(e) fiscal impact could not be projected. As noted in the Compliance section, actual compliance can be determined after each bill is fully effective. The 2016 legislative session was the only year the limit has been projected to be exceeded.

Revenue limit formula

Section 18(e) establishes the revenue limit as the lesser of (1) $50 million adjusted annually by the percentage change in MPI for the second previous year, or (2) 1 percent of TSR for the second fiscal year prior to the legislative session.

For fiscal year 2021, the OA-BP calculated the MPI growth limit at $139.4 million by multiplying the fiscal year 2020 MPI growth limit ($135.7 million) by the percentage change in the MPI for fiscal year 2019 (2.72 percent). The OA-BP calculated the TSR limit at $111.8 million by multiplying the fiscal year 2019 TSR ($11.2 billion) by 1 percent. The revenue limit was established at the lessor of these amounts, or the TSR limit of $111.8 million.

Legislative actions

After each legislative session, OA-BP personnel prepare a spreadsheet to quantify the potential fiscal impact of tax and fee increases and decreases from legislation enacted during the session. In accordance with Section 18(e), the OA-BP includes each House Bill and Senate Bill truly agreed and finally passed during the session, except bills vetoed by the governor and not overridden by the general assembly, and the estimated fiscal impact amount.

The OA-BP determines estimated Section 18(e) fiscal impact amounts by compiling information and amounts in fiscal notes for each bill. The fiscal notes are prepared by the Oversight Division with input from state agencies and local political subdivisions. In accordance with Section 18(e), the OA-BP compiles an amount for the first fiscal year the bill is fully effective. For most bills with Section 18(e) fiscal impact, the OA-BP determines an increase or decrease amount based on information in the fiscal note. For some bills, the fiscal note indicates the fiscal impact is "unknown." Accordingly, the OA-BP lists "unknown," rather than a dollar amount, in the legislative actions spreadsheet for these bills. OA-BP personnel indicated they did not attempt to develop a more precise estimate for this calculation because in some cases, it is not possible to quantify the potential impact of the legislation. The legislative actions spreadsheet contains a net total tax and fee increase/decrease for all bills combined. That information is compared to the calculated revenue limit to determine potential Section 18(e) compliance. The netting of the tax and fee increases and decreases is reasonable and in compliance with the amendment language.

The OA-BP legislative actions spreadsheet for the fiscal year 2021 legislative session included 44 bills, 20 of which the OA-BP determined had potential Section 18(e) fiscal impact. For 6 of these bills, the Section 18(e) fiscal impact could not be projected.

Compliance

Section 18(e)(4) provides compliance with Section 18(e) shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year each individual tax or fee change is fully effective. For the fiscal year 2021 legislative session, actual compliance can be measured after each 2021 legislative session bill is fully effective.

Section 18(e)(5) provides any taxpayer or statewide elected official may bring action under Section 23 of the Hancock Amendment to enforce compliance with the provisions of Section 18(e). For actions brought by any statewide elected official, the Missouri Supreme Court has original jurisdiction. In such enforcement actions, the court will invalidate the taxes and fees that should have received a public vote. The court will order remedies in the amount of excess revenues collected, such as refunds or reductions in future taxes and/or fees.

Conclusions

TSR

For the year ended June 30, 2021, TSR was approximately $3.8 billion under the refund threshold. As a result, no refund is due for the year ended June 30, 2021. This revenue limit has not been exceeded since the year ended June 30, 1999.

Tax and Fee Increases

For the year ended June 30, 2021, the OA-BP determined based on fiscal notes prepared for each bill by the Oversight Division, as a result of general

assembly legislative actions, net taxes and fees could increase by a total of $24.5 million, which is under the tax and fee increase revenue limit of $111.8 million. The projected net increase does not include 6 bills for which the Section 18(e) fiscal impact could not be projected.

Actual compliance with the Section 18(e) revenue limit can be determined after each tax and fee increase and decrease is fully effective. Since Section 18(e) was added to the Hancock Amendment in 1996, the 2016 legislative session was the only year the limit has been projected to be exceeded.

Review of Article X, Sections 16 Through 24, Constitution of Missouri
Appendix C

TSR Exclusions

Various revenue amounts are excluded from Statewide Accounting System for Missouri (SAM II) revenue amounts to arrive at Total State Revenue (TSR), as shown on Appendix A. These exclusions, which include certain funds, certain revenue types, and other exclusions and limits, are discussed below.

Excluded Funds

From the revenue amounts obtained from SAM II, certain funds are entirely excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

(A) Lottery Funds

In November 1984, the voters approved Article III, Section 39(b), Missouri Constitution, which authorized the creation of the Missouri State Lottery. This provision states that revenues produced from the conduct of a state lottery shall not be a part of TSR. Since the voters approved the state lottery, all revenue and expenditure refunds related to the state lottery are excluded. Beginning in fiscal year 2017, lottery proceeds are deposited in the State Lottery Fund. In prior fiscal years, they were deposited in the Lottery Enterprise Fund.

(B) Alternative Care Trust Fund

The Alternative Care Trust Fund was established in 1989 under Section 210.560, RSMo. The Department of Social Services uses this fund to account for funds held in trust for the benefit of children who have been placed in the legal custody of the state. The Department of Corrections, Department of Mental Health, and the Missouri Veterans Commission hold funds in trust for inmates and patients. Funds held in trust are not state funds since the funds remain the property of the individual. Since the Alternative Care Trust Fund does not account for state funds, it is excluded.

(C) Student Loan Funds

Federal legislation passed in 1997 made changes in the accounting required for federal education loans. Starting in federal fiscal year 1998, the federal government considers all monies in these funds as property of the federal government or guaranty agency. As a result, the state excludes the two student loan funds held in trust.

(D) Pansy Johnson-Travis Memorial State Gardens Trust Fund

The state received an endowment in 1987 for the purpose of establishing a memorial state garden. The state is to invest the endowment for 100 years before using the funds to establish the memorial garden. Since the funds cannot be appropriated until 2087, the revenue is excluded from TSR.

(E) Division of Youth Services Child Benefits Fund

The Division of Youth Services (DYS) Child Benefits Fund was administratively created to account for payments from the Social Security Administration held in trust for the benefit of youth in the DYS custody. Funds held in trust are not deemed to be state funds, and are therefore excluded. This fund was added as an excluded fund in fiscal year 2016. In prior years, most of the fund revenues were excluded as federal funds.

(F) Veterans' Health and Care Fund

In November 2018, the voters approved Article XIV, Section 1.4, Missouri Constitution, which authorized the creation of the Missouri Veterans' Health and Care Fund. The fund is used to account for various taxes and fees also authorized by that section for the regulation of medical marijuana licensing and distribution. Since voters directly approved these taxes and fees, the fund is excluded from TSR.

Excluded Revenues

From the revenue amounts obtained from SAM II, certain types of revenues are excluded to arrive at TSR, as defined in Article X, Section 17(1), Missouri Constitution, as follows:

(1) Federal Funds

Article X, Section 17, Missouri Constitution, specifically excludes federal funds.

(2) Proposition C Sales and Use Tax/Interest

In November 1982, the voters approved Proposition C, which increased the state sales and use tax by 1 percent. Since Proposition C received direct voter approval as provided in Article X, Section 16, Missouri Constitution, the proceeds from the additional 1 percent sales and use tax, including any interest earned on the investment of such taxes, are excluded.

(3) Proposition A Gas Tax and License Fee Increases

In April 1987, the voters approved Proposition A, which increased the motor fuel tax by 4 cents per gallon and increased the annual registration fee for certain motor vehicles, effective July 1, 1987. Since the increase in tax and fees received direct voter approval, these revenues are excluded. Also, see item (24).

(4) Bond Sales

Attorney General Opinion 22-1982 concluded that proceeds of the state's general obligation bonds were not to be included in TSR.

(5) Refunds

Refunds received due to the overpayment of obligations by the state, as identified by certain revenue source codes, are excluded. Refunds also include cost recoveries and prescription drug rebates received through the Medicaid and Children's Health Insurance programs.

(6) Interagency Sales and Receipts

Since interagency transactions do not generate additional revenue for the state as a whole, interagency sales and receipts, as identified by certain revenue source codes, are excluded.

(7) Soil and Water Sales and Use Tax/Interest
and
(8) Parks Sales and Use Tax/Interest

In August 1984, the voters approved a one-tenth of 1 percent sales tax for soil and water conservation and state parks. Article IV, Section 47(c), Missouri Constitution, states that the additional revenue provided by the tax shall not be part of TSR. Since the voters approved the sales tax, the sales tax and any interest earned on the investment of the balance in these funds are excluded.

(9) Redeposit of Investment Principal

The redeposit of investment principal is excluded.

(10) Outlawed Checks

Outlawed checks (issued checks not cashed by the payee within the time allowed) are redeposited in the state treasury and are excluded.

(11) Redeposit of Loan Principal

Redeposits of loan principal are excluded.

(12) Bingo Tax

The August 1992 amendment to Article III, Section 39(d), Missouri Constitution, related to gaming activities also applies to bingo games, in that all state revenues derived from the conduct of gaming activities shall be appropriated beginning July 1, 1993, solely for public education and shall not be included in TSR. Section 313.007, RSMo, requires the bingo tax to be deposited in the Bingo Proceeds for Education Fund. The bingo tax, certain fees, and the interest earned on the investment of the fund are excluded from TSR.

(13) Riverboat Gambling and Other Gaming Proceeds

In August 1992, voters approved an amendment to Article III, Section 39(d), Missouri Constitution, that requires all state gaming revenues be appropriated for public education and excludes these revenues from TSR.

In 1993, the state enacted Senate Bills 10 and 11. This comprehensive gaming legislation established riverboat gaming in the state. The legislation repealed House Bill (HB) 149 related to riverboat gaming, which had been enacted by voters as Proposition A in November 1992.

Under Senate Bills 10 and 11, the state imposed a 20 percent tax on adjusted gross receipts from gambling games. In November 2008, the voters approved increasing the tax to 21 percent. The state treats 90 percent of this revenue as state gaming revenues under Article III, Section 39(d), Missouri Constitution, and earmarks the revenues to the Gaming Proceeds for Education Fund. The remaining 10 percent of this revenue is allocated to the home dock city or county. Under Article III, Section 39(d), Missouri Constitution, the 90 percent portion of the adjusted gross receipts tax is exempted from TSR. The remaining 10 percent portion of the adjusted gross receipts tax is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.

Under Senate Bills 10 and 11, the legislature also established a Gaming Commission Fund in the state treasury and authorized gaming commission license fees, penalties, administrative fees, reimbursements, and admission fees to be deposited in this fund and expended pursuant to state appropriation for various purposes.

On November 24, 1998, the Missouri Court of Appeals, Western District, entered its final decision in *Kelly v. Hanson,* 984 S.W. 2d 540 (Mo. App. W.D. 1998). The Missouri Court of Appeals, Western District, held that revenue from the $1 portion of the state-imposed $2 admission fee payable to the state is excluded from TSR, while the revenue from the payments to the

state to recoup public safety and regulatory enforcement costs is included in TSR. The remaining $1 portion of the $2 admission fee is also excluded from TSR because these funds are distributed by the Department of Revenue without deposit in the state treasury and without appropriation.

In 2016, the state enacted HB 1941 that requires licensed fantasy sports contest operators to pay an annual operation fee equal to 11.5 percent of the operator's net revenue from the previous calendar year. These revenues are deposited in the Gaming Proceeds for Education Fund. Section 313.822, RSMo, provides all monies deposited in the Gaming Proceeds for Education Fund are to be treated as proceeds of river boat gambling. Under Article III, Section 39(d), Missouri Constitution, these annual operation fees are excluded from TSR.

(14) Redeposit of State Funds — The redeposit of state funds for which a state expenditure was originally incurred, such as from closing a petty cash fund and returning the funds to the state treasury, is excluded.

(15) Loan Proceeds — The state periodically receives loans or advancements from the federal government, local governments, or private sources, to finance the acceleration of state projects. Since the loans must be repaid in the future, they are excluded.

(16) Conservation Sales and Use Tax/Interest — In *Conservation Federation of Missouri v. Richard Hanson,* 994 S.W. 2d 27 (Mo. Banc. 1999), the Supreme Court held that the revenue derived from the one-eighth of 1 percent conservation sales tax, and any interest earned on the investment of these funds, are excluded.

(17) State Employee Expense Reimbursement — The state receives reimbursement from private individuals, firms, partnerships, corporations, etc., for state employee expenses incurred in providing testimony in a court of law, for which the employee has already been reimbursed by a state expense account. These reimbursements are excluded.

(18) Recovery Costs — Monies received from others for costs incurred by the state or to be incurred by the state are excluded. Monies received from tobacco companies under the Tobacco Master Settlement Agreement are included in the recovery costs exclusion. See Tobacco Master Settlement Agreement Proceeds section. Also, see item (19).

(19) Cost Reimbursements — Monies received from other governments for reimbursements of costs incurred by the state are excluded.

Regarding items (18) and (19), the state has excluded from TSR receipts for cost reimbursements since fiscal year 1982 and receipts for recovery costs since fiscal year 1988. Although the constitution does not specifically

mention cost reimbursements and recovery costs and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

(20) Canceled Checks

Receipts derived from the redeposit of state checks that have been canceled are excluded.

(21) Local Match

Local governments provided funds to the state to use as a local match to qualify for federal or state funding. Since these funds are not state funds, they are excluded.

(22) Proceeds of Surplus Property Sales

The proceeds from some sales of surplus property are excluded. Although the constitution does not specifically mention proceeds of surplus property sales and they have not been the subject of a court decision, we have agreed with such exclusions because from an accounting standpoint, they would not be considered revenue.

(23) DHSS Program Rebates

The Department of Health and Senior Services (DHSS) receives rebates through various federal programs, including the Special Supplemental Nutrition Program for Women, Infants, and Children and the HIV Care Formula Grants. These rebates are related to purchases made with federal funds and are therefore excluded.

(24) Amendment 3 Revenue Derived From Highway Users

In November 2004, the voters approved an amendment to Article IV, Sections 29 and 30(a) through 30(c) and added Section 30(d), Missouri Constitution, effective July 1, 2005.

Section 30(a)(4) provides for the apportionment and distribution of net proceeds of motor fuel tax. This section further provides that, "The net proceeds of fuel taxes apportioned, distributed and deposited under this section to the state road fund, counties, cities, towns and villages shall not be included within the definition of 'total state revenues'. . . ."

Section 30(b) provides for the use and distribution of revenue derived from highway users as an incident to their use or right to use the highways of the state (including all state license fees and taxes on motor vehicles, trailers and motor vehicle fuels and excepting sales tax on motor vehicles and trailers which are not distributed to the state road fund). This section further provides that, "The moneys apportioned or distributed under this section to the state road fund, the state transportation fund, the state road bond fund, counties, cities, towns or villages shall not be included within the definition of 'total state revenues'. . . ."

As a result, motor vehicle sales tax and special fuel non-gas tax, and fees from motor vehicle licenses or permits, interstate transportation licenses or permits, driver's licenses or permits, overdimension/overweight permits, other

	licenses and permits, and non-motor fuel decals credited to the State Road Fund, State Road Bond Fund, and/or State Transportation Fund are excluded from TSR. The increase in interstate transportation license or permits for certain motor vehicles excluded under this section were previously excluded and, as a result, have no impact on TSR. (See item (3)) Sections 29, 30(c), and 30(d) have no Hancock implications.
(25) Interest - Federal	Interest assessed and received on advances made to the state by the federal government. Since the interest is due to the federal government, it is excluded from TSR.
(26) Suspense Holding	The collection of unidentified funds for both state and non-state entities. Since these monies have not been identified, they are excluded from TSR.
Other Exclusions and Limits	Other exclusions and limits have been considered to arrive at TSR, as follows:
Cash Management Improvement Act (CMIA)	The state has to enter into an agreement with the federal government that governs the timing of when the state can obtain federal grant monies. If the state holds federal funds longer than needed, the state has to reimburse the federal government for interest earnings. Since the interest was earned on federal funds and has to be returned to the federal government, it is excluded from TSR.
Agency Remitted Sales Tax	Some state agencies sell goods or services to the public and collect sales tax. To avoid counting the same receipts in TSR twice, the sales tax remitted by state agencies to the Department of Revenue is excluded from TSR.
Abandoned Funds Claim Payments	Under Section 447.543, RSMo, the state receives abandoned funds from various sources (banks, businesses, insurance companies, etc.). These funds are placed in the state Abandoned Fund Account. The rightful owner may receive these funds if properly claimed. The state includes the receipts in TSR. Starting in fiscal year 1998, the state excludes from TSR amounts paid to the rightful owner.
Circuit Courts Escrow and Debt Offset Escrow	Under Section 488.5028, RSMo, the Department of Revenue and State Lottery Commission make setoffs of income tax refunds and lottery prize payouts, respectively, for amounts owed to circuit courts. Similarly, under Section 143.784, RSMo, the Department of Revenue makes setoffs of income tax refunds for amounts due to state agencies. Amounts setoff under both provisions are placed in escrow accounts until any review hearings are held and the matter is resolved. As a result, this revenue is not included in TSR.

Expenditure Refunds

Under Article X, Section 17(1), Missouri Constitution, TSR shall exclude the amount of any credits based on actual tax liabilities. Refunds disbursed due to the excess collection by the state of liabilities owed the state, largely tax refunds, as identified by certain expenditure object codes are excluded. The method used to determine expenditure refunds is not specified in the amendment. Although the OA-BP initially used the appropriation basis to determine expenditures refunds, during fiscal year 1984, the OA-BP changed to the cash basis. In *Kelly v. Hanson,* 959 S.W.2d 107 (Mo. Banc 1997), the Supreme Court held that a cash basis of accounting should be used to determine compliance with the Hancock Amendment. A schedule of expenditure refunds is included at Appendix B.

Tobacco Master Settlement Agreement Proceeds

The OA-BP excluded $138,571,552 received from tobacco companies during fiscal year 2021. The Master Settlement Agreement was entered into effective November 23, 1998, between the major cigarette manufacturers and the states' Attorneys General. Missouri received its first payments under the settlement agreement during fiscal year 2001 and future payments from tobacco companies extend in perpetuity. The payment received in 2001 included amounts under the settlement agreement for 1998, 2000, and 2001. The settlement agreement did not require a payment for 1999. Payments for fiscal years 2001 through 2021 were as follows:

Fiscal Year	Amount
2001	$ 338,230,653
2002	172,679,543
2003	166,895,179
2004	142,829,966
2005	144,964,644
2006	133,078,222
2007	139,292,616
2008	153,277,453
2009	168,066,958
2010	140,318,927
2011	132,631,552
2012	135,246,224
2013	135,166,246
2014	66,085,418
2015	132,261,643
2016	123,645,603
2017	191,261,135
2018	138,311,530
2019	134,225,943
2020	129,544,993
2021	138,571,552

The amounts received were coded in the state's accounting system to revenue source code 1806 - recovery costs, which is excluded from TSR. Recovery costs are defined under revenue source code 1806 as, "*all money recovered from others for costs incurred by the state or to be incurred by the state.*" The OA-BP has concluded these receipts should be excluded from TSR because the amounts represent a recovery of health care costs previously incurred or to be incurred by the state attributable to smoking.

Public information was not readily available to determine if the amounts recovered from the tobacco companies under the master settlement agreement were more or less than the health care costs incurred. For our fiscal year 2001 report, we reviewed three extensive research projects conducted by experts. We limited our analysis to Medicaid costs incurred in fiscal years 1998 through 2001. We did not consider Medicaid costs prior to fiscal year 1998. In addition, we did not consider other costs incurred by the state, such as employee health care costs attributable to smoking. These research projects showed that Medicaid costs attributable to smoking were higher than the amount the state received from the tobacco companies under the settlement agreement. As a result, in our 2001 report we concluded it was proper for the OA-BP to exclude the amounts received from the tobacco companies as a recovery cost.

A study, "Tobacco Damages to the State of Missouri" by Glenn W. Harrison, was commissioned by the Missouri Attorney General's Office for use in a lawsuit against tobacco companies filed May 12, 1997. This lawsuit was dropped because Missouri joined a consortium of states in December 1998, in the Master Settlement Agreement with the tobacco companies. As a result, the Harrison study was not fully completed. However, the draft report provided an estimate of Medicaid costs attributable to smoking for 1970 through 2007 and an estimate of state employee health care costs attributable to smoking for 1970 through 1997. This study estimates that state costs attributable to smoking were higher than the amount the state received. OA officials could not locate any current studies, but they believe continued exclusion is reasonable.

Federal Reimbursement Allowance and Nursing Facility Reimbursement Allowance

The Federal Reimbursement Allowance and the Nursing Facility Reimbursement Allowance tax imposed by the state to pay the state's share of the costs of the Medicaid program when collected by an offset against Medicaid claims, is not directly deposited in the state treasury. As a result, this revenue is not included in TSR.

Appendix D

Review of Article X, Sections 16 Through 24,
Constitution of Missouri
Schedule of SAM II Revenues - Largest 5-Year Cumulative Revenue Types

Revenue Source Code	Type of Revenue		Year Ended June 30, 2017	2018	2019	2020	2021	5-Year Total	Percentage	Cumulative Percentage of Total

Review of Article X, Sections 16 Through 24, Constitution of Missouri
Appendix E

Article X, Sections 16 through 24, Constitution of Missouri (Adopted November 4, 1980, Amended April 2, 1996)

TAXATION

Section 16. Taxes and state spending to be limited--state to support certain local activities--emergency spending and bond payments to be authorized. Property taxes and other local taxes and state taxation and spending may not be increased above the limitations specified herein without direct voter approval as provided by this constitution. The state is prohibited from requiring any new or expanded activities by counties and other political subdivisions without full state financing, or from shifting the tax burden to counties and other political subdivisions. A provision for emergency conditions is established and the repayment of voter approved bonded indebtedness is guaranteed. Implementation of this section is specified in sections 17 through 24, inclusive of this article.

Section 17. Definitions. As used in sections 16 through 24 of Article X:

(1) **"Total state revenues"** includes all general and special revenues, license and fees, excluding federal funds, as defined in the budget message of the governor for fiscal year 1980-1981. Total state revenues shall exclude the amount of any credits based on actual tax liabilities or the imputed tax components of rental payments, but shall include the amount of any credits not related to actual tax liabilities.

(2) **"Personal income of Missouri"** is the total income received by persons in Missouri from all sources, as defined and officially reported by the United States Department of Commerce or its successor agency.

(3) **"General price level"** means the Consumer Price Index for All Urban Consumers for the United States, or its successor publications, as defined and officially reported by the United States Department of Labor, or its successor agency.

Section 18. Limitation on taxes which may be imposed by general assembly--exclusions--refund of excess revenue--adjustments authorized.
(a) There is hereby established a limit on the total amount of taxes which may be imposed by the general assembly in any fiscal year on the taxpayers of this state. Effective with fiscal year 1981-1982, and for each fiscal year thereafter, the general assembly shall not impose taxes of any kind which, together with all other revenues of the state, federal funds excluded, exceed the revenue limit established in this section. The revenue limit shall be calculated for each fiscal year and shall be equal to the product of the ratio of total state revenues in fiscal year 1980-1981 divided by the personal income of Missouri in calendar year 1979 multiplied by the personal income of Missouri in either the calendar year prior to the calendar year in which appropriations for the

fiscal year for which the calculation is being made, or the average of personal income of Missouri in the previous three calendar years, whichever is greater.

(b) For any fiscal year in the event that total state revenues exceed the revenue limit established in this section by one percent or more, the excess revenues shall be refunded pro rata based on the liability reported on the Missouri state income tax (or its successor tax or taxes) annual returns filed following the close of such fiscal year. If the excess is less than one percent, this excess shall be transferred to the general revenue fund.

(c) The revenue limitation established in this section shall not apply to taxes imposed for the payment of principal and interest on bonds, approved by the voters and authorized under the provisions of this constitution.

(d) If responsibility for funding a program or programs is transferred from one level of government to another, as a consequence of constitutional amendment, the state revenue and spending limits may be adjusted to accommodate such change, provided that the total revenue authorized for collection by both state and local governments does not exceed that amount which would have been authorized without such change.

(e). **Voter approval required for taxes or fees, when, exceptions--definitions--compliance procedure, remedies.**[1]

1. In addition to the revenue limit imposed by section 18 of this article, the general assembly in any fiscal year shall not increase taxes or fees without voter approval that in total produce new annual revenues greater than either fifty million dollars adjusted annually by the percentage change in the personal income of Missouri for the second previous fiscal year, or one percent of total state revenues for the second fiscal year prior to the general assembly's action, whichever is less. In the event that an individual or series of tax or fee increases exceed the ceiling established in this subsection, the taxes or fees shall be submitted by the general assembly to a public vote starting with the largest increase in the given year, and including all increases in descending order, until the aggregate of the remaining increases and decreases is less than the ceiling provided in this subsection.

2. The term "new annual revenues" means the net increase in annual revenues produced by the total of all tax or fee increases enacted by the general assembly in a fiscal year, less applicable refunds and less all contemporaneously occurring tax or fee reductions in that same fiscal year, and shall not include interest earnings on the proceeds of the tax or fee increase. For purposes of this calculation, "enacted by the general assembly"

[1] The 1996 amendment added section 18(e).

shall include any and all bills that are truly agreed to and finally passed within that fiscal year, except bills vetoed by the governor and not overridden by the general assembly. Each individual tax or fee increase shall be measured by the estimated new annual revenues collected during the first fiscal year that it is fully effective. The term "increase taxes or fees" means any law or laws passed by the general assembly after May 2, 1996, that increase the rate of an existing tax or fee, impose a new tax or fee, or broaden the scope of a tax or fee to include additional class of property, activity, or income, but shall not include the extension of an existing tax or fee which was set to expire.

3. In the event of an emergency, the general assembly may increase taxes, licenses or fees for one year beyond the limit in this subsection under the same procedure specified in section 19 of this article.

4. Compliance with the limit in this section shall be measured by calculating the aggregate actual new annual revenues produced in the first fiscal year that each individual tax or fee change is fully effective.

5. Any taxpayer or statewide elected official may bring an action under the provisions of section 23 of this article to enforce compliance with the provisions of this section. The Missouri supreme court shall have original jurisdiction to hear any challenge brought by any statewide elected official to enforce this section. In such enforcement actions, the court shall invalidate the taxes and fees which should have received a public vote as defined in subsection 1 of this section. The court shall order remedies of the amount of revenue collected in excess of the limit in this subsection as the court finds appropriate in order to allow such excess amounts to be refunded or to reduce taxes and/or fees in the future to offset the excess monies collected.

Section 19. Limits may be exceeded, when, how. The revenue limit of section 18 of this article may be exceeded only if all of the following conditions are met: (1) The governor requests the general assembly to declare an emergency; (2) the request is specific as to the nature of the emergency, the dollar amount of the emergency, and the method by which the emergency will be funded; and (3) the general assembly thereafter declares an emergency in accordance with the specifics of the governor's request by a majority vote for fiscal year 1981-1982, thereafter a two-thirds vote of the members elected to and serving in each house. The emergency must be declared in accordance with this section prior to incurring any of the expenses which constitute the emergency request. The revenue limit may be exceeded only during the fiscal year for which the emergency is declared. In no event shall any part of the amount representing a refund under section 18 of this article be the subject of an emergency request.

Section 20. Limitation on state expenses. No expenses of state government shall be incurred in any fiscal year which exceed the sum of the revenue limit

established in sections 18 and 19 of this article plus federal funds and any surplus from a previous fiscal year.

Section 21. State support to local governments not to be reduced, additional activities and services not to be imposed without full state funding. The state is hereby prohibited from reducing the state financed proportion of the costs of any existing activity or service required of counties and other political subdivisions. A new activity or service or an increase in the level of any activity or service beyond that required by existing law shall not be required by the general assembly or any state agency of counties or other political subdivision, unless a state appropriation is made and disbursed to pay the county or other political subdivision for any increased costs.

Section 22. Political subdivisions to receive voter approval for increases in taxes and fees--rollbacks may be required--limitation not applicable to taxes for bonds.
(a) Counties and other political subdivisions are hereby prohibited from levying any tax, license or fees, not authorized by law, charter or self-enforcing provisions of the constitution when this section is adopted or from increasing the current levy of an existing tax, license or fees, above that current levy authorized by law or charter when this section is adopted without the approval of the required majority of the qualified voters of that county or other political subdivision voting thereon. If the definition of the base of an existing tax, license or fees, is broadened, the maximum authorized current levy of taxation on the new base in each county or other political subdivision shall be reduced to yield the same estimated gross revenue as on the prior base. If the assessed valuation of property as finally equalized, excluding the value of new construction and improvements, increases by a larger percentage than the increase in the general price level from the previous year, the maximum authorized current levy applied thereto in each county or other political subdivision shall be reduced to yield the same gross revenue from existing property, adjusted for changes in the general price level, as could have been collected at the existing authorized levy on the prior assessed value.

(b) The limitations of this section shall not apply to taxes imposed for the payment of principal and interest on bonds or other evidence of indebtedness or for the payment of assessments on contract obligations in anticipation of which bonds are issued which were authorized prior to the effective date of this section.

Section 23. Taxpayers may bring actions for interpretations of limitations. Notwithstanding other provisions of this constitution or other law, any taxpayer of the state, county or other political subdivision shall have standing to bring suit in a circuit court of proper venue and additionally, when the state is involved, in the Missouri supreme court, to enforce the provisions of sections 16 through 22, inclusive, of this article and, if the suit is sustained,

shall receive from the applicable unit of government his costs, including reasonable attorneys' fees incurred in maintaining such suit.

Section 24. Voter approval requirements not exclusive--self-enforceability.

(a) The provisions for voter approval contained in sections 16 through 23, inclusive, of this article do not abrogate and are in addition to other provisions of the constitution requiring voter approval to incur bonded indebtedness and to authorize certain taxes.

(b) The provisions contained in sections 16 through 23, inclusive, of this article are self-enforcing; provided, however, that the general assembly may enact laws implementing such provisions which are not inconsistent with the purposes of said sections.

NICOLE GALLOWAY, CPA
Missouri State Auditor

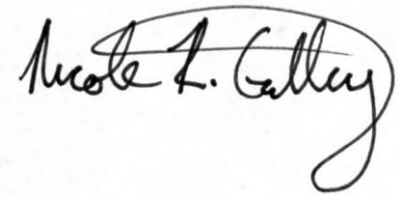
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by June 30, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 259 cities, 11 towns, and 130 villages is presented in summary on page 3 and by individual entity in Appendix A. The filing status for 5 counties is presented in summary on page 4 and by individual entity in Appendix B. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for 6 municipalities that filed at least one of the items (financial report, addendum, or certification) in June 2022, after their filing deadline. The filing status for these 6 cities is presented in summary on page 4 and by individual entity in Appendixes C to E.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 259 cities, 11 towns, and 130 villages with a fiscal year end of December 31, 2021, whose financial report was due by June 30, 2022. Of the 400 municipalities, 276 filed the financial report timely. Of the 226 municipalities required to file an addendum, 106 filed timely. Of the 94 municipalities required to file a certification, 55 filed timely.

This report includes the filing status for the 5 counties, with a fiscal year end of December 31, 2021, whose addendum and certification was due by June 30, 2022. Of these entities, 4 filed their addendum timely, and 4 filed their certification timely.

This report includes the filing status for 6 cities that filed at least one of the items (financial report, addendum, or certification) in June 2022, after their filing deadline. Of these municipalities, 1 filed an annual financial report and 5 filed an addendum.

D Status of Political Subdivisions Required to File Annual Financial Reports - Reports Due May 31, 2022 Filed in June 2022 40

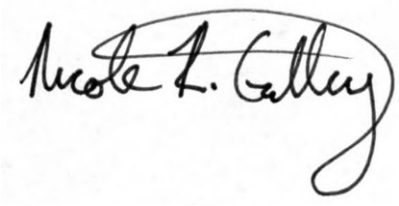
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 1,524 political subdivisions required to file a financial report by June 30, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in June 2022, after their filing deadline. The filing status for these 10 entities is presented in summary on page 3 and by individual entity in Appendix B to D.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 1,524 political subdivisions, other than cities, towns, and villages, with a fiscal year end of December 31, 2021. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 1,524 political subdivisions, 1,108 filed an annual financial report timely.

This report also includes the filing status for 10 political subdivisions, other than cities, towns, and villages, that filed their financial report in June 2022, after their filing deadline.
